TDB has secured \$0.7m in new recurring revenue agreements, with \$0.4m expected to be recognised in FY25. These achievements reflect the rapid market adoption of TDB's generative AI solutions and comprise 24 new customers, highlighting Vection's strategic commitment to incorporating advanced AI into its INTEGRATEDXR<sup>®</sup> suite.

TDB's expertise in generative AI perfectly complements Vection's existing XR framework, creating new opportunities for enterprise digital transformation and showcasing the market's strong appetite for innovative, AI-driven technologies.

By securing 100% recurring revenue contracts, TDB strengthens Vection's recurring revenue base and reaffirms the Company's commitment to building long-term, sustainable growth. The services provided to the new customers are each in the forms of licenses to Vection software; professional services provided by Vection; and custom Kiosk solutions e.g. for Point of sale. The largest customer contract is for Anco SRL for \$0.23m for licenses and professional services. ANCO S.r.l. operates in the supermarket sector and manages several stores affiliated with Coop Sardegna across Sardegna (Sardinia), Italy. The next largest contract is for Publiacqua SPA, a company which manages the integrated water service for four provinces in Italy, for ~\$90k for ongoing services related to two Kiosk points. The balance of customer contracts range in value from \$2,000 to \$40,000 respectively.

The successful completion of Vection's acquisition of TDB on 17 January 2025 marked a significant milestone in the Company's broader objective to cultivate predictable, subscription-based income streams.

Vection's Managing Director, Gianmarco Biagi, commented on this progress: *"We are thrilled with TDB's remarkable success since January. Achieving recurring-revenue contracts validates our strategic vision and TDB's cutting-edge generative AI solutions."*
