Balance sheet strength remains a key priority

(%)

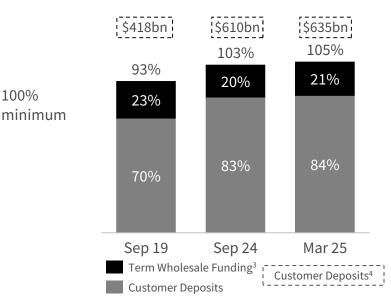

Approach to capital management

- CET1 target increased by 25bps to >11.25% (at Level 1 and Level 2) to reflect APRA's decision to phase out AT1
- ¹²Strong capital position important for balance sheet growth and to support customers through the cycle
- Retain bias to reduce share count to drive sustainable ROE and EPS
- Completed \$8bn of on-market buybacks since Aug 21
- DRP for 1H25 dividend to be neutralised

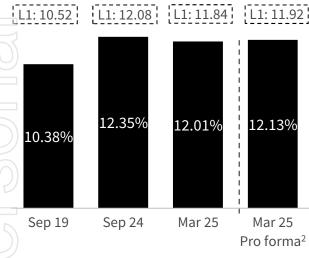

LCR and NSFR at Mar 25

GLAs increasingly funded by deposits

Group CET1 remains strong¹

Lon and Norn at Mar 25

139%

Sep 23 and beyond is reported under APRA's revised capital framework effective from 1 January 2023

Pro forma CET1 ratio reflects the impacts of the sale of the Group's remaining 20% stake in MLC Life Insurance to Nippon Life Insurance Company for \$500m. The proposed sale is expected to complete in the second half of calendar year 2025 and is subject to satisfaction of certain conditions including completion of the acquisition of the Resolution Life Group by Nippon Life Insurance Company, and regulatory approvals

119%

NSFR

Includes senior unsecured, secured (covered bonds and securitisation), subordinated debt, AT1 and RBNZ funding facility drawdowns with a remaining term to maturity or call date > 12 months

LCR (quarterly

avg)

(4) Excludes customer deposits in New York and London

Continued focus on protecting customers against financial crime

Completed delivery of required activities under AUSTRAC Enforceable Undertaking

- In April 2022, AUSTRAC accepted an Enforceable Undertaking (EU) from NAB to lift its compliance with AML/CTF¹ requirements
- The EU required NAB to implement a comprehensive Remedial Action Plan (RAP) involving improvements in its systems, processes and controls
- NAB has completed the delivery of its required activities under the RAP
- On 30 April 2025 the External Auditor delivered its final NAB report under the EU
- AUSTRAC is currently considering the final report
- The EU will end on the date that the AUSTRAC CEO provides written consent to the cancelling or withdrawal of the EU

Continue to invest in systems and controls to help protect the bank and our customers

- Real-time payment alerts
- 24/7 fraud assistance and colleague training
- Investing in security technologies
- Blocks on certain high-risk cryptocurrency platforms
- / Targeting SMS and website phishing scams
- Involvement in joint security operations
- ight) Customer education and cyber security hub

"Customer obsessed" colleagues

We are customer obsessed

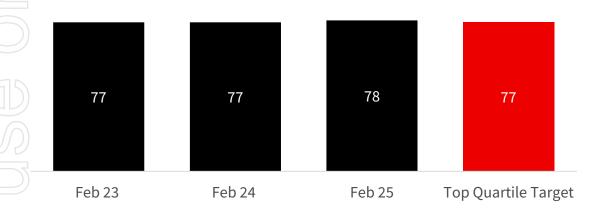

We keep it simple We move with speed

We own it

Colleague engagement remains top quartile¹

86% **Response rate**

Colleague strategy supported by investment in AI and GenAI-powered tools

Call Analytics

- Using an AI platform for analysis of call drivers, themes and insights for improved banker coaching and development conversations
- 98% of call volumes in Australia being transcribed

Knowledge Management Tool

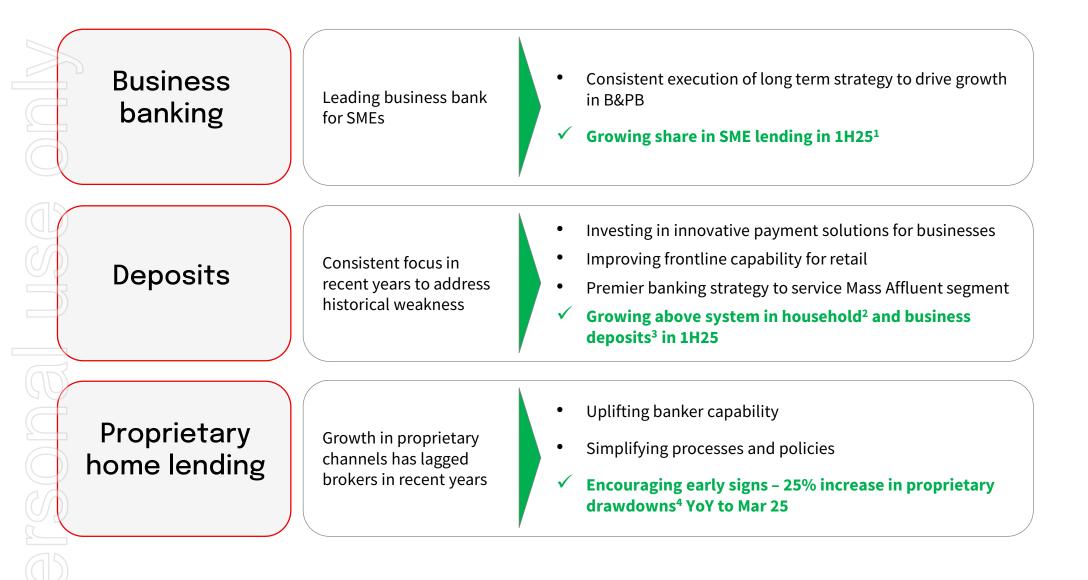

- GenAI-powered knowledge search interface being rolled out across contact centres
- Provides fast and accurate process, product and policy information to support bankers in responding to customer enquiries

Source: NAB Heartbeat survey. Top quartile comparison is based upon Glint's client group (domestic and global, from all industries)

Three key priorities to drive strong sustainable returns

Derived from latest RBA statistics. Latest data as at Feb 25 excluding financial businesses (2)

Represents business deposits to non-financial businesses and community service organisations under APRA Monthly Authorised Deposit-taking Institution statistics definitions. Latest data as at Mar 25 (3)

(4) Excludes 86 400 platform (ubank housing lending originated on the 86 400 platform)

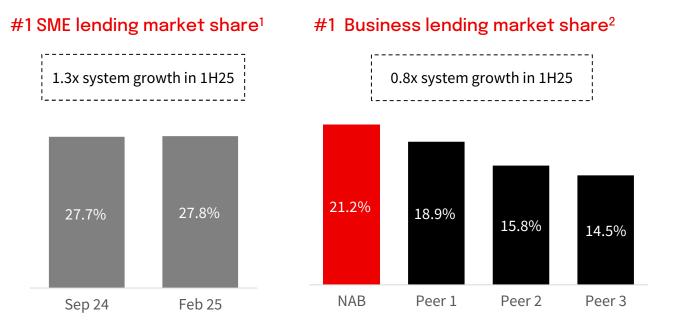

Represents household deposits under APRA Monthly Authorised Deposit-taking Institution statistics definitions. Latest data as at Mar 25

Growing share of business lending in target segments

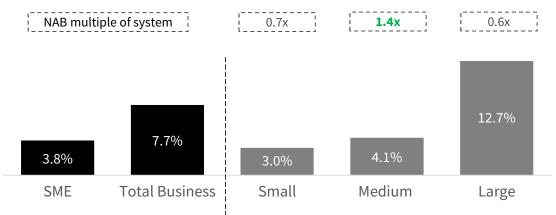

Key 1H25 growth drivers

- #1 bank with increasing share in
 SME, driven by B&PB and
 corporates in C&IB
- Strongest share gains in Medium business segment, consistent with relationship-led approach
- Strong system credit growth driven by Large business segment
 - NAB growing at 0.8x system with continued disciplined growth in C&IB
- 3.8% growth in SME system reflected
 - weaker Agri growth due to stronger cyclical paydowns (-4.8% annualised)
 - strong growth in CRE (9.9% annualised)

Annualised 1H25 system² lending growth³

-Derived from latest RBA statistics. Latest data as at Feb 25 excluding financial businesses. NAB SME market share reflects lending to small and medium businesses by both B&PB and C&IB

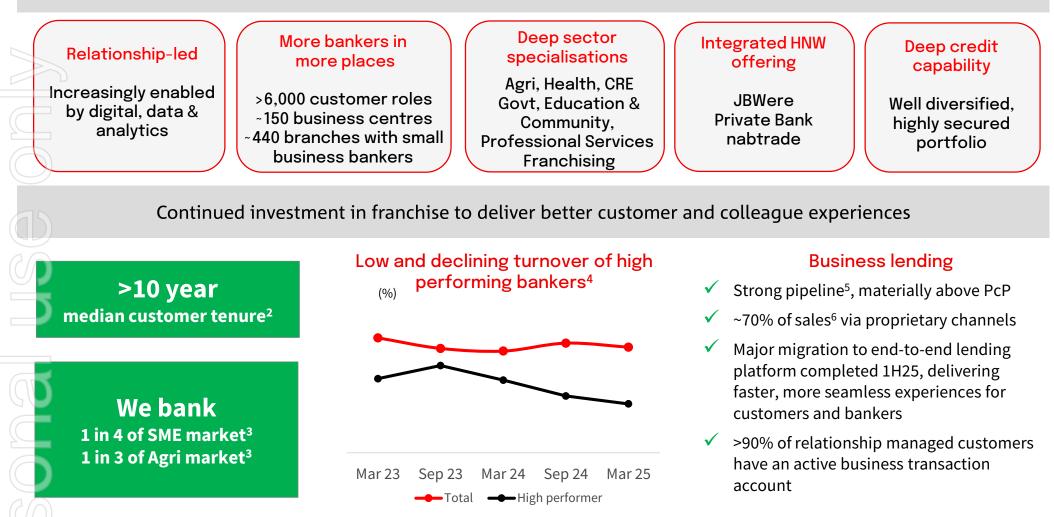

Represents business lending to non-financial businesses and community service organisations under APRA Monthly Authorised Deposit-taking Institution statistics definitions. Latest data as at Mar 25

Represents business lending to non-financial busi
 Growth represents 5 months to Feb 25 annualised

Business & Private Banking (B&PB)

Australia's leading business bank servicing the business & personal banking needs of SME customers¹

Focused on executing long term strategy to deliver sustainable growth at attractive returns

B&PB customers typically have borrowings up to \$50m and turnover less than \$100m
 For relationship managed customers

Derived from latest RBA statistics. Latest data as at Feb 25 excluding financial businesses

(4) Voluntary turnover rolling 12 months for customer facing roles

Pipeline refers to value of applications, approvals and acceptances. Based on unaudited management information as at 28 March 2025

(6) Sales refers to new and increased limits

(3)

(5)

Investing to grow deposits

Strong growth in retail and business deposits

Increased share of household deposits with **1.3x system growth** in 1H25¹

32% increase in branch

initiated retail transaction

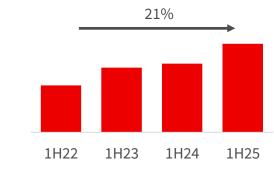

account openings in 1H25

Continue to target Mass

Affluent segment through

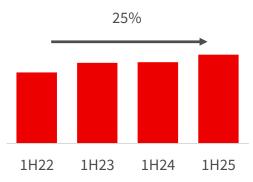

Premier banking strategy

Retail new transaction account openings

- 22% share of business deposits with 1.6x system growth in 1H25²
- Simplified customer onboarding in B&PB
- Further C&IB mandate wins in 1H25 including 5 year NSW Govt tender, leveraging NAB Liquidity+ and PayByBank solutions

B&PB new business transaction account openings

Investing in innovative payment solutions

NAB PayByBank

(vs 1H24)

- A fast, simple and secure way to initiate payments directly from customers' bank accounts
- PayByBank ("PayTo") available on Amazon.com.au

- AI-enabled predictive cashflow treasury solution that aggregates customers' NAB and third-party accounts
- Real time visibility of cashflows, dynamic insights and precision forecasting

NAB Portal Pay

- Real time processing of property sale deposits, tracking and reconciliation of rent payments
- Backed by NAB's PayByBank
- Integrated with MRI Property Tree which is used by more than 29,000 property management professionals

(1) __Represents household deposits under APRA Monthly Authorised Deposit-taking Institution statistics definitions. Latest data as at Mar 25

Pay to

(2) Represents business deposits to non-financial businesses and community service organisations under APRA monthly ADI Statistics definitions. Latest data as at Mar 25

Improving performance in proprietary home lending

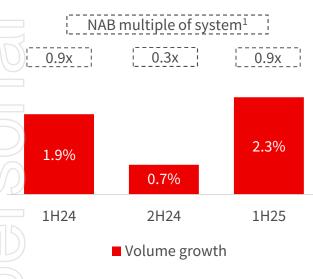

Home lending strategy

- Deliver seamless customer, banker and broker experiences supported by simplification of processes and policies and investment in modern technology
- Continue to manage portfolio returns through a disciplined approach including improved proprietary performance

1H25 actions

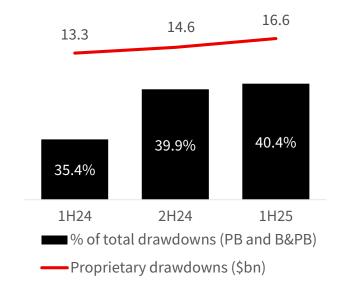

- Dedicated team for proprietary home lending
- Uplifted banker capability and support
- Banker scorecards aligned around "whole of customer"
- Enhanced digital tools and leads generation
- Enhanced product features e.g. multi-offsets

Improved growth in Australian home lending

25% increase in proprietary drawdowns (YoY)²

Uplifted banker capability in 1H25

(1) Source: APRA Monthly Authorised Deposit-taking Institution statistics. Latest data as at Mar 25

(2) Excludes 86 400 platform (ubank housing lending originated on the 86 400 platform)

(3) Offset by productivity – banker numbers stable in 1H25

JH25 Financials

Chief Financial Officer

Financial results

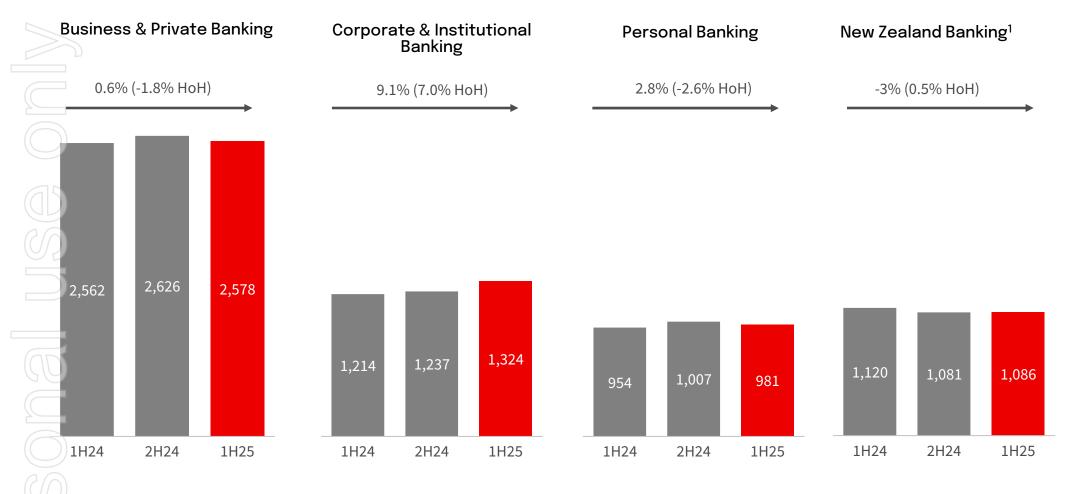

P&L key financial indicators	2H24 (\$m)	1H25 (\$m)	1H25 v 2H24
Net operating income	10,112	10,281	1.7%
ex Markets & Treasury	9,374	9,273	(1.1%)
Operating expenses	(4,750)	(4,818)	1.4%
Credit impairment charge	(365)	(348)	(4.7%)

(1) Refer to page 36 for definition of cash earnings and reconciliation to statutory profit

Divisional performance

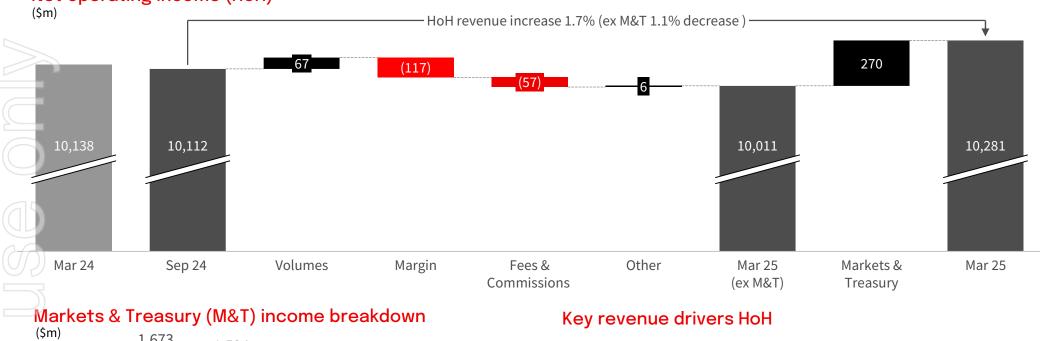

Underlying profit (\$m)

1H25 revenue

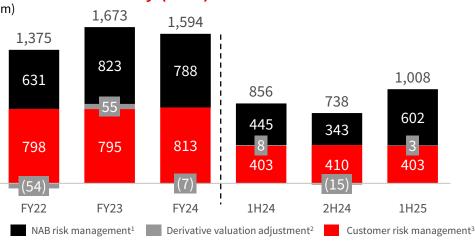

Net operating income (HoH)

(2)

(3)

(4)

- Volume growth offset by margin pressure
- Fees & Commissions impacted by higher customer-related remediation and headwinds from sale/run-off of businesses
- Higher M&T income benefitting from favourable interest rate positioning and \$54m gain on Subordinated Loan Notes issued by Insignia Financial Ltd⁴

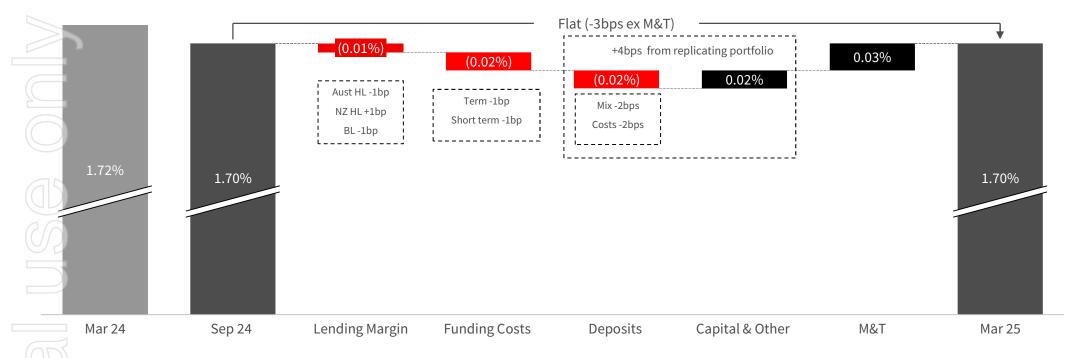

NAB risk management comprises NII and OOI and is defined as management of interest rate risk in the banking book, wholesale funding and liquidity requirements and trading market risk to support the Group's franchises. Markets forms part of C&IB and NZ Banking revenue. Treasury forms part of NZ Banking and Corporate Functions and Other revenue

- Derivative valuation adjustment is shown net of hedging costs or benefits and includes credit valuation adjustments and funding valuation adjustments
- Customer risk management comprises NII and OOI and reflects customer risk management in respect of PB, B&PB, C&IB and NZ Banking
- As part of its financing of the acquisition of MLC Wealth, Insignia Financial Ltd issued \$200 million of five-year structured Subordinated Loan Notes to NAB. NAB requested early redemption of the notes in March 2025, which was declined by Insignia Financial Ltd. As a result of the request for redemption the total return amount of the notes has been determined and the resultant fair value gain was recognised. The notes (including the increased total return amount) will be repaid in May 2026

Net interest margin

Net interest margin (HoH)

Key considerations 2H25¹

- Benefit of deposit and capital replicating portfolios of ~3-4bps²
- Impact of 25bps RBA cash rate cut on Australian unhedged low rate sensitive deposits estimated at ~1bp annualised³
- 7bps move in 3 month Bills/OIS equivalent to ~1bp of annualised NIM⁴

Refer to key risks, qualifications and assumptions in relation to forward looking statements on page 128

Based on market implied 3 and 5 year swap rates trajectory as of 31 March 2025 and stable balances for the Australian and New Zealand capital and deposit replicating portfolios respectively

Based on 31 March 2025 spot volumes and assumes certain pass-through rates on individual deposit products

Based on 31 March 2025 rates and balances. Average 3 month Bills/OIS of ~10bps in 1H25

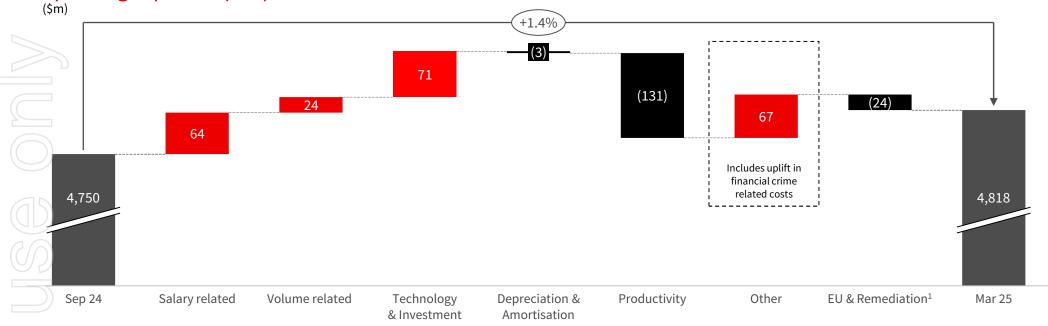

(2) (3)

(4)

Operating expenses

Operating expenses (HoH)

FY25 considerations²

(1)

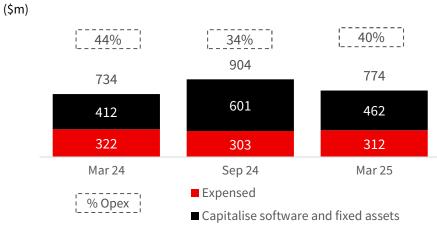

(2)

(3)

(4)

- Opex growth expected to be lower than FY24 growth of 4.5%³
- Investment spend expected to be ~\$1.8bn with opex ratio of ~40%
- No further EU-related costs expected in 2H25 (~\$17m in 1H25)⁴
- Targeting productivity >\$400m

Investment spend

EU-related costs of \$17m (\$41m in 2H24). Customer related remediation \$20m in 1H25 (\$20m in 2H24) Refer to key risks, qualifications and assumptions in relation to forward looking statements on page 128 FY25 guidance excluding any large notable items

Assumes AUSTRAC CEO provides consent to the cancelling or withdrawal of the EU

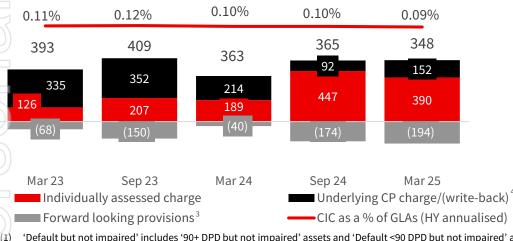

Asset quality

1.49% 1.39% 0.22% 1.20% 1.13% 0.20% 0.96% 0.15% 0.14% 0.14% 1.27% 1.19% 1.05% 0.99% 0.82% Mar 23 Sep 23 Mar 24 Sep 24 Mar 25 ■ Impaired assets as a % of GLAs ■ Default but not impaired as a % of GLAs

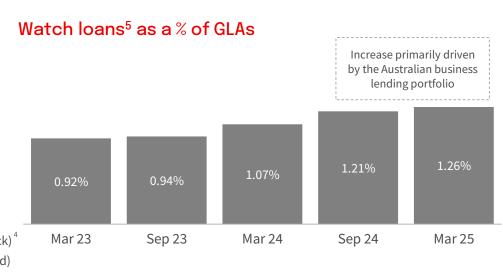

Non-performing exposures (NPL) as a % of GLAs

Credit impairment charge (CIC)

Key 1H25 impacts

- Pace of NPL increase slowing as Australian mortgage arrears ٠ stabilise; B&PB business lending the key driver of 1H25 uplift
- NPLs remain dominated by Default but not impaired exposures
- CIC of \$348m, down \$17m ٠
 - Individually assessed charge of \$390m mainly reflects Australian business lending and unsecured retail portfolios
 - Underlying collective charge of \$152m reflects asset quality deterioration and volume growth
 - Net release of forward looking provisions of \$194m

'Default but not impaired' includes '90+ DPD but not impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management

'Default but not impaired' includes loans that have been classified as restructured in accordance with APS 220 Credit Risk Management which are assessed as no loss based on security held

Represents collective provision EA and FLAs for target sectors

Represents collective credit impairment charge less forward looking provisions

Watch loans are generally triggered by banker referrals or manual downgrades of customer ratings as part of reviews throughout the year

(2)

(3)

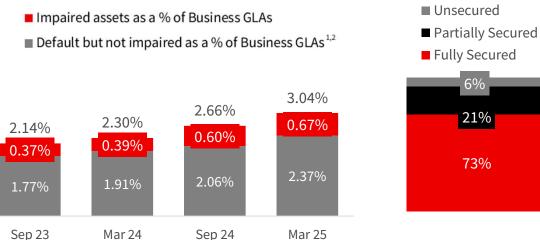

(4) (5)

national Business & Private Banking business lending asset quality

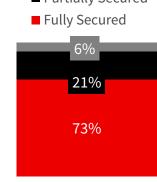

Key 1H25 considerations

- Higher NPL ratio driven mainly by Default but not impaired exposures including:
 - seasoning impact of FY22 and FY23 vintages
 - broad-based deterioration across industries
 - continued challenging conditions for Victorian customers
- Well diversified and highly secured book
- NAB continues to work with customers through difficult periods

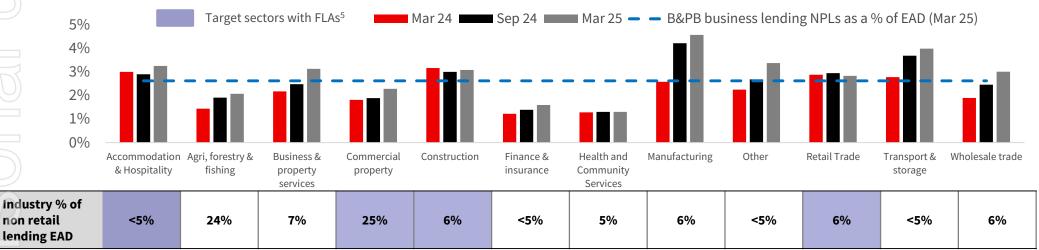

Non-performing exposures (NPLs) as % of GLAs

Security profile³ Mar 25

Non-performing exposures (NPLs) as % of lending EAD by regulatory industry categories⁴

'Default but not impaired' includes '90+ DPD but not impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management

(2) 'Default but not impaired' includes loans that have been classified as restructured in accordance with APS 220 Credit Risk Management which are assessed as no loss based on security held

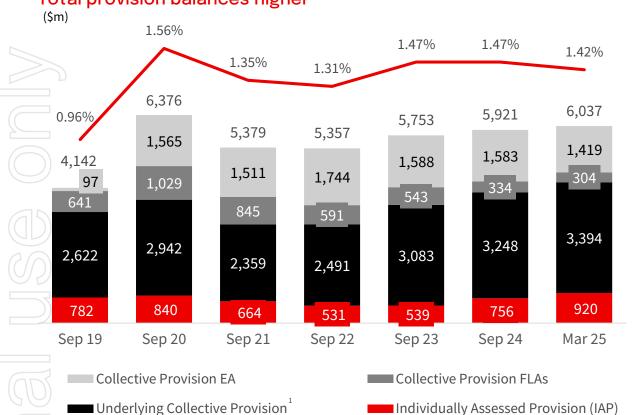

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is (3) where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(5) Target sectors with FLAs refers to non-retail sectors with an FLA provision: Retail Trade; Tourism, Hospitality & Entertainment (which includes Accommodation & Hospitality); Construction and CRE

Strong provisioning maintained

CP/CRWA²

(2) (3)

Total provision balances higher

Key considerations

- Total provisions of \$6.0bn (or 1.67% of CRWA) represent 1.7x 100% base case scenario³
- CP of \$5.1bn representing 1.42% CRWA ٠
- Deteriorating asset quality in 1H25 evident in ٠ higher IAPs and underlying CP
- \$194m reduction in forward looking provisions since Sep 24 reflecting:
 - Economic Adjustment (EA) reduction due to anticipated asset quality deterioration transitioning from the forward outlook to the current period⁴
 - Net release of FLAs relating mainly to NZ Agri
- Maintaining strong forward looking provisions primarily reflecting heightened geopolitical tensions and global trade uncertainties; downside scenario weighting unchanged (42.5%)

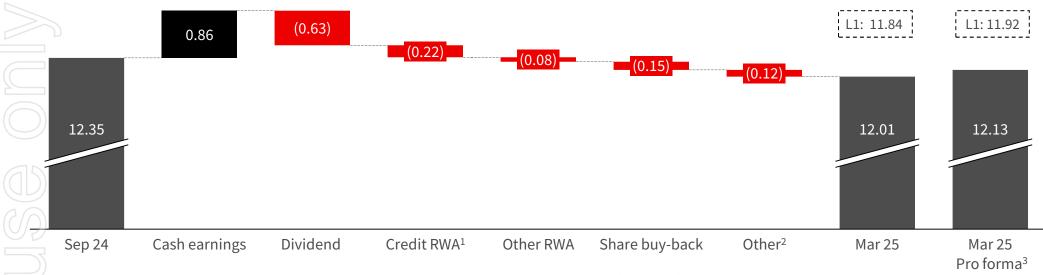

Underlying collective provision for Sep 23 and prior figures includes amounts for collective provisions on derivatives at fair value Sep 23 and beyond are reported under APRA's revised capital framework effective from 1 January 2023 After excluding \$304m in FLA balances from the 100% base scenario (4) Scenarios, prepared for purposes of informing forward looking provisions, rely on NAB Economics forecasts at Feb 25 and management judgement

Capital remains above operating target

Group Basel III CET1 capital ratio

(%)

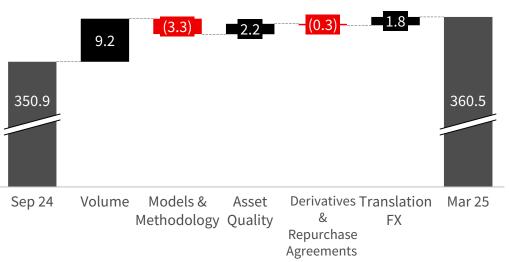

1H25 CET1 considerations

Ð
•
(1) (2) (3)

- Higher Credit risk-weighted assets (CRWA) mainly driven by business lending growth
- 1Q impact of volatility on CRWA largely unwound
- Other RWA includes annual Operational Risk refresh and impact of Capital Floor Adjustment (-4bps)
- Minimal impact to CET1 ratio from translation FX in 1H25
- On-market buy-back completed on 12 March 2025 (\$0.6bn bought back in 1H25)

Credit risk-weighted assets

(\$bn)

Excludes foreign exchange translation

Other capital movements relate to net foreign exchange translation, non-cash earnings, capitalised software, capitalised expenses, reserves and other miscellaneous items

Pro forma CET1 ratio reflects the impacts of the sale of the Group's remaining 20% stake in MLC Life Insurance to Nippon Life Insurance Company for \$500m. The proposed sale is expected to complete in the second half of calendar year 2025 and is subject to satisfaction of certain conditions including completion of the acquisition of the Resolution Life Group by Nippon Life Insurance Company, and regulatory approvals

Strong funding and liquidity metrics

Key messages

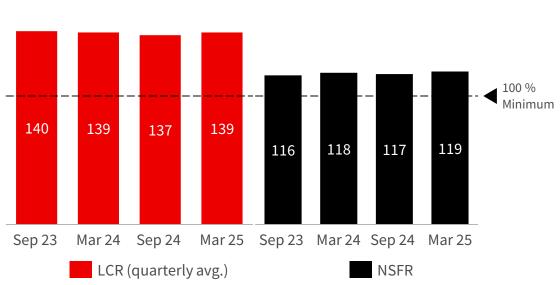

volatility

39

FY23 issuance

- Maintained strong funding and liquidity position with
 LCR and NSFR well above regulatory minimums
 Positioned to manage through periods of market
 - Well progressed on term funding task \$20bn completed in 1H25 diversified across product, currency and tenors
 - FY25 term funding issuance expected to be broadly in line with prior years

Liquidity position well above regulatory minimums

13

(%)

Includes senior unsecured, secured (covered and RMBS) and subordinated debt with an original term to maturity or call date greater than 12 months, excludes AT1 instruments. Group cash earnings reconciliation to statutory net profit

Cash earnings is not a statutory financial measure and is not presented in accordance with Australian Accounting Standards nor audited or reviewed in accordance with Australian Auditing Standards. Cash earnings is calculated by excluding discontinued operations and certain other items which are included within the statutory net profit attributable to owners of the Company. These non-cash earning items, and a reconciliation to statutory net profit attributable to owners of the Company, are presented in the table below

The definition of cash earnings is set out on page 10 of the 2025 Half Year Results, and a discussion of non-cash earnings items and a full reconciliation of the cash earnings to statutory net profit attributable to owners of the Company is set out on pages 96-98 of the same document. The Group's financial statements, prepared in accordance with the Corporations Act 2001 (Cth) and Australian Accounting Standards, and reviewed by the auditors in accordance with Australian Auditing Standards, are set out in the 2025 Half Year Results

	1H25 (\$m)	2H24 (\$m)	1H24 (\$m)	1H25 v 2H24 (\$m)	1H25 v 1H24 (\$m)

up new accounts in 1H25

20,000 customers to

Customer Data Refresh

Keeping customer details up-to-date to help ensure AML/CTF¹ compliance and reduces reliance on more costly channels

The Brain has enabled more than 2m customers to update their details through a fully digital experience

Banker leads

Using what we know about our customers, we automatically match them with a NAB banker

The Brain now delivers Deposit and Home Lending leads. Term Deposit expiry conversations have resulted in ~\$92m of retained deposits, and Home Lending leads have driven a 64% uplift in applications in 1H25²

Managing account closure

When customers close a credit card, it stays visible in the mobile app to comply with regulation

The Brain sends a confirmation message of the closure and notifies the customer that the transaction history will remain visible for 6months, reducing inbound calls and complaints

Real-time decision-making generating over 671m customer decisions and serving 298m customer interactions³

Anti Money Laundering / Counter Terrorism Financing
 Leads generated in proprietary home lending applications

(3) Over the 6 months to Mar 25

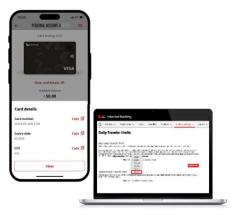

Investing in our digital banking channels

Mobile app and Internet Banking supporting Retail and SME customers

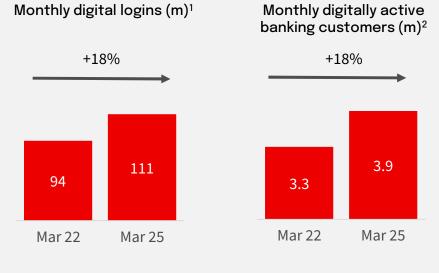

NAB Mobile app

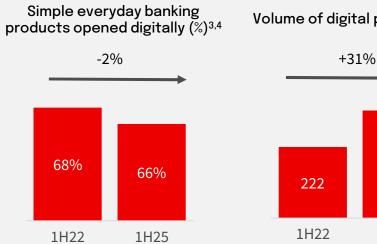

- Integrated multi-offset capability that supports up to 10 offset accounts per home loan
- Improved in-app search design and capability to align with other channels
- Enhanced digital card capabilities allowing customers to opt out of receiving physical cards
- Strengthened fraud and scams protection for Android customers

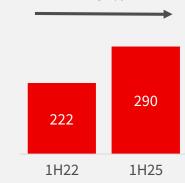

NAB Internet Banking

- Increased daily payment limits (up to \$100k) enabling ٠ higher value payments through digital channels
- Integrated home loan and visa debit card services ٠ enabling customers to stay in-channel
- Customers can apply for a Plenti car loan
- Improved registration and password process ٠
- Upgrade to 'Pay Anyone' feature to make simpler and faster payments

Volume of digital payments (m)⁴

Total number of secure logins to the NAB mobile app or internet banking in the month

Data excludes Citi Consumer Business

Transaction, savings, credit cards, NAB Now Pay Later and personal loan products

(2)

Manage business banking from anywhere

NAB Connect supporting B&PB¹ and C&IB customers

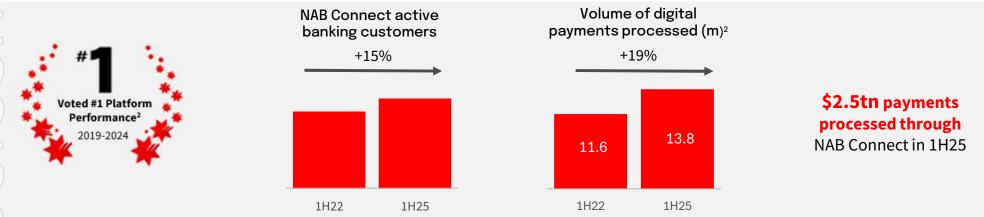

- Customers can access the platform when needed with +99% service availability
- Clients can customise NAB Connect to their business needs through self and assisted service functions
 - In-built fraud controls such as configurable payment approval rules, multifactor authentication and suspicious payment alerts to give business customers the tools to safely make and receive payments
 - Highly flexible payment rules allowing NAB Connect customers to configure payment approvals to meet their specific business needs
 - Integrated with back-office accounting packages and systems allowing customers to automate processes
 - A consolidated view for institutional customers with an unlimited number of accounts
 - Simplified NAB Connect onboarding process for large businesses enabling easier access to our digital channels

Access to NAB specialist products and services including Corporate Cards Self Service, FX deals and Trade Finance Online

1H25 capabilities delivered:

- Improved customer experience for managing payment transfers
- Simplified security enabling greater control for users
- Improved fraud protection when customers log in and when they make outbound payments
- Training guides and links to onboard new NAB Connect users

Excludes small business customers with less complex needs who are serviced by NAB Mobile app and NAB Internet Banking

2024 Coalition Greenwich (formerly known as Peter Lee Associates) Large Corporate & Institutional Transaction Banking Survey, Australia. Ranking against the four major domestic banks

(2)

Investing to protect customers against scams & fraud and cyber security risks

Real-time payment alerts

Alert customers in real time to review payments in the NAB App and NAB Internet Banking to identify potential scams before proceeding

24/7 fraud assistance and colleague training

Our team is available 24/7 to assist customers, with >700 investigations and fraud FTE. Branch and call centre teams trained to help spot potential scams and fraudulent activity

Investing in security technologies

Investing in security technologies including advanced biometrics capabilities for Internet Banking, the NAB app, and NAB Connect

Blocks on certain high-risk cryptocurrency platforms

Blocks on certain cryptocurrency platforms where scams are more prevalent

Targeting SMS and website phishing scams

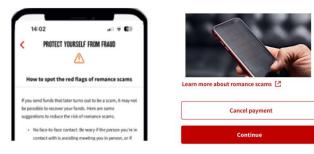

Removed unexpected links from SMS messages, to make it easier to spot a phishing message, and assisted with the removal of >600 illegitimate websites trying to impersonate NAB or our products

Involvement in joint security operations

Collaborating with industry, law enforcement and government agencies to investigate organised transnational crime groups targeting Australians

Customer education and cyber security hub

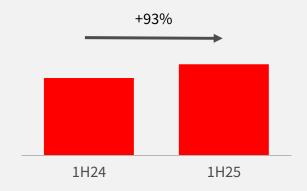

Building customer awareness and educating customers and businesses on cyber threats, fraud and scams, including via our cyber security resource hub

1H25 initiatives and outcomes included:

- Prevented and recovered >\$340m in scam losses for customers since Sep 21, including >\$48m in 1H25
- >970k real-time customer payment alerts sent with >\$195m in payments subsequently abandoned in 1H25
- Joined BioCatch Trust Australia an inter-bank, intelligence-sharing network allowing member banks to share real-time information before a customer payment.
- Use of biometrics technology in NAB Connect (BioCatch) continued to increase the detection of suspicious behaviour

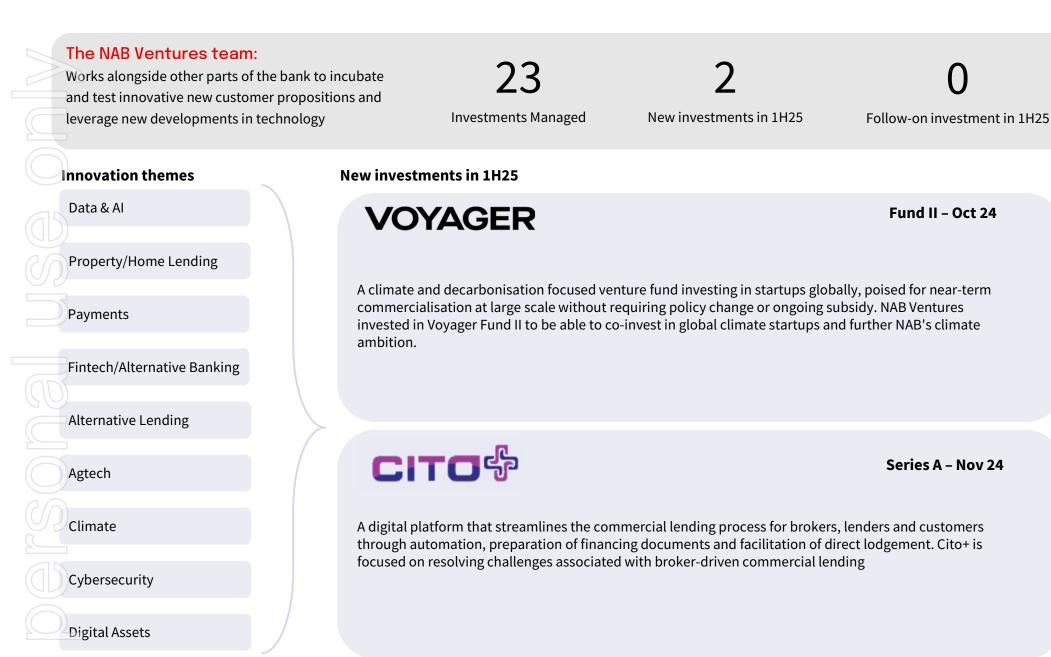

NAB Connect suspicious behaviour alerts detected by biometrics technology

Innovating with NAB Ventures

national australia bank

1H25

Market leading in unsecured lending

 Building a modern platform to support customer experience, expanded white label and rewards partnerships

Enabled by our continued investment in personalisation through digital and data capabilities

1H24

Year to date 30 April 2025 APRA Monthly Authorised Deposit-taking Institution statistics

(2)

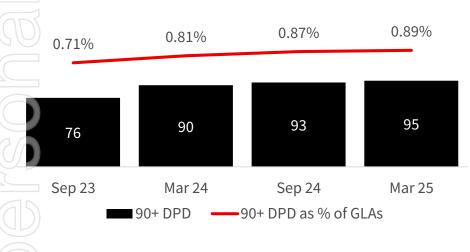

Unsecured lending

Key considerations

- Strong customer acquisition and spend performance across ٠ NAB and Citi portfolios
- Portfolio guality remains sound
 - Arrears increased in 1H25 but remain below pre-COVID levels
 - Revolve rate of ~64% continues to trend upwards (62% in FY24), primarily driven by changes in interest free days for Citi cards. However, remains below 2019 trend (~65-70%)

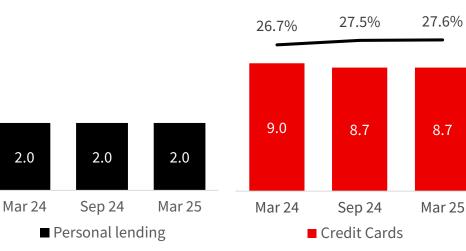

Cards² and personal lending 90+DPD and as a % of total cards and personal lending GLAs (\$m)

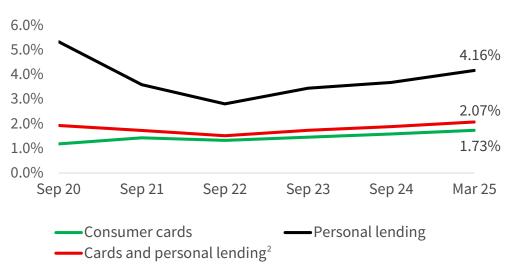

Balance and market share¹

2.0

Group business mix - GLAs by category

Estimating long run loan loss rate

NAB Australian geography net write off rates as a % of GLAs	Long run average (1985 – 2024²)	Long run average (2005 - 2024²)
Home lending ³	0.03%	0.03%
Personal lending ^{3,4}	1.55%	2.27%
Commercial ³	0.48%	0.34%
Australian average	0.30%	0.19%
Group average ⁵ based on 2025 business mix	0.24%	0.19%
Group average ⁵ based on 2025 business mix (excluding 1991-1993 and 2009-2012)	0.16%	n/a
Group average ⁵ based on 2025 business mix (excluding 2009-2012)	n/a	0.13%

For 1985 Group business mix, all overseas GLAs are allocated to Commercial category

Data used in calculation of net write off rate as a % of GLAs is based on NAB's Australian geography and sourced from NAB's U.S. Disclosure Document (2021 - 2024), NAB's Supplemental Information Statements (2007 - 2020) and NAB's Annual Financial Reports (1985 - 2006)

Home lending represents "Real estate – mortgages" category; Personal lending represents "Instalment loans to individuals and other personal lending (including credit cards)" category; Commercial represents "all other industry lending categories" as presented in the source documents as described in note 2 above

Personal lending net write off rate since 2008 is above long run average of 1.55% (1985 – 2024) or 2.27% (2005 – 2024). Average net write off rate 2008 - 2024 is 2.41%

Group average is calculated by applying each of the Australian geography long run average net write off rates by product to the respective percentage of Group GLAs by product as at 31 March 2025. Commercial long run average net write off rate has been applied to acceptances

Group lending mix

Provisions

⁽²⁾ Scenarios, prepared for purposes of informing forward looking provisions, rely on NAB Economics forecasts at Feb 25 and management judgement

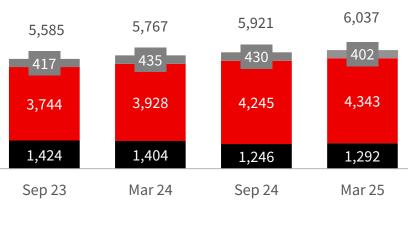

Expected Credit Losses (ECL) assessment

ECL scenarios & weightings

	Provision for E	CL ^{1,2}	
\$m	1H25 (probability weighted)	100% Base case	100% Downside
Total Group	6,037	3,949	8,878
Increase / (decrease) from Sep 24	116	(167)	545
	Macro eco	nomic scenario v	weightings
Australian Portfolio (%)	Upside	Base case	Downside
30 Sep 24	2.5	55.0	42.5
31 Mar 25	2.5	55.0	42.5

Total provision for expected credit losses³

■ Housing ■ Business ■ Other

Key considerations

- Increase in ECL vs Sep 24 primarily reflects deterioration in asset quality and volume growth, partially offset by a net release of \$194m from forward looking provisions:
 - EA reduction reflects anticipated asset quality deterioration transitioning from the forward outlook to the current period¹
 - Net release of FLAs mainly relating to New Zealand Agri
- Total provision for ECL represents 1.7x 100% base case scenario (after excluding \$304m in FLA balances from the 100% base scenario)

Economic assumptions

Australia	Australian economic assumptions used in deriving ECL ¹				1	
	Base case			Downside		
%	FY25	FY26	FY27	FY25	FY26	FY27
GDP change YoY	1.9	2.3	2.3	1.1	(3.1)	0.0
Unemployment	4.3	4.1	4.2	4.7	7.9	9.1
House price change YoY	4.1	3.0	3.0	(7.6)	(28.1)	(5.2)

(1) Scenarios, prepared for purposes of informing forward looking provisions, rely on NAB Economics forecasts at Feb 25 and management judgement

100% base case, 100% downside and probability weighted scenario all include \$304m of FLAs

(3) ECL excludes provisions on fair value loans and derivatives for Mar 24 and prior periods

(2)

Group non-retail lending industry sector analysis

Non-performing exposures (NPLs) as % of lending EAD by regulatory industry categories¹

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

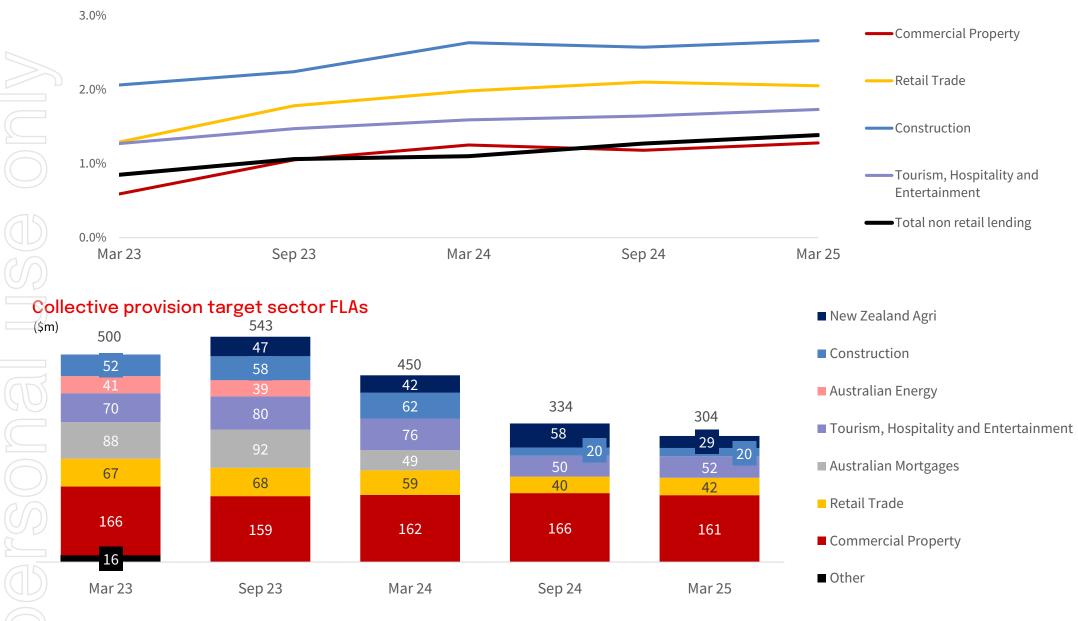

Target sectors with FLAs refers to non-retail sectors with an FLA provision relating to Australian exposures: Retail Trade; Tourism, Hospitality & Entertainment (which includes Accommodation & Hospitality); Construction and CRE

(2)

Target sector forward looking adjustments (FLAs)

Non retail target sectors non-performing exposures as % of non-retail lending EAD¹

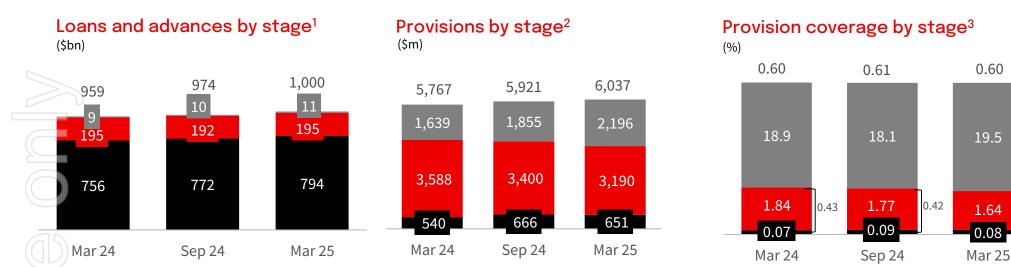

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

0.39

ECL provisioning by stages

■ Stage 1 (12 month ECL) ■ Stage 2 (Lifetime ECL) ■ Stage 3 (Lifetime ECL)

	Status	Type of provision
Stage 1 (12 month ECL)	Credit risk not increased significantly since initial recognition; performing	Collective
Stage 2 (Lifetime ECL)	Credit risk increased significantly ⁴ since initial recognition but not credit impaired	Collective
Stage 3 (Lifetime ECL)	Credit impaired: default no loss Credit impaired: default with loss	Collective Individually assessed

- Significant increase in credit risk rules are not prescribed by accounting or regulatory standards
- Stage allocations include the impact of forward looking economic information applied in the expected credit loss model
- Stage 2 includes majority of forward looking adjustments

(1) Notional staging of loans and advances, including guarantees and credit-related commitments, incorporates forward looking stress applied in the ECL model

-Mar 24 figures exclude collective provision on loans at fair value and derivatives which are not allocated to a stage under the ECL model

Provision coverage: provisions as a percentage of loans and advances including guarantees and credit-related commitments

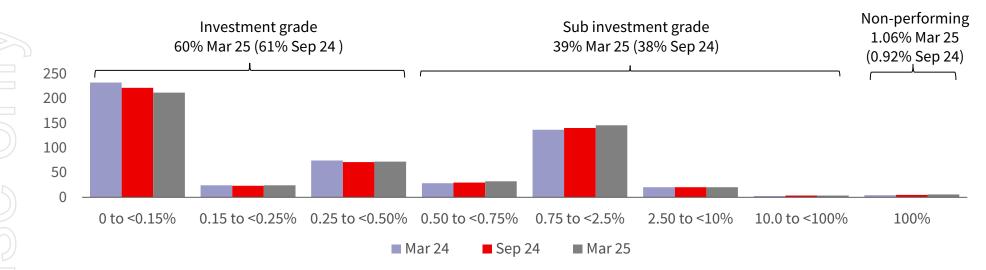

(2) (3)

(4) Significant increase in credit risk primarily determined by change in credit risk scores for business exposures and change in behavioural scoring outcomes for retail exposures

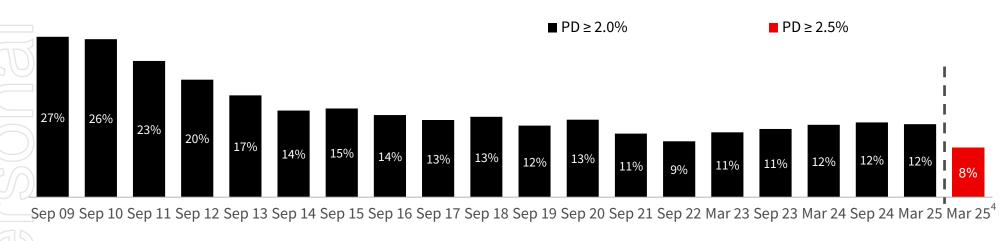

Probability of default (PD) analysis

Group non-retail IRB EAD¹ by probability of default (\$bn)

Australia² and NZ business lending exposures³

(1) Includes Sovereign, Corporate, Financial institution, Corporate (incl. SME) & Retail SME asset classes where the internal rating-based approach (both A-IRB & F-IRB) is applied. PD bandings are aligned to those disclosed in the Mar 25 Pillar 3 report – Table CR6. Comparative information has been restated to align to the presentation in the current period

(2) Australia includes business lending exposures booked within the Australian business units including Business and Private Banking, Corporate & Institutional Banking and Personal Banking

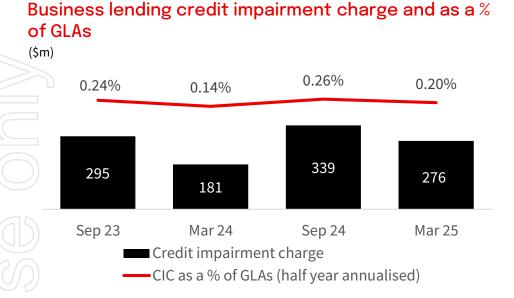

^b Business lending exposures excludes non-lending assets and certain assets supporting the Group LCR

(3)

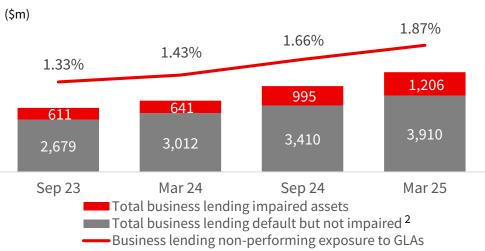

(4) Mar 25 PD \geq 2.5% is aligned to Mar 25 Pillar 3 report – Table CR6. Comparative historical information has not been restated to align to the presentation in the current period

Australian business lending asset quality

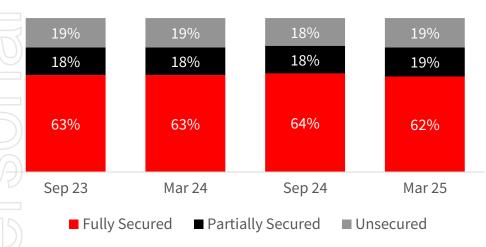

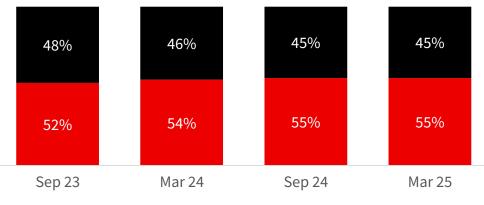

Business lending non-performing exposure as % of GLAs

Total business lending security profile¹

Business lending portfolio quality

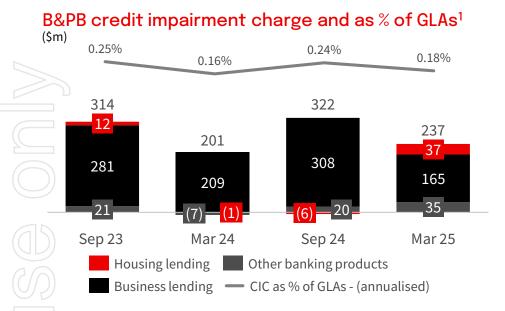

■ Sub-Investment grade equivalent ■ Investment grade equivalent

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

¹ 'Default but not impaired' includes loans that have been classified as restructured in accordance with APS 220 Credit Risk Management which are assessed as no loss based on security held

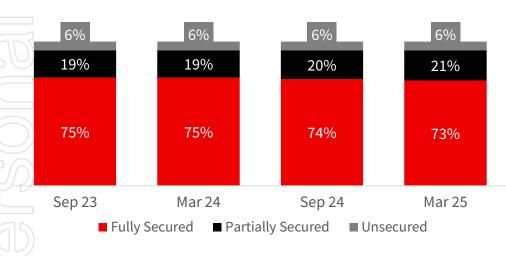

Australian Business & Private Banking asset quality

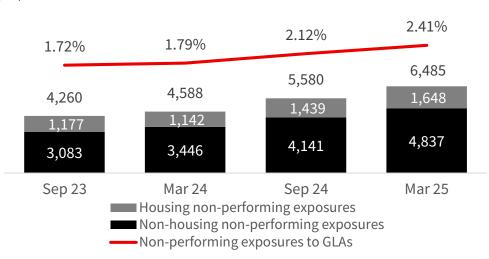

B&PB business lending security profile²

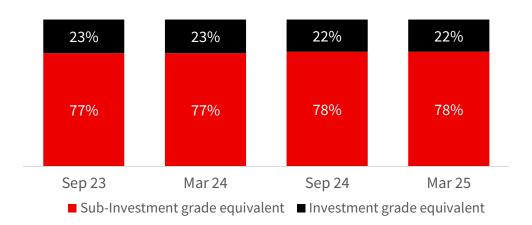

(1)

B&PB non-performing exposures and as % of GLAs¹ (\$m)

B&PB business lending portfolio quality

Of which: Unsecured	~1.6

'Default but not impaired' includes '90+ DPD but not impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management

'Default but not impaired' includes loans that have been classified as restructured in accordance with APS 220 Credit Risk Management which are assessed as no loss based on security held

Business lending exposures excludes non-lending assets and certain assets supporting the Group LCR

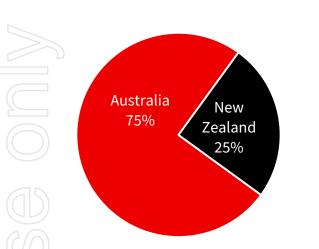

March 2025 PD \geq 2.5% is aligned to Mar 25 Pillar 3 report – Table CR6. Comparative historical information has not been restated to align to the presentation in the current period

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Agriculture, forestry & fishing exposures¹

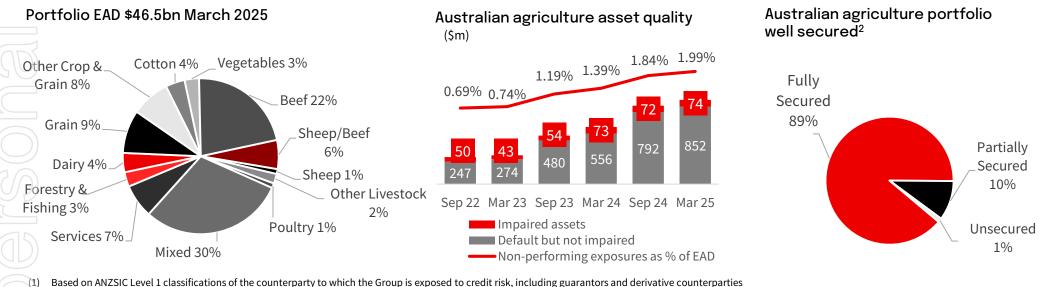

Group EAD \$61.8bn March 2025

Key Australian considerations

- Weather conditions have been mixed, with favourable conditions on most of the East Coast and rains in Western Australia, but dry conditions in Western Victoria and South Australia
- Sentiment generally remains positive with expectation of reasonable harvests, and asset valuations remain robust except for specific sub-sectors such as wine grapes
- Uplift in NPL ratio has slowed in 1H25, assisted by improved commodity prices and stabilising interest rates and input costs
- ~16% of non-retail lending EAD

Australian agriculture, forestry & fishing

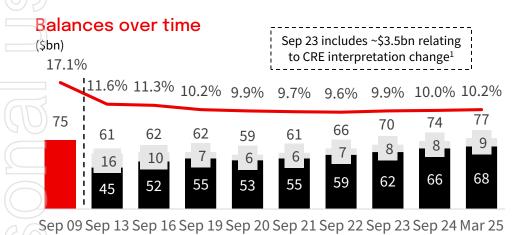

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Commercial real estate (CRE)¹

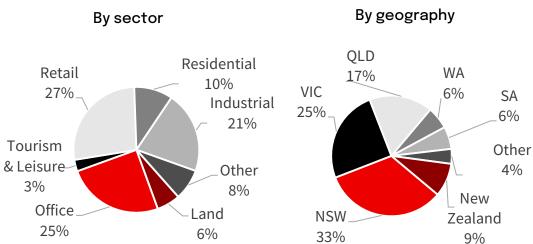

Gross loans & acceptances (GLAs)

	Australia	New Zealand	Total ²
Total CRE (A\$bn)	69.9	7.2	77.1
Increase/(decrease) from Sep 24 (A\$bn)	2.8	0.2	3.0
% of geographical GLAs	11.0%	7.3%	10.2%
Change in % from Sep 24	0.1%	0.1%	0.2%

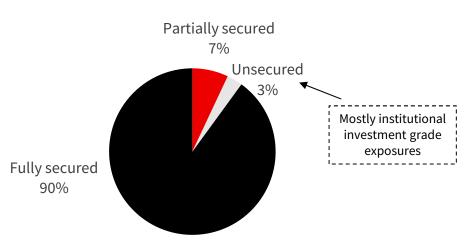

■Investor ■ Developer³ — Group CRE % of Group GLAs

Breakdown by total GLAs

Group CRE Security Profile⁴

Measured as balance outstanding as at 31 March 2025 per APRA Commercial Property ARF 230 definitions. NAB modified its interpretation of the ARS 230 Commercial Property standard during the September 2023 half, with the guidance of APRA. This resulted in an additional ~\$3.5bn in Australian balances qualifying for ARS 230 reporting at Sep 23

(2) Includes overseas offices not separately disclosed

(1)

(3) Developer at Mar 25 includes \$2.2bn for land development and \$3.0bn for residential development in Australia

(4) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Commercial real estate¹

Key asset quality considerations

- Non-performing exposures above low levels of recent years but remain below longer term historical levels; current experience remains biased towards default but not impaired exposures
 - ¹ Higher default but not impaired since Sep 22 are being influenced by increased interest expenses that are not offset by sufficient rental growth for investment lending and delayed project completions / cost over-runs in the development portfolio relating to builder / construction issues
- Outlook for further interest rate reductions in conjunction with rental growth is expected to improve **serviceability (ICR)** and support **asset values (LVR)**

Material portion of new and renewed CRE Investment lending over past 18 months associated with **LVRs** <60%

Transaction volumes have increased indicating liquidity is returning to the market

Provisioning includes \$161m target sector FLA
 Non-performing exposure and as % GLAs

Sector considerations

- Increased activity in the **Development** sector (particularly **Residential**) is supporting lending growth in the segment however, project feasibility is still challenged in some markets as developers factor in higher construction costs
- **Discretionary income** exposed assets remain challenged by elevated interest rates and cost of living pressures
- Valuation pressure and elevated vacancy rates evident across Office markets, however confidence is returning for Prime assets in most markets. Secondary assets² lacking Green credentials deemed higher risk, particularly those with shorter lease expiries located in CBD-type locations
 - C&IB portfolio (~2/3rd of Australian office) biased towards Prime / A-grade assets
 - B&PB portfolio (~1/3rd of Australian office) typically associated with C to D grade assets located in non-CBD locations

Measured as balance outstanding per APRA Commercial Property ARS 230 definitions

Refers to office assets below Prime and A-grade

(2)

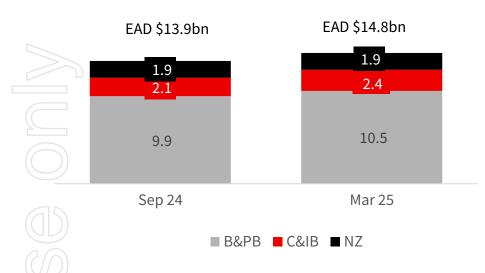

(3) 'Default but not impaired' includes '90+ DPD but not impaired' assets and 'Default <90 DPD but not impaired' assets aligned to APS 220 Credit Risk Management

Construction¹

Exposure at default

(2)

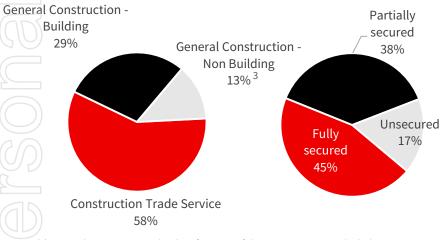

Key considerations

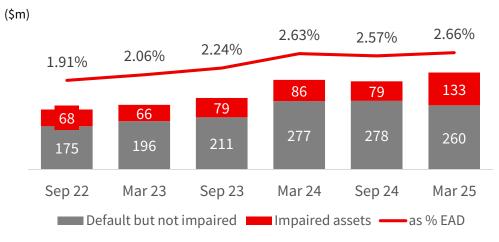

- While NPL trends have stabilised, challenges persist around labour availability and subcontractor issues (availability and completion risk); ~4% non retail lending EAD including subcontractors and construction services
- Highly diversified and secured portfolio
- Provisioning includes \$20m target sector FLA
- ~50% of C&IB exposures are contingent facilities e.g. performance guarantees

Mar 25 Australian Construction	B&PB	C&IB	Total
EAD (\$bn)	10.5	2.4	12.9
# customers	~30k	~300	~30k
% Fully or Partially Secured	94%	45%	82%

EAD portfolio by sector and security²

Non-performing exposure and as % of sector EAD

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

(3) General Construction – Non Building EAD includes construction activities such as infrastructure, leisure, irrigation, mining etc

Retail Trade¹

EAD \$15.8bn EAD \$16.4bn 2.2 2.1 3.1 3.5 10.5 10.8 Sep 24 Mar 25 B&PB C&IB

Exposure at default

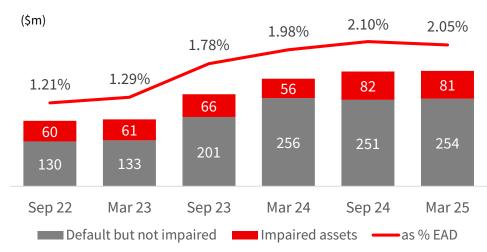

(2)

EAD portfolio by sector and security²

Key considerations

- NPL trends have stabilised
- Total consumer spending is improving, benefitting from tax cuts and easing of 'cost of living' pressures, with further support expected from interest rate reductions
- However margins remain under pressure and discounting generally is still required to drive volume growth, although impacts vary across retailers
- Provisioning includes \$42m target sector FLA
- ~4% non retail lending EAD

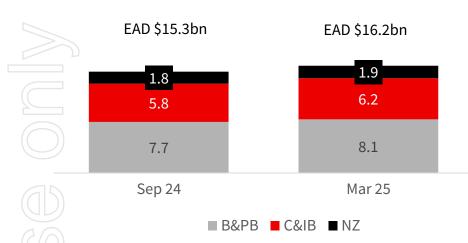

Non-performing exposure as % of sector EAD

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

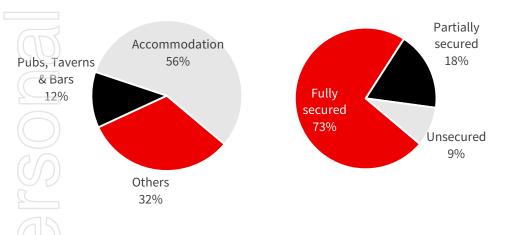

Tourism, hospitality and entertainment¹

Exposure at default

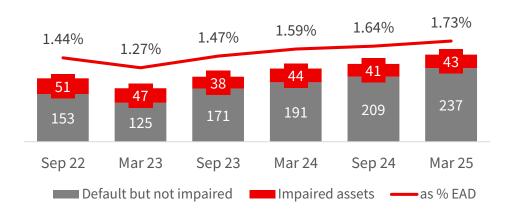

EAD portfolio by sector and security²

Key considerations

- Consumer spending is improving, benefitting from tax cuts, easing of 'cost of living' pressures, and continued recovery in inbound tourism, with further support expected from interest rate reductions
- However, outcomes continue to differ by demographics and geography (including the impact of recent adverse weather-related events)
- ~4% of non retail lending EAD
- Provisioning includes \$52m target sector FLA

Non-performing exposure as % of sector EAD (\$m)

Based on the ANZSIC Level 1 classifications of accommodation and hospitality, plus cultural and recreational services; based on the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

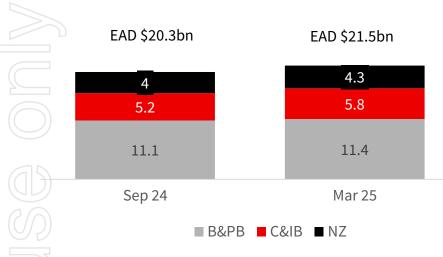

Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

(2)

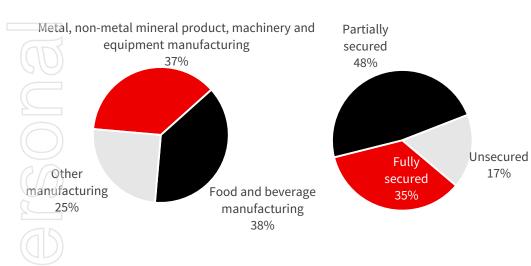

Manufacturing¹

Exposure at default

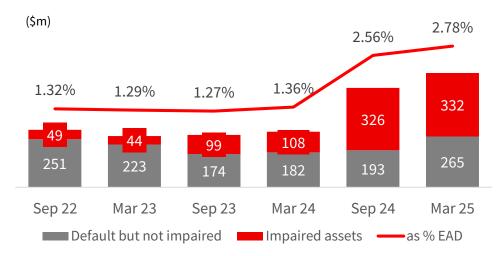

EAD portfolio by sector and security²

Key considerations

- Manufacturing sector remains challenged by the impacts of interest rate and input cost increases over recent years and the limited ability to pass these on to customers, particularly for those manufacturers within the food and beverage supply chain
- Deteriorating NPL trends in 2H24 includes a step-up in impaired assets in 2H24 resulting from a small number of larger customers
- ~5% of non retail lending EAD

Non-performing exposure as % of sector EAD

Based on ANZSIC Level 1 classifications of the counterparty to which the Group is exposed to credit risk, including guarantors and derivative counterparties

(2) Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security;

Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

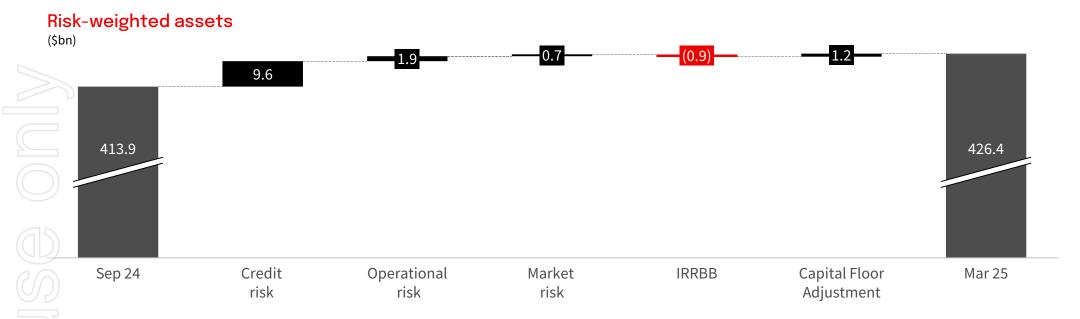

Additional information

Sustainability

Sustainability is embedded in our Group Strategy

Prioritising support for customers in three areas:

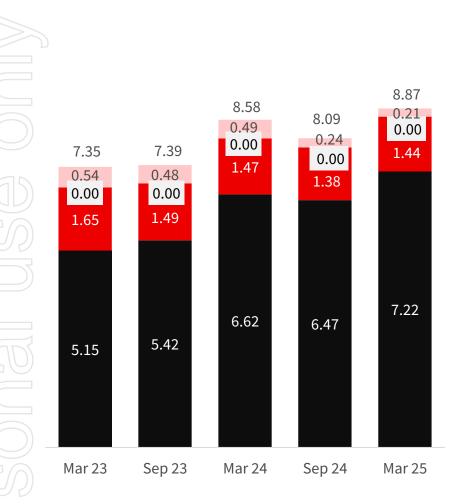

Ambition period commenced 1 October 2022. Includes affordable housing, specialist disability accommodation and sustainable housing. This includes loans made under the First Home Buyer Guarantee, Regional First Home Buyer Guarantee, Family Home Guarantee and New Home Guarantee, as part of the Home Guarantee Scheme for properties under the national median house price, and for borrowers with taxable income below the national median household income. Based on total lending facilities committed, where first draw down occurred during the ambition period, or additional funding was provided during the ambition period for a pre-existing loan facility. Does not reflect debt balance

3) Lending position refers to 'Gross Loans and Advances' to both direct Indigenous Businesses (with >50% Indigenous Ownership) and community organisations whose purpose contributes to Indigenous communities

Energy generation exposures

Energy generation EAD by fuel source^{1,2} (AUD\$bn)

- 81.4% of total energy generation financing to renewables (increase from 77% at 1H24)
- Renewable portfolio represents a mix of wind, hydro and solar energy sources
- NAB has set an interim sector decarbonisation target for power generation, details available in the 2024 Climate Report

Totals presented in chart may not sum due to rounding

(2)

NAB methodology (based upon the 1993 ANZSIC codes) at net EAD basis. Excludes exposure to counterparties predominantly involved in transmission and distribution. Vertically integrated retailers included and categorised as renewable where majority of their generation activities sourced from renewable energy. NAB has no direct lending to coal-fired power generation assets remaining. Note there is indirect exposure to coal fired power within the Mixed Fuel category as a result of NAB's corporate level exposure to gentailers, which have a mix of generation assets (including coal, gas and renewables) within their generation portfolios

Gas

Coal

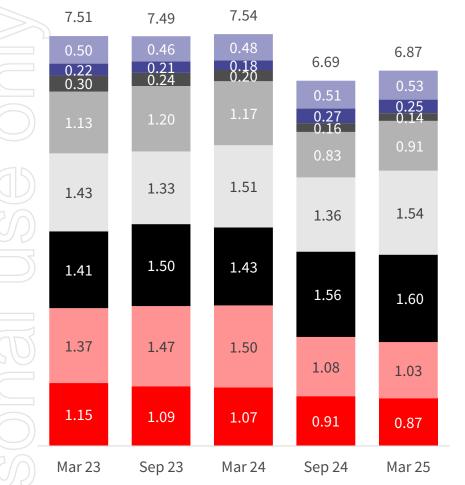

Other/Mixed fuel

 Mining Services
 Oil & Gas Extraction (Other exposures)
- Other exposures)
 Oil & Gas Extraction
 (Londing exposures)
- (Lending exposures)

 Exposure to thermal coal on track to be effectively zero⁴ by 2030 excluding performance guarantees for rehabilitation of existing coal mining assets

Totals presented in chart may not sum due to rounding

Oil and gas extraction exposures includes lending (e.g. revolving/term lending and guarantees) and other markets-related exposures (e.g. derivatives, repurchase agreements)

Thermal coal exposure means direct exposure to customers and projects whose primary activity is thermal coal mining, based upon the recorded 1993 ANZSIC codes on a net EAD basis. Includes lending, derivatives, financial guarantees and performance guarantees for the rehabilitation of existing assets. It excludes metallurgical coal mining, diversified mining customers and transactional banking (including deposit services) that do not give rise to EAD and similar ancillary products and services

(4) 'Effectively zero' refers to the fact that the Group may still hold some exposures to thermal coal in 2030, only through residual performance guarantees to rehabilitate existing coal mining assets. These guarantees are excluded from the financed and facilitated emissions coverage of NAB's thermal coal sector target

- Oil and gas presented in USD as majority of portfolio is denominated in USD³
- NAB's oil and gas sector decarbonisation target guides intended financed and facilitated emissions reduction. See 2024 Climate Report for full details

NAB's coal and oil and gas related policies and risk appetite settings are available on pages 26-27 of NAB's 2024 Climate Report

Oil and gas extraction exposures includes lending (e.g. revolving/term lending and guarantees) and other markets-related exposures (e.g. derivatives, repurchase agreements)

(3) Relevant exposure conversions based on rates of AUD/USD 0.67140 (Mar 23); AUS/USD 0.64765 (Sep 23); AUS/USD 0.6529 (Mar 24); AUS/USD 0.69295 (Sep 24); AUS/USD 0.62855 (Mar 25)

Thermal coal exposure means direct exposure to customers and projects whose primary activity is thermal coal mining, based upon the recorded 1993 ANZSIC codes on a net EAD basis. Includes lending, derivatives, financial guarantees and performance guarantees for the rehabilitation of existing assets. It excludes metallurgical coal mining, diversified mining customers and transactional banking (including deposit services) that do not give rise to EAD and similar ancillary products and services

Disclaimer

The material in this presentation is general background information about the NAB Group current at the date of the presentation on 7 May 2025. The information is given in summary form and does not purport to be complete. It is intended to be read by a professional analyst audience in conjunction with the verbal presentation and the Half Year Results 2025 (available at www.nab.com.au). It is not intended to be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. No representation is made as to the accuracy, completeness or reliability of the presentation.

This presentation contains statements that are, or may be deemed to be, forward-looking statements. These forward-looking statements may be identified by the use of forward-looking terminology, including the terms "ambition", "believe", "estimate", "plan", "project", "anticipate", "expect", "goal", "target", "intend", "likely", "may", "will", "could" or "should" or, in each case, their negative or other variations or other similar expressions, or by discussions of strategy, plans, objectives, targets, goals, future events or intentions. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. Users are cautioned not to place undue reliance on such forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of the Group, which may cause actual results to differ materially from those expressed or implied in such statements. There can be no assurance that actual outcomes will not differ materially from these statements.

There are a number of other important factors that could cause actual results to differ materially from those projected in such statements, including (without limitation) a significant change in the Group's financial performance or operating environment; a material change to law or regulation or changes to regulatory policy or interpretation; and risks and uncertainties associated with the ongoing impacts of the Russia-Ukraine and Middle Eastern conflicts and other geopolitical tensions, the Australian and global economic environment and capital market conditions and changes in global trade policies. Further information is contained in the Group's Half Year 2025 Risk Factor Report released to ASX on 7 May 2025 and the Group's Annual Report for the 2024 financial year, which is available at nab.com.au/annualreports.
