AQUIRIAN LIMITED AND CONTROLLED ENTITIES
DIRECTORS' REPORT

The Directors present their report together with the condensed consolidated financial report of the consolidated entity consisting of Aquirian Limited and the entities it controlled ("the Group"), for the half year ended 31 December 2024 and auditor's report thereon.

Directors

The names of Directors in office at any time during or since the end of the half year are:

Bruce McFadzean – Non-Executive Chairperson

Alexandra Atkins – Non-Executive Director

David Kelly – Executive Director

Gregory Patching – Managing Director

The Directors have been in office since the start of the half year to the date of this report unless otherwise stated.

Principal activities

The principal activities of the Group during the half year were the development of technology and innovative products, provision of energetic products and services, provision of equipment, onsite field services, workforce, and training solutions to the mining and resources industry.

Review of operations

The Group remains focused on the safety and wellbeing of its employees, ESG, quality service provision, and providing real solutions to customers. This half year was significant for the Group as we realigned our business to focus on our strategic pillars of energetics and technology. We reduced our corporate and operating costs in line with this focus and improved our capital management position.

The safe and successful reactivation of the Wubin Emulsion Facility is now delivering value via three (3) revenue streams: tolling, trade sales and storage/handling. Importantly, the facility has achieved an instantaneous rate of over 25 tonnes per hour, providing significant upside for volume growth. We are experiencing strong interest from multiple customers and partners in our offerings.

During the half, Western Energetics Pty Ltd began supplying a combined energetic and technology package to a gold mine in Western Australia. The package includes the delivery of bulk products, initiating systems and Collar Keeper® Systems, which have removed troublesome plastic piping from the customers Crushing and Grinding circuit. This comprehensive supply of our drill technology and energetics underscores the unique value we offer our customers, optimising their blast hole outcomes.

The ongoing development (and intellectual property (IP) protection) of the Collar Keeper® and the Collar Keeper® System technology and innovation remains central to providing clients with 'end-to-end' total quality assurance in blast hole drilling. The adoption rates of our patented Collar Keeper® product have accelerated over the last 6 months, primarily with Owners/Miners who understand the binding link of blast hole quality to their fragmentation inputs for downstream process facilities.

The development of the commercialisation phase of the automated Collar Keeper® System continued in the half. As previously announced, Aquirian Limited (ASX: AQN) has been awarded a \$250,000 matching grant from the Minerals Research Institute of Western Australia (MRIWA) to expedite the development of the automated Collar Keeper® System. This grant from MRIWA will accelerate the product's development and enable the Group to reach the commercialisation stage

by the fourth quarter of FY25, which is in line with our previous guidance. MRIWA's support reflects the broader industry belief that this automated technology will be a step-change for blasthole drilling in wet & difficult environments.

Overall, the Group has performed solidly over the half year. The financials reflect execution of our strategy with the finalised commissioning and commencing manufacturing ramp up at Western Energetics, strong products and technology sales and the manufacturer of energetic storage. This was partly offset by lower demand of the underground fleet. The People Services division performed reasonably, with recruitment experiencing slower demand in the latter half of the year, particularly in the second quarter. Training continued to experience strong demand for classroom services.

Results

The Group's consolidated loss after providing for income tax was \$401,197 (31 December 2023: \$249,000 profit) down 261.1%. This result was primarily related to the ramp-up phase of the Wubin facility (~\$524,000) loss (primarily depreciation and finance costs), lower underground fleet utilisation (~\$380,000) and long service leave provisioning (\$82,418). Allowing for these items, the Group's consolidated profit position would be slightly higher than the previous period.

Total revenue for the half year ended 31 December 2024 was \$13,299,845 (31 December 2023: \$12,144,555) up 9.5%. The increase is primarily related to the Mining Services Division

The Group generated positive cash from operating activities for the half year of \$369,282 (31 December 2023 \$3,603,420). Cash and cash equivalents as at 31 December 2024 was \$3,788,990 (30 June 2024; \$4,732,972). Primarily the cash movement decrease was related to higher accounts receivable balance in Mining Services.

The table below provides a comparison of key results for the half year ended 31 December 2024 to the preceding year:

<i>Statement of Profit and Loss</i>	31 December 2024	31 December 2023

NOTE 8: SHARE BASED PAYMENTS CONTINUED

(b) Performance Rights

The reserve includes the recognition of unvested performance rights for ordinary shares related to the Executive Directors and key management personnel long term incentive (LTI) program. Vesting of the performance rights are dependent upon the satisfaction of the performance hurdles vesting conditions. The above represents the maximum amount of performance rights attainable.

641,320 of the below performance rights were offered to executives, and 1,915,269 of the below performance rights were offered to executive directors of the Group. These performance rights were issued on 26 November 2024.

Date performance rights issued	Number of performance rights granted	Date of performance rights grant	Date of vesting of performance rights
10 February 2023	1,986,546	10 November 2022	30 June 2025
18 January 2024	3,585,266	19 October 2023	30 June 2026
26 November 2024	2,556,589	31 October 2024	30 June 2027

As noted above the performance rights issued on the 10 February 2023 have been adjusted to 0% likelihood of vesting.

Performance rights issued 26 November 2024

The performance rights are subject to two performance hurdles, each of which is measured at the end of the three-year performance period commencing on 1 July 2024 and ending on 30 June 2027.

The performance hurdles are:

- A. 3-year Compound Annual Growth Rate (CAGR) Earnings per Share (EPS) (weighting 50%); and
- B. 3-year CAGR Earnings Before Interest, Taxes, Depreciation and Amortisation (EBITDA) (weighting 50%).

The number of performance rights that vest (if any) is dependent on whether either one or both of the performance hurdles is achieved by the Group at the end of the performance period. The performance hurdles will be assessed independently.

Set out below are the relative percentage of total performance rights under each tranche expected to vest depending upon the results of the Groups' operations:

CAGR over the performance period (1 July 2024– 30 June 2027) ("3 year vesting period")	% of Performance Rights that will vest
Below 15%	NIL
15%	50% (Target)
Between 15% and 25%	Straight line pro-rata vesting between 50% and 100%
At or greater than 25%	100%

NOTE 8: SHARE BASED PAYMENTS CONTINUED

Executive performance rights

The maximum value of executives performance rights is \$123,133 determined with reference to the agreed percentage of each individuals Fixed Annual Remuneration ("FAR"), being 40%. The number of instruments issued has been determined by dividing the volume weighted average price ("VWAP") of ordinary Aquarian Limited shares over the 7 trading days preceding the date upon which both the Group and recipients had agreed a mutual understanding to the terms and conditions of their entitlement under the Plan (VWAP of \$0.192).

In accordance with Australian Accounting Standards, this amount will be expensed proportionally over the 3 year vesting period, in line with the Group's best estimate of the number of performance rights that will eventually vest.

At 31 December 2024, the Group believe it is more probable than not that at least 50% of tranche of performance rights vest at the end of the 3 year vesting period.

A total of \$10,261 has been recognised as a share based payment expense in the statement of profit or loss and other comprehensive income, and the share based payments reserve at 31 December 2024 in relation to the above instruments issued to executives of the Group.

These performance rights were issued on 26 November 2024.

Consistent with the performance rights offered to executives and outlined above, these instruments were issued in two equal tranches requiring at least a 15% CAGR in either EPS or EBITDA during the 3 year vesting period.

The maximum value of the performance rights offered to Mr Gregory Patching was \$157,827 representing 50% of his FAR. The maximum value of the performance rights offered to Mr David Kelly was \$209,905 representing 60% of his FAR. The number of instruments issued has been determined by dividing the volume weighted average price ("VWAP") of ordinary Aquarian Limited shares over the 7 trading days preceding the date upon which both the Group and recipients had agreed a mutual understanding to the terms and conditions of their entitlement under the Plan (VWAP of \$0.192).

In accordance with Australian Accounting Standards, this amount will be expensed proportionally over the 3 year vesting period, in line with the Group's best estimate of the number of performance rights that will eventually vest.

At 31 December 2024, the Group believe it is more probable than not that at least 50% of tranche of performance rights vest at the end of the 3 year vesting period.

**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF AQUIRIAN LIMITED**

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
