8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer: The entity's net operating cashflows will be a function of further efforts to raise funding – as recently disclosed, the entity has a range of proposed exploration activities that are ready to commence, particularly the proposed earn-in opportunity with the Cloncurry Project and the intended drilling at Mkuju, Tanzania. In the event that funding remains difficult to secure or is delayed, these activities will be postponed until the entity is in a position to proceed with them.</p>	

For personal use only

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. The entity has just completed the placement of part of the recent rights issue entitlement shortfall. In addition, at the recent 23 December 2024 EGM the Company obtained approval to place a further 60M shares to a strategic investor and discussions are ongoing there. The Company is also considering other potential opportunities to raise cash funds to meet the immediate project and corporate needs.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. Based on the current level of financing discussions that are currently underway, the entity does expect to be able to continue its operations and meet business objectives. To the extent the new funding is delayed or not available the entity will postpone proposed exploration activities.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
