**Bullabulling Gold Project Overview**

Bullabulling presents a potential open pit mining operation located 25km south-west of Coolgardie in the Eastern Goldfields region of Western Australia. The Project hosts a JORC 2012 Mineral Resource Estimate of 60Mt @ 1.2g/t Au for 2.3Moz of gold (Indicated and Inferred, refer to **Table 1** below), on granted mining leases (M15/503, M15/1414, M15/282, M15/554 and M15/552) and is located within a largely contiguous 293sq km tenement package.

Bullabulling offers significant exploration upside, with multiple highly prospective targets at depth and along strike, which could support the plan to grow the mineral resource further and will be a focus of exploration drilling by the Company.
