Austral Resources Australia Ltd
Notes to the financial statements
31 December 2024

Basis of preparation

These preliminary financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Going Concern

The financial statements have been prepared on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the consolidated entity incurred a loss of \$20,076,000 for the year ended 31 December 2024. In addition, as at that date, the consolidated entity's current liabilities exceed its current assets by \$84.6M and it had a net liability position of \$28.7M, related to liabilities amounting to \$176.5M offset by assets amounting to \$147.8M. These factors indicate a material uncertainty which may cast significant doubt as to whether the consolidated entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The above factors indicate a material uncertainty which may cast significant doubt as to whether the consolidated entity will continue as a going concern and therefore whether it will realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

The Directors believe that there are reasonable grounds to believe that the consolidated entity will be able to continue as a going concern, after consideration of the following factors:

- The Directors have reviewed the cash forecast, for the forthcoming 12 months which indicates the consolidated entity will continue to generate significant net cash inflows from its operating activities;
- The consolidated entity has the ability to scale down its operations in order to curtail exploration expenditure, in the event cash available is insufficient to meet projected expenditure;
- As disclosed in the June 2024 Interim Report, the company has entered into a framework agreement with Glencore, Secover, and Thiess to discharge all secured debt and the unsecured trade payable owed to Thiess. Under this agreement, all secured debt will be repaid from the proceeds of the Anthill Project and if required, the heap leach remine; and
- The Company is progressing towards the removal of its suspension from the ASX and, subsequently will seek to raise additional capital through the issuance of shares under the Corporations Act 2001.

Accordingly, the Directors believe that the consolidated entity will be able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the consolidated entity does not continue as a going concern.

Wingate Facility (Assigned to Glencore Australia Holdings Pty Limited)

On 9 August 2021, the company entered into a facility agreement with Win Finance No. 359 Pty Ltd, primarily to fund its working capital and to restructure the company through the listing process. The facility is interest bearing with an interest rate of 15% per annum, payable quarterly in arrears and for a period of 36 months from the date of initial drawdown. An initial drawdown of \$20 million was made on 13 August 2021 and the remaining \$10 million was drawn following the company successfully listing on the ASX in November 2021. The facility is subject to debt covenants and obligations to make principal and interest payments on set dates. Should these terms not be met by the Company and event of default may eventuate.

On 30 September 2022, the facility was amended to an interest rate of BBSY bid rate plus 12% margin, and on 22 December 2022 upon entering into the Secover facility, it was agreed to bring the termination date of this facility forward to 23 November 2023.

On 13 May 2024, Glencore Australia Holdings Pty Limited acquired the senior secured debt previously held by Win Finance No. 359 Pty Ltd. On 1 May 2024, Win Finance appointed Receivers and Managers, which remained in this role until 10 May 2024. Following the retirement of the Receivers and Managers appointed by Win Finance, Glencore assumed the role of senior secured creditor. The facility remains in default, with interest accruing at the default rate of 17% under a Standstill Agreement, which will remain in effect until the restructuring process is completed.

Assets pledged as security

The Wingate Facility (Assigned to Glencore Australia Holdings Pty Limited) is secured by first mortgages over the Anthill and Mount Kelly mining leases.

Glencore prepayment facility

On 3 February 2022, the company entered into a facility agreement with Glencore International AG for USD \$15 million, primarily to accelerate its exploration program and fund working capital. The facility is interest bearing with an interest rate of LIBOR plus a margin of 8.5% per annum, payable monthly in arrears and for a period of 24 months from the date of initial drawdown. An initial drawdown of USD \$15 million was made on 17 March 2022. On 22 December 2022, the maturity date was changed 23 November 2023. At 31 December 2024 this facility was fully drawn down.

Secover Facility (2022)

On 22 December 2022, the company entered into a facility agreement with Secover Pty Ltd for \$11 million, to fund working capital. The facility is interest bearing with an interest rate of 15% per annum, payable monthly in arrears and for a period of 12 months from the initial date of drawdown. Any interest that has accrued and is not paid is capitalised and added to the principal outstanding balance on that date. An initial drawdown of \$11 million was made on 23 December 2022. At 31 December 2024 this facility was fully drawn down.

Secover Facility (2024)

On 28 June 2024, the company entered into a facility agreement with Secover Pty Ltd for \$11.7 million, to fund the repayment of the Thiess secured payable. The facility is not interest bearing and payable within 12 months of the facility agreement date. During the second half of 2024, the company requested additional funding from Secover Pty Ltd of circa \$4,900,000 to fund working capital. This amount will be added to the June 2024 facility agreement with Secover Pty Ltd. The facility is not interest bearing and payable by 27 June 2025, in line with the June 2024 facility.

Glencore Receiver Funding Facility

Following the acquisition of the senior secured debt from Win Finance No. 359 Pty Ltd, Glencore assigned the costs incurred during the receivership to be paid per the terms of the existing Wingate Facility. Interest is charged at the default rate of 17%.

At 31 December 2024, the Wingate Facility (Assigned to Glencore Australia Holdings Pty Limited), Glencore prepayment facility, Glencore Receiver Funding Facility and Secover Facility (2022) are considered due and payable. However, payments have been deferred while the entity is in negotiations with its existing debt providers to restructure the existing debt and/or extend the repayment terms as disclosed in the Basis of preparation above.

Mine rehabilitation and closure	<u>36,913</u>	<u>37,624</u>

Environmental

The rehabilitation provision represents the present value of rehabilitation costs relating to mine sites, which are expected to be incurred over the life of the estimated life of mine, which is when the producing mine properties are expected to cease operations. Assumptions based on the current economic environment have been made, which management believes are a reasonable basis upon which to estimate the future liability. These estimates are reviewed regularly to take into account any material changes to the assumptions. However, actual rehabilitation costs will ultimately depend upon future market prices for the necessary rehabilitation works required that will reflect market conditions at the relevant time.

Note 13. Equity - issued capital (continued)

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

Directors and key management personnel

On 4 August 2021, 44,537,500 performance rights were issued to key management personnel under the Performance Share Plan. Where an employee leaves during the vesting period and the KPI's are not met within three months of the employees termination date the performance rights will be forfeited. In the scenario where the KPI's were met then the employee is eligible to elect to exercise the rights through to the expiry date. On 12 May 2022, 1,603,350 performance rights were issued to Michael Hansel under the Performance Share Plan and were approved at the company's AGM. These performance rights are subject to the same KPIs as the performance rights issued to the key management personnel on 4 August 2021. Each Performance Right converts into one AR1 share upon vesting and exercise.

On 17 October 2022, 4,302,326 performance rights were issued to key management personnel under the Performance Share Plan. Where an employee leaves during the vesting period and the KPI's are not met within three months of the employees termination date the performance rights will be forfeited. In the scenario where the KPI's were met then the employee is eligible to elect to exercise the rights through to the expiry date. These performance rights were re-issued following the cancellation of the existing HSSEQ performance rights after the Directors identified the HSSEQ KPI should be better defined.

Total expense reversal from share-base payments transactions is \$325,000 (2023: expense \$951,000) in current financial year.

Note 18. Share-based payments (continued)

The movements in the current year of the number of Performance Rights issued to Key Management Personnel (KMP) are as follows:

	Balance at 1 January 2024	Granted as part of remuneration	Number of Rights Exercised	Number of Rights Lapsed/ Cancelled	Balance at 31 December 2024

HSSEQ1 KPI – to be met by 30 June 2023 (measurement period 1 July 2022 to 30 June 2023)

This KPI will be considered satisfied where the following criteria are met during the relevant period:

- 1. Safety KPI – 50% of the HSSEQ1 Performance Rights on issue**
 - 100% vesting upon achieving a 20% decrease in the All Injury Frequency Rate (AIFR) from the previous year.
 - 50% vesting upon achieving a 10% decrease in the AIFR from the previous year.
 - 0% vesting upon achieving a 0% decrease in the AIFR from the previous year.
 - Pro rata vesting allocation by 1% increments for a 1% to 19% decrease in the AIFR.
- 2. Environment KPI – 30% of the HSSEQ1 Performance Rights on issue**
 - 100% vesting upon achieving no environmental fines/breaches from DES (Breach) for the year to June 2023.
 - The % vested is reduced by the value of any fines imposed (calculated with reference to the Company's Share price at the time of the Breach) in the year to June 2023.
- 3. Indigenous Affairs KPI – 20% of the HSSEQ1 Performance Rights on issue**
 - 100% vesting upon achieving no impact on operations due to breaches/delays resulting from Indigenous Affairs matters for the year to June 2023.
 - 0% vesting where management of Indigenous Affairs matters results in a material impact on operations due to breaches/delays for the year to June 2023.

HSSEQ2 KPI – to be met by 30 June 2024 (measurement period 1 July 2023 to 30 June 2024)

Note 18. Share-based payments (continued)

Condition 11.5 of Austral's "Conditions of quotation" of the Company following its initial public offering (IPO) requires certain disclosures be made in relation to unquoted KPI based performance rights (Rights) disclosed in the Company's IPO Prospectus:

- Austral has 17,240,465 Performance Rights on issue as at 31 December 2024 (of those issued at IPO);
- 10,077,809 performance rights lapsed and were forfeited during the year following the resignation of Phillip Thomas and Luke Johnstone as well assessment of various performance rights during the year; and
- Each Performance Right converts into one AR1 share upon vesting and exercise.

The Performance Rights set out above will vest on satisfaction of the below mentioned performance hurdles:

#	Key Performance Indicators	Performance Right #	Vesting Date ¹	Expiry Date ²
1	First material ore production from Anthill deposit	11,134,372	Vested ³	30 Jun 25
2	Production of 20kt of Copper cathode from Anthill Project	4,453,752	Lapsed	30 Jun 26
3	Generate 20kt inferred resource 1	11,134,372	30 Jun 25	30 Jun 26
4	Share price target of \$0.50	8,907,500	30 Jun 25	30 Jun 26
5	Health Safety Security Environment and Quality (HSSEQ) and Indigenous Affairs – FY 2022	2,226,876	Cancelled	30 Jun 25
6	HSSEQ and Indigenous Affairs – FY 2023	2,226,876	Cancelled	30 Jun 26
7	Generate 20kt inferred resource 2	4,453,752	30 Jun 25	30 Jun 26
Total		44,537,500		

1. Unless otherwise specified, the Vesting Date represents the last possible date by which the relevant KPI must be met in order for the relevant Performance Rights to vest. Where a KPI is not met, the Performance Rights will be forfeited.
2. Expiry date applies where the KPI has been met by the relevant Vesting Date.
3. Some of the vested rights have been exercised.

Note 18. Share-based payments (continued)

The table below provides an overview of the Key Performance Indicators:

No.	KPI	Overview
1	5,000 tonnes of ore moved from the Anthill deposit within 6 months of commencement of overburden mining at the Anthill Project	This KPI will be considered satisfied on the movement of 5,000 tonnes of ROM ore from the Anthill pit to the crusher. This is defined as removing overburden and transporting ore from the Anthill pit within 6 months of commencement of overburden mining at the Anthill Project.
2	Production of at least 20,000 tonnes of Copper cathode.	This KPI will be considered satisfied if the Company produces 20,000 tonnes of LME grade Copper cathode by the relevant Vesting Date.
3	Generate a JORC compliant Inferred Mineral Resource estimate of 20,000t of contained Cu through the exploration program within 70km of the Mt Kelly processing facility	This KPI represents an exploration target for the exploration team to either continue more detailed exploration work on the top 12 prospects or explore and drill a new Mineral Resource estimate so that collectively an Inferred Mineral Resource estimate of 20,000 tonnes of contained Cu at a cut-off grade of 0.2% is achieved. This represents approximately half the resource at Anthill and must be within 70km of the Mt Kelly facility.
4	Share price target of \$0.50	This KPI will be considered satisfied where the volume weighted price average of the Company's Shares trades at or above \$0.50 for 20 consecutive Trading Days (as that term is defined in the Listing Rules).
5	Health, Safety, Security, Environment, Quality (HSSEQ) and Indigenous Affairs – to 30 June 2022	This KPI will be considered satisfied where both of the following criteria are met during the relevant period: <ul style="list-style-type: none"> (1) the Company's published Lost Time Injury Frequency Rate (LTIFR) is no more than 10% higher than the twelve month rolling average LTIFR for surface minerals mines as reported in the Queensland Government 'Mines and Quarries Safety Performance and Health Reports' (adjusted on a pro-rata basis for any period prior to first production at the Anthill Project); and (2) the Company (or its relevant subsidiary) is not in material breach or in material dispute with any counter-party to any indigenous land use agreement (ILUA) (including for example the agreements set out in section 12.7 of the Prospectus).
6	HSSEQ and Indigenous Affairs – from 1 July 2022 to 30 June 2023	This KPI will be considered satisfied where both of the following criteria are met during the relevant period: <ul style="list-style-type: none"> (1) the Company's published LTIFR is no more than 10% higher than the twelve month rolling average LTIFR for surface minerals mines as reported in the Queensland Government 'Mines and Quarries Safety Performance and Health Reports'; and (2) the Company (or its relevant subsidiary) is not in material breach or in material dispute with any counter-party to any ILUA (including for example the agreements set out in section 12.7 of the Prospectus).
7	Generate a JORC compliant Inferred Mineral Resource estimate measuring 20,000 tonnes contained Cu in sulphide mineralisation	This KPI represents an exploration target for the exploration team to develop a more detailed exploration work on the sulphides (from existing pits, existing targets and drill a new Mineral Resource so that collectively an Inferred Mineral Resource estimate generating 20,000 tonnes of contained Cu in the sulphides at a cut-off grade of 0.2%.
