## **VERY SPECIAL KIDS TO IMPLEMENT MASTERCARE**

Providing digital solutions for paediatric palliative care.

### **Investment highlights**

- The contract over 3 years with Very Special Kids will implement MasterCare Plus Client Management System (CMS) configured to support the requirements of paediatric palliative care.
- MasterCare will be deployed across 70 users in multiple roles and specialties.

**Global Health Limited (ASX:GLH) (“Global Health” or “the Group”)** is pleased to announce a contract with Very Special Kids (<https://vsk.org.au/>) for the deployment of the Company's SaaS portfolio of applications. Very Special Kids provides paediatric palliative care for children with life-limiting conditions and their families.

MasterCare's Client management and clinical tracking modules will be augmented by the Company's ReferralNet Secure Messaging platform to safeguard clinical data shared across care teams and the HotHealth Digital Front Door platform to extend client accessibility.

The deployment of Global Health's SaaS portfolio includes configuration to meet Very Special Kids' paediatric care requirements. This agreement over 3 years includes two options for 3-year extensions.

### **Enhancing Very Special Kids digital healthcare operations**

Global Health will implement its suite of SaaS solutions to optimise digital healthcare at Very Special Kids, strengthening service accessibility and productivity. The project will feature MasterCare+, providing an EMR within the Client Management System, with specialised administrative tracking supporting the specific needs of paediatrics and palliative care.

Global Health's HotHealth digital front door will enhance online engagement between clinicians and families of children in hospice. The secure exchange of clinical documentation between multidisciplinary teams will be facilitated by ReferralNet.

Importantly, the system configuration will include support for the full range of Very Special Kids services, not only during a child's life but also through bereavement care. This includes comprehensive support for the respite care and Family Support Programs.

For personal use only

## Implementation of service for Very Special Kids

The service will be implemented at Very Special Kids in Malvern, Victoria with specialised features to support a range of paediatric-specific medication formularies and dosages, supporting clinicians in streamlining operations and enhancing service delivery.

**Global Health Managing Director Mathew Cherian said:** "We are pleased to partner with Very Special Kids, whose dedication to providing compassionate care for children with life-limiting conditions is exceptional. Our commitment to improving workflows through our suite of SaaS solutions will help streamline operations at Very Special Kids, enhancing service delivery and assisting clinicians to best support these children and their families — both during care and through bereavement. We are proud to help enable the ongoing success of vital programs such as the respite care and family support programs."

This ASX announcement has been authorised by the Board of Global Health Limited (ASX:GLH) and released by the Company Secretary.

**ENDS.**

### About Very Special Kids

Very Special Kids is a charity which was established 40 years ago to provide a range of services for children with life-limiting conditions, and their families.

Currently supporting over 700 families, Very Special Kids provides paediatric palliative care, respite care, hospice, family accommodation, peer support and counselling services. Their multidisciplinary approach ensures sick children and young people have free access to the best quality of life and end-of-life care, and that their families are fully supported during the most difficult of times.

## About Global Health Limited (ASX:GLH)

Global Health Limited (ASX:GLH) is a leading provider of Digital Health solutions to the Australian Healthcare Industry. Innovation, consumer-centricity and connectivity are the foundations of the Company's vision of 'Connecting Clinicians and Consumers.'
