Directors' Report (continued)

Review of operations (continued)

Operational overview

Connexion continued to expand the delivery of its automotive fleet & rental management Software as a Service (SaaS) solution to automotive manufacturers and franchised dealerships in the United States, whilst investing for future growth.

From a financial performance perspective, the first half of FY25 for the 6 month period ended 31 December 2024 is best summarised through the following key trends:

- 1. Revenue growth from Connexion subscriptions
- 2. Revenue growth from income linked to vehicle inventories
- 3. Revenue growth from feature-enhancement delivery
- 4. Decreased Growth Spend across R&D and Sales & Marketing

Connexion is focused on keeping its mobile and desktop platforms at the forefront of fleet, rental, and mobility management capabilities.

Each product enhancement falls into one of the three categories within Connexion's operating model of "Embed, Integrate, Generate".

During the period, development effort was spread broadly across Marketplace, OnDemand, Paid Rental, Reporting & Analytics, Continuous Improvement, and various integrations.

Across our existing dealership customers, our internal sales traction continued to improve, albeit off a low base. During the period, we added 60 unique product sales (net new subscriptions or trials).

We continue to focus on improving our revenue diversification in five ways, by:

- 1. Deepening our commercial relationship with our existing OEM counterparts
- 2. Initiating commercial relationships within other departments of our OEM customers
- 3. Initiating commercial relationships with OEMs outside of our existing customers
- 4. Deepening commercial relationships directly with existing dealership customers
- 5. Initiating commercial relationships directly with prospective franchised dealerships

We launched our Marketplace in H2 FY24, and have been growing our Marketplace subscriptions each month, with improving performance. Internal dealer sales holds the largest opportunity for near-term improvement, given our already large userbase, and our small share of their software budget.

Sales & Marketing efforts have highlighted a greater need for User-Product engagement, User insights, and new communication channels. We began addressing this in the period with our R&D spend, to drive sales, and will continue to do so for the remainder of the financial year.

Directors' Report (continued)

Review of operations (continued)

Outlook

The Company notes that, consistent with recent Quarterly Updates, it continues to invest meaningfully into the growth of its operations in the form of Research & Development and Sales & Marketing, with US\$846,090 and US\$480,956 invested, respectively, in HY25. With virtually all of this discretionary investment expensed through the statement of profit or loss, there has been, and will continue to be, a meaningful impact on reported profitability for the financial periods just-reported and subsequent. This is by design, and Shareholders are encouraged to carefully examine the profitability analysis presented within the Quarterly Updates.

The current Board and Management of Connexion have developed a consistent track record of tightly managing invested capital and delivering a satisfactory return on invested capital. This ethos will not change. Instead, any increase in investment into the business will reflect a clearly defined and examined opportunity for the Company to strengthen its competitive moat over time.

To date, we have meaningfully commercialised our loaner product, with the rest to come.

We see OEMs and dealerships increasingly adopting software to:

- 1. Improve their customers' experience
- 2. Drive operational efficiency
- 3. Reduce risk

Connexion's software:

- 1. Delivers on each of the above, today
- 2. Has a large Userbase within which to iterate its product, and grow its market presence
- 3. Has only a small share of dealerships' total software spend, providing ample scope to grow

Connexion intends to continue growing its SaaS revenue streams via:

- 1. Proprietary features valued by its existing Userbase of franchised dealerships
- Commercial Partnerships bringing complementary functionality to this existing Userbase
- 3. Expansion of the Userbase itself to new OEMs and franchised dealerships

As of the date of this interim report, the Company's progress remains consistent with the plan presented at the most recent AGM.

Significant changes in the state of affairs

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
