PME signs \$15M – 5 year Visage 7 Open Archive deal with Duke University Health System

30 December 2024

HIGHLIGHTS

- **PME signs AUD \$15M, 5-year deal with Duke University Health System**
- **Contract is for the addition of Visage 7 Open Archive**
- **Visage 7 Open archive to be implemented in the cloud**
- **Current Visage 7 license extended for a further 2 years**
- **Continues PME's expansion into North American academic institutions**
- **Transaction-based model with potential upside**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed an additional \$15M, 5-year contract with Duke University Health System (Duke) a leading North American academic medical center.

The contract, based on a transaction-based licensing model, will see Visage 7 Open Archive supplement the existing Visage 7 Viewer contract signed in May 2019. As part of the deal, Duke's current on-premise instance of Visage will be deployed to the cloud along with Visage 7 Open archive. The Visage 7 Viewer contract has been extended for a further 2 years to the end of 2029, as part of the deal.

Planning for the rollout is to commence immediately and will involve the migration of Duke's current archive to the Visage 7 Open Archive.

"This deal that confirms our belief that there is a material opportunity for us to sell Visage 7 Open Archive to our existing base of "viewer only" clients." said Dr Sam Hupert, Pro Medicus CEO. "Not only does this provide clients with a highly performant, highly scalable solution, it is a key step in facilitating their transition from on-premise to cloud, a trend we see continuing."
