- **Sales revenue** has more than doubled driven by continued increases in work on hand and corresponding speed of project execution
- **Total expenses** increase was largely driven by higher employee benefits and mirrors the constantly changing mix of work and associated operational requirements
- **Fixed cost base** able to support in excess of \$300 million in revenue
- **EBITDA** increased by 227.7% from \$2,992,762 in 1H24 to \$9,807,474 in 1H25
- **EBIT** increased by 297.2% from \$2,130,710 in 1H24 to \$8,463,794
- **PBT margin** exceeded 7% due to the scale benefits of a higher workload. It is the targeted, sustainable margin level ongoing for the business
- **Inaugural interim dividend** has been declared, fully franked, to be paid on 4 April 2025

1H25 cash and debt analysis

Cash flows from ops (\$M)

Cash on hand (\$M)

Working capital (\$M)

Return on cap employed (%)

Debt (\$M)

- Current
- Non-current

Trade & other payables (\$M)

- Unearned revenue/contract liabilities
- Accrued expenses & other payables
- Trade payables

- Operating cash flows have increased 5x on pcp
- Working capital has doubled over pcp, supporting the continuing rapid work on hand and revenue growth
- Return on capital employed has increased due to the increase in after-tax profit, despite a doubling of assets
- Debt levels have remained at zero, with the business generating sufficient cash to fund its continually burgeoning work on hand position without requiring external capital
- Trade and other payables has grown by 22.4% over 2H24, due to a 130.7% increase in contract liabilities resulting from higher work on hand. Despite the increasing cash balances, trade payables has decreased by 38.7% since 30 June 2024

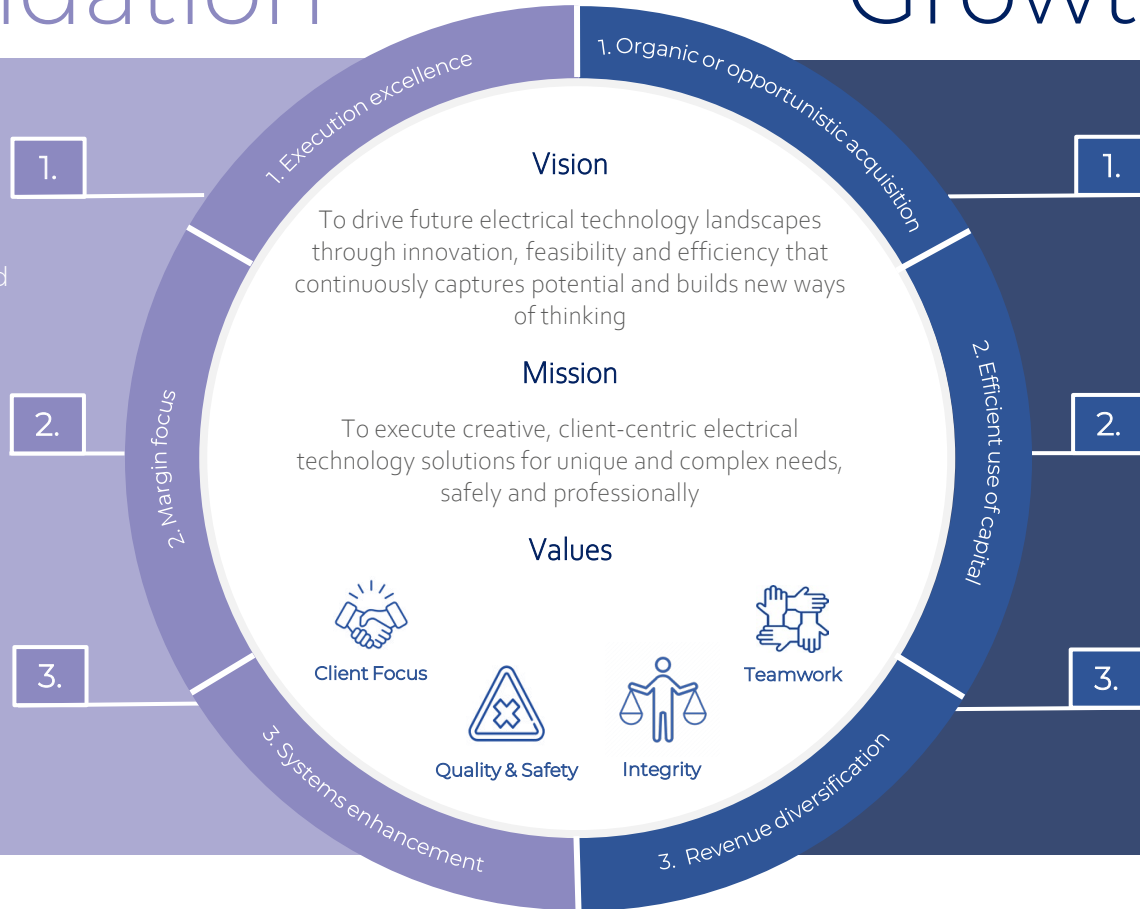

Dual strategic focus

The priority is to embed an increasingly sophisticated operating base to support continuing rapid levels of planned organic growth.

Consolidation

Growth

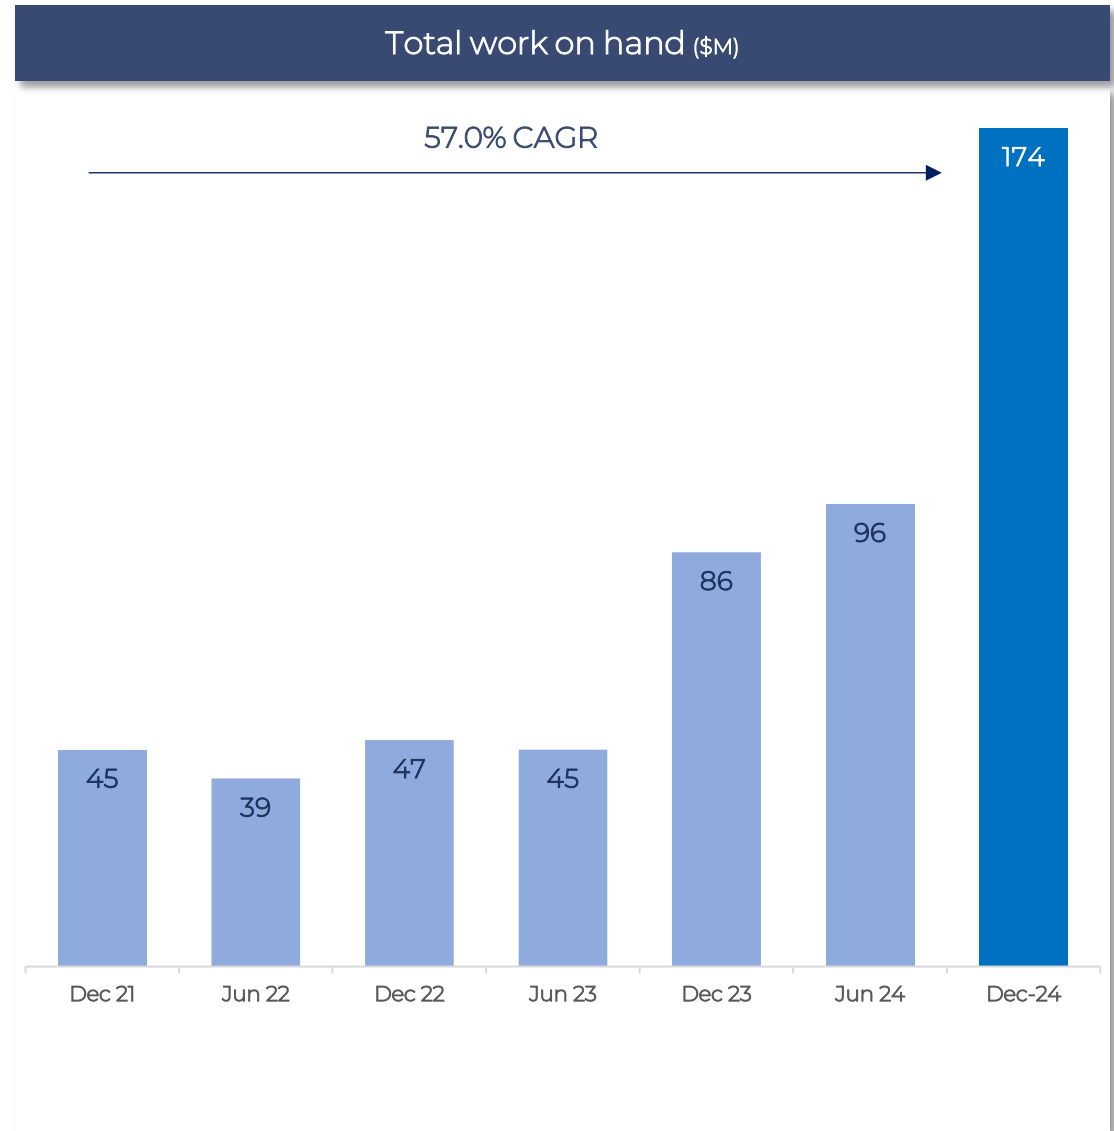

- Focus on recruiting the right people
- Providing training programs for employees that foster attitudinal excellence
- Seek feedback from customers during and upon completion of projects
- Ensure margins are maintained despite continuing rapid increase in market share
- Manage cost base to support growing operating platform
- Invest in IT systems to support growth
- Build the operating framework to sustain a higher level of operating activity
- Continue to enhance the SKS Technologies safety culture

- Pursue core growth organically
- Assess opportunistic acquisitions for fit
- Anticipate market demand and direction
- Rigorous analysis of investment options
- Constant eye on future capital needs
- Build state-based customer accounts into national accounts
- Focus on growth across all market sectors

Data taken as at 31 December 2025

Australian data centre growth and trends

Forecast growth

Market size

- Current market valuation approx \$7.1B
- Expected to grow to ~\$40B by 2030

1.

Power capacity

- Current capacity estimated at 1,180MW
- Expected to almost double at approx 13.35% annually to 4,070MW by 2030

2.

Co-location services market

- Revenue is expected to grow from \$4B in 2025 to an estimated \$8.4B in 2030 at an annual rate of approx. 16.3%

3.

Data centre construction market

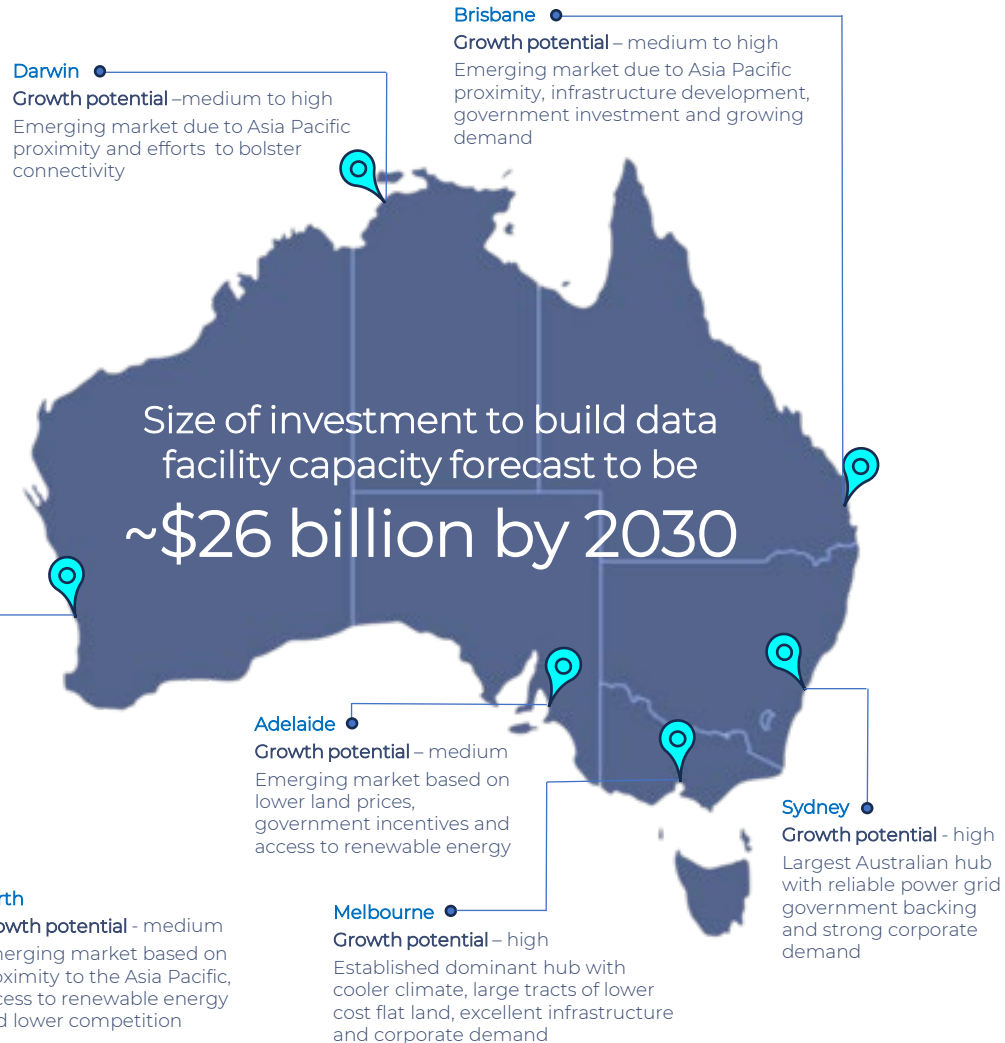

- Investment in data centres expected to rise to \$26B by 2030

4.

Storage capacity

- While difficult to estimate, based on the current 1,350MW of storage, capacity is expected to increase to 3,100MW by 2030

5.

Market trends

Investment and competition

- Increased foreign investment from global tech companies.
- Rising competition and market consolidation

1.

Infrastructure development

- Expansion of renewable energy and sustainability initiatives
- Development of smart cities and 5G infrastructure

2.

Cyber security and regulation

- Strengthening cybersecurity and data sovereignty (which Australia does well)
- Complex regulations globally position Australia well re data privacy, etc

3.

Employment and resources growth

- Growth in IT and engineering sectors – electrical engineering, IT management & construction
- Increased land and power demand

4.

Technological development

- Growth in digital economy and cloud services
- Expansion of AI, IoT and big data analytics

5.

Unabating pipeline of opportunities

With the advantages of Australia as a location for large global tech companies to build data centres, the level of work in that sector has ballooned. In line with that growth, SKS's tender pipeline has tripled since FY24 results report to the market, from \$117.5 million to \$334.8 million.

However, the focus remains on winning work across all market sectors.

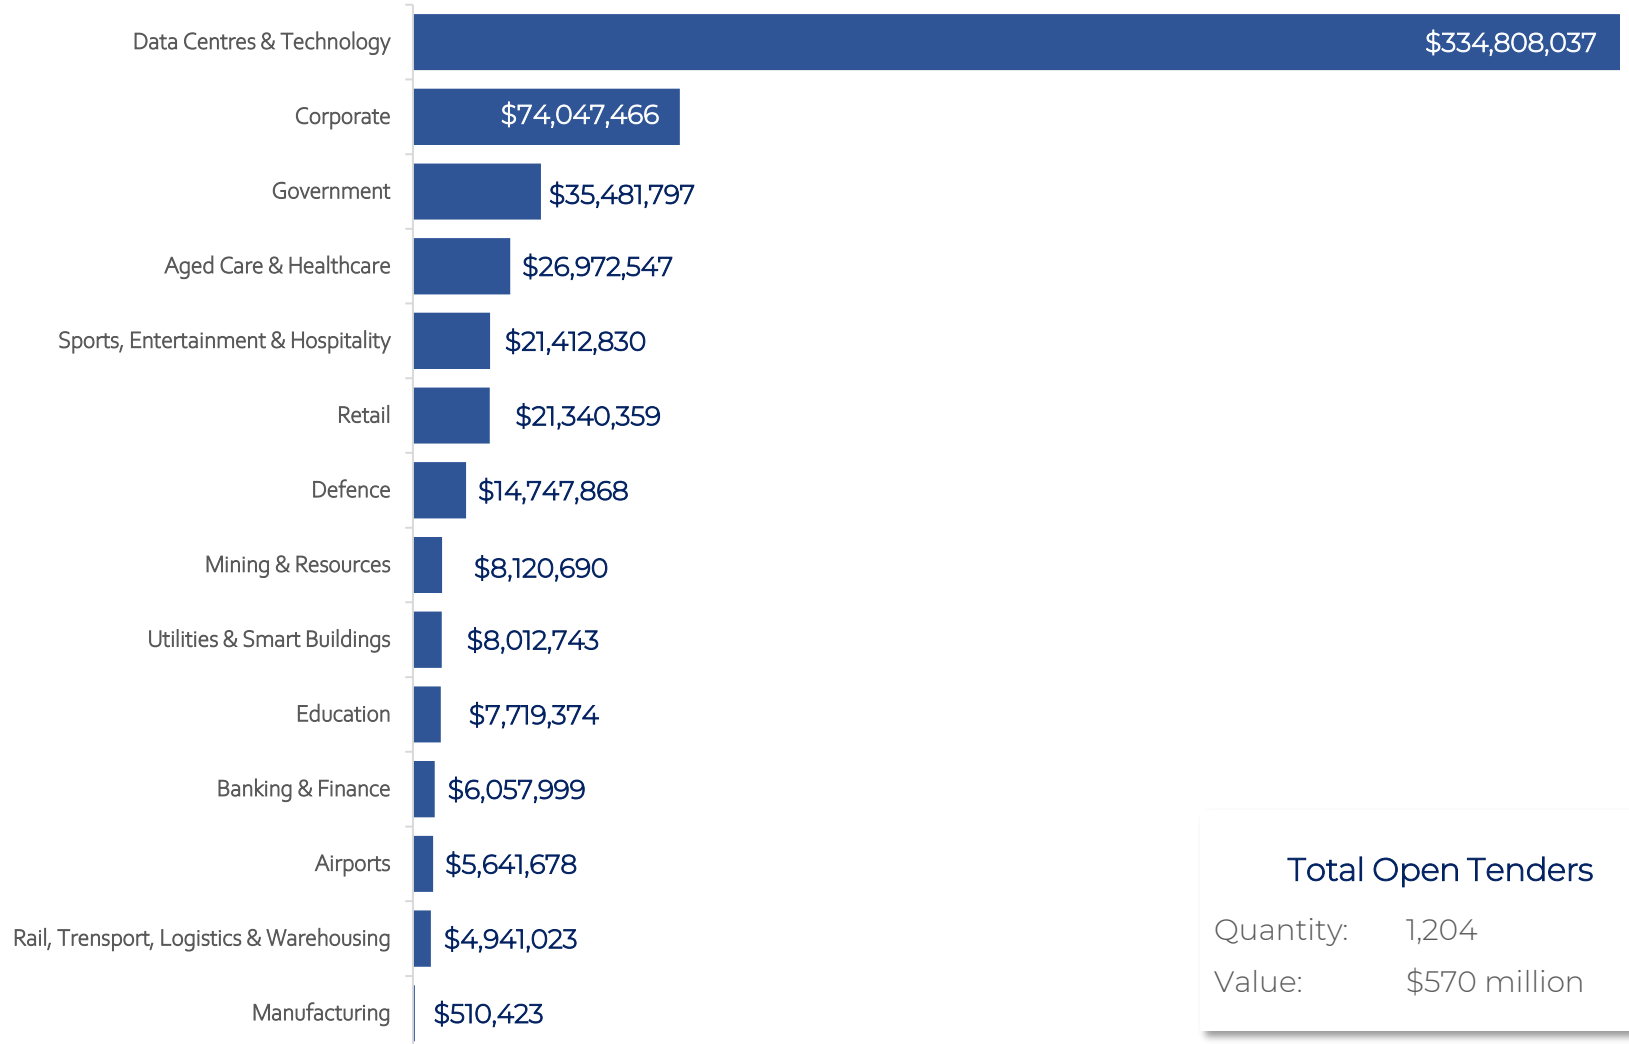

The pipeline of work in the defence sector has increased by over 2.5 times since August 2024.

Other pipeline increases since August 2024 include:

aged care and healthcare - from \$1.9 million to \$27.0 million

retail – from \$6.2 million to \$21.3 million.

Data taken as at 7 February 2025
