The first half of FY25 was another six months of solid and consistent progress towards the Company's goal of sustainable and profitable growth. Sales for the period were \$9.2m representing a 26% growth over the Prior Corresponding Period (PCP) sales of \$7.3m. This sales growth was broad based with all regions performing well, demonstrating the benefits of diversified growth, especially in the key priority markets.

The Company is maturing very well as it transitions from a technically strong research and development focused company with unique engineering skills, to one that is also very customer oriented with outstanding sales and marketing capabilities. CleanSpace has established a clear and proven go-to-market model which enables strong relationships with its distribution partners that serve its key customers. The benefits of this model are already beginning to show in the sales results, and the Board is confident that this is just the beginning of the Company's global growth journey.

Innovation is also key to CleanSpace's success. In 2024, the Company launched CS WORK to extend its portfolio of innovative market leading respirators. To date, CS WORK has sold over 2,200 units in Europe and Australia within eight months of launch, and launch in the US is anticipated in H2 with Japan later in 2025. The Company has further new product developments in the pipeline which are expected to fuel further market penetration and growth in future years. The IP and patents that the Company holds offer multiple and varied new product development opportunities over the medium term.

Operating EBITDA for H1 was a small loss of \$0.4m, representing a significant \$2.1m improvement versus the PCP. This was mainly driven by the sales growth but also a gross margin increase from 71% (PCP) to 74% and a reduction in operating expenses of 6% versus the PCP. The Company has delivered further cost efficiencies in both cost of goods and expenses, as well as some benefits from greater economies of scale which together provided additional profit and loss leverage. The \$0.4m loss includes over \$0.350m of one-off costs related to personnel exits and hiring costs, including the new CEO. Excluding these one-off costs, operating expense costs were 10% lower than the PCP.

Directors' Report

For the half-year ended 31 December 2024

Review of operations (cont.)

Cash at bank is a healthy \$8.3m (30 June 2024: \$9.8m). The difference in cash reduction versus the EBITDA loss of \$0.4m is due to some annual or one-off payments made in H1 (for example insurance premiums and FY24 bonuses), and higher debtors due to higher sales, offset by lower inventory. In addition, the research and development tax rebate of \$1m is expected to be received in H2.

Sales Highlights

CleanSpace's strategy is delivering as planned: focusing on industrial sales growth in major markets; true product innovation; and developing outstanding sales and marketing capabilities. Sales into the healthcare sector will be mainly limited to supporting ongoing consumables purchases from existing customers and opportunistic respirator business. Most of the business is in the six priority countries where all our resources are deployed, although the Company sold into 29 countries in H1 FY25.

Sales in Europe continue to provide the largest contribution at \$5.4m. Asia Pacific region has been expanded to include the rest of the world outside Europe and North America, reflecting occasional but meaningful sales in non-priority countries. The North American market contributed \$1.2m in the first half and is an area of future growth for the Company.

By sector, Industrial represents 98% of sales, consistent with the PCP. Consumables continue to represent approximately half of total sales (47%), consistent with the PCP. It is anticipated that, over time, consumable sales will grow moderately faster than respirator sales as new products being launched now begin to expand the install base and drive more consumable usage.

Europe (sales \$5.4m, +11% v PCP)

Another solid performance in Europe led by the UK (+44%) and Nordics (+28%). Sales in France for H1 grew a modest 2% due to the impact of the Olympics in July and August. France remains the largest country by sales.

Asia Pacific and Rest of World (sales \$2.6m, +69% v PCP)

The Asia expansion strategy has been slower to implement than was expected, but sales for H1 were \$400k higher than the low PCP base. Australia continued solid growth momentum at 8% v PCP and is the second largest country by sales for the Company.

North America (sales \$1.2m, +31% v PCP)

Actions were taken in the first half to align the US business to the Company's industrial markets strategy. As a result, the US business had a complete personnel change which was mostly finalised in December. The new team brings deep industrial experience to the Company. In the context of this change, H1 results are very promising. In addition, CS WORK will launch in H2.

Review of operations (cont.)

Organisation

The Company has continued to strengthen in H1. In particular, CleanSpace welcomes the appointment of Gabrielle O'Carroll as CEO effective 1 January 2025. Previous CEO, Graham McLean, has transitioned to the role of Chair, replacing Bruce Rathie who retired in November 2024. The Company thanks Bruce for his service to CleanSpace over the last three years.

Operating expenses

Operating expenses of \$7.2m were 6% below the PCP, primarily due to further cost efficiencies and greater economies of scale.

Operating expenses consist of:

	31 Dec 2024 \$	31 Dec 2023 \$	Change %
Employee benefits and staff related expenses (excluding share-based payments)	4,799,012	4,699,842	(2%)
Marketing and sales expenses	391,428	881,761	56%
Research, development and intellectual property expenses	310,686	318,114	2%
Other operating expenses (excluding depreciation, amortisation and impairment)	1,779,194	1,825,685	3%
Total	7,280,320	7,725,402	6%

Marketing and Sales expenses were lower due to reduced legacy healthcare warranty costs and a realignment of some sales agent networks which reduced commission costs. Underlying marketing investments remained consistent with the PCP and were targeted to priority markets.

Financial position

The following table provides a snapshot of important balances from the Group's statement of financial position as at 31 December 2024:

Payables	1,742,959	2,041,235	(15%)
Net assets	18,968,260	19,102,010	(1%)

The cash position at 31 December 2024 was \$8.3m. This is a reduction of \$1.5m from 30 June 2024 and a reduction of \$1.8m versus 31 December 2023.

The agreements (a lease and sublease) were entered into in August 2020 and are for a term of 5 years, with options to extend. The leases have various escalation clauses. On renewal, the terms of the leases are to be on the same general terms. The entry into these leases created a Right-of-use Asset of \$2,382,764 and a corresponding Lease Liability of the same value in August 2020.

In line with the requirements of AASB 16 Leases, the Right-of-use Asset has been depreciated and the lease payments have been allocated between the Lease Liability and finance costs. Refer to Note 9 for Lease Liability balances.

Independent Auditor's Review Report

For the half-year ended 31 December 2024

Auditor's Responsibility for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001. As the auditor of CleanSpace Holdings Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
