## 3<sup>RD</sup> QUARTER ACTIVITIES AND APPENDIX 5B

Gladiator Resources Ltd (**ASX: GLA**) (**Gladiator** or the **Company**) is pleased to provide shareholders with the Company's Activities and Appendix 5B Cashflow Report for the quarter ending 31 March 2025.

### HIGHLIGHTS

- Results of the Eland (uranium-niobium-tantalum target) samples were received in January 2025; check analyses are underway before reporting the results, expected during late April/early May.
- Preparation of a drilling plan at Mtonya and Likuyu North, targeting areas identified from the 2024 field work.

### MKUJU URANIUM PROJECT - TANZANIA

During March, the Company commenced preparation of a plan and cost estimate for the drilling of holes to test targets that emerged following the 2024 drilling and interpretive work. A low-cost drilling method is being evaluated to maximise the number of holes, logging of the holes with the Company's gamma-ray logging equipment. Holes would be on lines, and holes close-spaced (100-400m) on these lines.

The areas identified for possible drilling are:

- Mtonya target area<sup>1</sup> and Likuyu South, to test the area of possible oxidized to reduced transition, targeting roll-front uranium deposits such as the existing Mtonya deposit<sup>2</sup>.
- Likuyu North, testing 'up-dip' of (2025) hole LNDD017<sup>3</sup> to test for mineralisation at the Company's Likuyu North deposit close by.

When the plan and cost estimate is ready a decision will be made on implementing it.

### ELAND URANIUM-NIOBIUM-TANTALUM PROJECT – TANZANIA

The results of the 'channel samples' collected in second-half 2024 were received during January 2025. Before releasing the results, the Company is waiting for the results of 'check analyses' using a 2<sup>nd</sup> lab as a quality control-quality assurance (QA-QC) measure.

The samples were collected by cutting grooves across exposed areas of rock which is a syenogranite or syenite with uranium-niobium-tantalum mineralisation. This sampling follows rock-chip sampling in 2023<sup>4</sup>.

<sup>1</sup> Refer to announcement dated 16 August 2024 'Drilling Update for Mkuju Project'.
