

30 JANUARY 2025

QUARTERLY ACTIVITIES REPORT FOR PERIOD ENDING 31 DECEMBER 2024**QUARTERLY HIGHLIGHTS**

- **Environmental Approvals Review**
 - Jameson Resources Limited (“Jameson” or “the Company”) hosted a number of Project site visits with Indigenous Nations, Community Groups and Provincial and Federal regulators in responding to submissions made during the Technical Review of the Projects Environmental Impact Statement and Environmental Assessment Application (EIS/EAA)
 - A number of additional field studies to update baseline data and undertake additional investigations to supplement the detailed assessment within the EIS/EAA were completed
 - The Company continued to prepare responses to information requests made during the Public and Technical Review of the EIS/EAA, however Indigenous Nations engagement was delayed due to assessment of alternative rail loadout options and early snowfall in the Rockies. The Company is expecting to resubmit the updated EIS/EAA to regulators in the Jun-25 quarter
- **Coal Association of Canada** – In October, Jameson’s Managing Director Michael Gray was elected to the Board of Directors of the Coal Association of Canada reflecting the advanced status of the Project
- **Confirmation of Political and Community Support for Coal Sector** – Increased community and political support for the Canadian coal industry occurred with the:
 - re-elected NDP Government in British Columbia with a substantially reduced majority announcing significant commitments to the mining industry including the review and streamlining of resource approvals
 - Municipality of Crowsnest Pass, Alberta, holding a referendum on the future of the Grassy Mountain Coal Project, resulting in more than 72% of the community in favour of the project and the coal industry
 - The Alberta Government announced new strategies to enable the progress of stalled coal development projects in the southern Rockies, reversing a decision to previously ban mining in the area
- **Global Coal Investments** – There were a number of significant investment announcements in the global coal sector, highlighting the strong underlying long-term market fundamentals of the steelmaking coal industry.

OVERVIEW

The principal focus of Jameson during the quarter was continuing to advance towards environmental approvals and permitting, to enable development of the Crown Mountain Hard Coking Coal Project.

The Company’s two projects are located in British Columbia, Canada which are shown in **Figure 1 Location Plan**.

An independent, growth oriented steelmaking coal developer focused on delivering sustainable outcomes

Figure 1 – Project Location Plan

SAFETY PERFORMANCE

There have been no recordable injuries at Jameson’s licences during the December 2024 quarter. The 12-month rolling Total Recordable Injury Frequency Rate (“TRIFR”) and Lost Time Injury Frequency Rate (“LTIFR”) at the end of the Dec 2024 quarter was 0 and 0 respectively.

PROJECT SUMMARY

1. CROWN MOUNTAIN HARD COKING COAL PROJECT

The Crown Mountain Hard Coking Coal Project is a potential low-cost, high-quality, open cut steelmaking coal mine located in the Elk Valley in British Columbia (see Figure 2). The Elk Valley is regarded, alongside the Bowen Basin in Queensland, Australia, as a premier location for premium low-volatile steelmaking coal and is home to four existing mines owned by Elk Valley Resources (formerly Teck Resources and now owned by a consortium of Glencore, Nippon Steel and Posco).

For personal use only

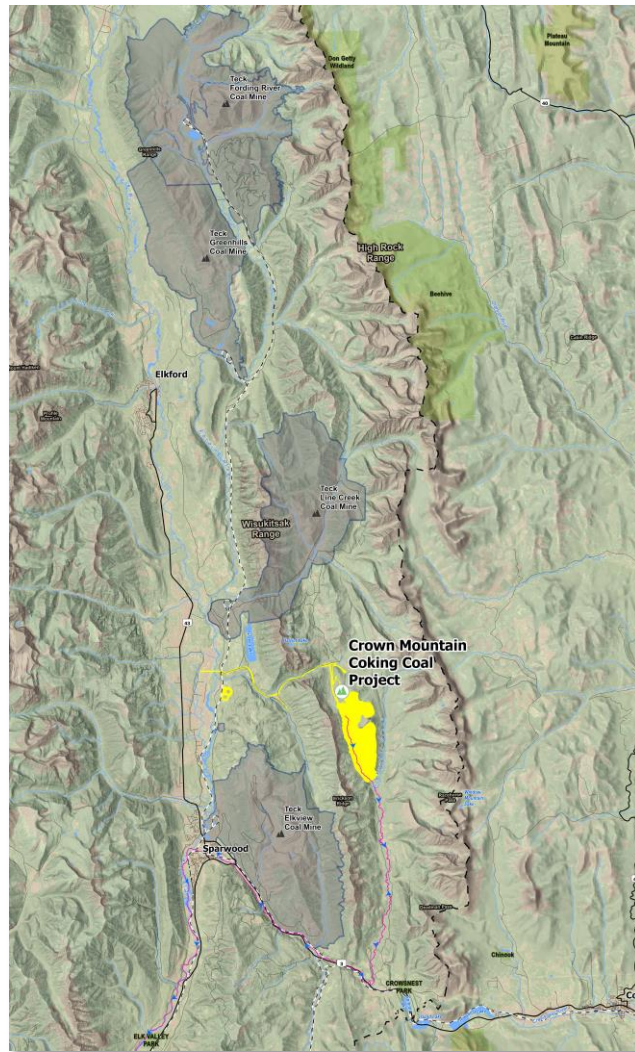

Figure 2 – Elk Valley, British Columbia

A Bankable Feasibility Study (“BFS”) completed in July 2020 confirmed that Crown Mountain represents a compelling high quality steelmaking coal development opportunity with a competitive operating and capital cost structure and access to existing common user rail and port infrastructure.

The Project is 90% owned by Jameson’s Canadian Subsidiary, NWP Coal Canada Ltd (“NWP”) that is 77.94% owned by Jameson and 22.06% by Bathurst Resources Limited (ASX:BRL).

ENVIRONMENTAL ASSESSMENT

The Project is subject to Environmental Assessment (EA) Application processes with the British Columbia Government and an Environmental Impact Statement (EIS) process with the Canadian Federal Government.

The comprehensive Crown Mountain Environmental Impact Statement and Environmental Assessment Application (EIS/EAA) was developed by Dillon Consulting (Vancouver), as a coordinated effort of leading specialised environmental and technical consultants. The team developed the EIS/EAA to meet the separate requirements issued by both the British Columbia Environmental Assessment Office (EAO) and the Impact Assessment Agency of Canada (IAAC).

The completed EIS/EAA was the subject of formal Public and Technical review during February and March 2024. In May, Jameson received all submissions on the EIS/EAA from Indigenous Nations, community groups, members of the public and Government agencies. These submissions included requests for additional information and/or clarification on effects assessment outlined in the EIS/EAA.

The submissions made primarily relate to the key areas of interest in the environmental management plan, namely water management, fish habitat impacts and offsets, rail loadout location options and housing strategy. No new significant or material unanticipated issues were raised in the public review process.

Jameson and its consultants have undertaken the following workstreams over the December half, in order to respond to the submissions:

- Detailed assessment of fish habitat and fish habitat offset opportunities
- Updated assessment of water impacts and the proposed water management plan for source control of selenium, nitrates and other potential water impacts
- Study to identify an alternative rail loadout location for the Project

Substantial progress was made on those studies although there was some delay in completion due to additional field work on the rail loadout study, assessment of improved design options for the water management study and early snowfall in the Rockies, that limited opportunities for additional engagement with Indigenous Nations during the quarter. Engagement will be undertaken by the end of March 2025 and completion of all responses to submissions will be finalised and submitted to Regulators before the end of June 2025.

INDIGENOUS ENGAGEMENT

Jameson is committed to ensuring that development of projects is undertaken consistent with the United Nations Declaration on the Rights of Indigenous Persons (UNDRIP).

Jameson acknowledges that the Crown Mountain Hard Coking Coal Project is located within ʔakanuxuniʔ ʔamakʔis in the East Kootenay region of British Columbia. These are the unceded ancestral lands of Yaqit ʔa-knuqʔi ‘it First Nation (“YQT”) over which YQT declares and exercises its inherent and Section 35 Constitution Act aboriginal rights and title. In January 2023, Jameson’s Canadian subsidiary, NWP and YQT executed a landmark Environmental Assessment Process and Consent Agreement (the “Agreement”) for the Project where YQT will act as a Regulator and reviewer of the Project and in doing so will fully engage in the Environmental Assessment of the Project. This Agreement paves a new era of relationship-building with Indigenous Nations throughout the EA process, and for the lifetime of the Project garnering a mutual respect partnership between both parties.

During the quarter, Jameson held regular meetings with YQT’s Chief and Council and its environmental assessment team to progress that Nation’s assessment of the EIS/EAA, including in the development of offset strategies and Project reclamation plans.

In parallel with the close engagement with YQT, Jameson will and has continued to engage with other Indigenous Nations in the region to ensure their participation in the assessment of the Project and in the development of long-term relationships to support Project development.

CROWN MOUNTAIN HARD COKING COAL PROJECT SCHEDULE

Jameson continues to prepare responses to the submissions made during the Formal Application Review phase of the EIS/EAA process and expects to submit all responses in the June quarter 2025.

Under the provisions of the Federal and Provincial Joint Assessment and Engagement Plan for the Project, the Regulators timeframe is paused while Jameson responds to those information requests. Following submission of the responses to information requests, the Federal and Provincial regulators will determine whether any further information or assessment is required.

Jameson will provide regular updates to keep shareholders informed about the progress of EIS/EAA review and the forecast timing for development of the Project, which continues to be on track for completion by the end of 2025.

2. DUNLEVY PROJECT – NORTH EAST BRITISH COLUMBIA

No activity occurred at Dunlevy for the quarter and this represents a future opportunity for Jameson. Annual rental fees were paid in December 2023. Dunlevy is not part of NWP and remains 100% owned by Jameson.

COAL SECTOR UPDATE

1. Confirmation of Political and Community Support for Coal Sector

During the quarter, the following events highlighted the increased community and political support for the Canadian coal industry:

- In October, the NDP Government in British Columbia was re-elected for another four-year term with a substantially reduced majority following a significant campaign by the Opposition BC Conservatives focused on economic growth and increased support for the resource sector. Since the election, the NDP Government has announced significant commitments to the mining industry including the review and streamlining of resource approvals
- The Municipality of Crowsnest Pass, Alberta, located immediately east of the Crown Mountain Project area, held a referendum in November on the future of the Grassy Mountain Coal Project, resulting in more than 72% of the community in favour of the project and the coal industry
- In December 2024 and January 2025, the Alberta Provincial Government announced new policies to enable the progress of stalled coal development projects in the southern Rockies, reversing a decision to previously ban mining in the area,

2. Global Coal Industry Investment

A number of major steelmaking coal industry investment and acquisition projects were announced, which highlighted the strong underlying long-term market fundamentals of the steelmaking coal industry and confirming interest in the sector. The total investment for these assets was more than US\$4.9 billion, which included separate purchases by Peabody Coal, Conuma, PT Buma and Sam Chong of various assets of Anglo Coal in Australia and Canada.

CORPORATE

At 31 December 2024, the Company has approximately 611 million fully paid ordinary shares on issue.

Jameson and Bathurst Resources Limited (“BRL”) contributed costs in proportion to common shareholding interests (80% and 20% respectively) to further progress the Crown Mountain Hard Coking Coal Project. Jameson and BRL agreement is to fund the Project up until the receipt of permits and Final Investment Decision, in proportion to common equity shareholdings.

BRL also holds a further 2.1% equity through Class B Preference Shares which would convert into ordinary shares of NWP upon the completion of the Tranche Two Option. The quantum of funding required for Crown Mountain before the Tranche Two Option is exercised or expires, will depend upon the timing of spend, particularly for any long lead items, and may result in alternate timing to production should this funding not be available.

As outlined in the Appendix 5B for the quarter, the Company:

- had no debt and cash at bank of A\$2.58 million in cash and equivalents as at 31 December 2024 (section 4.6 and 5.5)
- approximately \$233k in payments were made to related parties and/or their associates including director fees, gross salaries and superannuation (section 6.1).

This announcement is authorised for release to the market by the Board of Jameson Resources Limited.

An independent, growth-oriented steelmaking coal developer focused on delivering sustainable outcomes

About Jameson Resources Limited

Jameson Resources Limited (ASX:JAL) is a junior resources company focused on the acquisition, exploration and development of strategic coal projects in western Canada. The Company has an 77.8% equity interest in NWP Coal Canada Limited (“NWP”) which holds a 90% interest in the Crown Mountain Coal Project, and a 100% direct interest in the Dunlevy coal project located in British Columbia. Jameson’s tenement portfolio in British Columbia is positioned in coalfields adjacent to existing mines responsible for the majority of Canada’s steelmaking coal exports and are close to railways connecting to export facilities. To learn more, please contact the Company at +61 8 9200 4473, or visit: www.jamesonresources.com.au

About Bathurst Resources Limited

In July 2018, a subsidiary of Bathurst Resources Limited (ASX:BRL) acquired an 8% interest in NWP, with option to increase that interest to 50% subject to certain milestones and additional payments. Bathurst exercised the Tranche One Option in September 2019 and now holds a 20% interest in NWP with an additional 2.1% held as Class B Preference shares.

Bathurst is the largest coal company operating in New Zealand with over 2.2 million tonnes per annum of coal under management. More than 70% of the coal sold is used for steel making, both domestically and for export to Asian coke makers and steel mills. The remainder is sold to domestic users in the agricultural and energy sectors. Bathurst is focussed on low cost, sustainable mining with a strong focus on the local communities and environmental management.

Forward Looking Statements

This announcement contains “forward-looking statements”. Such forward-looking statements include, without limitation: estimates of future earnings, the sensitivity of earnings to commodity prices and foreign exchange rate movements; estimates of future production and sales; estimates of future cash flows, the sensitivity of cash flows to commodity prices and foreign exchange rate movements; statements regarding future debt repayments; estimates of future capital expenditures; estimates of resources and statements regarding future exploration results; and where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have a reasonable basis. However, forward looking statements are subject to risks, uncertainties and other factors, which could cause actual results to differ materially from future results expressed, projected or implied by such forward-looking statements. Such risks include, but are not limited to commodity price volatility, currency fluctuations, increased production costs and variances in resource or reserve rates from those assumed in the company’s plans, as well as political and operational risks in the countries and states in which we operate or sell product to, and governmental regulation and judicial outcomes. For a more detailed discussion of such risks and other factors, see the Company’s Annual Reports, as well as the Company’s other filings. The Company does not undertake any obligation to release publicly any revisions to any “forward looking statement” to reflect events or circumstances after the date of this release, or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7.	Financing facilities	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
	<i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>		
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(348)
8.2	Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,601)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(1,949)
8.4	Cash and cash equivalents at quarter end (item 4.6)	2,577
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	2,577
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.32
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: No – expenditure over the last two quarters has been higher than normal due to additional consultant engagement as part of the Crown Mountain Project EA. It is expected that expenditure for the Mar-25 quarter will be less than that in the Dec-24 quarter.	

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company is currently considering options to raise further funds, and believes that, if and when, further funding be required to progress the Crown Mountain Project, and given the progress of the Project and the Company's track record of successful fund raising from a stable supportive shareholder base, future attempts to raise capital should prove successful.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, as above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 January 2025

Authorised by: The Board of Directors

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
