Non-Executive Chairman Chris Gale commented:

“We are delighted to welcome Mitch Thomas to Solis Minerals. Mitch has a proven track record of supporting early-stage and large-scale mining projects in South America to deliver shareholder value. We are very excited about the extensive drilling campaign in 2025 that will take place across our copper-rich tenement package in southern Peru. We are confident that Mitch, Mike Parker and the whole Solis team, will position Solis Minerals for success in 2025 and beyond.”

We also thank Mike Parker for his leadership over the past six months and for accepting the position of Technical Director in Peru. The extensive work in identifying drill-ready targets and adding more tenements to our now 66kha tenement package in southern Peru has placed Solis Minerals in a commanding position in what is one of the most attractive copper provinces globally.”
