## Cyclone Alfred Update

- Cyclone Alfred's weather has impacted LPE's service areas of south-east Queensland (SEQ) and northern NSW
- LPE is working through the impact Cyclone Alfred is having on our customers, and the timing of rectification works

+++

### Operational Update

As we know Cyclone Alfred has impacted our service areas of south-east Queensland (SEQ) and NSW with power outages

Energex, Essential and Ergon are working to restore power to all customers during this time and have already been part successful in doing so.

Our focus is on the safety of our customers, and those working to assist them.

LPE continues to work to understand:

- Which of our sites have been impacted through a loss of power due to disruptions in the supply chain or property damage, and
- When customers can expect the restoration of power to their sites.

As LPE works to understand the effects, we will continue to update the market.

Authorised by the Board.

## About LPE

LPE is a growing energy provider to strata communities focused on the core Embedded Network business. LPE delivers renewable solutions for strata living, creating shareholder value through long term supply agreements that provide strong recurring revenue.

Currently LPE predominantly services the Queensland energy market, providing electricity, hot water, solar and battery systems to strata communities. Supporting those living in strata communities to reduce their carbon footprint and energy bills with no upfront cost.

Our Customer Value Proposition continues to evolve as we work with partners, communities and customers to find new solutions to take us into the future.
