February / March 2025

ASX:SYA | OTCQB:SYAXF

Agenda

Introduction

Operational and Financial Performance

Merger Update

Lithium Market and Guidance

Sayona overview

ASX:SYA
OTCQB: SYAXF

Strong operational experience

Lucas Dow – MD & CEO

A highly experienced mining executive, Lucas has a proven track record of outstanding performance across a diverse range of businesses, commodities and geographies, skills which will facilitate Sayona's next stage of growth as a leading North American lithium producer.

Sylvain Collard – President and COO of Canada

Sylvain is a specialist in mine project management and continuous process improvement, he has extensive experience in operations management for both open pit and underground mines. Sylvain has worked on several IAMGOLD mining projects and has managed copper and gold mines and projects in Québec, Ontario and the United States.

Dougal Elder – CFO

Dougal is a chartered accountant with more than 15 years' experience in large private and publicly owned companies in Australia and the United Kingdom. He has extensive experience in driving budget management, systems implementations, treasury management and strategic initiatives across a range of industries.

A\$254M

24 February 2025

Shares on Issue

11.5 billion

Share consolidation proposed with Piedmont Lithium merger

Cash

A\$110 million

At 31 December 2024

North America's leading producer of hard-rock lithium

North American Lithium Largest NA lithium producer

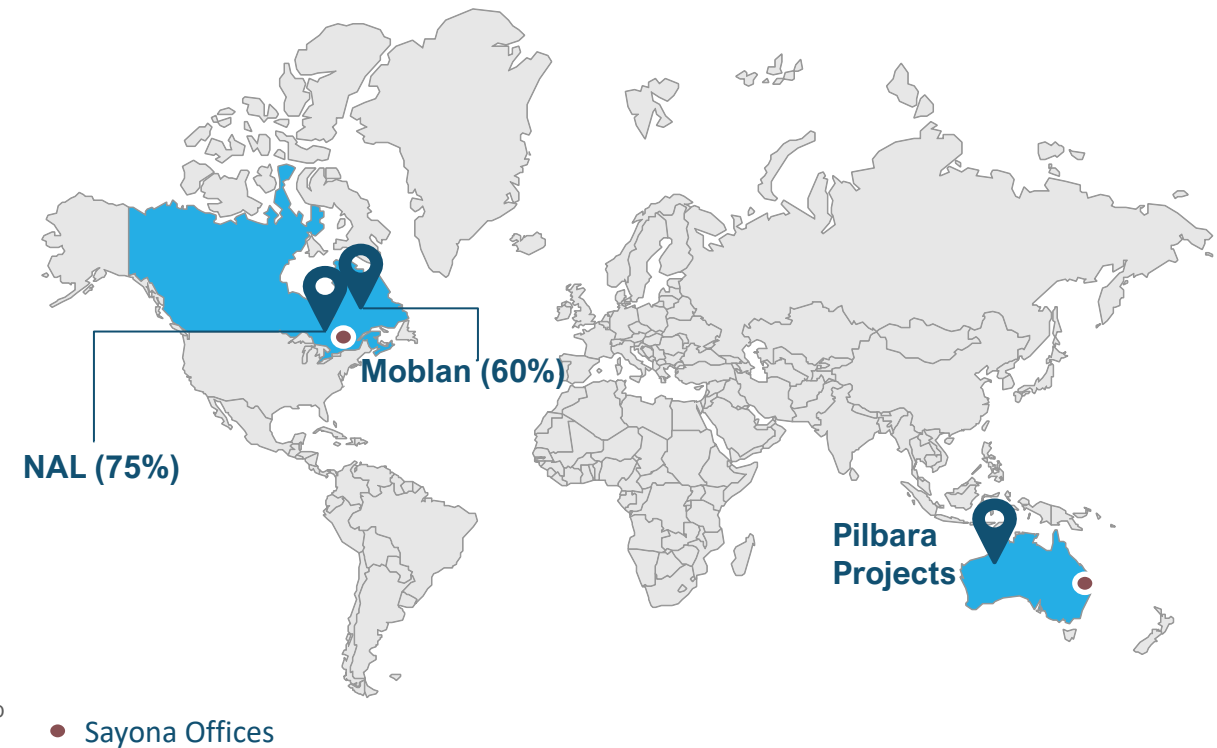

87.9Mt @ 1.13%¹

- Only major North American lithium producer
- Access to low-cost, renewable power and mature infrastructure
- Drilling indicates potential to expand resource
- Planned production capacity 190-210ktpa Li₂O for FY25
- Sayona 75% : Piedmont 25%

Moblan Lithium Project Sayona's next flagship project

93.1Mt @ 1.21%²

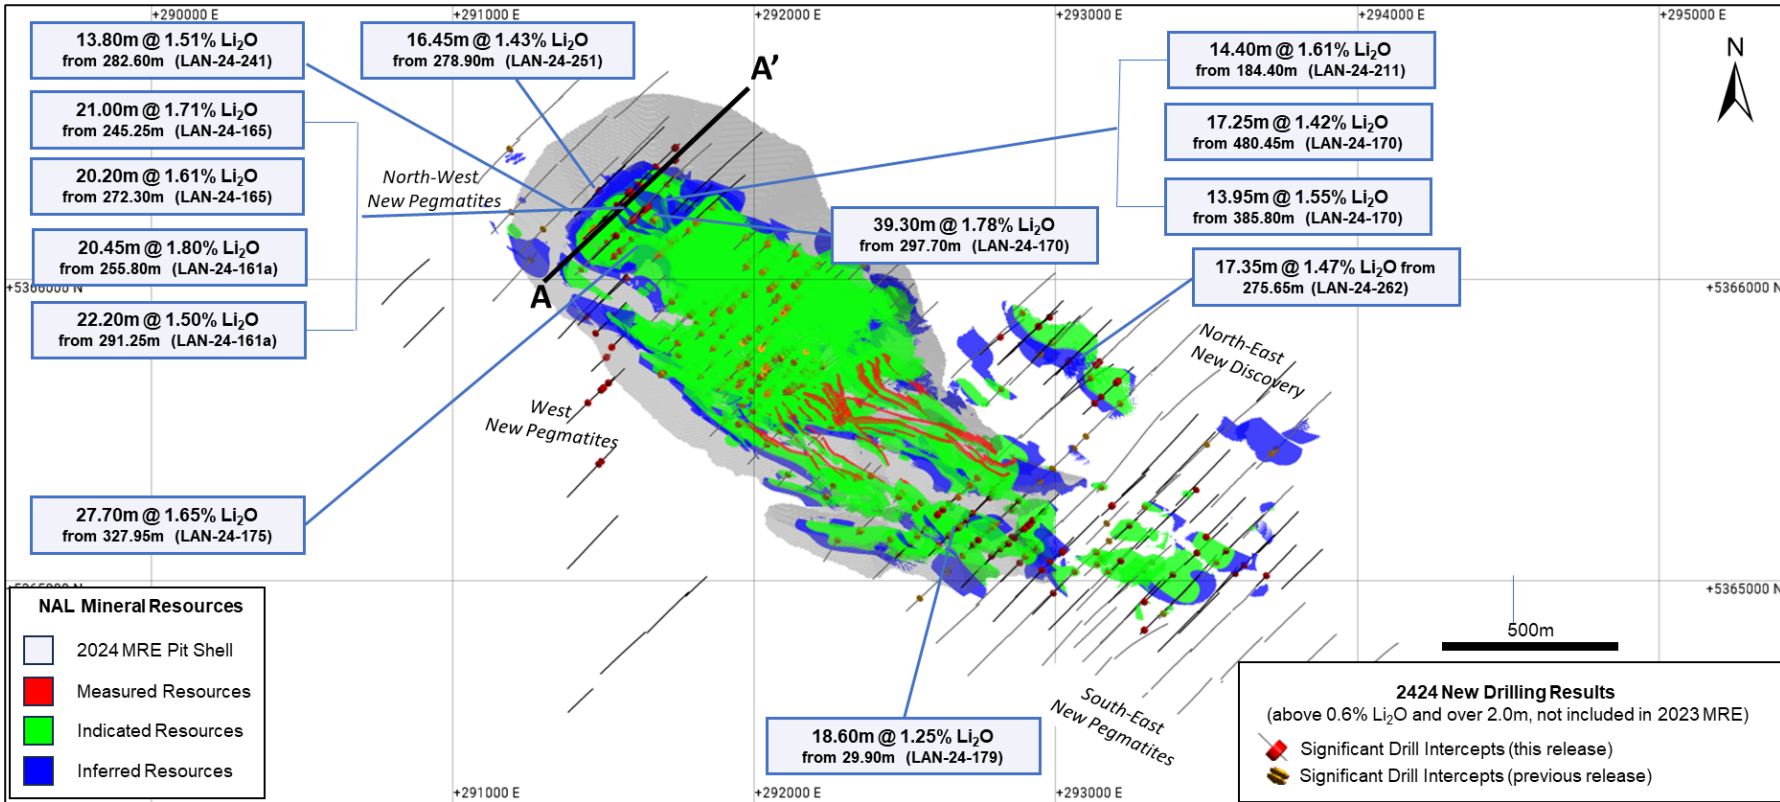

- Emerging hard-rock deposit
- Close to major infrastructure such as roads, power lines and railroads
- Available and trained local workforce
- Drilling indicates potential to expand resource
- Estimated operating unit cost comparable with most competitive hard-rock lithium mines in production
- Sayona 60% : Investissement Quebec 40%

1. Refer to ASX Announcement on 27 August 2024 (at 0.60% cut-off grade) and slide 21.
2. Refer to ASX Announcement on 27 August 2024 (at 0.55% cut-off grade) and slide 21.

North American Lithium

Focused on resource extension and infill for potential JORC category increase

Additional drilling of 53,444m completed in CY24

Supported by utilisation of Flow Through Share funding

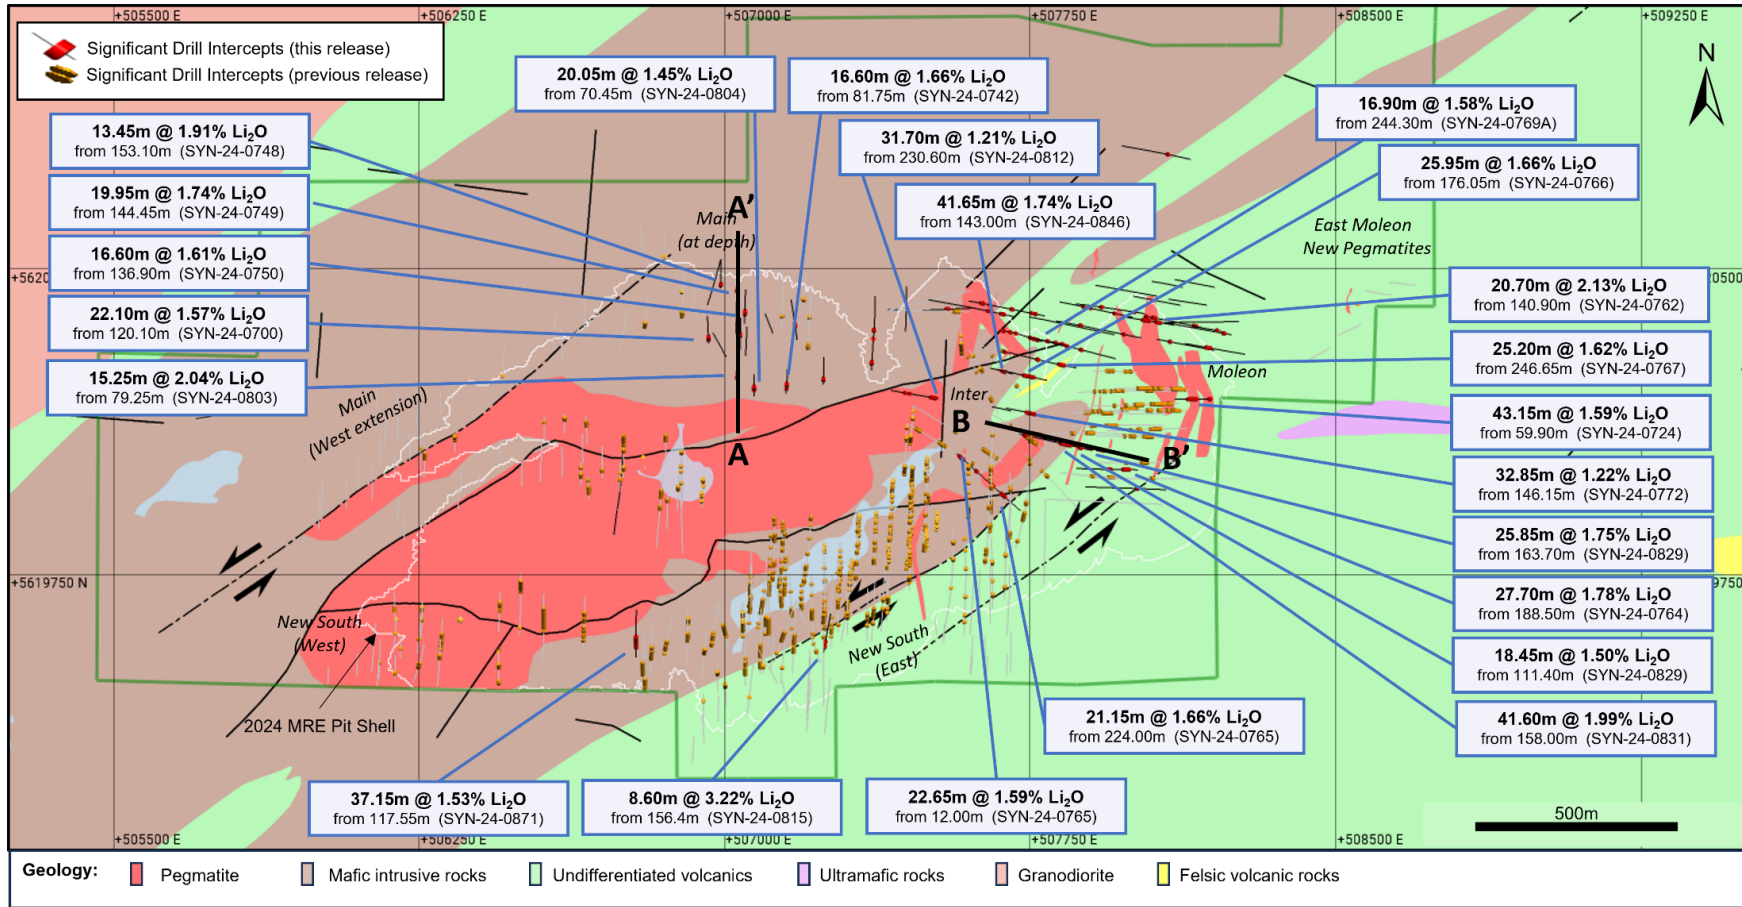

High-grade lithium mineralisation confirmed beyond existing estimates

Supports potential brownfield expansion of NAL

Enhances project value amid the Sayona-Piedmont merger

New MRE to be completed during 2025

Moblan

Focused on resource extension and infill for potential JORC category increase

Additional drilling of 76,202m completed in CY24

Financed by utilisation of Flow Through Share funding

New results confirm Moblan's resource growth potential

Further drill results expected in coming months

New MRE to be completed during 2025

Operational and Financial Performance

FY25 Half Year Highlights¹

North American Lithium achieves consistently strong production

 2. Funded by Flow Through Share funding as allowed under the *Income Tax Act* (Canada).

NAL Operational Performance

Delivering Production in line with budget

- Continued increase in ore mined up 12% against PCP
- Process plant utilisation consistently ~90% with improved plant stability
- Consistent lithium recoveries of 67% which was 7% higher against PCP
- Concentrate production of 103kt was a 57% increase on the prior year
- Sales to customers hit a record 115kt with continuing efficiencies in logistics arrangements
- Continued focus on safety improvement in FY25

NAL Global Recovery and Mill Utilisation

NAL Concentrate Production and Unit Operating Costs

Merger Update

Merger Transaction Structure

Overview of the merger

- Newly-formed US subsidiary of Sayona to merge with and into Piedmont, subject to shareholder approvals.
- Sayona will be the ultimate parent entity (i.e. "MergeCo") with Piedmont as a wholly owned subsidiary.
- Post transaction ownership split: approximately 50% Sayona shareholders / 50% Piedmont shareholders, on a fully-diluted basis, prior to conditional placement.
- MergeCo will be domiciled in Australia – with an ASX primary listing and NASDAQ secondary listing.
- Subject to shareholder approval, MergeCo to rebrand under a new name to be announced.

Benefits of ASX primary listing and a Nasdaq secondary listing

- ASX has demonstrated track record of supporting emerging mining companies, already familiar with MergeCo's assets.
- Nasdaq listing provides enhanced liquidity and potential to broaden equity research coverage and institutional investor interest.

Positioned to be a North American Lithium Champion

North America Hard Rock Lithium Producers

North American LOM Avg. Spodumene Concentrate Capacity (ktpa SC6 equivalent)⁽¹⁾

#1 North American pure-play hard rock lithium producer

Currently the largest permitted & producing hard-rock lithium mine in North America with potential to develop 3 additional high quality projects

1. Capacity based on public company data (see "Important Information and Disclaimer" section for details). Totals may differ due to small rounding. Excludes Chinese companies. Refer to supporting information on page 25
 2. LOM average spodumene production for North American Lithium expected to be 190ktpa SC5.4 (171ktpa SC6.0), includes Authier project

Combined Scale Enhances Growth Pipeline and Provides Flexibility to Optimise Development

Sayona Project

Piedmont Project

Growth Pipeline (1)(2)

1. Estimated Spodumene Concentrate Production Capacity as reported and shown on an attributable basis. Refer to "Important Information and Disclaimer" section for the source of previously reported production targets for NAL Upstream, Authier, Carolina Lithium, and Moblan, which are underpinned by the Mineral Resource and Ore Reserve Estimates in ASX release dated 19 November 2024 titled "Proposed Merger & Equity Financing Presentation" on pages 35 – 38 and slides 21-24 of this presentation.
2. Projects listed in alphabetical order
3. Moblan equity interest shown to be 60%
4. Production target over life-of-mine of 190ktpa spodumene concentrate. Target annual production for first four years until start of downstream production is 226ktpa. Refer to Sayona ASX announcement released on 14 April 2023

Current status of merger

Regulatory and procedural

CFIUS (US national security) filing accepted – awaiting ruling

Investment Canada Act (ICA) regulatory clearance complete

HSR (US competition clearance) notice submitted – ongoing engagement with DOJ

ASIC and ASX engagement progressing

Draft SEC F-4 Registration Statement prepared – review and feedback from SEC is typically 1 – 2 ½ months

EGM preparation commenced

Draft NOM underway including share consolidation

Corporate and implementation

MergeCo Board composition near finalised

Organisational structure being considered

Integration planning progressing

Rebranding project commenced

New website underway

MergeCo strategy and project prioritisation is progressing

Finance integration assessment completed

Targeting merger completion mid-2025

Lithium Market and Guidance

Spodumene Prices Have Continued to Recover; Lithium Hydroxide Futures Remain Strongly in Contango

- Spodumene Concentrate prices have recovered from multi-year lows as industry responds to supply curtailments and project delays
- Resilient demand growth from EVs and ESS driving downstream inventory destocking

- Lithium Hydroxide futures market remains in contango providing higher prices for future sales volume
- MergeCo can forward sell spodumene concentrate deliveries against the futures curve to increase certainty over price realisations and limit downside exposure

6% Lithium Oxide Spodumene Concentrate Spot Price (US\$/t)⁽¹⁾

CME Lithium Hydroxide CIF Futures (US\$/t)⁽²⁾

1. Fastmarkets pricing as of February 13, 2025
2. Chicago Mercantile Exchange settlements as of February 13, 2025

FY25 Guidance⁵

Spodumene Concentrate Production

190,000-210,000

DRY METRIC TONNES

SC 5.4% product grade

100% NAL production

FY25 production guidance assumes NAL achieves steady state production levels in FY25

Spodumene Concentrate Sales

200,000-230,000

DRY METRIC TONNES

SC 5.4% product grade

100% NAL sales

Approximately two thirds (67%) of concentrate sales will be sold by NAL to Piedmont Lithium under the offtake agreement in FY25

Unit Operating Costs^(1,4)

A\$1,150-A\$1,300

PER DRY METRIC TONNE

SC 5.4% product grade

100% NAL unit operating costs

A\$ / dmt sold, FOB Port of Québec

Unit operating costs reflect achievement of steady state production levels

Capital Expenditure^(1,2)

~A\$20M

Group capital expenditure relates predominantly to sustaining capital projects at NAL

Exploration Expenditure^(1,3)

~A\$30M

Relates to utilisation of Flow Through Share funding which must be spent on Quebec lithium projects by end of 2024

H2FY25 Shipment Volumes (Q3vQ4)

Q3 ~ 30%
Q4 ~ 70%

Shipping volumes have been deliberately weighted to Q4FY25 in order to deliver into higher priced forward sales arrangements that commence in April 2025. Full year sales volume outcomes will not be affected

Notes

- 1 Guidance assumes average annual foreign exchange rates of AUD:CAD 0.91 and AUD:USD 0.667.
- 2 Capital expenditure guidance excludes movements in capital creditors which amounted to A\$3 million as at 30 June 2024.
- 3 Exploration expenditure guidance excludes movements in exploration creditors which amounted to A\$7 million as at 30 June 2024.
- 4 Unit operating cost is calculated on an accruals basis and includes mining, processing, transport, port charges, site-based general and administration costs and cash based inventory movements, and excludes depreciation and amortisation charges, freight and royalties. It is reported in A\$ / dmt sold, FOB Port of Québec.
- 5 Guidance published in ASX release 30 August 2024 is based on assumptions, budgets and estimates existing at the time of assessment which may change over time impacting the accuracy of those estimates. These estimates are developed in the context of an uncertain operating environment including in respect of inflationary macroeconomic conditions, incomplete engineering and uncertainties surrounding the risks associated with mining and project development including construction, commissioning and ramp up which may delay or impact production and have a flow on effect on sales. Actual results may therefore vary significantly depending on these risks and the timing required to address them. The information is provided as an indicative guide to assist sophisticated investors with modelling of the Company. It should not be relied upon as a predictor of future performance.
