Explanatory memorandum

This Explanatory Memorandum forms part of the Notice of Meeting and is intended to provide Shareholders of the Company with information to assess the merits of the proposed resolutions.

The Directors recommend that Shareholders read the Explanatory Memorandum in full before making any decision in relation to the resolutions.

Resolution 1

Adoption of Remuneration Report

In accordance with Section 250R(2) of the Corporations Act 2001, the Shareholders are to vote on the Remuneration Report, which is set out on pages 83-106 of the Annual Report.

The intention of the Remuneration Report is to describe the linkage between the Company's strategic initiatives, remuneration principles and remuneration framework and how these, in turn, drive shareholder returns.

At TechnologyOne, our remuneration strategy is aligned with our vision of "making life simple for our community". The Board believes that to deliver on our vision and build sustainable long-term shareholder growth, TechnologyOne must have a remuneration framework that allows it to compete for talent both locally and globally in a highly competitive and fast-moving environment and against companies such as Oracle, SAP and Workday, as well as other Australian and global software companies.

The remuneration principles that underpin our remuneration strategy and framework are to:

- Attract, retain and motivate skilled Directors and Executives in leadership positions.
- Provide remuneration that is appropriate and competitive both internally and against comparable companies (our peers).
- Align Executives' financial rewards with shareholder interests and our business strategy.

- Achieve outstanding shareholder wealth creation.
- Articulate clearly to Executives the direct link between individual and Company performance, and individual financial reward.
- Reward superior performance while managing risks.
- Provide flexibility to meet changing needs and emerging competitive market practices.
- Commit to diversity, reflecting a fair and equitable remuneration framework.
- Commit to simplicity.

Our Executive remuneration framework aligns with common practices for ASX100 companies, with adaptations to meet the demands of a growing company in the enterprise software market. The structure of our Executive remuneration comprises:

- Comparatively low fixed remuneration to enable a greater emphasis on performance.
- Relatively large at-risk STI portion aligning focus to current year performance.
- A deferred STI component to help further drive long-term shareholder wealth and retention.
- LTIs linked to long-term strategy, targets, and shareholder wealth creation.

Due to the nature of our SaaS revenue generation, expanding our product set, winning new business, expanding product uptake for existing customers and driving continued profit growth in the current year is the key to our long-term success. For this reason, our short-term incentive (STI), as a percentage of the total remuneration, tends

to be higher than our ASX-listed peers. Correspondingly, the fixed remuneration for our Executives is comparatively low compared to our ASX-listed peers, ensuring total on-target remuneration falls within the expected range relative to the market. The significant weighting towards the STI encourages our Executives to drive new business and financial performance in the current year, which creates Annual Recurring Revenue (ARR) for future years, securing long-term success and shareholder wealth.

TechnologyOne Executives are focused on and rewarded for the long-term outcomes of the business through the Deferred STI and a generally larger LTI proportion of remuneration than our ASX-listed peers.

The talent pool in Australia for Executives with large-scale enterprise software companies is highly competitive. Therefore, it is important to ensure that our remuneration framework is appropriately structured for the enterprise software market. We believe that our remuneration structure offers the necessary flexibility and incentive to ensure that we attract and retain talented Executives who understand the industry and, in turn, drive shareholder value.

Incentive outcomes and alignment to Company performance

Company performance was strong with exceptional results delivered in FY24 across key metrics:

- Net profit before tax growth of 18%.
- Total ARR growth of 20%.
- UK ARR up 31% at \$34.7m.

There was no change to the continuing Executive KMP remuneration framework in FY24. Typically, Fixed Remuneration moves at not more than inflation, unless benchmarking indicates a change is required. In FY24, Fixed remuneration comprised no more than 24% of Executive KMP remuneration. Actual short-term incentive and deferred STI increased consistent with Executive Net Profit Before Tax (NPBT).

Benchmarking of Executive Remuneration

In FY24 an independent benchmarking exercise determined Mr Chung’s and Mr MacDonald’s total remuneration was well below the 50th percentile of equivalent role remuneration at comparable listed organisations that are competitors for talent. As a result of this exercise:

- Mr Chung’s total remuneration package was increased by \$1,015,393, or 44%. Of this increase, 30% (\$308,688) was taken as fixed remuneration, and 70% (\$706,708) was taken as LTI, taking his total remuneration to approximately the 50th percentile of benchmarked companies.
- Mr Chung’s new Fixed Remuneration remains low, at the 25th percentile of the benchmarked companies.
- Mr MacDonald’s total remuneration package was increased by \$300,000, or 18%. Of this increase, 100% (\$300,000) was taken as LTI.
- There were no changes to the STI components of Executive remuneration.

Alignment with shareholder value creation

Continuing Executive KMP remuneration continued to be aligned with shareholder value creation in FY24:

- Total continuing Executive KMP remuneration, excluding one-off LTI and STIs, grew by 25% between 2023 and 2024. This was higher than in previous years due to the benchmarking exercise. Over the last 5 years, continuing Executive KMP remuneration growth has averaged 12.4%, while profit growth has averaged 15.2%.

- Short Term Incentive (STI) outcomes across our continuing Executive KMP were up 17%, driven by the 17% growth in Executive NPBT. Executive NPBT continues to be the basis for STI calculation.
- Deferred STI earned was up 16%, which aligns with the average growth in statutory NPBT over the last two years.
- The Long-Term Incentive (LTI) plan, with hurdles based on earnings per share (EPS) growth and total shareholder return (TSR) relative to a basket of technology companies, resulted in 100% of ‘at risk’ LTI vesting for our Continuing Executive KMP. Over the same 3-year vesting period, our TSR was 115%. This result reflects a strong performance, with LTI targets set by the Board achieved, ensuring superior performance and long-term shareholder wealth creation. In FY24, no positive or negative discretion was exercised by the Board in respect of vesting rewards.

In the fourth quarter of FY24, Stuart MacDonald assumed responsibility for directly running the Sales and Marketing functions, covering for a temporary vacancy in that role. Following a strong sales result, Mr MacDonald was awarded a one-off STI of \$300,000. This STI had no deferred component.

Changes in FY25

The following changes will be made to the Executive KMP remuneration approach at TechnologyOne in FY25.

1. The EPS hurdles for LTIs for Executive KMP will be increased. Historically, the LTI’s vest pro-rata between 50% and 100% for the EPS CAGR range of 5% to 15%. From FY25 onwards, the EPS CAGR vesting range has been lifted to between 8% and 20% (vesting prorata between 25% and 100%) with a commensurate increase in the opportunity. This change in vesting range encourages growth above the historical 15% maximum opportunity.
2. The deferred STI component of Executive KMP remuneration

will be deferred into equity rights, further improving alignment with shareholders, rather than be paid as cash.

Executive and Director changes

Mr John Mactaggart retired from the Board at the end of the 2024 AGM on 21 February 2024.

Mr Paul Robson was appointed to the Board on 1 July 2024.

Mr Rick Anstey will not be standing for re-election at the February 2025 Annual General Meeting.

Directors’ fees

In FY24, Directors’ Fees remained within the fee pool of \$2,000,000 set at the 2022 Annual General Meeting. Further details are described in section 7 of the Remuneration Report.

The Remuneration Report (included in the Company’s Annual Report) is also available on the Company’s website (www.Technology1.com) under the Investor Relations section.

Note: Voting Exclusions apply to this Resolution as specified later in this Notice of Annual General Meeting and in the Shareholder Voting Form.

The Directors recommend that Shareholders vote FOR this resolution as the Company’s remuneration framework continues to drive the Company’s performance in the shareholders’ best interest.

Resolution 2

Re-election of Director - Pat O’Sullivan Non-Executive Director and Chair

In accordance with the requirements of the Constitution, Mr O’Sullivan retires by rotation as a Director and is seeking re-election.

Rule 16.1 of the Company’s constitution requires that at each Annual General Meeting, one-third of the Directors (other than a Managing Director) must retire and can stand for re-election (or if their number is not a multiple of three, then the number to retire from office can be either rounded up or down to a whole number based on the discretion of the Chair).

In accordance with Listing Rule 14.4 and rule 16.1 of the Company's Constitution, Mr O'Sullivan retires by rotation and, being eligible, offers himself for re-election as a Director at this Annual General Meeting.

Pat is a Chartered Accountant and has worked across a wide range of industries as both an executive and non-executive director. His last executive role was the Chief Operating Officer and Finance Director of Nine Entertainment Co Pty Limited, a position he held from February 2006 until June 2012, and prior to that, he was the Chief Financial Officer of Optus for five years.

He is currently Chair of CarGroup and SiteMinder. His previous ASX non-executive director roles include iiiNet, iSelect, APN Outdoor, iSentia, Marley Spoon and Afterpay.

Pat is a member of The Institute of Chartered Accountants in Ireland and Australia.

He is a graduate of the Harvard Business School's Advanced Management Program.

Mr O'Sullivan is also the Board Chair.

The Directors (with Mr O'Sullivan abstaining) recommend that Shareholders vote FOR this Resolution.

Resolution 3

Election of Director – Paul Robson Non-Executive Director

In accordance with the requirements of the Constitution, Mr Robson is seeking election as a Director of the Company.

Mr Robson was appointed to the Board on 1 July 2024. In accordance with rule 13.2 of the Company's Constitution, Mr Robson is put forward to be elected as a Director of the Company in accordance with rule 13.2.

Listing Rule 14.4 also provides that a director appointed as an addition to the board must not hold office (without re-election) past the Company's next Annual General Meeting.

In accordance with Listing Rule 14.5 and rule 13.2 of the Company's Constitution, Mr Robson is eligible and seeks election as a Director of the Company.

Mr Robson is an accomplished senior executive with nearly 30 years of experience in the technology sector, driving growth and innovation across global markets. He is currently the CEO of the Australian-grown accounting software company MYOB.

Mr Robson was previously the president of Benchling, a San Francisco based cloud platform for biotechnology research. Prior to that role, he spent 10 years at Adobe, running the company's international business while in London, spearheading the global pilot for Adobe's move to the Cloud. Paul also spent a decade at Hewlett-Packard, rising to Vice President and General Manager, HP Networking, Asia Pacific and Japan.

Mr Robson has held multiple board positions, including techUK, the membership body for the UK tech industry; Vamp, an influencer marketing platform; ADMA, the Australian marketing association; and Tresillian Family Care Centres.

A member of the Australian Institute of Company Directors, Mr Robson holds a Bachelor of Commerce and has completed a number of courses at both Harvard Business School and INSEAD. He is also an Advisory Councillor on the National Board of the Australian Industry Group, a peak industry association representing businesses in a broad range of sectors, including manufacturing, construction, transport, defence, ICT and labour hire.

The Directors (with Mr Robson abstaining) recommend that Shareholders vote FOR this Resolution.

Resolution 4

Grant of FY25 LTI Options to the CEO

Approval is requested under ASX Listing Rule 10.14 (where the Company must not permit a director, or their associate, to acquire equity securities under an employee incentive scheme without shareholder approval), and for all purposes, to

enable the Company to grant equity securities (in the form of options) to Mr Ed Chung, the CEO (as a director of the Company, per ASX Listing Rule 10.14.1) under, and subject to, the TechnologyOne Omnibus Incentive Plan and on the terms set out below (FY25 LTI Options). The grant of options to the CEO is part of his long-term incentive (LTI) grant and forms part of his overall remuneration.

If shareholder approval is obtained, the options will be issued to the CEO within five (5) business days of the Company's AGM.

If shareholder approval is not obtained, then the options will not be issued and, subject to the achievement of the performance conditions described in these explanatory notes, the CEO will receive a cash payment upon release of the FY27 financial statements, in November 2027, following the completion of the three (3) year performance period, equivalent in value to the LTI he would have received had shareholder approval been obtained.

The purpose of the LTI is to reward participants for the company's long-term growth.

The Omnibus Incentive Plan rules permit the Company to satisfy its obligation to deliver shares under options or performance rights through an employee share trust.

Each option entitles the CEO to receive the issue or transfer of one ordinary share in the capital of the Company, subject to certain vesting conditions that have been satisfied (the vesting conditions are provided in the following table). Until the performance hurdles are achieved and the options are exercised, the CEO has no legal or beneficial interest in TechnologyOne shares as a result of the grant of options, no entitlement to receive dividends and no voting rights in relation to the option. Options are non-transferable, except in limited circumstances or with the consent of the Board. Subject to compliance with the TechnologyOne Securities Trading Policy, shares allocated to the CEO on the exercise of any options will not be subject to any further trading restrictions.

The Company uses options as part of the LTI structure because they create long-term alignment between the interests of the Company's executives and ordinary shareholders but do not provide the executives with the full benefits of share ownership (such as dividend and voting rights) unless and until the options and performance rights vest and are exercised (as applicable). Options and performance rights are also used to incentivise the Company's executive team towards long-term sustainable growth of the business.

The options will be issued for nil consideration with an exercise price of A\$23.77 payable on the exercise of each option, being the weighted average price

of ordinary shares in the Company traded on the ASX during the ten (10) business day period prior to 1 October 2024 (being the start of the FY25 year).

CEO's total remuneration package for FY25

The CEO's total remuneration package for FY25 includes:

Fixed remuneration - \$869,909

Short-term incentive - 0.78% of FY25 Executive Net Profit Before Tax

Deferred short-term incentive - 25% of the FY25 STI

Long-term incentive - \$1,628,348

The directors (with Ed Chung abstaining) consider that the CEO's remuneration package (including the proposed issue of the FY25 LTI Options) is reasonable and appropriate having regard to the circumstances of the Company and Ed Chung's responsibilities as CEO.

The structure of the CEO LTI Options proposed for FY25 (refer to Table 1 below) is consistent with the remuneration framework provided in the FY24 Remuneration Report.

LTI Structure	
Vesting Date	Upon release of the Technology One Limited FY27 audited Financial Statements (approx. Nov 2027).
Expiry Date	Five (5) years from the release of the Technology One Limited FY27 audited Financial Statements.
Award vehicle	Each LTI entitles the executive KMP the right to purchase one TechnologyOne share in the future at an agreed strike price, subject to meeting specified performance targets. The executive KMP has a choice between Options or Equity Performance Rights (EPRs). The number of options and/or rights in the grant is split into tranches based on the weighting of each performance measure.
Performance period	For LTI grants issued during FY20 and onwards, performance is measured at the end of a three-year performance period only. The tests will be assessed on the three-year Compound Annual Growth Rate (CAGR). This is consistent with our strategic planning and aligns our LTI Plan with creating long-term shareholder wealth. For accounting purposes, the expense is recognised in accordance with AASB 2 <i>Share-based Payment</i> over the three-year period.
Performance measures	Performance measures for the most recent LTI grants are: <ul style="list-style-type: none"> 81.8% of the options/rights vest based on the EPS compound annual growth rate (CAGR). 	Allocation methodology	The LTI is allocated based on the fair value of the option or right with no discount for the likelihood of non-market performance conditions being met. An option cost is calculated by the Black-Scholes method, with the exercise price being the volume-weighted average Price (VWAP) of the 10 days prior to the grant date with no discount for the likelihood of performance conditions being met. A right cost is calculated using the same method but with an exercise price of zero.															
Fair value methodology	The fair value of the LTI related to EPS growth is calculated using the Black-Scholes method and the fair value of the LTI related to TSR is calculated using the Monte Carlo method, in accordance with AASB 2 <i>Share-based payment</i> .																
Board discretion	In situations where the Vesting Conditions are affected by factors beyond the control of the employee (e.g. global pandemic, trade restrictions, war, large-scale natural disasters, profit windfalls or unforeseen tailwinds), the Board has the discretion to increase or decrease the number of LTI options and/or rights vesting. The number of options/rights vesting, following applied discretion, will never exceed the full amount granted to the executive KMP.																
Change of Control	The Board has the discretion to determine the extent to which LTIs vest based on the period elapsed since the start of the performance period and the performance at the time of any change of control event.																
Termination	Awards lapse unless the Board determines otherwise, in which case it considers the performance of the individual over the relevant period up to the date of termination of employment.																
Expiry	Any LTIs that have vested will expire 5 years after vesting.																
Revision	We do not revise our LTIs over the relevant performance period without seeking Shareholder approval.																
Malus	The LTI component is subject to a Malus Provision in that there must be no irregularities or other factors that would affect the vesting of the award. Under the Malus Provision, the Board has the ability to reduce or forfeit.																
Margin loans	Directors and Executives are not permitted to use TechnologyOne securities as security for margin loans.																
Hedging	Executive KMP are not permitted to hedge awards granted.																

Shareholders are referred to the Remuneration Report for full details of the CEO's remuneration.

In accordance with Listing Rule 10.15:

- All directors are entitled to participate in the Omnibus Incentive Plan.
- The total number of securities that have previously been issued to the CEO under the Omnibus Incentive

Plan since it was introduced in 2019 is 1,932,532 for nil consideration.

- There is no loan scheme in relation to the acquisition of the options (or the shares provided on exercise). Details of any securities issued under the Omnibus Incentive Plan will be published in the FY25 Annual Report, along with a statement that approval for this issue was obtained as per Rule

10.14. Any additional persons covered by listing rule 10.14 who become entitled to participate in an issue of securities under the scheme after the resolution is approved and who were not named in the notice of meeting will not participate until approval is obtained under that rule.

A copy of the Omnibus Incentive Plan can

be made available upon request.

The Directors (with Ed Chung abstaining due to his interest in the outcome of this resolution) unanimously recommend that shareholders vote FOR this resolution.

Resolution 5

Change of Constitution

A company may repeal, amend or change its constitution or a provision of its constitution by special resolution in accordance with section 136(2) of the Corporations Act. The Company adopted its previous constitution prior to listing on the ASX, with a minor change made in 2007 regarding the rotation of directors. Since then, there have been numerous changes to the Corporations Act and these changes have necessitated amendments to the Company's Constitution. Accordingly, the Board considers that the existing Constitution requires substantial updating and that it is more efficient to adopt a new Constitution rather than to make numerous amendments to the existing Constitution.

The Board considers that the effect of the repeal of the existing constitution and adoption of the proposed new constitution will not have a significant impact on Shareholders.

Table 3 (below) provides a summary of proposed changes between the existing Constitution and the proposed Constitution. Examples of what the key items that the proposed Constitution provides for that the existing Constitution is silent or limited in its wording, include:

- Effect Circular Resolutions facilitated using technology (emails and electronic signatures)
- Ability to clean up the register through the buy-back of unmarketable parcels
- Holding hybrid virtual meetings with Direct Voting if necessary. Note that the changes do not enable the Board to have discretion to hold a virtual only meeting (without ASIC approval)

- Allow more flexibility with notices for meetings to be electronically distributed and deemed delivered after being displayed on the corporate website for 48 hours.

Prior to the meeting, a copy of the New Constitution is available for review on the Company's corporate website <https://www.technology1.com/company/investors/corporate-governance>. Shareholders may request a full copy of the Proposed Constitution by contacting the Company Secretary at CompanySecretary@technology1.com.

Resolution 5 is a special resolution and, therefore, requires approval of 75% of the votes cast by Shareholders present and eligible to vote (in person, by proxy, by attorney, or, in the case of a corporate shareholder, by a corporate representative).

If resolution 5 is passed, the Company will adopt the New Constitution with effect from the date of the 2024 Annual General Meeting, being 19 February 2025.

Table 3 – Summary of proposed changes

Below is a summary of the new Constitution (Constitution), as well as an outline of the material changes from TechnologyOne's existing constitution. This summary is not exhaustive, nor does it constitute a definitive statement of a member's rights and obligations.

Topic	Detail
Shares	The Directors are entitled to issue and cancel shares in the capital of TechnologyOne, grant options over unissued shares and settle the manner in which fractions of a share are to be dealt with. The Directors may decide the persons to whom and the terms on which shares are issued or options are granted, as well as the rights and restrictions attached to those shares or options. The Constitution also permits the issue of preference shares on terms determined by the Directors.
Variation of class rights	The rights attached to any class of shares may, unless their terms of issue state otherwise, only be varied with the consent in writing of members holding at least 75% of the issued shares of that class, or under a special resolution passed at a separate meeting of the holders of shares of that class.
Restricted Securities	If ASX classifies any of TechnologyOne's share capital as restricted securities, then the restricted securities must not be disposed of during the escrow period, and TechnologyOne must refuse to acknowledge a disposal of the restricted securities during the escrow period, except as permitted under the Listing Rules or by the ASX. For restricted securities within the same class, the new rule permits the holder of the securities taken to have agreed in writing that such securities will be kept in TechnologyOne's issuer-sponsored sub-register and will have a holding lock applied during the escrow period.
Share certificates	Subject to the Corporations Act, Listing Rules or the ASX Settlement Operating Rules, TechnologyOne need not issue share certificates if the Directors so decide. However, where the Directors decide, TechnologyOne may issue certificates of shares, cancel any certificates for shares, and replace lost, destroyed, or defaced certificates.
Calls on shares	The Directors may, from time to time, call upon Shareholders for unpaid monies on their shares. The new rule requires that Directors must give Shareholders notice of a call at least 30 business days before the amount called is due, specifying the time and place of payment. If a call is made, Shareholders are liable to pay the amount of each call by the time and place specified. A call is taken to have been made when a Directors' resolution passing the call is made or on any later date fixed by the Board. A call may be revoked or postponed at the discretion of the Directors. If a member does not pay the amount due under the call, the member must pay interest on the unpaid amount from the date payment is due to the date payment is made and any costs, expenses or damages TechnologyOne incurs. Calls may be paid in advance, wholly or in part of the amount unpaid, with TechnologyOne paying the interest on that amount until it becomes payable at a rate determined by the Directors.

Topic	Detail
Forfeiture and Liens	<p>TechnologyOne may forfeit shares to cover any call, or other amount payable in respect of the shares, which remain unpaid following any notice to that effect sent to a Shareholder. Forfeited Shares become the property of TechnologyOne, and the Directors may sell, reissue, or otherwise dispose of the Shares as they think fit.</p> <p>TechnologyOne must notify a person who held the forfeited shares immediately before the forfeiture and enter the forfeiture into the register of members. A person whose shares have been forfeited may still be required to pay TechnologyOne all calls and other amounts owing in respect of the forfeited shares (including interest) if the Directors so determine.</p> <p>TechnologyOne has a first and paramount lien for unpaid calls, all money payable to the company under an employee incentive scheme, instalments and related interest and any amount it is legally required to pay in relation to a Shareholder's shares. The lien extends to all distributions relating to the shares, including dividends.</p>
Share plan	The directors may adopt and implement an incentive plan on the terms they think appropriate.
Share transfers	<p>Shares may be transferred by any method permitted by the Corporations Act, the Listing Rules or the ASX Settlement Operating Rules or by a written transfer in any usual form or in any other form approved by the Directors.</p> <p>The Directors may refuse to register a transfer of shares where it is not in registrable form, TechnologyOne has a lien over any of the shares to be transferred or where it is permitted to do so by the Listing Rules or the ASX Settlement Operating Rules. The new rule also allows for the Company to charge a fee for registering a transfer of shares, subject to the Listing Rules.</p>
Unmarketable Parcels	A new rule has been incorporated into the New Constitution giving Directors the power to deal with unmarketable parcels. It outlines TechnologyOne's requirements and obligations in dealing with unmarketable parcels.
Transmission	The new rule authorises Directors to register a transfer of shares signed by a member before a transmission event occurs and expands the concept of Transmission to include bankruptcy, insolvency and mental incapacity.
Proportional takeover bids	TechnologyOne may prohibit registration of transfers purporting to accept an offer made under a proportional takeover bid unless a resolution has been passed approving the proportional takeover bid under the provisions of the Constitution. The rules in the Constitution relating to proportional takeover bids cease on the third anniversary of the adoption of the Constitution, or the renewal of the rules, unless renewed by a special resolution of Shareholders.
General Meetings	<p>A general meeting may only be called by a directors' resolution or as provided by the Corporations Act. Directors may postpone, cancel, or change the meeting place if they consider it unnecessary or impractical.</p> <p>A quorum is two or more members present at the meeting and entitled to vote on a resolution at the meeting.</p> <p>The new Constitution allows for the chairman to postpone the meeting before it starts, whether there is a quorum present or not when the chairman considers that there is no room for the members attending the meeting or where it is deemed the business of the meeting cannot be appropriately carried out due to the behaviour of a person.</p>
Use of technology at general meetings	<p>The new Constitution includes a new concept clarifying that a general meeting may be held at one or more physical venues using virtual meeting technology, using any technology that gives shareholders as a whole a reasonable opportunity to participate.</p> <p>If, before or during a meeting of shareholders, any technical difficulty occurs where all shareholders may not be able to participate, the chairperson may:</p> <p>(a) adjourn the meeting until the difficulty is remedied; or</p> <p>(b) subject to the Corporations Act, where a quorum remains present (in the venue at which the chairperson is present, and taking account of any other linked venues where shareholders are still able to participate) continue the meeting.</p>
Voting rights	<p>A poll may be demanded by at least five members entitled to vote on the resolution or by the Chairman or Shareholders with at least 5% of the votes that may be cast on the resolution on a poll.</p> <p>An instrument appointing a proxy is valid if it is under the Corporations Act or in any form approved by the Directors.</p>
Direct voting	<p>The new Constitution permits direct voting and provides that:</p> <p>(a) direct votes are not counted if a resolution is decided on a show of hands;</p> <p>(b) a direct vote received by the company on a resolution is taken to be a direct vote on that resolution as amended if the chair of the meeting decides this is appropriate; and</p> <p>(c) receiving a direct vote from a member has the effect of revoking (or, in the case of a standing appointment, suspending) the appointment of a proxy, attorney or representative made by the member under an instrument received by the company before the direct vote was received.</p> <p>Direct votes may be withdrawn by either written notice from the member received by TechnologyOne before the meeting commences, or where the member attends in person.</p>
Directors	<p>The minimum number of directors is three, and the maximum number of directors is ten unless TechnologyOne resolves this otherwise in a general meeting. Where required by the Corporations Act or Listing Rules, TechnologyOne must hold an election of directors each year. No Director, other than the managing director, may hold office without re-election beyond the third annual general meeting following the meeting at which the Director was last elected or re-elected. This changes the previous requirement for one-third of the Directors (other than the managing director) to retire at every annual general meeting and reflects the current market practice and the provisions of the Listing Rules.</p> <p>If there would otherwise not be a vacancy on the board, and no director is required to retire under the rules, then the director who has been longest in office since last being elected must retire.</p> <p>A director is not required to hold any shares in the company to qualify for appointment.</p>

Table 3 – Continued

<p>Remuneration of Directors</p>	<p>Each Director is entitled to remuneration from TechnologyOne for their services as decided by the Directors. Still, the total amount provided to all Directors for their services as Directors must not exceed in aggregate in any financial year the amount fixed by TechnologyOne in general meetings. The remuneration of an executive Director must not include a commission on, or a percentage of, operating revenue.</p> <p>Remuneration may be provided in the manner that the Directors decide, including by way of non-cash benefits, such as contributing to superannuation funds.</p> <p>There is a provision for Directors to be paid extra remuneration (as determined by the Directors) if they devote special attention to the business of TechnologyOne or otherwise perform services that are regarded as being outside of their ordinary duties as Directors or, at the request of the Directors, engage in any journey on TechnologyOne's business.</p> <p>Directors are also entitled to be paid travelling and other expenses they incur in attending to TechnologyOne's affairs, including general meetings, Board meetings, or meetings of any committee engaged in TechnologyOne's business.</p>
<p>Indemnities and insurance</p>	<p>TechnologyOne must indemnify each officer on a full indemnity basis and to the full extent permitted by law against all losses, liabilities, costs, charges and expenses incurred by the officer as an officer of TechnologyOne.</p> <p>TechnologyOne may also, to the extent permitted by law, purchase and maintain insurance or pay or agree to pay a premium for insurance for each officer against any liability incurred by the officer due to their holding office in TechnologyOne or a related body corporate.</p>
<p>Dividends</p>	<p>If the Directors determine that a final or interim dividend is payable, it is (subject to the terms of issue on any shares or class of Shares) paid on all shares proportionate to the amount for the time being paid on each Share. Dividends may be paid by cash, electronic transfer, or any other method as determined by the Board.</p> <p>The Directors have the power to capitalise and distribute the whole or part of the amount from time to time standing to the credit of any reserve account or otherwise available for distribution to Shareholders. The capitalisation and distribution must be in the same proportions that the Shareholders would be entitled to receive if distributed by way of a dividend.</p> <p>Subject to the Listing Rules, the Directors may pay a dividend from any fund or reserve or out of profits derived from any source.</p>

The Directors unanimously recommend that shareholders vote FOR this resolution.
