Blackstone Minerals' Managing Director, Scott Williamson, commented:

"This exciting merger of equals offers diversified exposure to critical energy transition and precious metals, centred on the world-class Mankayan Copper-Gold Porphyry Project, one of the largest high-grade undeveloped porphyry projects globally. Backed by Blackstone's mining expertise and a supportive environment in the Philippines, the merger offers near-term exploration upside, significant resource growth potential, and regional opportunities. With historic high-grade intercepts, Mankayan is ideally positioned to deliver long-term value to shareholders."

Blackstone Minerals is pleased to announce the Company has entered into a binding scheme implementation deed ("SID") with IDM International Limited ("IDM") offering a compelling investment opportunity with diversified exposure to critical energy transition and precious metals. At the core of this transaction lies the world class Mankayan Copper-Gold Porphyry Project, situated in Northern Luzon in the Philippines, a region with a pro-mining environment and a long history of successful mining operations. The merged entity leverages Blackstone's extensive expertise, resources, and relationships in base metals mine development and the energy transition metals market, making this a strategically advantageous proposition with significant growth potential.

The opportunity sees Blackstone gain exposure to copper, a critical energy transition metal, while also offering substantial exposure to high-value precious metals, gold and silver during a period of record high prices. Blackstone's current nickel assets combined with the new acquisition aligns shareholders with global decarbonization trends, delivering excellent exposure to the high demand growth for critical metals. Additionally, the Mankayan Project offers investors a hedge against market volatility through significant exposure to precious metals, which remain strong stores of value. At the heart of this merger lies the Mankayan Copper-Gold Porphyry Project, located in a world-class mineral district. Mankayan is one of the largest high-grade undeveloped copper-gold porphyry projects globally.

The Mankayan Copper-Gold Project is underpinned by historic world-class drill intercepts including:

- 911m @ 1.00% CuEq² (0.51% Cu & 0.63g/t Au) from 156m [MMD-11]
 - **Incl. 253m @ 1.43% CuEq (0.73% Cu & 0.89g/t Au)**
- 543m @ 1.08% CuEq (0.46% Cu & 0.79g/t Au) from 262m [THM-13]
 - **Incl. 277m @ 1.43% CuEq (0.50% Cu & 1.19g/t Au)**
- 754m @ 1.03% CuEq (0.49% Cu & 0.69g/t Au) from 254m [THM-22]
 - **Incl. 430m @ 1.21% CuEq (0.58% Cu & 0.80g/t Au)**
- 1,119m @ 0.86% CuEq (0.42% Cu & 0.56g/t Au) from 230m [PFC-40]
 - **Incl. 352m @ 1.15% CuEq (0.53% Cu & 0.79g/t Au)**

² CuEq calculation assumes metal prices of US\$2.80/lb Cu, US\$1,800/oz Au and recoveries of 90% for Cu and 75% for Au as per the existing JORC 2012 Mineral Resource Estimate

- 972m @ 0.89% CuEq (0.44% Cu & 0.58g/t Au) from 247m [PFC-44]
 - **Incl. 525m @ 1.09% CuEq (0.52% Cu & 0.73g/t Au)**
- 747m @ 0.94% CuEq (0.48% Cu & 0.59g/t Au) from 308m [PFC-43]
 - **Incl. 243m @ 1.06% CuEq (0.59% Cu & 0.60g/t Au)**

The success of the Mankayan Copper-Gold project is driven by Blackstone's extensive experience in base metals mine development, particularly in South East Asia. Blackstone's proven track record with the Ta Khoa Nickel Project provides valuable insights and synergies that can be directly applied to the Mankayan Project. Through cost-effective exploration techniques, advanced development strategies, and the ability to deploy equipment from Ta Khoa (such as geophysics, drilling, and metallurgical testing), Blackstone brings invaluable operational efficiency to Mankayan.

IDM has recently completed two diamond drill holes, each approximately 1,000 meters in length, as part of its ongoing efforts to carry out geotechnical, hydrological, and metallurgical testing. These drill holes were strategically designed to provide a representative cross-section of the orebody, successfully intersecting various mineralized zones, including the high-grade core. While assay results for both drill holes are still pending, the intersections will provide valuable data for refining resource models and advancing technical studies critical to future development plans.

Figure 1 Philippines Mining Operations

Philippines is Open for Business

Mankayan benefits from its location in the Philippines, a nation with a pro-mining regulatory environment and a long-standing history of successful mining operations (e.g., B2 Gold, Oceana Gold). Importantly, the IDM team has materially progressed its social license to operate in Mankayan, ensuring positive relationships with local stakeholders. The Philippines' openness to mining operations, combined with a skilled workforce and existing infrastructure, provides a strong foundation for the project's development.

Mankayan Catalysts and Integration

The Mankayan Project offers notable near-term catalysts, such as pending assay results from drilling activities and the potential for strategic mergers and acquisitions in the region. This potential near-term upside promises to unlock additional shareholder value in the short term. Furthermore, the project supports long-term growth due to its alignment with global demand for energy transition metals, offering significant scalability potential. A key strength of this opportunity is the integration of the Mankayan Project with Blackstone's existing operations. Blackstone's experience with the Ta Khoa Nickel Project allows for strategic synergies, creating a seamless expansion opportunity across multiple asset types. The project also benefits from diversification across two critical energy transition metals—nickel and copper—while capturing the upside from precious metals gold and silver. This broad exposure provides a robust and well-rounded investment thesis.

Key Mankayan Milestones Achieved

IDM has made remarkable progress in advancing the Mankayan Copper-Gold Project, a key development project in the Philippines. Among its notable achievements, IDM secured the renewal of a 25-year Mineral Production Sharing Agreement (MPSA) mining license in March 2022, laying the groundwork for the long-term development of the project. A significant milestone was reached in December 2024 with the signing of a Memorandum of Agreement (MoA) with the local Indigenous People (IP), marking IDM as the first mining company to secure IP consent in the region. This agreement represents a pivotal step in securing a social license to operate, essential for advancing the project responsibly. The Mankayan Project has also been recognised as a Priority Project by the Mines and Geosciences Bureau (MGB), reflecting its significance to the region's sustainable development. With a strong partnership between IDM and the local community, grounded in a shared commitment to sustainability, the project is positioned for long-term success.

Long-term Development Optionality and Scalability

The Mankayan Copper-Gold Project presents a dual development opportunity, utilising both high-grade and bulk-tonnage mining methods. The high-grade core enables the use of selective mining techniques to extract the high grades of the resource, offering lower upfront capital costs and the flexibility to expand plant capacity after initial development. A larger production scenario could focus on extracting the global resource through bulk mining methods, which would require higher initial capital investment but benefit from lower operating costs. This dual development optionality combines financial efficiency with resource maximisation, delivering sustained growth and strong investment returns.

Lepanto Lodes and Far Southeast (FSE) Porphyry

Lepanto Consolidated Mining Company, a fully Filipino-owned gold producer, operates 2.5km along strike of the Mankayan project and has a milling capacity of 900ktpa. In FY2023, the company produced 22.5koz of gold and 43koz of silver. It holds gold reserves of 1.7 Mt at 4.94 g/t Au (270 koz) and copper-gold reserves of 5.1 Mt at 2.42 g/t Au and 1.89% Cu, totalling 397koz of gold and 96.5kt of copper³. Furthermore, Lepanto owns the Far Southeast Porphyry (FSE) project (892Mt @ 0.5% Cu & 0.7g/t Au for 4.5Mt Cu & 19.8Moz Au).

³ Lepanto Annual Report - LCMC-17A-2023 Annual Report

Goldfields acquired a 40% stake in the FSE project in 2012 for US\$230 million, drilled over 100,000 meters, and invested approximately US\$500 million into the acquisition and exploration of the project.⁴

Figure 2 Mankayan Mineral District Long Section

The merger of equals between Blackstone Minerals and IDM International represents an unparalleled opportunity to develop a world-class copper-gold porphyry project, strategically aligned with growing global demand for energy transition and precious metals. With Blackstone's operational expertise, strong regional relationships, and the Philippines' pro-mining environment, the Mankayan Project is primed for success. The combination of near-term exploration milestones, significant resource potential, and global market alignment ensures that this opportunity delivers long-term growth and exceptional value for shareholders.

Transaction Overview

Blackstone and IDM have entered into a scheme implementation deed ("SID") pursuant to which they have agreed to a merger to be conducted by way of a Scheme of Arrangement ("Scheme") under the Corporations Act 2001 (Cth), whereby Blackstone proposes to acquire 100% of the fully paid ordinary shares in IDM.

IDM is an unlisted Australian public company focused on the exploration and development of copper and gold. IDM acquired an indirect 64% interest in Crescent Mining & Development Corporation ("CMDC") on 6 September 2021. The remaining 36% interest is held by local Philippine shareholders. The particulars of the IDM corporate structure are further detailed below.

The Mankayan Project is held under a Mineral Production Sharing Agreement ("MPSA") 057-96-CAR, totalling 534ha, and was renewed to CMDC for a second 25-year term with effect from 12 November 2021.

There is deferred consideration payable to the previous project vendor (MMJC Pte Limited) upon satisfaction of the following milestones:

⁴ <https://www.goldfields.com/reports/annual-report-2018/mrr/australia-far-southeast-project.php>

- \$2,000,000 on completion of a pre-feasibility study in relation to the Mankayan Project showing a net present value of the Mankayan Project 100% greater than capital expenditure; and
- \$2,000,000 on completion of the earlier of a trade sale or a decision to mine in respect of the Mankayan project.

The sale agreement with MMJC Pte Limited provides that subject to the satisfaction of the milestones, the deferred consideration is to be paid via the issue of shares in IDM Mankayan Pty Ltd (a wholly owned subsidiary of IDM). Following implementation, Blackstone will seek to assign the terms of the deferred consideration to Blackstone, but until such time, the obligation will be recognised as a contingent liability for IDM.

The IDM group structure is set out below:

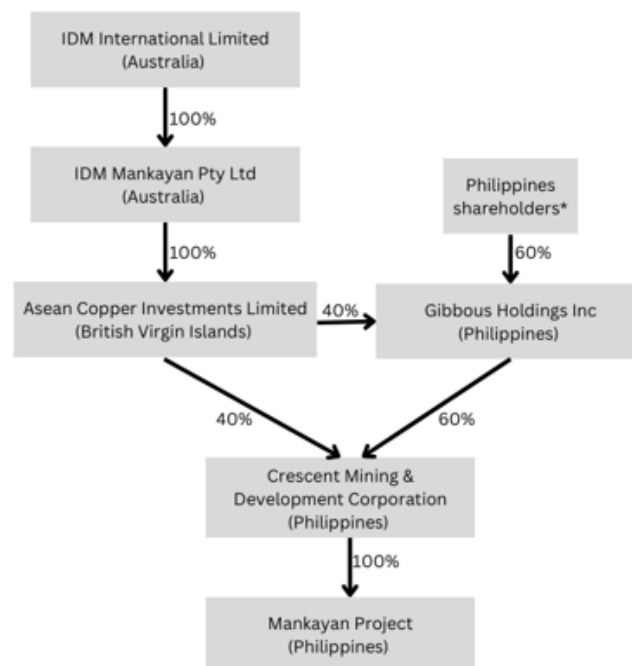

Figure 3 IDM Corporate Structure

* The corporate structure meets the requirement under the MPSA for 60% local ownership. IDM have option agreements in place to re-structure the local shareholdings if required in the future.

Terms of the Proposed Merger

Pursuant to the terms of the SID, IDM shareholders will receive 7.4 Blackstone shares ("Consideration Shares") for every 1 IDM share they hold, resulting in a post-deal shareholder composition of Blackstone shareholders holding 47% of the merged entity and IDM shareholders holding 53%.

The Scheme is unanimously recommended by each of the directors of the IDM Board. Each member of the IDM Board intends to vote all IDM Shares they control in favour of the Scheme. These recommendations and voting intention statements are subject to no Superior Proposal (as defined in the SID) emerging and the Independent Expert concluding (and continuing to conclude) that the Scheme is in the best interests of IDM shareholders.

Implementation of the Scheme is subject to the satisfaction (or waiver, where applicable) of the following conditions precedent:

- Blackstone shareholders approving the issue of the Consideration Shares (and the issue of Blackstone options referred to below) for the purposes of ASX Listing Rule 7.1;
- Blackstone entering into an agreement with each IDM option holder, pursuant to which the holder agrees to the cancellation of their respective IDM options in exchange for the issue of options in BSX (on equivalent terms);

- approval of the Scheme by a majority in number of IDM shareholders who vote at the Scheme Meeting and at least 75% of all votes cast at the Scheme Meeting;
- the Independent Expert issuing an Independent Expert's Report which concludes (and continues to conclude) that the Scheme is in the best interests of IDM shareholders;
- no Material Adverse Change or Prescribed Event, (each as defined in the SID) occurring in respect of either Blackstone or IDM;
- Court approval; and
- other conditions considered customary for a transaction of this nature, including all representations and warranties of the parties remaining true and correct as at the time they are expressed to be given.

The SID imposes specific conduct obligations on both IDM and Blackstone during the pre-implementation period, requiring each party to conduct their business in the ordinary course, comply with legal and contractual obligations and avoid actions that could materially impact the transaction.

The SID also includes deal protection and mutual exclusivity terms, including "no shop" and "no talk" restrictions and "matching right" obligations in the event of a competing proposal. The exclusivity arrangements are subject to customary exceptions that enable the Boards to comply with their respective fiduciary and/or statutory duties.

Full details of the terms and conditions of the Scheme is set out in the SID which is included as an appendix to this announcement.

Board of Directors and Management Team

Following completion of the merger, Blackstone will invite existing IDM Director, Geoff Gilmour, to join the Board. On completion, each of Dr Frank Bierlein, Ms Alison Gaines and Mr Dan Lougher will resign as Directors of Blackstone.

The Board of Blackstone on and from completion will comprise, Mr Hamish Halliday (as non-executive chairman), Mr Scott Williamson (as managing director) and Mr Geoff Gilmour (as a non-executive director).

Funding

Blackstone and IDM have entered into an unsecured loan agreement pursuant to which Blackstone has agreed to provide IDM with a working capital facility of up to \$1 million to assist with costs incurred by IDM in connection with the proposed merger and working capital during the transaction implementation ("Facility").

The material terms of the Facility are as follows

- \$1m loan facility. Drawdowns will be \$100,000 per month for 10 months. First \$100,000 drawn down immediately and paid to IDM within 2 business days of execution of the SID.
- The Facility is unsecured.
- The Facility bears interest at 'the Cash Rate Target' last published by the RBA plus 1% per annum, accruing monthly but only payable at maturity.
- Maturity is the earlier of: 1 month after the date on which the Scheme Implementation Deed is terminated and 4 years from the date of the Facility agreement.
- At maturity, the loan (plus accrued interest) can be repaid in cash or in IDM shares (at 20 cents per share) at IDM's election.
- The Facility includes standard representations, warranties, undertakings, and default events typical for a facility of this nature.

In addition, Blackstone is currently considering a range of options for a potential capital raising to support transaction-related costs and ongoing project development activities. The structure, timing, and terms of any such capital raising remain under consideration and will be determined in due course, taking into account market conditions and the company's funding requirements. Further updates will be provided to the market as and when available.

Advisors

Steinepreis Paganin is acting as legal adviser to Blackstone in respect of the proposed merger.

Discovery Capital is acting as IDM's financial adviser and Johnson Winter Slattery is acting as IDM's legal adviser in relation to the proposed merger.

Appendix 2: Mankayan Project Mineral Resource Estimate as at 30 September 2020

Location

The Mankayan porphyry copper-gold deposit is located approximately 6 km southeast of the towns of Mankayan and Lepanto, in the municipality of Mankayan, Benguet Province, Island of Luzon, Republic of the Philippines (Figure 1). The deposit is centred at approximately 16°5' North latitude and 120°49' East longitude.

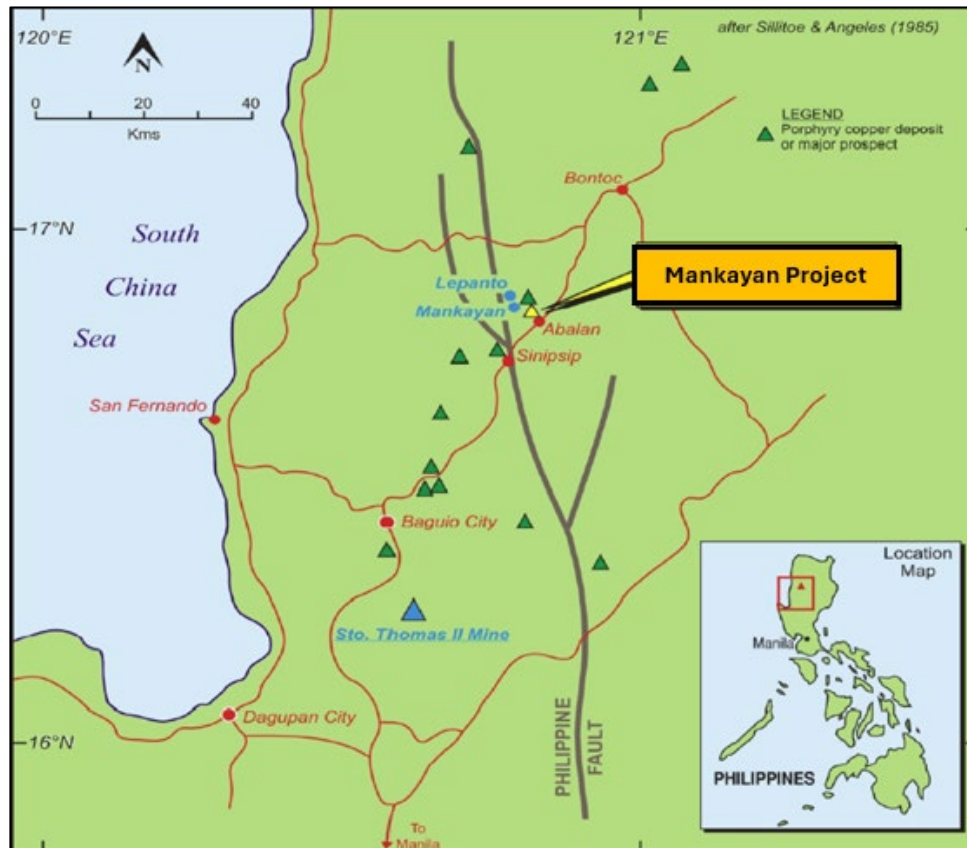

Figure 1. Project location

Geology and Mineralisation

The Philippine archipelago is located midway along a chain of islands that run along the eastern margin of continental Asia from Japan in the north to Indonesia in the south. The Mankayan mineral district is located in northern Luzon and hosts several significant ore deposits and prospects of various types. The main geologic units represented in the district include:

- Basement composed of late Cretaceous to middle Miocene metavolcanic and volcanoclastic rocks.
- Miocene (12 to 13 Ma) tonalitic Bagon intrusive complex.
- Pliocene (~2.2 to 1.8 Ma) Imbanguila dacite porphyry and pyroclastic rocks.
- Post-mineralisation cover rocks, including the ~1.2 to 1.0 Ma Bato dacite porphyry and pyroclastic rocks and the ~0.02 Ma Lapangan tuff.

At the Mankayan project, the host rocks are associated with a Pliocene stock complex that is composed largely of quartz diorite porphyry rocks. Two distinct phases of igneous intrusions have been identified:

- Hornblende quartz diorite porphyry (QDP).
- A later quartz diorite porphyry body (IQD) that has intruded the QDP body in the southern part of the project area.

Both quartz diorite intrusives have cut through a basement of early Mesozoic biotite-quartz schists and a thick sequence of middle to late Mesozoic andesitic volcanics and minor calcareous rocks.

Both the QDP and IQD intrusives host copper and gold mineralisation. The QDP is the most important host for the copper mineralisation, with IQD containing lower grade mineralisation. The immediate volcanic host rocks surrounding the plutonic rocks are also mineralised in proximity to the diorites.

Six alteration styles have been identified comprising potassic, calc-silicate, sericite-chlorite-clay, sericite, argillic, and propylitic. Mineralisation is mostly associated with the sericite-chlorite-clay, sericite, and argillic phases. The sulphide minerals consist principally of pyrite, with lesser amounts of chalcopyrite, bornite, covellite and chalcocite. Trace amounts of molybdenite, galena and sphalerite also occur. Gold occurs as native gold and as inclusions in other sulphides.

Drilling

Since its discovery in the early 1970's, the Mankayan deposit has undergone several changes of ownership and has been the subject of six separate drilling campaigns to 2020 comprising 56 drillholes totalling nearly 55,000m. All drilling was conducted using coring methods and a mixture of PQ, HQ, NQ and BQ core sizes.

Sampling and Sub-sampling

Core was sampled mostly in 3 m, 6 m, or 10 m intervals depending on the year the sample was taken. Core was cut using a diamond core saw or split with a chisel and hammer. Half core samples were dried, crushed, and pulverised to produce a final grind size of minus 150 mesh. Generally sample preparation was done on site.

Analyses

Copper and gold were analysed by industry-standard methods appropriate when the drilling was undertaken. Copper was analysed using an acid digest with an AAS finish. Gold was analysed using the lead fire assay technique with an AAS finish.

Digest methods changed over time, from 2-acid to 3-acid to 4-acid and therefore there is some possibility that some copper analyses from earlier drilling campaigns may understate the copper grade because of incomplete digest.

Modelling and Resource Estimation

The process used to prepare the 2020 Mankayan Mineral Resource estimate comprised the following steps:

1. Digital and hardcopy drillhole data were extracted from a master database then imported into Microsoft Access software for checking and validation.
2. Digital topographic survey data was reviewed and imported into the Vulcan software package.
3. Data validation checks were completed, focused on sampling/analysis data. Once source data was checked, modifications were applied to the master data sets accordingly, particularly in the treatment of missing/non-sampled assay data.
4. Three-dimensional interpretations of lithology and alteration zones were checked in Vulcan, with minor edits made.
5. Three-dimensional interpretations of a nominal 0.2% Cu grade envelope were checked in Vulcan, with minor changes made to reflect new data and the inclusion of some peripheral drillholes previously excluded. Also, some adjustments were made to include areas of higher gold content, but lower copper content inside the grade envelope.

6. Statistical analysis of drillhole assay data was completed and used to establish the optimum composite sample length.
7. Drillhole composites were generated for copper, gold, and silver, followed by composite statistics and a variogram analysis of the drillhole data.
8. A three-dimensional block model was created in Vulcan with a parent size of 25 m in each direction, with sub-celling of parent blocks into cubes 6.25 m in dimension.
9. Estimation search parameters were developed for each lithology within the grade envelope, and estimates were generated using the ordinary kriging method.
10. Block model validation comprised visual checking of block grades against composite values and other statistical checks.
11. Assignment of the Mineral Resource classification was completed, considering the confidence in the geological interpretation of the mineralisation, drillhole spacing, sample density, assessments of the integrity and robustness of the sample database, and estimation quality.
12. Grade-tonnes curves were produced to illustrate the sensitivity of the estimate to different cut-off criteria.
13. Criteria to support the reasonable prospects for eventual economic extraction were assessed and an appropriate cut-off criterion was selected for reporting Mineral Resources.

Classification

Resources have been classified based on continuity of copper grade as defined by the nominal drillhole spacing (100 m by 100 m), the existence of some selective sampling, and quality assurance and quality control input.

There is no Measured Mineral Resource. Indicated Mineral Resource was assigned to blocks if drilled to a nominal 100 m spacing and if the block estimate was determined predominantly from assayed sample intervals. Inferred Mineral Resource was assigned to all other blocks in the mineralisation envelope.

Cut-off Criteria

A copper equivalent (CuEq) was calculated to recognise the value of gold. Assumptions are based on:

- Metal prices of USD 2.80/lb Cu and USD 1,800/oz Au.
- Recoveries of 90% for Cu and 75% for Au.

A scoping study in 2014, updated in 2018 indicated a cut-off criterion of 0.20 – 0.23% CuEq would be appropriate for a block caving operation at Mankayan. In addition, reporting cut-off criteria for other large copper deposits were reviewed, with criterion that ranged from 0.15 – 0.40% CuEq applied.

For the 2020 estimate, Derisk applied a reporting cut-off criterion of 0.25% CuEq.

Modifying Factors

The depth of the deposit below the surface indicates the deposit would be most likely mined using underground methods, and the large scale and disseminated low grades would be suited to bulk underground mining. Scoping studies completed in 2014 and updated in 2018 suggested block caving would be feasible.

Limited metallurgical testwork has been completed that indicates the deposit is amenable to a conventional crush, grind, flotation, and drying operation to produce a readily marketable copper-gold concentrate for sale.

Mineral Resource

Derisk is not aware of any non-technical issues such as environmental, permitting, legal, title, taxation, socio-economic, marketing, political, or other relevant factors that are likely to prevent the reporting of a Mineral Resource for Mankayan, and concludes that there are reasonable prospects for eventual economic extraction. The Mineral Resource estimate for Mankayan is summarised in Table 1.

1. Totals may not add due to rounding effects.
 2. CuEq calculation assumes metal prices of USD 2.80/lb Cu, USD 1,800/oz Au, and recoveries of 90% for Cu and 75% for Au.
 3. $CuEq\ (%) = \frac{(Cu\% \times Cu\ price\ per\ lb \times 2,204.6 \times Cu\ recovery) + (Au\ g/t \times Au\ price\ per\ oz / 31.1035 \times Au\ recovery)}{(Cu\ price\ per\ lb \times 2,204.6 \times Cu\ recovery)}$
 $= Cu\% + 0.78 \times Au\ g/t$

Table 2 summarises the resource model estimate at a range of cut-off criterion from 0.0% CuEq to 1.0% CuEq. The resource model is relatively insensitive to changes in the cut-off criteria below 0.4% CuEq.

Sampling techniques and data.

CRITERIA	JORC Code Explanation	Commentary
SAMPLING TECHNIQUES	<ul style="list-style-type: none"> Nature and quality of sampling (e.g. cut channels, random chips, or specific specialised industry standard measurement tools appropriate to the minerals under investigation, such as down hole gamma sondes, or handheld XRF instruments, etc). These examples should not be taken as limiting the broad meaning of sampling. 	<ul style="list-style-type: none"> The deposit is buried and there are no surface samples. Drilling is the only feasible sampling method for the mineralisation without underground access. All sampling is from diamond drill core (as described below). The quality of the samples collected from diamond drilling is high.
	<ul style="list-style-type: none"> Include reference to measures taken to ensure sample representivity and the appropriate calibration of any measurement tools or systems used. 	<ul style="list-style-type: none"> Diamond drilling collects samples of the rock that are very representative of the material drilled. No calibration is required.
	<ul style="list-style-type: none"> Aspects of the determination of mineralisation that are Material to the Public Report. In cases where 'industry standard' work has been done this would be relatively simple (e.g. 'reverse circulation drilling was used to obtain 1 m samples from which 3 kg was pulverised to produce a 30 g charge for fire assay'). In other cases more explanation may be required, such as where there is coarse gold that has inherent sampling problems. Unusual commodities or mineralisation types (e.g. submarine nodules) may warrant disclosure of detailed information. 	<ul style="list-style-type: none"> Mineralisation is associated with porphyry intrusive activity and is generally disseminated or as stockwork veins. Copper grades are typically <2% and gold grades are typically <2 g/t. Most drillholes are completely sampled and assayed in the target zones below the overlying unmineralised diatreme, but some drillholes have been selectively sampled based on a visual mineralisation content. This introduces potential for grade bias. All drill intervals suspected as selectively sampled have had grades reset to 0.001 (% Cu and g/t Au) to avoid potential overstatement bias.
DRILLING TECHNIQUES	<ul style="list-style-type: none"> Drill type (e.g. core, reverse circulation, open-hole hammer, rotary air blast, auger, Bangka, sonic, etc) and details (e.g. core diameter, triple or standard tube, depth of diamond tails, face-sampling bit or other type, whether core is oriented and if so, by what method, etc). 	<ul style="list-style-type: none"> All drilling is by diamond core with maximum hole depth of nearly 1,500 m. Core size varies from PQ, HQ, NQ and BQ. Most records do not document whether coring used triple-tube. Most of the drilling was completed in five separate campaigns from 1971 to 2009 comprising: <ul style="list-style-type: none"> MMDC (11 drillholes) from 1971 to 1973 TMI and HMDC (14 drillholes) from 1980 to 1982 GFAL (12 drillholes) from 1983 to 1984 CMDC and PFRC (11 drillholes) from 1996 to 1997 Bezant (10 drillholes) from 2007 to 2009 Bezant and Gold Fields (1 drillhole) in 2013 There is no preserved drill core for any drilling completed prior to 1996 and some PFC series drill core is also lost.

CRITERIA	JORC Code Explanation	Commentary
DRILL SAMPLE RECOVERY	<ul style="list-style-type: none"> Method of recording and assessing core and chip sample recoveries and results assessed. Measures taken to maximise sample recovery and ensure representative nature of the samples. Whether a relationship exists between sample recovery and grade and whether sample bias may have occurred due to preferential loss/gain of fine/coarse material. 	<ul style="list-style-type: none"> Core placed in core trays was measured, recorded, and compared with depth markers placed by the drill crew to determine recovery as a percentage. The mean core recovery for diamond core collected as part of the 2007-2013 drilling was >96%. There is no preserved core recovery data for the earlier drilling campaigns but is reported in company documentation prepared by the tenement operator to be high recovery. Professionally drilled diamond coring is acknowledged as a good method for collection of representative samples in reasonably competent rock conditions. Company documentation indicates rock conditions were generally good and sample recovery was adequate. Basic statistical analysis of sample recovery versus copper and gold grades does not suggest any relationship, nor the presence of a bias.
LOGGING	<ul style="list-style-type: none"> Whether core and chip samples have been geologically and geotechnically logged to a level of detail to support appropriate Mineral Resource estimation, mining studies and metallurgical studies. Whether logging is qualitative or quantitative in nature. Core (or costean, channel, etc) photography. The total length and percentage of the relevant intersections logged. 	<ul style="list-style-type: none"> Logging of geological and geotechnical features in the diamond core was done with sufficient detail to meet the requirements of resource estimation and preliminary mining studies. However, original drill logs for many of the holes drilled prior to 1996 have been lost leaving only digital records of the logging. Logging was qualitative. Consistent core photography is only available for holes drilled after 1997. 100% of all core has been geologically logged.
SUB-SAMPLING TECHNIQUES AND SAMPLE PREPARATION	<ul style="list-style-type: none"> If core, whether cut or sawn and whether quarter, half or all core taken. If non-core, whether riffled, tube sampled, rotary split, etc and whether sampled wet or dry. For all sample types, the nature, quality, and appropriateness of the sample preparation technique. 	<ul style="list-style-type: none"> Core was sampled mostly in 3, 6, 10 m intervals depending on the year the sample was taken. Core was cut using a diamond core saw or split with a chisel and hammer. Not relevant. Half core samples were dried, crushed, and pulverised to produce a final grind size of minus 150 mesh. Generally sample preparation was done on site. Derisk considers that the documented sample preparation technique was appropriate for the mineralisation.

CRITERIA	JORC Code Explanation	Commentary
	<ul style="list-style-type: none"> Quality control procedures adopted for all sub-sampling stages to maximise representivity of samples. Measures taken to ensure that the sampling is representative of the in situ material collected, including for instance results for field duplicate/second-half sampling. Whether sample sizes are appropriate to the grain size of the material being sampled. 	<ul style="list-style-type: none"> QC procedures varied for different drilling campaigns, but typically included insertion of blanks and coarse duplicates to monitor sub-sampling procedures. Coarse duplicates sometimes consisted of ¼ core and therefore there are some concerns that this material is not completely representative of the ½ primary sample. No quantitative tests have been completed to demonstrate sample sizes are appropriate to the grain size of the material. Anecdotally, pulp re-assays at different laboratories and pulp duplicates do not show any significant bias.
QUALITY OF ASSAY DATA AND LABORATORY TESTS	<ul style="list-style-type: none"> The nature, quality and appropriateness of the assaying and laboratory procedures used and whether the technique is considered partial or total. For geophysical tools, spectrometers, handheld XRF instruments, etc, the parameters used in determining the analysis including instrument make and model, reading times, calibrations factors applied and their derivation, etc. Nature of quality control procedures adopted (e.g. standards, blanks, duplicates, external laboratory checks) and whether acceptable levels of accuracy (i.e. lack of bias) and precision have been established. 	<ul style="list-style-type: none"> Copper and gold were analysed by industry-standard methods appropriate when the drilling was undertaken. Copper was analysed using an acid digest with an AAS finish. Gold was analysed using the lead fire assay technique with an AAS finish. Digest methods changed over time, from 2-acid to 3-acid to 4-acid and therefore there is some possibility that some copper analyses from earlier drilling campaigns may understate the copper grade because of incomplete digest. Not relevant. QC systems and procedures varied for different drilling campaigns, but generally involved some combination of blanks, duplicates, standards (CRMs), in-house laboratory checks, and umpire laboratory checks. Bezant selectively re-assayed laboratory pulps from THM, TGF and PFC series drillholes to independently check the accuracy of the earlier analytical work. Bezant/Gold Fields also re-assayed pulps from the BRC series drilling using a different analytical method for Cu. Snowden completed statistical analysis of Cu and Au from specific drill programs and compared this to the results of the rest of the drilling database.
VERIFICATION OF SAMPLING	<ul style="list-style-type: none"> The verification of significant intersections by either independent or alternative company personnel. 	<ul style="list-style-type: none"> Drilling has been completed by different companies and Derisk has sighted several reports e.g. Angeles (2009), that have in-part tried to verify significant intersections where possible. However much of the core is no longer preserved.

CRITERIA	JORC Code Explanation	Commentary
AND ASSAYING		<ul style="list-style-type: none"> Derisk visited site in July 2020 and completed a general inspection of core stored at site, specifically inspecting BRC-60 (the most recent drillhole). Visibly mineralised core was sighted that reflected the recorded copper grade assigned to specific intervals. Each of the five major drilling programs has reported similar low and disseminated copper gold grades, consistent with porphyry mineralisation.
	<ul style="list-style-type: none"> The use of twinned holes. 	<ul style="list-style-type: none"> The only twinned drillholes are THM-12 and TGF-32, however THM-12 contains very few assay records and therefore does not allow a twinned hole assay comparison.
	<ul style="list-style-type: none"> Documentation of primary data, data entry procedures, data verification, data storage (physical and electronic) protocols. 	<ul style="list-style-type: none"> Records pertaining to management of primary data, data entry procedures, and data verification are not well documented for most drilling campaigns. Derisk was supplied with various digital datasets and needed to amalgamate data from different files to generate a new master database to incorporate the latest work completed by Bezant/Gold Fields.
	<ul style="list-style-type: none"> Discuss any adjustment to assay data. 	<ul style="list-style-type: none"> Derisk adjusted some of the data in the digital database to ensure that analysed samples that recorded below detection limits were treated differently to unsampled intervals.
LOCATION OF DATA POINTS	<ul style="list-style-type: none"> Accuracy and quality of surveys used to locate drillholes (collar and down-hole surveys), trenches, mine workings and other locations used in Mineral Resource estimation. 	<ul style="list-style-type: none"> All the MMD, THM, TGF and PFC drillhole collars were surveyed using a theodolite. Bezant series holes were surveyed using a handheld GPS unit. The drillhole holes are on average over 900 m deep. There is only limited downhole survey information derived from single shot camera devices. The downhole azimuth readings will be distorted to some extent by magnetite, which is a common alteration product. Consequently, there will be significant uncertainties tied to the accuracy of many of the drillholes at depth.
	<ul style="list-style-type: none"> Specification of the grid system used. 	<ul style="list-style-type: none"> Almost all the MMD, THM, TGF and PFC drillhole collars were re-surveyed by CMDC/PFRC using the WGS 84 coordinate system.
	<ul style="list-style-type: none"> Quality and adequacy of topographic control. 	<ul style="list-style-type: none"> The surface topography is adequate, but Angeles (2009) recommended that the existing topographic survey be redone. The Guinaoang deposit is buried. The topography data is not material to the Mineral Resource estimate but will be critical for the design of surface infrastructure.

CRITERIA	JORC Code Explanation	Commentary
DATA SPACING AND DISTRIBUTION	<ul style="list-style-type: none"> Data spacing for reporting of Exploration Results. Whether the data spacing and distribution is sufficient to establish the degree of geological and grade continuity appropriate for the Mineral Resource and Ore Reserve estimation procedure(s) and classifications applied. Whether sample compositing has been applied. 	<ul style="list-style-type: none"> Not relevant. The drilling has been located on a grid of approximately 100 m by 100 m. Most of the drilling is vertical. This drillhole spacing is sufficient to confirm areas assigned to the Indicated category where there is reasonable geological and grade continuity between sections. For resource estimation purposes a 9 m composite interval was used to standardise the sample lengths.
ORIENTATION OF DATA IN RELATION TO GEOLOGICAL STRUCTURE	<ul style="list-style-type: none"> Whether the orientation of sampling achieves unbiased sampling of possible structures and the extent to which this is known, considering the deposit type. If the relationship between the drilling orientation and the orientation of key mineralised structures is considered to have introduced a sampling bias, this should be assessed and reported if material. 	<ul style="list-style-type: none"> Mineralisation covers an extent of 900 m by 500 m by 1,000 m depth and is sub-vertical in nature. Mineralisation is disseminated and hosted in veins and stockworks. Drillholes are either vertical or moderate to steeply dipping. This orientation is not ideal for unbiased sampling of steeply dipping vein systems. However, the location and orientation of the diamond drilling is adequate given the strike, depth, and morphology of the copper mineralisation. No assessment of potential sampling bias has been completed because there is no oriented core available to complete an assessment.
SAMPLE SECURITY	<ul style="list-style-type: none"> The measures taken to ensure sample security. 	<ul style="list-style-type: none"> Mineralisation is typically low grade and no specific security measures have been recorded for any drilling campaigns.
AUDITS OR REVIEWS	<ul style="list-style-type: none"> The results of any audits or reviews of sampling techniques and data. 	<ul style="list-style-type: none"> A review of Guinaoang drilling, sampling, and logging was conducted by Angeles, in 2009. The objective was to prepare the data for the June 2009 resource estimation work. Snowden completed an independent review of the drillhole database in readiness for a Mineral Resource estimate in 2009. Derisk completed spot checks of the Snowden database and compiled all available data from the Bezant/Gold Fields joint venture into a new master database in 2020.

GEOLOGY	<ul style="list-style-type: none"> Deposit type, geological setting, and style of mineralisation. 	<ul style="list-style-type: none"> The Guinaoang porphyry copper deposit is related to Island Arc porphyry emplacement. The subduction environment results in magmatism and porphyry deposits that are the result of hydrous magmas being emplaced at relatively shallow depths (<2 km). The Philippines has numerous similar deposits located in clusters along the Luzon, Visayas and Mindanao orogenic belts. Mineralisation is mostly associated with the sericite-chlorite-clay, sericite, and argillic phases. The sulphide minerals consist principally of pyrite, with lesser amounts of chalcopyrite, bornite, covellite and chalcocite. Trace amounts of molybdenite, galena and sphalerite also occur. Gold occurs as native gold and as inclusions in other sulphides.

DATA AGGREGATION METHODS	<ul style="list-style-type: none"> In reporting Exploration Results, weighting averaging techniques, maximum and/or minimum grade truncations (e.g. cutting of high grades) and cut-off grades are usually Material and should be stated. Where aggregate intercepts incorporate short lengths of high grade results and longer lengths of low grade results, the procedure used for such aggregation should be stated and some typical examples of such aggregations should be shown in detail. The assumptions used for any reporting of metal equivalent values should be clearly stated. 	<ul style="list-style-type: none"> For Exploration Results reporting of significant intercepts in selected drill holes, samples have been composited and no cutting of high grades has been done. The Mineral Resource estimated is based on length weighted 9 m composites of diamond drill core samples. For Exploration Results reporting of significant intercepts in selected drill holes, samples have been composited using a length-weighted method. Samples are aggregated into 9 m composites for Mineral Resource estimation and incorporate any intervals of high grade. For Exploration Results and Mineral Resources, a copper-equivalent is calculated using copper and gold grades, metal price assumptions (USD 2.80/lb Cu and USD 1,800/oz Au) and recovery assumptions (90% for Cu and 75% for Au).
RELATIONSHIP BETWEEN MINERALISATION WIDTHS AND INTERCEPT LENGTHS	<ul style="list-style-type: none"> These relationships are particularly important in the reporting of Exploration Results. If the geometry of the mineralisation with respect to the drillhole angle is known, its nature should be reported. If it is not known and only the down hole lengths are reported, there should be a clear statement to this effect (e.g. 'down hole length, true width not known'). 	<ul style="list-style-type: none"> The global extent of the porphyry copper mineralisation extends hundreds of metres in all directions. Typically, individual drillhole sample intervals range from 1 m to 10 m and therefore represent a small proportion of the mineralisation width. The broad nature of porphyry copper mineralisation is sub-vertical, as is much of the drilling. Whilst not ideal, drilling is adequate to define the porphyry style of mineralisation, which displays considerable depth over a broad zone. All references to mineralised intervals are downhole lengths.
DIAGRAMS	<ul style="list-style-type: none"> Appropriate maps and sections (with scales) and tabulations of intercepts should be included for any significant discovery being reported. These should include, but not be limited to a plan view of drillhole collar locations and appropriate sectional views. 	<ul style="list-style-type: none"> Example sections and plans are included in the report.
BALANCED REPORTING	<ul style="list-style-type: none"> Where comprehensive reporting of all Exploration Results is not practicable, representative reporting of both low and high grades and/or widths should be practiced to avoid misleading reporting of Exploration Results. 	<ul style="list-style-type: none"> Appendix 1 lists mineralised drill hole intercepts for over 30 drill holes. The Mineral Resource is reported on a tonnage weighted basis.

Data validation procedures used. 	<ul style="list-style-type: none"> Most previous drilling campaigns were logged on hardcopy records and then transcribed into digital files. Derisk has not sighted any documentation describing measures taken to ensure database integrity. Derisk was provided with several digital datasets of all drilling data as Microsoft Excel files, that were then converted to a database for analysis. Several previous data validation exercises have been sighted e.g. Angeles (2009) and Snowden (2009). Snowden checked some original hardcopy logs. During the July 2020 site visit, Derisk sighted a range of hardcopy geological logs and laboratory records. Derisk completed a range of standard digital data validation checks including survey, sampling, geological and analysis checks.

<p>GEOLOGICAL INTERPRETATION</p>	<ul style="list-style-type: none"> Confidence in (or conversely, the uncertainty of) the geological interpretation of the mineral deposit. Nature of the data used and of any assumptions made. The effect, if any, of alternative interpretations on Mineral Resource estimation. The use of geology in guiding and controlling Mineral Resource estimation. 	<ul style="list-style-type: none"> Mineralisation is interpreted to be influenced by lithology, alteration, and structure. Confidence in the broad high-level geological interpretation is high because it is relatively simple. However, at a local scale the interpretation will be more complex. Simplified geological interpretation of the four main geological units and the key alteration types was compiled as part of the 2009 review and remains unchanged in the 2020 estimate except for minor edits to incorporate BRC-60, drilled in 2013. Alteration may play an important role and control on grade and requires further work, particularly when additional closer spaced drilling data becomes available. All data contributing to the geological interpretation is derived from drilling. A mineralisation envelope defined at a nominal 0.2% Cu grade has been interpreted to constrain the estimation of Cu, Au and Ag. Grade is disseminated around the core porphyry units but also extends into the surrounding volcanics. This outlines a massive area of disseminated low grade copper and gold where alternative grade interpretations are not likely. Alteration is expected to play a significant role in influencing grade distribution for Cu and Au but has not been used in the 2020 estimate. The use of alteration domains to control grade estimates are unlikely to materially alter the global estimate but will change local estimation of Cu and Au. Lithology has been used indirectly to create the 0.2% Cu mineralisation envelope. Estimation is undertaken for geology and mineralisation subsets. Geology is used for grade estimation control as this captures the downward trend in grades away from the porphyry core.

The 2020 estimate was directly compared with the 2009 Snowden estimate. Results are comparable but there are differences as a result of one new hole, subtle changes to the domaining, and treatment of unsampled intervals. There is no mining at the site. Processing is likely to be by flotation to produce a concentrate containing Cu, Au and Ag. Cu and Au are the main metals of economic significance. No elements other than Cu, Au and Ag were estimated. The drillhole database does not contain a significant number of analyses for other elements to permit estimation of deleterious elements. The blocks of 25 m by 25 m by 25 m were sub-blocked to 6.25 m along mineralisation or geology boundaries. Most drilling is on a nominal spacing of 100 m by 100 m. Modelling of selective mining units was not undertaken. Cu, Au and Ag were independently estimated.

In addition, reporting cut-off criteria for other large copper deposits were reviewed, with criterion from 0.15 - 0.40% CuEq applied. An assumption of inherent sample free moisture content (about 4%) was necessary to convert the density values to a dry basis. The data precision is low and supports a single bulk density value of 2.5 t/m³ for all mineralised porphyry and volcanic rock materials. Measurements were performed on drill core samples using a weigh-in-air, weigh-in-water method. The rock mass is generally competent and contains few visible voids. No attempt was made to seal the core before the measurements were undertaken.

The assay quality aspect reduces the area around a few drillholes where sampling and assaying is selective to Inferred. In most cases the resetting of missing grades to zero will remove most of these areas from the Mineral Resource statement. Appropriate account has been taken of the key uncertainties in the drillhole data inputs, including loss of drill core from earlier programs, loss of some drillhole data records, loss of QA/QC documentation, and the use of a broad grade envelope to constrain the estimate rather than dedicated lithology and alteration controls. The classification of the resource into Indicated and Inferred categories reflects the Competent Person's view.

3.2 **Benefit and waiver of conditions precedent**

- (a) The conditions precedent may only be waived in writing by the party or parties entitled to the benefit of that condition precedent (if any) specified in clause 3.1 and the waiver will be effective only to the extent specifically set out in the waiver.
- (b) A condition specified as being for the benefit of both parties can only be waived by both parties acting jointly.
- (c) Subject to clause 3.2(b), a party entitled to waive a condition precedent pursuant to this clause 3.2 may do so in its absolute discretion and may do so before the condition precedent is to be satisfied.
- (d) If a party waives a condition precedent in accordance with this clause 3.2, that waiver will not preclude it from suing the other party for any breach of this document constituted by the event which gave rise (or which would, but for the waiver, give rise) to the breach or non-fulfilment of the condition precedent the subject of the waiver.
- (e) A waiver of one condition precedent does not constitute:
 - (i) a waiver of any other condition precedent resulting from the same events or circumstances; or
 - (ii) a waiver of that condition precedent resulting from any other events or circumstances.

3.3 **Reasonable endeavours and notification**

- (a) Without prejudice to any other obligations of the parties under this document, but subject to the other provisions of this document, each of the parties agrees to use all reasonable endeavours to procure that:
 - (i) each of the conditions precedent for which it is responsible (as noted in clause 3.1):
 - (A) is satisfied as soon as practicable after the date of this document; and
 - (B) continues to be satisfied at all times until the last time it is to be satisfied (as the case may require); and
 - (ii) there is no occurrence that would prevent a condition precedent (for which it is responsible) from being satisfied.
- (b) The parties must:

- (i) promptly inform each other of a failure to satisfy a condition precedent or of any circumstance which may result in any of the conditions precedent not being satisfied or not being capable of being satisfied;
- (ii) promptly inform each other of the happening of any fact, matter, change, event, circumstance or occurrence that does, will or would reasonably be likely to prevent a condition precedent from being satisfied or mean that any condition precedent will not otherwise be satisfied before the End Date;
- (iii) promptly advise each other in writing of the satisfaction of a condition precedent;
- (iv) each give the Court on the Second Court Date a certificate (or such other evidence as the Court may request) confirming (in respect of matters within its own knowledge) whether or not all of the conditions precedent in clause 3.1 (other than the condition precedent in clause 3.1(e)) have been satisfied or waived in accordance with this document; and
- (v) give each other a draft of the certificate or other evidence to be provided by it under clause 3.3(b)(iv) by 5pm on the day that is two Business Days prior to the Second Court Date, and must provide to each other on the Second Court Date a copy of the final certificate or other evidence provided to the Court.

3.4 **Communications regarding regulatory approvals**

To the extent permitted by law and each party's respective legal obligations and without limiting clause 3.3:

- (a) as soon as practicable after the date of this document, the parties must cooperate in good faith to develop a plan for communications with Governmental Agencies that are required to be approached for the purpose of procuring the satisfaction of any condition precedent (each a **Relevant Governmental Agency**);
- (b) each party must provide any Relevant Governmental Agency with all information reasonably required by the Relevant Governmental Agency in connection with the Scheme;
- (c) each party:
 - (i) subject to the requirements of the Relevant Governmental Agency, shall have the right to be present and make submissions at or in relation to any proposed meeting by the other party or its advisers with a Relevant Governmental Agency in relation to the Scheme (except to the extent that such meeting involves the discussion of commercially sensitive information); and

- (d) notwithstanding any other provision of this document, for the purposes of obtaining any approval of a Relevant Governmental Agency, none of the parties is required to agree to any conditions or to provide or to agree to provide any written

undertakings to a Relevant Governmental Agency which are not reasonably acceptable to that party.

3.5 Condition precedent not satisfied or waived

- (a) If:
- (i) any condition precedent has not been fulfilled or waived in accordance with clause 3.2 by the time or date specified in clause 3.1 for satisfaction of the condition precedent; or
 - (ii) there is an act, omission, event, occurrence or circumstance which will prevent a condition precedent from being satisfied by the time or date specified in clause 3.1 for its satisfaction or, if no time or date is specified, by the End Date (and the non-fulfilment of the condition precedent which would otherwise occur has not already been waived in accordance with this document),

either the Bidder or the Target may serve notice on the other of them and then the Target and the Bidder will consult in good faith with a view to determining whether:

- (iii) the Scheme may proceed by way of alternative means or methods;
 - (iv) to extend the relevant time or date for satisfaction of the condition precedent;
 - (v) to adjourn or change the date of an application to the Court;
 - (vi) to apply to the Court to postpone or adjourn the Scheme Meeting; or
 - (vii) to extend the End Date.
- (b) If the Target and the Bidder are unable to reach agreement under clause 3.5(a) within five Business Days following the delivery of the notice (or any shorter period ending at 5pm on the day before the Second Court Date), either of them may terminate this document by notice in writing to the other, provided that:
- (i) there has been no failure by that party to comply with its obligations under this document, where that failure directly and materially contributed to the condition precedent to which the notice relates becoming incapable of satisfaction, or being breached or not fulfilled before the End Date; and
 - (ii) the relevant condition precedent is for its benefit (whether solely or jointly with the other party) or is expressed as not being for the benefit of either party.

4.6 Scheme Consideration

The Bidder covenants in favour of the Target (in its own right and separately as trustee or nominee of each Scheme Shareholder) that:

As soon as practicable after the date of this document, each party must identify any change of control or unilateral termination rights in contracts to which a member of the Target Group or Bidder Group (as applicable) is party which may be triggered by or exercised as a result of the implementation of the Scheme. In respect of those contracts (which includes CoC Contracts):

- (a) the parties will use reasonable endeavours to agree a proposed course of action (which, among other things, will have due regard to applicable legal restrictions) and then the Target or Bidder (as applicable) will initiate contact, including joint discussions if required, with the relevant counterparties and request that they provide any consents or confirmations required or appropriate;

8.6 **Nature of provisions**

- (a) Except as otherwise stated in this clause 8, each of the representations and warranties in this clause 8 shall be deemed to be given as at the date of this document and repeated continuously thereafter until 8am on the Second Court Date by reference to the circumstances then existing.
- (b) Each of the representations and warranties given by a party in this clause 8 must be construed as a separate and independent provision and will not be limited or restricted by reference to the terms of any other representation or warranty in this clause 8 or any other term of this document.

8.7 **Notification**

A party must promptly (and in any event, within two Business Days) advise the other in writing if it becomes aware of any fact, matter or circumstance which constitutes or may (including with the passage of time) constitute a breach of any representation or warranty provided in this clause 8 by the party; such notice including reasonable details of the fact, matter or circumstance and any actions taken or proposed (including timelines) to remedy the actual or potential breach.

8.8 **Indemnities**

- (a) The Target indemnifies the Bidder and the other Bidder Indemnified Parties from and against all claims, actions, proceedings, liabilities, obligations, damages, loss, harm, charges, costs, expenses, duties and other outgoings of whatever nature and however arising which any of the Bidder Indemnified Parties may suffer or incur by reason of any breach of any of the Target Warranties.
- (b) The Bidder indemnifies the Target and the other Target Indemnified Parties from and against all claims, actions, proceedings, liabilities, obligations, damages, loss, harm, charges, costs, expenses, duties and other outgoings of whatever nature and however arising which any of the Target Indemnified Parties may suffer or incur by reason of any breach of any of the Bidder Warranties.

8.9 **Target's limitation of liability**

Subject to clause 10.5 but notwithstanding any other provision of this document, other than in the case of conduct designed or intended to frustrate the Transaction, or fraud, wilful misconduct or wilful breach on the part of the Target:

- (a) the maximum liability of the Target to all other persons under or in connection with this document, including in respect of any breach of this document and the indemnity in clause 8.8(a), is \$250,000 (**General Cap**), except in respect of a breach of the Target Warranty at clause 8.1(m), which shall not be subject to this cap and shall instead be subject to a cap of \$1,000,000 (**Specific Cap**);

- (b) the Bidder may not make a claim against any member of the Target Group under or in connection with this document for any damages, fees, expenses or reimbursements of any kind exceeding the General Cap, except in respect of a breach of the Target Warranty at clause 8.1(m) (which is limited by clause 8.9(c)), and none of them will be payable by the Target under or in connection with this document; and
- (c) the Bidder may not make a claim against any member of the Target Group under or in respect of a breach of the Target Warranty at clause 8.1(m) for any damages, fees, expenses or reimbursements of any kind exceeding the Specific Cap, and none of them will be payable by the Target under or in connection with this document.

8.10 Bidder's limitation of liability

Subject to clause 10.5 but notwithstanding any other provision of this document, other than in the case of conduct designed or intended to frustrate the Transaction, or fraud, wilful misconduct or wilful breach on the part of the Bidder:

- (a) the maximum liability of the Bidder to all other persons under or in connection with this document, including in respect of any breach of this document and the indemnity in clause 8.8(b), is \$250,000; and

9 Exclusivity

9.1 Existing discussions

Each party represents and warrants that, as at the time of execution of this document:

- (a) it is not a party to any agreement, arrangement or understanding with any person entered into for the purposes of facilitating an actual, proposed or potential Competing Proposal in relation to the party;
- (b) it is not, directly or indirectly, in any negotiations or discussions and it has ceased any existing negotiations or discussions with any person, in respect of any Competing Proposal in relation to the party (or which may reasonably be expected to lead to a Competing Proposal in relation to the party); and
- (c) any due diligence access granted to any person for the purposes of such negotiations or discussions has been terminated.

9.2 No-shop

During the Exclusivity Period, each party must not and must ensure that each of its Representatives does not:

- (a) directly or indirectly solicit or invite; or
- (b) initiate or encourage any enquiries, negotiations or discussions,

or communicate any intention to do any of these things, with a view to obtaining any offer, expression of interest or proposal from any person in relation to a Competing Proposal.

9.3 No talk obligation and no due diligence

Subject to clause 9.4, during the Exclusivity Period, each party must not and must ensure that each of its Representatives does not:

- (a) enter into, continue or participate in negotiations or discussions with, any person;
- (b) solicit, initiate, facilitate or encourage any person (other than the other party or its Representatives) to undertake due diligence on the party or its Related Bodies Corporate; or
- (c) make available to any person (other than the other party or its Representatives) or permit such person to receive any non-public information relating to the party or its Related Bodies Corporate,

in each case, in connection with a Competing Proposal (or proposed or potential Competing Proposal), even if that person's Competing Proposal was not directly or indirectly solicited or invited by the party or any of its Representatives or if the person has publicly announced their Competing Proposal.

9.4 Fiduciary carve out

Nothing in clause 9.3 prevents or requires any action by or on behalf of the Bidder or the Target in relation to any Unsolicited Competing Proposal if, after receiving written legal advice from its external financial and/or legal advisers (as applicable), its Board has determined in good faith that:

- (a) the Unsolicited Competing Proposal is or, if it was proposed, could reasonably be expected to lead to, a Superior Proposal; and
- (b) failure to take such action (where such action would otherwise be prevented by clause 9.3) would involve, or would be likely to involve, a breach of the fiduciary or statutory duties of the directors of the Target or the Bidder (as applicable),

provided that:

- (c) the Unsolicited Competing Proposal is immediately notified to the other party in accordance with clause 9.5; and
- (d) to the extent the party (or its Representatives) proposes to provide to a Third Party any non-public information relating to the party or its Related Bodies Corporate in connection with the Unsolicited Competing Proposal, the party first enters into a binding confidentiality agreement with the recipient where the terms of the confidentiality agreement relating to confidentiality of the non-public information are no less favourable to the party than the relevant terms of the Confidentiality Deed.

9.5 Notification of approaches

- (a) During the Exclusivity Period, the Bidder and the Target must as soon as reasonably practicable, and in any event within two Business Days, notify the other in writing if it or any of its Representatives becomes aware of any:
 - (i) receipt of any Competing Proposal in respect of itself;
 - (ii) approach, enquiry or request to initiate any negotiations or discussions in respect of, or that may reasonably be expected to lead to, any Competing Proposal; or

- (iii) request for, or provision by the party or any of its Representatives to any Third Party of, any material non-public information relating to any member of the Bidder Group or the Target Group (as applicable) in relation to any Competing Proposal,

whether direct, indirect, solicited or unsolicited, and in writing or otherwise. For the avoidance of doubt, any of the acts described in paragraphs (i) to (iii) may only be taken by the Target or its Representatives if not prohibited by clauses 9.2 or 9.3 or if permitted by clause 9.4.

- (b) A notification given under clause 9.5(a) must include all material details of the relevant event, including (as the case may be):
 - (i) the material terms and conditions of the actual, proposed or potential Competing Proposal (if any) (including price and form of consideration, conditions precedent, proposed deal protection arrangements, timetable, form of funding for the Competing Proposal and any conditions thereto), in each case to the extent known by Target or any of its Representatives; and
 - (ii) the nature of the information requested and/or provided,

however the notification must not include the identity of the Third Party making or proposing the Competing Proposal (or, if different, details of the proposed bidder or acquirer) or any other details to the extent they would identify the Third Party, proposed bidder or acquirer.

9.6 **Bidder matching right**

- (a) Without limiting clauses 9.2 and 9.3, during the Exclusivity Period, the Target:
 - (i) must not, and must procure that each member of the Target Group does not, enter into any agreement, arrangement or understanding (whether or not in writing) in relation to a Competing Proposal; other than a member of the Target Group entering into a confidentiality agreement or like agreement with a Third Party for the purpose of providing non-public information in relation to an actual, proposed or potential Competing Proposal, provided that such confidentiality or like agreement is on terms that are no less onerous to the Third Party (in relation to confidentiality of non-public information) than the terms of the Confidentiality Deed are to the Bidder;
 - (ii) must use its best endeavours to ensure that no Target Director adversely changes or withdraws their statements referred to in clause 6(a), or makes a recommendation or statement that is inconsistent with any of them (including recommending, supporting or endorsing a Competing Proposal) other than where the change, withdrawal, recommendation or statement is permitted by clauses 6(c) or 9.6(c),

unless:

- (iii) the Competing Proposal is a Superior Proposal;
- (iv) the Target has provided the Bidder with all information in respect of the Competing Proposal required by clause 9.5 plus the identity of the Third Party making or proposing the Competing Proposal (or, if different, details of the proposed bidder or acquirer) and any other details excluded from disclosure under clause 9.5;

- (v) the Target has given the Bidder at least five Business Days after the date of the provision of the information referred to in clause 9.6(a)(iv) to provide a counter proposal to the terms of the actual, proposed or potential Competing Proposal (**Bidder Counterproposal**); and
- (vi) the Target Board, acting reasonably and in good faith, determines that the Bidder has not provided a Bidder Counterproposal that is superior to or no less favourable overall than the terms and conditions of the Competing Proposal (having regard to all relevant matters including those listed in the definition of "Superior Proposal" in clause 1.1), by the expiry of the period specified in clause 9.6(a)(v).
- (b) If the Bidder provides the Target with a Bidder Counterproposal by the expiry of the period specified in clause 9.6(a)(v), the Target must procure that the Target Board reviews the Bidder Counterproposal and if the Target Board, acting reasonably and in good faith, determines that the Bidder Counterproposal would provide a matching or superior outcome for Target Shareholders as a whole compared with the Competing Proposal, then:
- (i) the Target and Bidder must use their best endeavours to agree the amendments to this document, the Scheme and the Deed Poll (as applicable) that are reasonably necessary to reflect the Bidder Counterproposal and to implement the Bidder Counterproposal, in each case as soon as reasonably practicable; and
- (ii) the Target must use its best endeavours to procure that each Target Director continues to recommend the Transaction (as modified by the Bidder Counterproposal) to Target Shareholders (other than as permitted by this document) and not recommend the applicable Competing Proposal.
- (c) Despite any other provision in this document, any public announcement or other statement by the Target or any one or more of the Target Directors that:
- (i) the Target Board has determined that a Competing Proposal is a Superior Proposal and the Target has commenced the matching right process set out in this clause 9.6; or
- (ii) Target Shareholders should take no action pending the completion of the matching right process set out in this clause 9.6,
- does not of itself:
- (iii) constitute an adverse change or withdrawal of a statement referred to in clause 6(a), or a recommendation or statement that is inconsistent with them (including a recommendation, statement of support or endorsement of a Competing Proposal);
- (iv) contravene any provision of this document;
- (v) give rise to an obligation to pay any break fee or similar fee; or
- (vi) give rise to a right to terminate this document.
- (d) For the purposes of this clause 9.6:
- (i) each successive material variation or amendment to a Competing Proposal will constitute a new Competing Proposal; and

- (ii) for the avoidance of doubt, the process set out in this clause 9.6 must again be followed in respect of any such new Competing Proposal; except that the period referred to in clause 9.6(a)(v) (and other clauses that cross-refer to it) will instead be three Business Days where it relates to a material variation or amendment to a Competing Proposal previously notified to the Bidder under clause 9.5.

9.7 Compliance with law

- (a) If it is finally determined by a court of competent jurisdiction, or the Takeovers Panel, that the agreement by the parties under this clause 9 or any part of it:
 - (i) constituted, or constitutes, or would constitute, a breach of the fiduciary, statutory or general law duties of the Target Directors or Bidder Directors;
 - (ii) constituted, or constitutes, or would constitute, 'unacceptable circumstances' within the meaning of the Corporations Act; or
 - (iii) was, or is, or would be, unlawful for any other reason,
 then, to that extent (and only to that extent) the Target or Bidder (to the extent that it relates to that party) will not be obliged to comply with that part of this clause 9.
- (b) The parties must not make or cause to be made, any application to a court or the Takeovers Panel for or in relation to a determination referred to in this clause 9.7.

9.8 Normal provision of information

Nothing in this clause 9 prevents the Target or Bidder from:

- (a) providing information to rating agencies or any Governmental Agency in response to a request;
- (b) providing information to its auditors, advisers, employees, financiers, customers, business partners and suppliers acting in that capacity in the ordinary course of business;
- (c) making presentations to brokers, portfolio investors, analysts, shareholders, media and other Third Parties in the ordinary course of business, provided those communications do not concern or relate to a Competing Proposal;
- (d) complying with its continuous disclosure obligations; or
- (e) providing information to its Representatives.

9.9 Acknowledgements

- (a) The Target acknowledges that:
 - (i) the Bidder has required the Target to agree to the obligations set out in this clause 9 in consideration of the Bidder proceeding with the Scheme and incurring significant costs in doing so; and
 - (ii) in the absence of obtaining these obligations, the Bidder would not have entered into this document.
- (b) The Bidder acknowledges that:

- (i) the Target has required the Bidder to agree to the obligations set out in this clause 9 in consideration of the Target proceeding with the Scheme and incurring significant costs in doing so; and
- (ii) in the absence of obtaining these obligations, the Target would not have entered into this document.

9.10 Repayment of Exclusivity Fee

For the avoidance of doubt, the Target acknowledges that the Bidder has paid the Target the Exclusivity Fee and agrees to repay the Exclusivity Fee to the Bidder within 5 Business Days of receiving a written demand from the Bidder if the Target breaches (in a material manner) any of its obligations under clauses 9.1 to 9.3, 9.5 and 9.6 during the Exclusivity Period.

9.11 Legal Advice

Each party acknowledges that it has received legal advice on this document and the operation of this clause 9 from reputable legal advisers experienced in transactions of this nature.

 - (iii) makes a public statement indicating that they no longer recommend the Transaction or recommends, supports or endorses another transaction (including any Competing Proposal but excluding a statement that no action should be taken by Target Shareholders pending assessment of a Competing Proposal by the Target Board or the completion of the matching right process set out in clause 9.6); or

- (ii) by the Bidder by written notice to the Target at any time prior to 8am on the Second Court Date if the Target is in material breach of a term of this document, taken in the context of the Scheme as a whole (including any breach of a Target Warranty, which breach is material in the context of the Scheme as a whole),

provided that the Target or the Bidder (as the case may be) has given prompt written notice to the other setting out the relevant circumstances of the breach and the relevant circumstances continue to exist 10 Business Days (or any shorter period ending at 5pm on the Business Day before the Second Court Date) after the time such notice is given;

10.3 **Termination**

Where a party has a right to terminate this document, that right for all purposes will be validly exercised if the party delivers a notice in writing to the other party stating that it terminates this document.

10.4 **Effect of termination**

If this document is terminated, it will have no further force or effect and the rights and obligations of the parties under this document will cease, save that:

- (a) clauses 1, 8, 10, 11 and 14 to 19 will survive termination, as do any other clauses that are by their nature intended to survive the termination or expiry of this document; and

- (b) termination will be without prejudice to rights and liabilities of a party which have accrued before termination.

10.5 Remedies

The parties acknowledge that damages may not be a sufficient remedy for breach of this document and that specific performance, injunctive relief or any other remedies which would otherwise be available in equity or law are available as a remedy for a breach or threatened breach of this document by any party, notwithstanding the ability of the other party to terminate this agreement or demand payment of any applicable amount.

 - (iii) is required by a Governmental Agency to be made by the party; or
 - (iv) has the prior approval of the other parties (such approval not to be unreasonably withheld, delayed or conditioned).
- (b) Nothing in clause 11.2(a) prohibits a party from making any announcement or public disclosure if, in the reasonable opinion of its Board, failure to disclose at that time the information proposed to be contained in the announcement or public disclosure would reasonably be expected to be inconsistent with the proper exercise of the duties of the directors of that party.

11.3 Notification

If a party is required by law, the rules of any recognised securities exchange or any Governmental Agency to do any of the things referred to in clause 11.2, or if clause 11.2(b) otherwise applies, it must to the extent reasonably practicable and lawful, consult with the other parties as to the timing, form and content of that announcement or disclosure.

- (b) The Target must procure that Mr Geoff Gilmour provides his written consent to act as a director of the Bidder with effect from Implementation by no later than two Business Days prior to the Implementation Date.

 - (ii) other than the directors referred to in this clause 12, each other director of the Bidder retires from the Board of the Bidder with effect from no later than the Implementation Date.

13 Indemnity, insurance and release

13.1 D&O insurance

- (a) Subject to the Scheme becoming Effective and subject to the Corporations Act, the Bidder undertakes in favour of the Target and each other Target Indemnified Party that it will:
 - (i) until the earlier of seven years from the Implementation Date or the relevant member of the Target Group ceasing to be controlled (within the meaning of section 50AA of the Corporations Act) by the Bidder), ensure that the constitutions of each member of the Target Group provide for each company to indemnify each of its directors and officers against any liability incurred by that person in their capacity as a director or officer of the company to the maximum extent permitted by law; and
 - (ii) until the earlier of seven years from the retirement of each director and officer of the relevant member of the Target Group or the relevant member of the Target Group ceasing to be controlled (within the meaning of section 50AA of the Corporations Act) by the Bidder), procure that each member of the Target Group complies with any deeds of indemnity, access and insurance made by them in favour of their respective directors and officers from time to time.
- (b) Notwithstanding any other provision of this document, the Target may with the prior written consent of the Bidder, prior to the Implementation Date, enter into an arrangement to secure directors' and officers' run-off insurance for up to seven years from the Implementation Date, provided that:
 - (i) the Target seeks at least two proposals for directors' and officers' run-off insurance from reputable insurers that have a rating that is similar to or better than the rating of the insurers for the Target's directors' and officers' insurance policy in place as at the date of this document for the current financial year, which directors' and officers' run-off insurance policy:

- (B) is the lowest cost policy (inclusive of the costs of brokerage, stamp duty and any other transaction costs) of the two proposals received which complies with the requirements in clause 13.1(b)(i).

Any actions to facilitate, or in connection with, that insurance will not be a Target Prescribed Event or a breach of any provision of this document. Without limiting clause 13.1(a)(i), the Bidder must ensure that such run-off insurance cover is maintained on terms no less favourable to the directors and officers than was the case on the Implementation Date.

13.2 Release by the Bidder

To the maximum extent permitted by law, the Bidder releases its rights against each Target Indemnified Party (other than the members of the Target Group) and undertakes that neither it nor any member of the Bidder Group or Target Group will make any claim or demand of any nature (howsoever arising and whether present or future, fixed or unascertained, actual or contingent, whether at law, in equity, under statute or otherwise) against any such Target Indemnified Party in connection with any breach of any representations, covenants or warranties in this document or any disclosures in connection with this document except where the Target Indemnified Party has not acted in good faith or has engaged in wilful misconduct.

13.3 Release by the Target

To the maximum extent permitted by law, the Target releases its rights against each Bidder Indemnified Party (other than members of the Bidder Group) and undertakes that it will not make any claim or demand of any nature (howsoever arising and whether present or future, fixed or unascertained, actual or contingent, whether at law, in equity, under statute or otherwise) against any such Bidder Indemnified Party in connection with any breach of any representations, covenants or warranties in this document or any disclosures in connection with this document except where the Bidder Indemnified Party has not acted in good faith or has engaged in wilful misconduct.

13.4 Benefit

- (a) The Target receives and holds the benefit of this clause 13 to the extent it relates to each Target Indemnified Party on behalf of each of them.

- (b) The Bidder holds and holds the benefit of this clause 13 to the extent it relates to each Bidder Indemnified Party on behalf of each of them.

13.5 No limitation

The rights of the Target Indemnified Parties under this clause 13 are in addition to and without prejudice to any rights to indemnification or insurance coverage which a Target Indemnified Party may have under the constitution of, or in any deed or other agreement with, any member of the Target Group.

14 Confidentiality Deed

Each party acknowledges and agrees that it remains bound by the Confidentiality Deed (other than those provisions which cease to apply on execution of this document), except that the terms of this document prevail over the Confidentiality Deed to the extent of any inconsistency.

15 GST and Tax

15.1 GST gross-up

If a party (**supplier**) is required to pay GST in respect of a supply made under or in connection with (including by reason of a breach of) this document, except to the extent this document provides otherwise (for example, where a price is expressed to be inclusive of GST), the recipient of the supply must (in addition to any other payment for, or in connection with, the supply) pay to the supplier an amount equal to such GST (**GST gross-up**).

15.2 GST invoice

If a GST gross-up is payable, then the supplier must give the recipient a tax invoice for the supply.

15.3 Payment

Provided a tax invoice has been given, the GST gross-up must be paid by the recipient:

- (a) if any monetary consideration is payable for the supply, at the same time and in the same manner as that monetary consideration; or
- (b) if no monetary consideration is payable for the supply, within 10 Business Days after the day on which the tax invoice is given.

15.4 Reimbursements

If any payment to be made to a party under or in connection with this document is a reimbursement or indemnification of an expense or other liability incurred or to be incurred by that party, then the amount of the payment must be reduced by the amount of any input tax credit to which that party is entitled for that expense or other liability, such reduction to be effected before any increase in accordance with clause 15.1.

15.5 Adjustments

If an adjustment event has occurred in respect of a supply made under or in connection with this document, any party that becomes aware of the occurrence of that adjustment event must notify the other party as soon as practicable, and the parties agree to take whatever steps are necessary (including to issue an adjustment note), and to make whatever adjustments are required, to ensure that any GST or additional GST on that supply, or any

refund of GST, is paid no later than one month after the supplier first becomes aware that the adjustment event has occurred.

15.6 **Australian Tax roll-over**

- (a) The Bidder acknowledges that each Scheme Shareholder who is an Australian resident shareholder who holds their shares on capital account may seek to apply for roll-over relief under subdivision 124-M of the Tax Act, to the extent the requirements imposed by the Tax Act can be satisfied.
- (b) The Bidder undertakes that it will not make a choice to deny roll-over relief to the Scheme Shareholder under subsection 124-795(4) of the Tax Act.

15.7 **Withholding**

- (a) For the purposes of this clause 16.3, **Declaration** means a declaration provided by a Scheme Shareholder in accordance with section 14-225 and section 14-210(3) of Schedule 1 to the Taxation Administration Act.
- (b) The Bidder shall be entitled to deduct or withhold any amounts (including taxes or stamp, transaction, or registration duties) required under applicable law that become due under the Scheme.
- (c) If the Bidder determines (acting reasonably) that it is required to pay an amount to the Commissioner of Taxation pursuant to Subdivision 14-D of Schedule 1 to the Taxation Administration Act (a **CGT Withholding Amount**) with respect to the acquisition of the Scheme Shares from each Scheme Shareholder unless that Scheme Shareholder provides a Declaration, the Bidder will:
 - (i) determine the amount of the CGT Withholding Amount;
 - (ii) determine the amount of the Consideration Shares as is necessary in the opinion of the Bidder to account for the CGT Withholding Amount (taking into account potential fluctuations in share price and an amount necessary to cover costs associated with the share sale facility described in clause 4.4) that would otherwise have been issued to a Scheme Shareholder to be sold via the share sale facility described in clause 4.4;
 - (iii) the Sale Agent appointed under clause 4.4 will then pay to the Bidder the CGT Withholding Amount from the proceeds of the sales made under clause 4.4 (**Sale Proceeds**), after deducting any applicable fees, brokerage, taxes and charges (reasonably incurred by the Sale Agent) and the Bidder will then pay the CGT Withholding Amount to the Commissioner of Taxation within the time required under Subdivision 14-D of Schedule 1 to the Taxation Administration Act (or alternatively, where the Bidder remits the CGT Withholding Amount to the Commissioner of Taxation pursuant to Subdivision 14-D of Schedule 1 to the Taxation Administration Act, the Bidder will be entitled to retain as reimbursement an amount equal to the CGT Withholding Amount paid to the Commissioner of Taxation from the Sale Proceeds); and
 - (iv) be deemed to have satisfied its obligations to pay the CGT Withholding Amount to the Scheme Shareholder for the purposes of the Scheme.
- (d) Prior to exercising its rights under this clause 15.7, the Bidder must use reasonable endeavours to notify the Scheme Shareholders of its intention to withhold so that each Scheme Shareholder has the opportunity to provide a Declaration.

15.8 Definitions

$$A = (B \div C) \times D$$

where

B = the number of Consideration Shares that would otherwise have been issued to that Ineligible Shareholder had it not been an Ineligible Shareholder and which were issued to the Sale Agent;

C = the total number of Consideration Shares which would otherwise have been issued to all Ineligible Shareholders and which were issued to the Sale Agent; and

D = the Proceeds.

- (b) The Ineligible Shareholders acknowledge that none of the Target, the Bidder or the Sale Agent gives any assurance as to the price that will be achieved for the sale of Consideration Shares described in clause 4.4(a) and that the Target, the Bidder and the Sale Agent expressly disclaim any fiduciary duty to the Ineligible Shareholders which may arise in connection with this clause 4.4.
- (c) The Target must make, or procure the making of, payments to Ineligible Shareholders under clause 4.4(a) by either (in the absolute discretion of the Target and despite any election referred to in clause 4.4(c)(i) or authority referred to in clause 4.4(c)(ii) given by the Ineligible Shareholder):
- (i) where an Ineligible Shareholder has, before the Record Date, made a valid election in accordance with the requirements of the Target Registry to receive dividend payments from the Target by electronic funds transfer to a bank account nominated by that Ineligible Shareholder, paying, or procuring the payment of, the relevant amount in Australian currency by electronic means in accordance with that election;

- (ii) paying, or procuring the payment of, the relevant amount in Australian currency by electronic means to a bank account nominated by the relevant Ineligible Shareholder by an appropriate authority from that Ineligible Shareholder to the Target; or
- (iii) dispatching, or procuring the dispatch of, a cheque for the relevant amount in Australian currency to the Ineligible Shareholder by prepaid post to their Registered Address, such cheque being drawn in the name of that Ineligible Shareholder (or in the case of joint holders, in accordance with the procedures set out in clause 4.3).
- (d) If the Target receives professional advice that any withholding or other tax is required by law or by a Governmental Agency to be withheld from a payment to an Ineligible Shareholder, the Target is entitled to withhold the relevant amount before making the payment to the Ineligible Shareholder (and payment of the reduced amount shall be taken to be full payment of the relevant amount for the purposes of this Scheme, including clauses 4.4(a)(iii) and 4.4(f)). The Target must pay any amount so withheld to the relevant taxation authorities within the time permitted by law, and, if requested in writing by the relevant Ineligible Shareholder, provide a receipt or other appropriate evidence of such payment (or procure the provision of such receipt or other evidence) to the relevant Ineligible Shareholder.
- (e) Each Ineligible Shareholder appoints the Target as its agent to receive on its behalf any financial services guide (or similar or equivalent document) or other notices (including any updates of those documents) that the Sale Agent is required to provide to those Ineligible Shareholders under the Corporations Act or any other applicable law.
- (f) Payment of the amount calculated in accordance with clause 4.4(a) to an Ineligible Shareholder in accordance with this clause 4.4 satisfies in full the Ineligible Shareholder's right to Scheme Consideration.

4.5 Other Ineligible Shareholders

Where the issue of Consideration Shares to which a Scheme Shareholder would otherwise be entitled under this Scheme would result in a breach of law:

- (a) the Bidder will issue the maximum possible number of Consideration Shares to the Scheme Shareholder without giving rise to such a breach; and
- (b) any further Consideration Shares to which that Scheme Shareholder is entitled, but the issue of which to the Scheme Shareholder would give rise to such a breach, will instead be issued to the Sale Agent and dealt with as if a reference to Ineligible Shareholders in this Scheme also included that Scheme Shareholder and references to that person's Consideration Schemes were limited to the Consideration Shares issued to the Sale Agent under this clause.

4.6 Unclaimed money

- (a) The Target may cancel a cheque issued under this clause 4 if the cheque:
- (i) is returned to the Target; or
- (ii) has not been presented for payment within six months after the date on which the cheque was sent.
- (b) On request in writing from a Scheme Shareholder to the Target (or the Target Registry) received from the date 20 Business Days after the Implementation Date

until the first anniversary of the Implementation Date, the Target must reissue a cheque that was previously cancelled under this clause 4.6.

- (c) The *Unclaimed Money Act 1990* (WA) will apply in relation to any Scheme Consideration which becomes 'unclaimed money' (as defined in section 3 of that Act).

4.7 Fractional entitlements and share splitting or division

- (a) Where the calculation of the Scheme Consideration to be provided to a particular Scheme Shareholder would result in the Scheme Shareholder becoming entitled to a fraction of a Consideration Share, the fractional entitlement will be rounded up or down to the nearest whole number of Consideration Shares, with fractions of 0.5 being rounded up.
- (b) If the Bidder is of the opinion (acting reasonably) that two or more Scheme Shareholders (each of whom holds a number of Scheme Shares which results in rounding in accordance with clause 4.7(a)) have, before the Record Date, been party to shareholding splitting or division in an attempt to obtain unfair advantage by reference to such rounding, the Target must, if so directed by the Bidder, give notice to those Scheme Shareholders:
- (i) setting out their names and registered addresses as shown in the Target Register;
 - (ii) stating that opinion; and
 - (iii) attributing to one of them specifically identified in the notice the Scheme Shares held by all of them;

and, after such notice has been given, the Scheme Shareholder specifically identified in the notice as the deemed holder of all of the specified Scheme Shares will, for the purposes of the other provisions of the Scheme, be taken to hold all of those Scheme Shares and each of the other Scheme Shareholders whose names and registered addresses are set out in the notice will, for the purposes of the other provisions of the Scheme, be taken to hold no Scheme Shares. The Bidder in complying with the other provisions of the Scheme relating to it in respect of the Scheme Shareholder specifically identified in the notice as the deemed holder of all of the specified Scheme Shares, will be taken to have satisfied and discharged its obligations to the other Scheme Shareholders named in the notice under the terms of the Scheme.

4.8 Orders of a court or Governmental Agency

If written notice is given to the Bidder (or the Bidder Registry) or the Target (or the Target Registry) of an order or direction made by a court of competent jurisdiction or by another Governmental Agency:

- (a) which requires payment to a third party (either through payment of a sum or the issuance of a security) in respect of Scheme Shares held by a particular Scheme Shareholder, which would otherwise be payable or required to be issued to that Scheme Shareholder by the Bidder or the Target in accordance with this clause 4, then the Bidder or the Target (as applicable) shall be entitled to procure that provision of that consideration is made in accordance with that order or direction; or
- (b) which would prevent the Bidder or the Target from providing consideration to any particular Scheme Shareholder in accordance with this clause 4, or if the issuance

of such consideration is otherwise prohibited by applicable law, the Bidder or the Target (as applicable) shall be entitled:

- (i) in the case of an Ineligible Shareholder, to retain an amount, in Australian dollars, equal to the relevant Ineligible Shareholder's share of the Proceeds; or
- (ii) not to issue, or to issue to a trustee or nominees such number of Consideration Shares as that Scheme Shareholder would otherwise be entitled to under clause 4.1,

until such time as provision of the Scheme Consideration in accordance with this clause 4 is permitted by that (or another) order or direction or otherwise by law.

5 Dealings in Target Shares

5.1 Determination of Scheme Shareholders

- (a) For the purpose of establishing who is a Scheme Shareholder, dealings in the Target Shares or other alterations to the Target Register will only be recognised if in all other cases, registrable transfers or transmission applications in respect of those dealings, or valid requests in respect of other alterations, are received at the place where the Target Register is kept by 7pm (Sydney time) on the Record Date, and the Target will not accept for registration or recognise for any purpose (except a transfer to the Bidder under this Scheme and any subsequent transfer by the Bidder or its successors in title) any transfer or transmission application or other such request in respect of the Target Shares received after such times, or received prior to such times but not in registrable or actionable form, as appropriate.
- (b) The Target must register any registrable transfers or transmission applications of the type referred to in clause 5.1(a) that are received by the Record Date.

5.2 Target Register

- (a) The Target must, until the Scheme Consideration has been provided to Scheme Shareholders in accordance with this Scheme and the name and address of the Bidder has been entered in the Target Register as the holder of all Scheme Shares, maintain or procure the maintenance of the Target Register in accordance with the provisions of this clause 5 and the Target Register in this form will solely determine entitlements to Scheme Consideration.
- (b) As from the Record Date (other than for the Bidder after the Implementation Date), each entry current at that time in the Target Register in relation to the Scheme Shares will cease to be of any effect other than as evidence of the entitlement of Scheme Shareholders to the Scheme Consideration in accordance with this Scheme in respect of those Scheme Shares.

5.3 Certificates and holding statements

All certificates and statements of holding for Scheme Shares held by Scheme Shareholders shall, following the Record Date, cease to have any effect as documents of title in respect of such Scheme Shares.

5.4 Provision of information

- (a) As soon as practicable after the Record Date and in any event at least three Business Days before the Implementation Date, the Target must, or must procure,

For personal use only

that details of the following matters (in respect of each Scheme Shareholder) are given to the Bidder in the form the Bidder reasonably requires:

- (i) the names, Registered Addresses and registered holdings of Scheme Shares;
 - (ii) (unless otherwise agreed by the Bidder) the instructions, notifications or elections deemed by virtue of clause 6.7 to be made by the Scheme Shareholders to the Bidder; and
 - (iii) such other information as the Bidder may reasonably require in connection with the provision of the Consideration Shares to the Scheme Shareholders in accordance with this Scheme.
- (b) Each Scheme Shareholder agrees that this information may be disclosed to the Bidder, the Bidder Registry and the Bidder's advisers and other service providers to the extent necessary to effect the Scheme.

5.5 No disposals after Record Date

If the Scheme becomes Effective, each Scheme Shareholder, and any person claiming through that Scheme Shareholder, must not in any way, deal with or dispose of or purport or agree to deal with or dispose of, any Scheme Shares or any interest in them except as set out in the Scheme, after the Record Date and any attempt to do so will be void and will have no legal effect whatsoever.

6 General Scheme provisions

6.1 Binding effect of Scheme

Each Scheme Shareholder acknowledges that this Scheme binds the Target and all of the Scheme Shareholders (including those who do not attend the members' meeting of the Target to approve the Scheme or do not vote at that meeting or who vote against the Scheme at the meeting) and, to the extent of any inconsistency and as permitted by law, overrides the constitution of the Target.

6.2 Agreement by Scheme Shareholders

Each Scheme Shareholder (and, in respect of clause 6.2(d) only, the Sale Agent on behalf of all Ineligible Shareholders) irrevocably:

- (a) agrees to transfer its Scheme Shares, together with all rights and entitlements attaching to those Scheme Shares to the Bidder in accordance with this Scheme;
- (b) agrees to any variation, cancellation or modification (if any) of the rights attached to its Scheme Shares constituted by or resulting from this Scheme;
- (c) agrees to, on the direction of the Bidder, destroy any share certificates or holding statement relating to their Scheme Shares;
- (d) agrees to become a member of the Bidder and to be bound by the terms of the Bidder Constitution (where the Scheme Shareholder will be issued Consideration Shares); and
- (e) acknowledges and agrees that this Scheme binds the Target and all Scheme Shareholders (including those who do not attend the Scheme Meeting and those who do not vote, or vote against this Scheme, at the Scheme Meeting).

For personal use only

6.3 **Warranties by Scheme Shareholders**

- (a) Each Scheme Shareholder is deemed to have warranted to the Target and the Bidder, and to have appointed and authorised the Target as its attorney and agent to warrant to the Bidder on the Implementation Date, that:
- (i) all their Scheme Shares (including any rights and entitlements attaching to those Scheme Shares) will, at the date of transfer of them to the Bidder pursuant to the Scheme, be fully paid and free from all Encumbrances, third party interests (whether legal or equitable) or restrictions on transfer of any kind;
 - (ii) they have full power and capacity to sell and to transfer their Scheme Shares (including any rights and entitlements attaching to those Scheme Shares) to the Bidder under the Scheme; and
 - (iii) they have no existing right to be issued any Target Shares or other securities in the Target.
- (b) The Target undertakes to provide each such warranty to the Bidder as agent and attorney of each Scheme Shareholder.

6.4 **Title to and rights in Scheme Shares**

To the extent permitted by law, the Scheme Shares (including all rights and entitlements attaching to the Scheme Shares) transferred under this Scheme to the Bidder will, at the time of transfer of them to the Bidder, vest in the Bidder free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise and free from any restrictions on transfer of any kind.

6.5 **Pending registration of transfers**

Immediately upon the provision of the Scheme Consideration to each Scheme Shareholder or the Sale Agent (as applicable) in the manner contemplated by clauses 4.1(a) and 4.4, and until the Target registers the Bidder as the holder of all Scheme Shares in the Target Register:

- (a) the Bidder will be beneficially entitled to the Scheme Shares transferred to it under this Scheme;
- (b) each Scheme Shareholder is deemed to have irrevocably appointed the Bidder as attorney and agent (and directed the Bidder in each capacity) to appoint any director, officer, secretary or agent nominated by the Bidder as its sole proxy and, where appropriate, its corporate representative, to attend the meetings of holders of Target Shares, exercise the votes attached to the Scheme Shares registered in their name and sign any resolution of holders of Target Shares (and each Scheme Shareholder acknowledges and agrees that as a result of each appointment they must not themselves attend or vote at any meetings or sign any resolution whether in person, electronically or by proxy or corporate representative);
- (c) each Scheme Shareholder must take all other action in the capacity of a registered holder of Scheme Shares as the Bidder reasonably directs; and
- (d) each Scheme Shareholder acknowledges and agrees that in exercising the powers referred to in this clause 6.5, the Bidder and any director, officer, secretary or agent nominated by the Bidder under clause 6.5 may act in the best interests of the Bidder as the intended registered holder of Scheme Shares.

6.6 *Authority to Target*

- (a) Each Scheme Shareholder, without the need for any further act, irrevocably appoints the Target and each of its directors and officers (jointly, severally or jointly and severally) as its agent and attorney for the purpose of:
- (i) executing any document or doing any other act necessary, expedient or desirable to give effect to the terms of this Scheme and the transactions contemplated by it including (without limitation) the execution and provision of the Scheme Transfer;
 - (ii) executing and delivering any deed or document required by the Target or the Bidder, that causes each Scheme Shareholder to become a shareholder of Bidder and to be bound by the Bidder Constitution; and
 - (iii) enforcing the Deed Poll against the Bidder,
- and the Target accepts each such appointment. The Target as attorney and agent of each Scheme Shareholder may sub-delegate its functions, authorities or powers under this clause 6.6 to all or any of its directors and officers (jointly, severally or jointly and severally).
- (b) The Target undertakes in favour of each Scheme Shareholder that it will enforce the Deed Poll against the Bidder on behalf of and as agent and attorney for each Scheme Shareholder.

6.7 *Instructions and elections*

If not prohibited by law (and including where permitted or facilitated by relief granted by a Governmental Agency), all instructions, notifications or elections by a Scheme Shareholder to the Target that are binding or deemed binding between the Scheme Shareholder and the Target relating to the Target or the Scheme Shares, including instructions, notifications or elections relating to:

- (a) whether dividends are to be paid by cheque or into a specific bank account;
- (b) payments of dividends on Scheme Shares; and
- (c) notices or other communications from the Target (including by email),

will be deemed from the Implementation Date (except to the extent determined otherwise by the Bidder in its sole discretion), by reason of this Scheme, to be made by the Scheme Shareholder to the Bidder and to be a binding instruction, notification or election to, and accepted by, the Bidder in respect of the Consideration Shares issued to that Scheme Shareholder until that instruction, notification or election is revoked or amended in writing addressed to the Bidder at the Bidder Registry.

6.8 *Amendments to the Scheme*

If the Court proposes to approve the Scheme subject to any alterations or conditions:

- (a) the Target may consent on behalf of all persons concerned, by its counsel or solicitors, to those alterations or conditions to which the Bidder has provided its prior written consent; and
- (b) each Scheme Shareholder agrees to any such alterations or conditions which the Target has consented to.

7 General

7.1 Stamp duty

The Bidder must:

- (a) pay all stamp duty (if any) and any related fines and penalties payable in connection with the transfer of the Scheme Shares under this Scheme; and
- (b) indemnify each Scheme Shareholder against any liability incurred by the Scheme Shareholder arising from the Bidder's failure to comply with clause 7.1.

7.2 Indemnities

Unless this document provides otherwise:

- (a) each indemnity in this document is a continuing obligation, separate and independent from the other obligations of the parties, and survives termination, completion or expiration of this document;
- (b) it is not necessary for a person to incur expense or make any payment before enforcing a right of indemnity conferred by this document; and
- (c) the making of a claim by a person under an indemnity contained in this document in respect of a particular event does not preclude that person from subsequently making further claims under that indemnity in respect of the same event.

7.3 Further assurance

Each Scheme Shareholder and the Target will execute all documents and do all acts and things as may be necessary or desirable to give full effect to the Scheme and the transactions contemplated by it.

7.4 Consent

Each of the Scheme Shareholders consents to the Target doing all acts and things as may be necessary or desirable to give full effect to the Scheme and the transactions contemplated by it.

7.5 Notices

- (a) If a notice, transfer, transmission application, direction or other communication referred to in this Scheme is sent by post to the Target, it will not be taken to be received in the ordinary course of post or on a date and time other than the date and time (if any) on which it is actually received at the registered office of the Target.
- (b) The accidental omission to give notice of the Scheme Meeting or the non-receipt of such notice by a Target Shareholder will not, unless so ordered by the Court, invalidate the Scheme Meeting or the proceedings of the Scheme Meeting.

7.6 Governing law and jurisdiction

This document is governed by the laws of Western Australia. Each party irrevocably submits to the non-exclusive jurisdiction of the courts of Western Australia, and Commonwealth courts having jurisdiction in that place and waives any right to object to proceedings being brought in those courts on the basis that proceedings have been brought in an inconvenient forum.

7.7 No liability when acting in good faith

Each Scheme Shareholder agrees that none of the Target, the Bidder nor any director, officer, secretary or employee of Target or the Bidder shall be liable for anything done or omitted to be done in the performance of this Scheme or the Deed Poll in good faith.

Target has the meaning given in Recital A.

Terms defined in the Scheme have the same meaning when used in this document unless the context requires otherwise.

1.2 Interpretation

Clause 1.2 of the Scheme applies to this document.

This document and the obligations of the Bidder under clause 4 are subject to the Scheme becoming Effective.

3.2 *Termination*

3.3 *Consequences of termination*

If this document is terminated under clause 3.2, then in addition and without prejudice to any other available rights, powers or remedies:

- (b) each Scheme Shareholder retains the rights they have against the Bidder in respect of any breach of this document by the Bidder which occurs before this document is terminated.

4 Payment of Scheme Consideration and performance of Scheme steps

4.1 *Compliance with Scheme*

Subject to clause 3, the Bidder undertakes in favour of each Scheme Shareholder to:

- (a) provide, or procure the provision of, the Scheme Consideration to the Scheme Shareholders in accordance with clause 5 of the Scheme; and

For personal use only

 - (ii) the constitution or equivalent constituent documents of it or any of its Related Bodies Corporate; and
- (f) **(Insolvency Event)** it is not affected by any Insolvency Event.

7.1 *How to give notices*

The place of receipt of an email is the address of the recipient contemplated by clause 7.1(b).

8 Governing law and jurisdiction

This document is governed by the laws of Western Australia. - (b) Any purported dealing in contravention of clause 9.4(a) is invalid.

9.5 **Waiver**

A person waives a right under this document only by written notice that it waives that right. A waiver is limited to the specific instance to which it relates and to the specific purpose for which it is given. No other conduct of any person (including a failure to exercise, or delay in exercising, a right) operates as a waiver of a right or otherwise prevents the exercise of a right.

9.6 **Remedies cumulative**

The rights, powers and remedies of the Bidder and the Scheme Shareholders under this document are in addition to and do not exclude the rights, powers or remedies provided by law or equity or by any agreement.
