PRINCIPAL ACTIVITIES

Botanix Pharmaceuticals Limited (ASX:BOT) is a clinical dermatology company based in Philadelphia and Phoenix (US) which markets *Sofdra*[®] (sofpironium) topical gel, 12.45%. *Sofdra* is the first and only new chemical entity approved by FDA to treat primary axillary hyperhidrosis, the third largest dermatology condition (after acne and atopic dermatitis), which impacts approximately 10 million patients in the US.¹ The disproportionate sweat production that characterises hyperhidrosis, results in a disabling medical condition with profound effects on the patient's quality of life.²

RESULTS

The Group incurred a net loss after income tax for the six months ended 31 December 2024 of \$30,888,119 (2023: loss of \$5,467,164) as a result of the ramp up to selling *Sofdra*. During the half year, Botanix incurred expenses of \$8,862,001 (2023: \$nil) for product sales and marketing initiatives, \$6,077,332 of employee costs (2023: \$1,399,513) including salaries of its sales force employees, and ended the period with capitalised costs of \$17,078,096 in product inventory (30 June 2024: \$1,209,374) to meet anticipated demand. Included in the loss is \$10,593,334 of non-cash share based payments expense (31 December 2023: \$1,493,222).

Botanix earned \$1,182,311 (2023: \$41,559) of interest income on its significant cash holdings throughout the half-year period and continued to earn royalties from sales of sofpironium bromide in Japan by its partner Kaken. During the half-year period, the Group recognised \$345,673 in net royalty revenues (2023: \$377,930 in net royalty revenues).

REVIEW OF OPERATIONS AND RESULTS

OPERATIONS

Overview

The six-month reporting period ending on 31 December 2024 (H1 FY24), reflected a number of important milestones for Botanix, with the approval of *Sofdra* on June 18, 2024, followed by the first prescriptions for *Sofdra* being issued as part of the Patient Experience Program in December, and subsequent first refills being provided to patients. All of the patients in the patient experience program who received prescriptions successfully utilised the telehealth platform and received both their initial prescriptions and refills directly to their residences. Successful clearance of relevant payer requirements and frictionless buy down of the patients' monthly co-pay (or gap payment), also meant that 100% of patients received their refills in January, proving up the telehealth and closed fulfilment system in advance of full commercial launch.

The period also provided confirmation that prescriptions representing all the targeted payers were handled in accordance with the negotiated terms, meaning that no additional requirements were imposed for insurance approval, and where proof of diagnosis (or having tried *Drysol*® or its equivalent) was required – this information was seamlessly provided to the payer and cleared relevant approvals.

Sales infrastructure and territory managers in the field

During the period, Botanix's broader preparations for the full commercial launch of *Sofdra* were finalized, with the engagement of all regional managers, territory managers and marketing support positions as well as development of sales and marketing materials for field launch. Botanix has now engaged 27 territory managers (sales professionals), including some of the most credentialed individuals in the dermatology industry, with 79 'President Club' wins (awarded to the top 10% of sales professionals annually) between them. Extensive online and in person

BOTANIX PHARMACEUTICALS LIMITED

ACN: 009 109 755

training has now been completed, utilizing the newly prepared and approved sales support materials, and this training has recently been certified at the Company's first national sales meeting just completed on 30 January at our offices in Phoenix, Arizona.

Botanix's highly motivated sales representatives are now calling on dermatologists, to commence educating physicians and driving prescriptions, as part of the full commercial launch of *Sofdra*. They are equipped with interactive tablet-based explainers and supported by a new full product website and telehealth and patient facing pharmacy portal.

With less than 10 employees and contractors at the time of *Sofdra* approval in June 2024, the Botanix team has now grown to 25 (not including the territory managers who formally joined us in early January). Drawing talent from leading dermatology and specialty pharmaceutical companies in the USA with an average of over 20 years' experience, the Botanix team is now fully staffed and ready to accelerate prescriptions and revenue.

Knowledge gained from the *Sofdra* Patient Experience Program, created in collaboration with the International Hyperhidrosis Society, has provided valuable feedback from early patient access to *Sofdra*. The program has now ended and these (now) commercial users of the product, have provided actionable feedback regarding the telemedicine and fulfillment experience that Botanix has used to refine its processes ahead of the broader launch to significantly larger volumes of patients in Q1 CY2025.

Commercial infrastructure and payers

The Botanix team has also extended its manufacturing activities to ensure that sufficient inventories of Sofpironium Bromide drug, *Sofdra* bottles, applicators and other materials were made available to cover anticipated demand and able to be flexed to accommodate any accelerations in sales forecasts. The Company has now successfully completed multiple manufacturing campaigns, and has bottled and packaged finished product at our partner manufacturing facility at CPL, as well as successfully utilised the logistics infrastructure responsible for transport, warehousing and supply to our pharmacy network, SendRx. Data infrastructure, pharmacy and telemedicine systems have also been integrated and tested, and first refills have been provided to the Patient Experience Program participants in advance of full commercial launch this quarter.

Botanix has also finalised contractual terms with all the key US commercial payers, which reflect the target financial and patient access restrictions previously discussed with them and as communicated to shareholders. The restrictions require a simple confirmation of diagnosis for primary axillary hyperhidrosis as per the label, and that the patient has tried aluminum chloride as a prior therapy, with some only requiring simply the confirmation of diagnosis. These payers represent 167 million commercial lives who will be accessible for the full launch of *Sofdra* this half.

BOTANIX PHARMACEUTICALS LIMITED

ACN: 009 109 755

Botanix has also now completed all legal requirements for US government payer programs, with the consequence that from March 2025, *Sofdra* will be also government reimbursed for approximately 80 million additional government insured lives.

Following first prescriptions from the Patient Experience Program in December (which have provided first modest revenues from *Sofdra*), Botanix expects that Q1 CY2025 will represent the first commercial revenue quarter, with 100% of refills from those first prescriptions already being successfully filled.

With the sales team in the field since the beginning of February, the launch is progressing on plan and the digital program is on track to launch in March, with full social and paid media outreach amongst other workstreams. We expect that Q2 CY2025 will reflect a ramp on the Q1 revenue run rate, with the full deployment of both direct and digital sales channels.

As the Company moves into full commercialisation for *Sofdra*, we will leverage our data infrastructure to also report leading indicators for prescription performance and refills, that ultimately drive revenue from quarter to quarter, such as:

- refill rate performance;
- patient satisfaction metrics, including ship times and efficiency of the telehealth/fulfilment platform;
- performance of digital media spend, reach and conversion; and
- physician and patient feedback and cycle times.

Following the success of the Company's commercial update briefings in 2024, Botanix also plans to speak to these indicators in new quarterly investor briefings this year, following lodgement of each quarterly report.

Details to the performance hurdles and valuation of performance rights issued during the period are as disclosed further in this half-year report. Refer to note 6.

EVENTS SINCE THE END OF THE FINANCIAL PERIOD

On 9 January 2025, the Company issued 12,000,000 performance rights and 31,250,000 options to employees and staff. These instruments were deemed to be granted, for accounting purposes, prior to 31 December 2024 period and therefore accounted for within the 31 December 2024 period or, in the case of 3,000,000 of the options, during the 30 June 2024 period. Refer to Note 6 for details to the 40,250,000 of securities granted during the 31 December 2024 period.

The Auditor’s Independence Declaration is set out on page 9 and forms part of the Directors’ Report for the half year ended 31 December 2024.

Signed in accordance with a resolution of the Directors.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2024

NOTE 1: MATERIAL ACCOUNTING POLICIES

The half-year financial report is a general-purpose financial report prepared in accordance with AASB 134 'Interim Financial Reporting' and the Corporations Act 2001.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated entity. The half-year financial report should be read in conjunction with the annual financial report of Botanix Pharmaceuticals Limited as at 30 June 2024 which was prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards. It is also recommended that the half-year financial report be considered together with any public announcements made by the company during the period 1 July 2024 to the date of this report in accordance with the continuous disclosure obligations of the ASX listing rules.

Basis of Accounting

The half-year financial report has been prepared on the basis of historical cost, except where stated. For the purpose of preparing the half-year financial report, the half-year has been treated as a discrete reporting period.

The half-year financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

The classification of comparative figures has been changed where the change improves the understandability of the financial information.

Going Concern

The financial statements for the period ended 31 December 2024 have been prepared on the basis that the Group is a going concern and therefore, contemplates the continuity of normal business activity, realisation of assets and settlement of liabilities in the normal course of business.

During the period, the Group recorded a net loss after tax of \$30,888,119 (31 December 2023: \$5,467,164). Included in the loss is \$10,593,334 of non-cash share-based payments expense (31 December 2023: \$1,493,222). The Group had a net working capital surplus of \$61,415,331 at 31 December 2024 (30 June 2024: \$79,169,320) and experienced net cash outflows from operating activities for the period of \$30,561,546 (31 December 2023: \$3,760,242). Included in the cash outflows was spend that resulted in an increase in inventories by \$15,869,532 as the Group prepares itself for sales during the second half of the financial year.

NOTES TO THE CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 31 December 2024

NOTE 1: MATERIAL ACCOUNTING POLICIES (continued)

The Group's progress in advancing its *Sofdra* product to achieve target sales volumes includes additional spend, most notably, on inventories and product sales and marketing. The extent of this expenditure and resulting sales, as captured in management's forecasts, are uncertain. These conditions indicate a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and, therefore, that it may be unable to realise its asset and discharge its liabilities in the normal course of business. However, mitigating factors have been identified by the Directors as follows:

- the Group is confident in its ability to complete commercialisation of the product and achieve budgeted sales;
- the Group has the ability to control the timing of significant cash outflows such as major orders of raw materials inventories and marketing spends without adversely impacting the Group's ability to achieve sales targets during the 12-month period from the date of this Report;
- the Group has historically had success in raising capital on the Australian Securities Exchange ("ASX") and the Directors are confident the Group can raise capital on the ASX as and when required; and
- alternative means of financing are becoming available with the Group's launch of *Sofdra* and anticipated sales revenues. The Group is confident that this could be an avenue to finance short-term working capital requirements if needed

The existence and Directors' assessment of these mitigating circumstances have led the Directors to conclude that the Group is a going concern and that it will be able to meet its obligations as and when they fall due for at least 12-months from the date of signing this report. Accordingly, this financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts, or to the amounts and classification of liabilities that might be necessary should the Group not continue as a going concern.

Segment Reporting

Operating segments are reported in a manner that is consistent with the internal reporting provided to the Board of Directors. The Board, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic steering committee.

DIRECTORS' DECLARATION

In the opinion of the Directors of Botanix Pharmaceuticals Limited:

1. The attached financial statements and notes thereto are in accordance with the Corporations Act 2001 including:
 - a) complying with Accounting Standards AASB 134: 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
 - b) giving a true and fair view of the Group's financial position as of 31 December 2024 and of its performance for the half year then ended.
2. There are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

This declaration is signed in accordance with a resolution of the Board of Directors made pursuant to s.303 (5) of the Corporations Act 2001.

On behalf of the board

Vince Ippolito
Executive Chairman
25 February 2025

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Botanix Pharmaceuticals Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Botanix Pharmaceuticals Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2024, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2024 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
