Catalina Resources Ltd (ASX: CTN) ("Catalina" or the "Company") is pleased to provide an update on its funding and exploration at the recently acquired Yerilgee and Evanston WA gold projects.

Highlights

- **Commitments received to raise \$500K via placement with rights issue to raise an additional \$2.27M**
- **Exploration initiatives on track for field exploration in Q2 2025**

Following the recent acquisition of the Yerilgee and Evanston projects in Western Australia, Catalina has secured a financial commitment from new investors to raise \$500,000 (before costs) at a price of \$0.0025 per share. The Company will raise an additional \$2,274,000 via a non-renounceable rights issue to eligible shareholders. This funding combined with existing cash reserves provide the Company with a strong balance sheet to drill current projects whilst continuing to assess additional acquisition opportunities.

The Board would like to thank all new and existing shareholders for their support at this existing stage of the Company's development.

The Board is also delighted to announce the appointment of Ross Cotton as an Executive Director.

Mr. Cotton has over 20 years' experience in the financing and management of mining and resource companies globally and will be working alongside Sanjay Loyalka and the team to further the Company's exploration activities whilst continuing to assess new opportunities.

Mr. Cotton will receive remuneration of \$10,000 per month for acting as an executive director. There are no other non-standard terms of his appointment.

The appointment of Ross comes at a time where we have a lot of news to share as our activity ramps up on the ground. On behalf of the board, we also thank Michael for his efforts on the board and look forward to his ongoing contributions as our technical efforts build into this exploration program.”
