

**ASX ANNOUNCEMENT**

15 January 2025

**AMENDMENT TO GEKO ACQUISITION**

Beacon Minerals Limited (ASX: **BCN**) (“**Beacon**” or “**the Company**”) is pleased to advise that the Company and Beacon Mining Pty Ltd (“**Beacon Mining**”) have entered into a further amendment and novation deed with Geko Pit Pty Ltd (ACN 637 554 128) (“**Geko Pit**”) and Geko Explore Pty Ltd (ACN 647 253 594) (“**Geko Explore**”) in relation to mining lease M15/621 and miscellaneous licence L15/355 (the **Tenements**) acquired in December 2022 (refer to ASX announcement entitled “*Geko Tenements Acquired*” dated 16 December 2022 and “Amendment to Geko Acquisition” dated 19 February 2024).

The Company advises that a further amendment and novation deed has been executed to update the below:

- The original Tenement Sale Agreement dated 1 December 2022 (as amended by the amendment deed announced on 19 February 2024 and the further amendment deed detailed in this announcement) (“**Tenement Sale Agreement**”) has been novated to Geko Explore. The effect of the novation is that Geko Explore replaces Geko Pit in all its capacities under the Tenement Sale Agreement and assumes all of the obligations and liabilities of Geko Pit under the Tenement Sale Agreement. Geko Explore receives all the rights and benefits conferred on Geko Pit under the Tenement Sale Agreement.

- The Company has extended the “completion date” under the Tenement Sale Agreement from 31 December 2028 to 31 December 2029, the date will further be extended if the Company does not receive the approvals required. The 31 December 2029 will be extended by the equivalent number of days that elapse from 1 March 2025 until the approvals are received.

This extends the option period that Beacon granted Geko Explore to acquire the Tenements back for nil consideration (**Option**) to a period commencing on 31 December 2029 and ending on 31 March 2030.

- The Company has also agreed to pay Geko Explore a royalty of 4% of the value of gold for a quarter, being the average of the price of gold on each business day of the quarter using the “LMBA Gold Price” as published by ICE Benchmark Administration at 3:00pm London time as converted to Australia dollars at the exchange rate, mined and recovered from the areas set out in the proposed pit plan (“**Royalty**”). The Royalty is payable on any gold mined and recovered from the Tenements above the initial 43,000 ounces of gold mined and recovered by Beacon.
- The 43,000 ounces of gold referred to above and the first 7,000 ounces of gold for which the Royalty is paid does not form part of Geko Pit’s conceptual pit of 140,000 ounces of gold, for which no Royalty is payable. Any decision to mine the conceptual pit will be at the sole discretion of Beacon, and it is intended that such activities would be undertaken as a joint venture between the Company (60%) and Geko Explore (40%) with Beacon Mining acting as the project manager.
- Should Beacon elect not to proceed with the joint venture, Beacon will, after discussion with Geko Explore in relation to the proposed joint venture advise Geko Explore of that decision.
- It is agreed that, for the avoidance of doubt, all remaining ore stockpile material on the Tenements is owned by Beacon Mining.

Beacon Mining has also entered into a deed of novation of the Water Rights Access Deed with Geko Pit (“**Water Deed**”) in relation to the Tenements (previously detailed in the Company’s 19 February 2024 announcement). Under the deed of novation, Geko Explore replaces Geko Pit in all its capacities under the Water Deed and assumes all of the obligations and liabilities of Geko Pit under the Water Deed, as well as receiving all the rights and benefits conferred on Geko Pit under the Water Deed.
