Aurum to start diamond drilling at Boundiali South tenement

Aurum Resources (ASX: AUE) is pleased to report it has completed 100% acquisition of the **Boundiali South Tenement (BST)** from Turaco Gold Limited (“Turaco”) after a protocol agreement for operating in classified forest was approved by Côte d’Ivoire’s Ministry of Forest and Water, and Ministry of Mines, Petroleum and Energy.

Highlights:

- Aurum and Turaco settle a **Binding Term Sheet for Sale and Purchase of BST** by issuing 3,492,535 Aurum shares valued at A\$1.2 million (\$0.343/share) using a 20-day VWAP prior to 1 April 2025.
- A protocol agreement for **exploration operations** in classified forest has **been approved** by Côte d’Ivoire’s Ministry of Forest and Water and Ministry of Mines, Petroleum and Energy.
- Aurum **submitted** a mining exploitation licence application over the entire BST with Côte d’Ivoire’s Ministry of Mines, Petroleum and Energy.
- Aurum is planning to **commence** diamond drilling **this month** at BST.
- BST hosts a **JORC resource of 360,000oz gold** as part of Boundiali’s 1.59Moz MRE¹.

¹ ASX Announcement dated 30 December 2024 and amended 31 December 2024

Aurum's Managing Director Dr. Caigen Wang said: *"Aurum is pleased to announce the achievement of two milestones at its Boundiali South (BST) tenement, part of the larger 1.6Moz Boundiali Gold Project, thanks to the strong support of the Côte d'Ivoire Government. The Company extends its sincere thanks for the efficient approval of the protocol agreement, which allows the immediate recommencement of exploration activities within the designated classified forest area at Boundiali South. This agreement is a critical step, allowing Aurum to go ahead with diamond drilling on this highly prospective tenement to expand the existing gold resource and advance overall project development plans.*

Further showing the project's progress, Aurum confirms that the Ministry of Mines, Petroleum and Energy, Côte d'Ivoire, has accepted its application for a mining exploitation licence covering the entirety of the BST tenement. With this key application accepted, the Company is now positioned to accelerate both its exploration drill-out programs and vital development activities, such as environmental studies, aimed at confirming the potential for the gold resources at BST to support a future open-pit mining operation."

Tenement Sale and Purchase of Boundiali South Tenement

Turaco Gold Limited (ACN 128 042 606), CDI Holdings (Guernsey) Ltd (a wholly owned subsidiary of Many Peaks Minerals Limited (ASX:MPK) "Many Peaks"), Predictive Discovery Côte d'Ivoire SARL (a wholly owned subsidiary of CDI Holding (Guernsey) Ltd), and Aurum Resources Limited (ACN 650 477 286) entered into a Binding Term Sheet on 18 March 2024 (Term Sheet): Tenement Sale and Purchase of Tenement PR-414 ("Boundiali South Tenement" or "BST").

In May 2024, Turaco subsequently completed a share sale agreement with Many Peaks to consolidate a 100% interest in CDI Holdings (Guernsey) Ltd, whereby Many Peaks agreed all future proceeds and consideration received for the sale of BST pursuant to the Term Sheet would be paid to Turaco and Predictive Discovery limited (ASX:PDI).

Over the preceding year, Aurum has worked closely with the Côte d'Ivoire Government to enable the resumption of exploration activities on this prospective gold asset. Following the execution of a protocol agreement and the submission of the mining exploitation licence, Aurum confirmed the absence of any impediments to exploration or future mining rights. Consequently, in late March 2025, Aurum formally notified Turaco that all Conditions Precedent for the acquisition of 100% of the tenement (or its replacement) had been met or waived.

In response, Turaco has elected to proceed with option (ii)B as outlined in the Term Sheet:

- (i) Cash Consideration of A\$800,000; or
- (ii) Subject to the 20-day volume weighted average trading price (VWAP) of Shares at the time of election:
 - A. If VWAP is less than or equal to A\$0.20, 5,000,000 fully paid ordinary shares in the Purchaser (Shares) (Consideration Shares 1); or
 - B. If VWAP is greater than A\$0.20, Shares to the value of A\$1.2 million, calculated as A\$1.2 million divided by the 20-day VWAP for the Shares (Consideration Shares 2).

Accordingly, 3,492,535 Aurum shares valued at A\$1.2 million (\$0.343/share) using a 20-day VWAP prior to 1 April 2025 have been issued to Turaco (3,108,356 shares) and Predictive Discovery (384,179) to complete the 100% sale of BST to Aurum.
