ASX Announcement
ETHERSTACK PLC
("Etherstack" or the "Company")

Further \$2.2m MCPTX Contract Signed

Etherstack has signed a follow-on order valued at US\$1.3m (~A\$2.2m) with AT&T Services Inc. for network equipment, licenses and services related to the Company's mission critical push-to-talk (MCPTX) solution for public safety agencies.

The revenue will be recognised this financial year (ending 31st December) and brings the total of orders received in the first four months of this calendar year to over US\$2.5m (~A\$4.2m) for this product line.

Etherstack's CEO, Mr David Deacon said "International projects in public safety mobile broadband networks continues to expand on the back of LTE and 5G technologies. Etherstack is at the forefront of public safety applications globally providing the core network building blocks to support transition from traditional narrowband digital radio networks to next generation mobile broadband solutions. Our LMR InterWorking Function (IWF) was the world's first production deployment of a 3GPP standards based IWF for public safety and is live in multiple sites generating continuously growing revenues for the Company."

Etherstack's global customers in this space include AT&T, Nokia, Telstra and Samsung.

Authorised for release by David Carter, Company secretary
