8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: As detailed in the accompanying quarterly activities report, negative net operating cash flows are expected to decrease substantially in the near term, driven by customer receipts from delivery and installation for POs on hand. The Company expectation is for cash to increase in Q4 with anticipated device installations, receipts, and other initiatives.	
8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: As detailed in the accompanying quarterly activities report, the Group is expecting an increase in cash during Q4 and does not see an immediate need to raise capital. In addition to cashflow from device installations, the Company is continuing to advance strategies to secure non-dilutive capital.	

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, the entity expects to be able to continue its operations and to meet its business objectives, based on expected cash receipts from customers to increase significantly as more devices are delivered and installed in following quarters. In addition, the Company continues to explore additional sources of non-dilutive funding.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
