

ASX Release

12 May 2025

RMA Recognized in the US for Industry Leading Real Estate Technology

RMA Global Limited (ASX:RMY) ("RMA" or the "Company") today announced that both RateMyAgent and Curated Social have been included in T3 Sixty's [2025 Tech 200](#). This is their annual list of the US industry's best-in-class technology products for residential real estate brokerages, teams and agents.

T3 Sixty, the leading management consultancy in residential real estate in the United States, recognized Curated Social as best-in-class for Social Media and RateMyAgent as best-in-class for Testimonials and Reviews.

Jim Crisera, CEO of RMA said: *"We are excited to see both of our solutions recognized by T3 Sixty in the 2025 Tech 200. This recognition validates the positive impact we have in helping our brokerage, team and agent customers stay competitive and thrive in a challenging market"*.

David Williams, Chairman of RMA added: *"This recognition is important as we integrate Curated Social with RateMyAgent and release it in the US and in ANZ. The combination of these two best-in-class offerings will help us accelerate the conversion of agents on our free model to paying subscriptions. It will also build a more compelling case for whole brokerages to join with us."*

This announcement was authorised for release by the Chairman of RMA Global Limited.
