Vendor validation of the enhanced HiRise™ for Robotic Surgery system in final stages

Melbourne, Australia & Hatfield, Pennsylvania: CurveBeam AI Limited (ASX: CVB “CurveBeam AI” or the “Company”), a fully integrated developer and manufacturer of point-of-care specialised weight bearing CT imaging (WBCT) equipment, supported by a range of AI-enabled SaaS-based clinical assessment solutions, wishes to update the market on the timeline for completing validation of the enhanced HiRise™ for a key vendor’s robotics surgical system.

The Company has submitted matched HiRise and MDCT patient scans which met all required performance criteria, with HiRise™ images meeting or exceeding the MDCT metrics that were used as “control”. The Company has also submitted to the vendor further validation data and substantive accompanying documents, including updated instructions for use to include HiRise™. The Company is confident this submission meets the requirements to complete validation and awaits the vendor team’s review and its conclusion. The Company will advise the market when it has a further update.

Greg Brown, CEO & Managing Director of CurveBeam AI, commented, “We have regular meetings with the vendor’s senior management team, and there is a mutual interest to advance this project as quickly as possible for both parties. The Company looks forward to updating the market as further feedback is received”.

Release approved by the Board of Directors.

About CurveBeam AI Limited

CurveBeam AI (ASX:CVB) develops, manufactures and sells specialised medical imaging (CT) scanners, coupled with AI SaaS-based clinical assessment solutions, to support medical practitioners in the management of musculoskeletal conditions. The Company’s flagship CT scanner, HiRise™, performs weight bearing CT scans as well as traditional non weight bearing CT scans, providing a range of advantages over the use of traditional CT or MRI devices. CurveBeam AI has more than 70 employees with its corporate office, AI and IP functions located in Melbourne, VIC, Australia and global operations headquarters in Hatfield, Pennsylvania, USA.
