

17 March 2025

Revised Company Presentation – 17 March 2025

Develop Global Limited (ABN 28 122 180 205) (**Develop**) released a document titled “Updated Company Presentation” on 11 March 2025 and a document titled “Revised Company Presentation” on 13 March 2025, (collectively the **Presentation**).

Develop has since retracted the following statements:

- “*First 3 years cashflow – ~A\$500m*” on slide 3;
- “*At spot commodity prices first 3 years of steady state production delivers ~A\$500m free cashflow*” on slide 7; and
- “*FY25 Rev forecast ~A\$200m*” on slide 12, from the Presentation.

The above three statements included forecast financial information, without disclosing all the material assumptions on which the forecast financial information was based which is not in compliance with ASX listing rules 5.17 and 5.19.2.

Accordingly, investors should not rely on the statements referred to above as such statements have since been deleted from the Presentation.

Develop has also removed the references to producing entities which were used in the Presentation for a comparative analysis.

Investors should refer to the revised version of the presentation which is attached as follows and dated 17 March 2025.

IMPORTANT INFORMATION AND DISCLAIMER

The information contained in this document ("Presentation") has been prepared by DEVELOP Global Limited ("Company"). This Presentation is being used as a presenter's aid with summarised information. See DEVELOP's other and periodic disclosure announcements lodged with the Australian Securities Exchange, which are available at www.asx.com.au or at www.develop.com.au for more information.

While the information contained in this Presentation has been prepared in good faith, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers give any representations or warranties (express or implied) as to the accuracy, reliability or completeness of the information in this Presentation, or of any other written or oral information made or to be made available to any interested party or its advisers (all such information being referred to as "Information") and liability therefore is expressly disclaimed. Accordingly, to the full extent permitted by law, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers take any responsibility for, or will accept any liability whether direct or indirect, express or implied, contractual, tortious, statutory or otherwise, in respect of, the accuracy or completeness of the Information or for any of the opinions contained in this Presentation or for any errors, omissions or misstatements or for any loss, howsoever arising, from the use of this Presentation.

This Presentation may include certain statements that may be deemed "forward-looking statements". All statements in this Presentation, other than statements of historical facts, that address future activities and events or developments that the Company expects, are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. The Company, its shareholders, directors, officers, agents, employees or advisers, do not represent, warrant or guarantee, expressly or impliedly, that the information in this Presentation is complete or accurate. To the maximum extent permitted by law, the Company disclaims any responsibility to inform any recipient of this Presentation of any matter that subsequently comes to its notice which may affect any of the information contained in this Presentation. Factors that could cause actual results to differ materially from those in forward-looking statements include market prices, continued availability of capital and financing, and general economic, market or business conditions. DEVELOP assumes no obligation to update such information.

Investors are cautioned that any forward-looking statements are not guarantees of future performance and that actual results or developments may differ materially from those projected in forward looking statements. Please undertake your own evaluation of the information in this presentation and consult your professional advisers if you wish to buy or sell DEVELOP shares.

This Presentation has been prepared in compliance with the JORC Code 2012 Edition. The 'forward-looking information' contained here is based on the Company's expectations, estimates and projections as of the date on which the statements were made. The Company disclaims any intent or obligations to update or revise any forward-looking statements whether as a result of new information, estimates or options, future events or results or otherwise, unless required to do so by law.

JORC COMPLIANCE STATEMENTS

The information in this presentation that relates to Exploration Results is based on information by Mr Luke Gibson who is an employee of the Company. Mr Gibson is a member of the Australian Institute of Geoscientists and Mr Gibson has sufficient experience with the style of mineralisation and the type of deposit under consideration.

- The information contained in this presentation relating to the Kangaroo Caves Resources was previously released in ASX announcement 'Kangaroo Caves Resource Update' issued 22 September 2015.
- The information contained in this presentation relating to the Sulphur Springs Resources was previously released in ASX announcement 'Sulphur Springs Resource Update' 2 June 2023.
- The information contained in this announcement relating to the Woodlawn Underground Resources was previously released in announcement 'Resource Upgrade Paves way for Funding' dated 22 March 2024.
- The information contained in this presentation relating to the Sulphur Springs Reserves, Sulphur Springs production target, and forecast financial information derived therefrom, was previously released in ASX announcement 'Sulphur Springs Updated DFS' issued 30 June 2023.
- The information contained in this announcement relating to the Woodlawn Reserves, Woodlawn production target, and forecast financial information derived therefrom, was previously released in the announcements "Woodlawn Production Restart Study" dated 3 April 2024 and "Develop agrees funding and offtake with Trafigora for Woodlawn copper-zinc mine" dated 02 August 2024
- The information contained in this announcement relating to the Pioneer Dome Resources, Pioneer Dome production target, and forecast financial information derived therefrom, was previously released in the announcement 'Positive Pioneer Dome Scoping Study supports commencement of detailed studies' issued 7 May 2024.

The Company confirms that: a) The form and context of the material in this presentation has not been materially modified from the above previous announcements; b) It is not aware of any new information or data that materially affects the information included in the previous announcements; and c) in the case of estimate or mineral resources or ore reserves, that all material assumptions and technical parameters underpinning the relevant estimates continue to apply and have not materially changed; and c) It is uncertain that following further exploration and evaluation that the historical estimates will be able to be reported as mineral resources or ore reserves in accordance with the JORC 2012 Code.

DEVELOP 5-YEAR BUSINESS PLAN

WHAT'S BEEN ACHIEVED IN FIRST HALF

HYBRID BUSINESS MODEL: MINE OWNERSHIP AND MINING SERVICES BUSINESS UNITS

Build world-class underground capability to cater for all assets needs

Be one of the most ESG responsible companies on the ASX

Produce some of the world's cleanest energy transition metals

Aim for annual metal output of in-excess of 50kt copper equivalent, 200kt at 5.5% lithium spodumene and establish long mine lives, 7-10 yrs

Mining Services capability to operate 5 to 7 projects (2 – 3 for third parties to generate free cash flow) and de-risk the balance sheet

OUR FLAGSHIP ASSET:

IS OUR PEOPLE

- The mines of the future will be underground
 - Demand for underground skills is soaring
-
- Develop's Executives have one of the largest networks of underground personnel in the Australian industry
 - Develop has built its world class underground capability
 - We have no people attraction or retention issues
 - We don't discuss turnover
 - This skill base is our competitive advantage because:

01

Maximises performance of our own assets

02

Provides scope to partner and joint venture with others

03

Help others deliver on their operational promises

PEOPLE POWER CHANGE

PRODUCING POTENTIAL

A QUALITY PROJECT FOR THE ENERGY REVOLUTION

WOODLAWN COPPER/ZINC MINE

- Purchased the mine in May-22 for A\$100M
- Inherited ~A\$340m of prior capital expenditure
- Develop spent ~A\$60m on the mine to derisk it
- Resource increased by 55% to 11.3Mt at 4.1% CuEq, with 50,000m of diamond drilling
- Reserve increased by 94% to 6.0Mt at 3% CuEq
- Updated the mine NPV in Aug '24 to A\$728m using conservative commodity pricing
- Mine delivers ~22ktpa CuEq production
- NPV is based on a 10-year mine plan
- First 2 years of ore production is fully developed
- Fully funded to production/cashflow Jun-25 Qtr

PRODUCING POTENTIAL

DEVELOP

FUNDING & OFFTAKE

- Leading base metals commodity trader, Trafigura, has provided ~A\$100M pre-payment/loan to bring Woodlawn into production. Funding terms are flexible to Develop
- As part of the funding, Develop has also agreed to a ~5 year offtake arrangement across all concentrates produced from the Woodlawn mine. We have flexibility to allocate up to 20% of volumes annually to a minority partner
- Under this arrangement, treatment and refining charges are materially lower than assumed in the April-24 Restart Study
- The key terms of the Woodlawn loan facility to be provided by Trafigura are detailed below

Debt Sizing	US\$65 million, being approximately A\$104.8 million at drawn down (17 th December 2025)
Term	4.5 years from drawdown
Interest Rate/Margin	Bank Bill Swap Rate (Bid) plus a margin of 2.00% per annum. Interest capitalises for the first 18 months of the loan. Senior security customary for a facility of this nature including:
Security	- Security over all of the assets of the Borrower and Woodlawn Mine Holdings Pty Ltd (including the share capital of the Borrower owned by Woodlawn Mine Holdings Pty Ltd), subject to certain pre-conditions; - Specific security over certain project tenements and other assets related to the Woodlawn Project and owned by Tarago Explorations Pty Ltd; and - Security over all of the assets of Venturex Sulphur Springs Pty Ltd.
Grace Period	18 months from drawdown date and then a reduced repayment amount of US\$5 million or approximately A\$ 7.7 million for the period 18 months and 24 months after drawdown date.
Capitalised Interest	Interest will be capitalised during the Grace Period
Up-front Fee	1.00%
Voluntary Early Repayment	Anytime with 5 business days' notice. Any early repayment shall be made with accrued interest on the amount repaid early and break costs
Coverage ratio	At any time, cargo value to be at least 175% of outstanding indebtedness
Offtake Required	~5-year offtake across all concentrates (including, without limitation, copper, zinc, lead/precious metals) produced from the Woodlawn mine
Hedging	No mandatory hedging required

A QUALITY PROJECT FOR THE ENERGY REVOLUTION

WOODLAWN RESTART SITE UPDATE

- Excellent progress made with recommissioning of the processing plant; GR Engineering 90% complete and internal package 97% complete
- All major contracts have been awarded for processing and concentrate production to commence
- Reviewing options to accelerate commissioning of the copper circuit ahead of schedule
- Underground Development is well underway and already significantly ahead of schedule, 351m Jan and 478m Feb
- Underground ore production due to commence in March
- ~73,000t of high-grade development ore on the ROM pad
- All key positions are filled for the operation. 177 employees on site, 26 are being onboarded, 20 to fill in 3 months time
- On schedule and budget with all operational activities
- Process for minority interest (up to 20%) has begun, with interested parties having site visits

PRODUCING POTENTIAL

Crushing Circuit Upgrades

DEVELOP

SULPHUR SPRINGS ZINC-COPPER PROJECT

- The project is a high-grade Zinc and Copper Resource of 17.4Mt @ 5.8% Zn, 1.0% Cu & 21gpt Ag located in the Tier 1 mining district of WA
- Develop spent A\$15M over two years (2021/2022) on our operational goals
 1. All major project approvals are granted
 2. Investment resulted in a substantial increase in Resources and Reserves
 3. Changed the mine plan to underground mining only, simplifying the execution
 4. Jun-23 Definitive Feasibility Study delivered a pre-tax NPV of A\$523M. Mine life of 8 years and upfront capital requirement of A\$296M
- Mine forecast to deliver ~30ktpa CuEq production
- Once the mine is built it generates ~A\$147Mpa of pre-tax cashflow; commodity prices are substantially higher since the Jun-23 DFS was released
- Only 135kt of zinc is subject to an offtake agreement after year 5, no offtake for copper. This makes the project highly desirable for business partners
- Further opportunities to add value through exploration and increasing plant capacity. Kangaroo Caves and Sulphur Springs open pit were not in the DFS
- Site access/haul road due to commence construction in Jun-25 Qtr. Underground development forecasted to commence in the Sep-25 Qtr
- Will update the mine plan assuming bottom-up mining productivities and DFS numbers in Mid-2025

Notes

- The Mineral Resources Estimates are reported in accordance with the guidelines of the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). The estimates are reported at 30 June 2024.
- Mineral Resource figures are reported using cut-off grades (Li2O%) or NSR calculation best suited to each deposit.
- Tonnages are dry metric tonnes. Minor discrepancies may occur due to rounding.

The information contained in the above tables references the following ASX announcements:

- 'Updated Pioneer Dome Scoping Study' dated 7 May 2024
- 'Woodlawn Production Restart Study' dated 3 April 2024
- 'Resource Upgrade Paves Way for Funding/Production Strategy' dated 22 March 2024
- 'Updated DFS - Sulphur Springs' dated 30 June 2023
- 'Sulphur Springs Resource Update' dated 2 June 2023
- 'Kangaroo Caves Resource Update' dated 22 September 2015 (Venturex Resources)

ORE RESERVES TABLES

BASE METALS

SULPHUR SPRINGS	SULPHUR SPRINGS	Ore Reserve Estimate	Ore (Mt)	Cu %	Pb %	Zn %	Ag gpt	Au gpt	
		UG Proved	-	-	-	-	-	-	-
		UG Probable	8.8	1.1	0.2	5.4	20.6	0.1	
		UG Total	8.8	1.1	0.2	5.4	20.6	0.1	

WOODLAWN	WOODLAWN	Ore Reserve Estimate	Ore (Mt)	Cu %	Pb %	Zn %	Ag gpt	Au gpt
		UG Proved	1.2	1.7	1.4	4.5	37.1	0.7
		UG Probable	4.8	1.4	1.3	3.4	27	0.4
		UG Total	6.0	1.5	1.3	3.6	29	0.4

Notes

- The Ore Reserves Estimates are reported in accordance with the guidelines of the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code). The estimates are reported at 30 June 2024.
- Ore Reserve figures are reported using cut-off grades (Li2O%) or NSR calculation best suited to each deposit.
- Tonnages are dry metric tonnes. Minor discrepancies may occur due to rounding.
- The copper equivalent grades are based on copper, lead, zinc, silver and gold prices of Cu: US\$8,875/t, Pb: US\$2,050/t, Zn: US\$3,071/t, Ag: US\$31/oz and Au: US\$2,640/oz, with metallurgical metal recoveries of 85% Zn, 67% Pb, 75% Cu, 50% Au and 90% Ag at Woodlawn and recoveries of 94% Zn, 0% Pb, 87% Cu, 0% Au and 46% Ag at Sulphur Springs. Recoveries are supported by historic recoveries and/or metallurgical test work undertaken.
- The copper equivalent calculation is as follows: $Cu Eq = Cu\ grade\% * Cu\ recovery + ((Pb\ grade\% * Pb\ recovery\% * (Pb\ price\ \$/t / Cu\ price\ \$/t)) + (Zn\ grade\% * Zn\ recovery\% * (Zn\ price\ \$/t / Cu\ price\ \$/t)) + (Ag\ grade\ g/t / 31.103 * Ag\ recovery\% * (Ag\ price\ \$/oz / Cu\ price\ \$/t)) + (Au\ grade\ g/t / 31.103 * Au\ recovery\% * (Au\ price\ \$/oz / Cu\ price\ \$/t))$. It is the opinion of Develop Global and the Competent Person that all elements and products included in the metal equivalent formula have a reasonable potential to be recovered and sold.

The information contained in the above tables references the following ASX announcements:

- 'Woodlawn Production Restart Study' dated 3 April 2024
- 'Updated DFS - Sulphur Springs' dated 30 June 2023

Notes

- See Foran Mining's corporate presentation dated July 2024. MRE Prepared in accordance with Canadian National Instrument 43-101. The estimate is a foreign estimate and has not been reported in accordance with JORC 2012. A competent person has not done sufficient work to classify this as a mineral resource in accordance with JORC Code 2012 and it is uncertain with further evaluation and exploration work that the foreign estimate will be able to be reported as a mineral resource under the JORC Code 2012.
- See Foran Mining's McIvenna Bay Feasibility Study, dated April 14 2022. Mineral reserves reported by Foran Mining were prepared in accordance with Canadian National Instrument 43-101. The estimate is a foreign estimate and has not been reported in accordance with JORC Code 2012. A competent person has not done sufficient work to classify the foreign estimate as an Ore Reserve in accordance with JORC 2012 and it is uncertain that following further evaluation work that the foreign estimate will be able to be reported as an Ore Reserve under the JORC Code 2012.
- See FireFly Metals ASX release dated 29 October 2024 'Green Bay Mineral Resource Estimate'. The MRE has been prepared in accordance with JORC Code 2012 and NI 43-101.

APPENDIX 2

PEER COMPARISON SOURCE DATA & CALCULATIONS

No.	Source Data
1	Resources for Woodlawn and Green Bay are reported under JORC Code 2012. Resources for Mcllvenna Bay are calculated under the Canadian NI 43-101 standards and are regarded as Foreign Estimates.
2	<p>The copper equivalent grades are based on copper, lead, zinc, silver and gold prices of Cu: US\$8,875/t, Pb: US\$2,050/t, Zn: US\$3,071/t, Ag: US\$31/oz and Au: US\$2,640/oz. Metallurgical metal recoveries used are 98% Cu and 80% Ag at Cobar; 95% Cu, 85% Ag & 85% Au at Green Bay; 90% Cu, 90% Pb, 90% Zn, 90% Ag & 90% Au at Vares; and 91% Cu, 79% Zn, 63% Ag & 86% Au Mcllvenna Bay (refer to individual company source data below).</p> <p>The copper equivalent calculation is as follows: $Cu\ Eq = Cu\ grade\% * Cu\ recovery + ((Pb\ grade\% * Pb\ recovery\% * (Pb\ price\ \\$/t\ Cu\ price\ \\$/t)) + (Zn\ grade\% * Zn\ recovery\% * (Zn\ price\ \\$/t\ Cu\ price\ \\$/t)) + (Ag\ grade\ g/t / 31.103 * Ag\ recovery\% * (Ag\ price\ \\$/oz\ Cu\ price\ \\$/t)) + (Au\ grade\ g/t / 31.103 * Au\ recovery\% * (Au\ price\ \\$/oz\ Cu\ price\ \\$/t))$.</p>
