This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus and is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the

Company, the Directors and the Company's management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

Overseas shareholders

The Offers does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia, New Zealand, Germany, Hong Kong and Singapore.

For further information on overseas Shareholders please refer to Section 2.13.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website (www.hitiq.com). By making an application under the Offers, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.

You may obtain a hard copy of this Prospectus free of charge by contacting the Company by emailing the Company at investors@hitiq.com.

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will apply to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in

their security holding in the Company during the preceding month.

1.3 Key Risk Factors

Prospective investors should be aware that subscribing for Securities involves a number of risks and an investment in the Company should be considered as highly speculative. Harmil and its associates' holding comprises of 64,449,892 Shares and 31,896,822 Options, which is inclusive of nominee director Mr Matthew Clayworth's holdings, resulting in Harmil and its associates (including Mr Matthew Clayworth's holding) holding 16.17%.

- (b) 0.36% for Mr James Barrie;
- (c) 1.88% for Mr Phillip Carulli;

The Board recommends all Shareholders take up their Entitlements. The Board advises that Messrs Barrie and Eddings intend to take up their full Entitlements, Mr Clayworth the full entitlement for his personal holdings (totalling 265,417 Shares) and Mr Carulli a total of \$22,000 to take up a part of his Entitlement.

1.5 Details of Substantial Holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

SHAREHOLDER	SHARES	%
Harmil Angel Investments Pty Ltd <Harmil Angel Investment A/C> and its associates ¹	64,449,892	16.17%
Newfound Investments Pty Ltd <Newfound Superannuation Fund>	20,929,391	5.25%

Notes:

- This total include Mr Matthew Clayworth's holdings as he is a nominated director of Harmil Angel Investments Pty Ltd on the Company's Board.

In the event all Entitlements are accepted there will be no change to the substantial holders on completion of the Offers. Harmil has indicated it does not intend to take up its Entitlement under the Entitlement Offer, however its nominated director and associate, Mr Matthew Clayworth intends to take up his full Entitlement (being, 265,417 Shares) and sub-underwrite the Entitlement Offer up to \$50,000 (being, 2,272,728 Shares).

As announced on 31 January 2025, Harmil have provided the Company with its notification of its intention to convert a portion of its convertible notes (**Convertible Notes**). Given Harmil is a substantial shareholder, the Company will seek the approval of Shareholders for the conversion of \$1.6m (plus accrued interest) of Harmil's Convertible Notes at the Company's General Meeting. Refer to the ASX announcement released on 31 January 2025 entitled 'Noteholder to Convert \$1.6m of Notes, Issue of Shares'. As a result of the conversion of Convertible Notes, Harmil will increase their shareholding to above 19.99% of which the approval of Shareholders is being sought at the Company's General Meeting. For the avoidance of doubt, Harmil will not increase their shareholding to above 19.99% as a direct result of the issue of Securities under the Entitlement Offer.

Refer to the Company's notice of General Meeting to be released for further information regarding the potential control implications upon the conversion of the Convertible Notes.

1.6 Underwriting and sub-underwriting

The Entitlement Offer is partially underwritten by GBA Capital Pty Ltd (ACN 643 039 123) (AFSL 544680) (**Underwriter** or **GBA**) up to \$1,202,860.20 (**Underwritten Amount**). Refer to Section 6.4.1 for details of the terms of the underwriting.

The Underwriter has entered into a number of sub-underwriting agreements in respect of the Shortfall Securities, including sub-underwriting agreements with Directors Mr Earl Eddings, Mr James Barrie, Mr Matthew Clayworth and Ms Jennifer Tucker (or their associated entities).

Neither the Underwriter nor any of the sub-underwriters will increase their shareholding to above 19.99% as a direct result of the issue of Securities under the Entitlement Offer. Where Shares are issued pursuant to the exercise of New Options, the voting power of the Underwriter and sub-underwriters who exercise their New Options will increase. The likelihood of New Options being exercised is dependent on the price of Shares from time to time until the New Options expire.

Refer to Section 6.4.3 for further detail of the sub-underwriting agreements.

1.7 Effect on Control

The Underwriter is presently not a Shareholder and is not a related party of the Company for the purposes of the Corporations Act. The issue of Shares under this Prospectus to the Underwriter may increase its interest in the Company and dilute the Shareholding of other Shareholders to the extent they elect not to participate in the Entitlement Offer or are ineligible to participate in the Entitlement Offer.

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate the Shortfall to its sub-underwriters and/or clients and people who have otherwise agreed to assist with the completion of the Entitlement Offer such that neither the Underwriter, the sub-underwriters nor any of the Underwriter's clients, individually, will have a voting power in the Company in excess of 19.9% after the issue of the Shortfall.

The Company, in consultation with the Underwriter, will ensure that the Entitlement Offer (including the equitable dispersion of any Shortfall Securities) complies with the provisions of Chapter 6 of the *Corporations Act 2001* (Cth) and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

1.8 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted by 25% (assuming the Maximum Subscription achieved) (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming the Shares and New Options are issued under the Entitlement Offer and the Underwriter Offer and the New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 33.33% (assuming the Maximum Subscription achieved) and (as compared to their holdings and number of Shares on issue as at the Record Date).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

HOLDER	HOLDING AS AT RECORD DATE	% AT RECORD DATE	ENTITLEMENT S UNDER THE OFFER	HOLDINGS IF OFFER NOT TAKEN UP	% POST OFFERS
Shareholder 1	10,000,000	2.51%	3,333,334	10,000,000	1.88%
Shareholder 2	5,000,000	1.25%	1,666,667	5,000,000	0.94%

HOLDER	HOLDING AS AT RECORD DATE	% AT RECORD DATE	ENTITLEMENTS UNDER THE OFFER	HOLDINGS IF OFFER NOT TAKEN UP	% POST OFFERS
Shareholder 3	1,500,000	0.38%	500,000	1,500,000	0.28%
Shareholder 4	400,000	0.10%	133,334	400,000	0.08%
Shareholder 5	50,000	0.01%	16,667	50,000	0.01%

Notes:

1. This is based on a share capital of 398,471,541 Shares as at the date of the Prospectus and assumes no Options currently on issue or other Shares are issued including New Options or Performance Rights are exercised.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

Payment options

(a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00 pm (EST) on the Closing Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

Guidance where you have more than one CRN (Shareholding of Shares)

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form.

Do not use the same CRN for more than one of your Shareholdings. This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b) By Electronic Funds Transfer (overseas applicants)

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

2.4 Implications of an acceptance

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

2.5 Minimum subscription

The minimum subscription in respect of the Offer is \$1,202,860, being the underwritten amount of the Offer.

2.6 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.022 being the price at which Shares have been offered under the Offer. Eligible Shareholders who subscribe for Shares under the Shortfall Offer will be entitled to receive one (1) New Option for every two (2) Shares subscribed for and issued.

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.3

Allocation of the Shortfall Shares will be at the discretion of the Board in conjunction with the Underwriter and will otherwise be subject to the terms of the Underwriting Agreement, details of which are set out in Section 6.4.1. If the Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Securities by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders. There is no guarantee that Eligible Shareholders will receive Securities applied for under the Shortfall Offer.

The Underwriter notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company.

2.7 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The New Options are not currently in a class of quoted securities. However, the Company will apply for quotation of the New Options within 7 days following the date of this Prospectus and the issue of New Options under the Offers is conditional upon ASX granting Official Quotation to the New Options.

The fact that ASX may grant Official Quotation to the Securities is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

2.8 Issue of Securities

Securities issued pursuant to the Offer and the Secondary Offers will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

3. PURPOSE AND EFFECT OF THE OFFERS

3.1 Purpose of the Offers

Entitlement Offer

The purpose of the Entitlement Offer and Placement is to raise up to an aggregate of \$3,604,125, comprising \$680,000 which was raised under the Placement and up to \$2,922,125 which will be raised under the Entitlement Offer (all stated before costs).

The funds raised from the Offer and the Placement are intended to be applied in accordance with the table set out below:

ITEM	PROCEEDS OF THE ENTITLEMENT OFFER AND PLACEMENT	MINIMUM SUBSCRIPTION (\$)	%	FULL SUBSCRIPTION (\$)	%
1.	Manufacturing Capacity	\$423,644	22.5%	\$810,478	22.5%
2.	USA expansion	\$470,715	25%	\$900,531	25%
3.	Product enhancement	\$282,429	15%	\$540,319	15%
4.	Business Development and Marketing	\$282,429	15%	\$540,319	15%
5.	Continued R&D	\$235,357	12.5%	\$450,266	12.5%
6.	General Working Capital and Capital Raising Costs ¹	\$188,286	10%	\$360,212	10%
	TOTAL	\$1,882,860	100%	\$3,602,125	100%

Notes:

1. Refer to Section 6.8 for further details relating to the estimated expenses of the Entitlement Offer.
2. The table includes fees payable to GBA Capital and SP Advisory in relation to the Placement as set out in Section 6.4.1.

If only the Underwritten Amount (\$1,202,860) is raised under the Entitlement Offer, then the expenses of the Entitlement Offer are not expected to change. However, the Company will reduce the amount of funds allocated to each item proportionately by the amount of the difference between the amount raised and the Underwritten Amount.

On completion of the Entitlement Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. In the event the Entitlement Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans. In this event (and after accounting for associated Entitlement Offer costs) it is likely that the Company will appropriate scale back funds available proportionately for each item.

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

Secondary Offers

The Underwriter Offer, Placement Offer and the Broker Offer are being made such that relief provided under ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80 with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Specifically, if the New Options are issued with disclosure under this Prospectus, then the Shares issued upon the exercise of any of the New Options can be on-sold within 12 months of their issue, without a disclosure document for the on-sale offer.

No funds will be raised under the Underwriter Offer, Placement Offer and the Broker Offer (other than funds raised if the New Options are subsequently exercised).

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) **Shareholder liability**

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

4.2 **Terms of New Options**

(b) **Exercise Price**

Subject to paragraph (i), the amount payable upon exercise of each New Option will be \$0.022 (**Exercise Price**)

(c) **Expiry Date**

Each Option will expire at 5:00pm (EST) on 30 December 2028 (**Expiry Date**). A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 5 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and
- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(k) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(l) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

5. RISK FACTORS

5.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

5.2 Company specific

RISK CATEGORY	RISK
Potential for dilution	<p>In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Entitlement Offer and the Maximum Subscription is achieved, their holdings are likely to be diluted by approximately 25% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Entitlement Offer, are likely to be diluted by an aggregate of approximately 25% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offers being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.02 is not a reliable indicator as to the potential trading price of Shares after implementation of the Entitlement Offer.</p>
Control risk	<p>Harmil Angel Investments Pty Ltd <Harmil Angel Investment A/C> and its associates (Harmil) is currently the largest Shareholder of the Company and has a relevant interest in approximately 16.17% of the Shares in the Company.</p> <p>Harmil has indicated to the Company that it does not intend to take up its Entitlement under the Entitlement Offer, however its nominated director and associate, Mr Matthew Clayworth</p>

RISK CATEGORY	RISK
	<p>intends to take up his full Entitlement (being, 265,417 Shares) and sub-underwrite the Entitlement Offer up to \$50,000 (being, 2,272,728 Shares).</p> <p>Assuming Harmil does not take up its Entitlement, Mr Clayworth takes up his full Entitlement (along with the other sub-underwriters and the Underwriter) takes up his full sub-underwriting commitment and no other Shareholders take up Entitlements, Harmil's voting power in the Company could be as high as 14.78%.</p> <p>As announced on 31 January 2025, Harmil have provided the Company with its notification of its intention to convert a portion of its convertible notes (Convertible Notes). Given Harmil is a substantial shareholder, the Company will seek the approval of Shareholders for the conversion of \$1.6m (plus accrued interest) of Harmil's Convertible Notes at the Company's General Meeting. Refer to the ASX announcement released on 31 January 2025 entitled 'Noteholder to Convert \$1.6m of Notes, Issue of Shares'. As a result of the conversion of Convertible Notes, Harmil will increase their shareholding to above 19.99% of which the approval of Shareholders is being sought at the Company's General Meeting. For the avoidance of doubt, Harmil will not increase their shareholding to above 19.99% as a direct result of the issue of Securities under the Entitlement Offer.</p> <p>Refer to the Company's notice of General Meeting to be released for further information regarding the potential control implications upon the conversion of the Convertible Notes.</p> <p>Harmil's significant interest in the capital of the Company means that it is in a position to potentially influence the financial decisions of the Company, and its interests may not align with those of all other Shareholders.</p>
Going Concern	<p>The Company's half yearly report and accounts for the half year ended 31 December 2024 (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' qualification included in the Financial Report, the Directors believe that upon the successful completion of the Entitlement Offer, the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements. However, it is likely that further funding will be required to meet the medium to long term working capital costs of the Company.</p> <p>In the event that the Entitlement Offer is not completed successfully there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
Additional requirements for capital	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Entitlement Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its programmes as the case may be. There is however no</p>

RISK CATEGORY	RISK
	guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.
Climate Risk	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <ul style="list-style-type: none"> (a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.
Related Party Risk	<p>The Company has a number of key contractual relationships with related parties. If these relationships breakdown and the related party agreements are terminated, there is a risk that the Company may not be able to find a satisfactory replacement.</p> <p>Further, the operations of the Company will require involvement of related parties and other third parties. With respect to these persons and despite applying best practice in terms of pre-contracting due diligence, the Company is unable to completely avoid the risk of:</p> <ul style="list-style-type: none"> (a) financial failure or default by a participant in any agreement to which the Company may become a party; and/or (b) insolvency, default on performance or delivery by any operators, contractors or service providers. <p>There is also a risk that where the Company has engaged a contractor who is a related party, the contract between the contractor and the Company may terminate for reasons outside of the control of the Company. This may then result in the termination of the contract between the Company and the contractor and the impact the Company's position, performance and reputation.</p>
Technology risk	The Company relies upon a range of hosting providers to maintain continuous operation of its technology platforms, servers and hosting services and the cloud based environment in which it provides its products. There is a risk that these systems may be adversely affected by various factors to cause them to

RISK CATEGORY	RISK
	become unavailable. If a hosting provider ceased to offer its services to the Company, this could lead to disruption of service to the Company's website and cloud infrastructure. This could lead to potential loss in revenues, as well as adversely affecting Company's reputation, financial position and performance.
Development and commercialisation of intellectual property	The Company relies on its ability to develop and commercialise its intellectual property. A failure to develop and commercialise its intellectual property successfully would lead to a loss of opportunities and adversely impact on the operating results and financial position of the Company. Any third party developing superior technology with greater commercial appeal in the field may harm the future prospects of the Company.
Protection of intellectual property	The Company's success depends, in part, on its ability to obtain, maintain and protect its intellectual property, including its patents. Actions taken by the Company to protect its intellectual property may not be adequate, complete or enforceable and may not prevent the misappropriation of its intellectual property and proprietary information or deter independent development of similar technologies by others. the Company may also suffer damage if former employees infringe its intellectual property rights or assert their moral rights. The granting of a patent does not guarantee that the Company's intellectual property is protected and that others will not develop similar technologies that circumvents such patents. There can be no assurance that any patents the Company owns, controls or licences, whether now or in the future, will give the Company commercially significant protection of its intellectual property. Additionally, monitoring unauthorised use of the Company's intellectual property rights is difficult and can be costly. The Company may not be able to detect all unauthorised use of its intellectual property rights. Changes in laws in Australia and other jurisdictions in which the Company operates may adversely affect the Company's intellectual property rights.
Third party intellectual property	Other parties may develop and patent substantially similar or substitute products, processes, or technologies to those used by the Company, and other parties may allege that the Company's products incorporate intellectual property rights derived from third parties without their permission. Whilst the Company is not the subject of any claim that its products infringe the intellectual property rights of a third party, allegations of this kind may be received in the future and, if successful, injunctions may be granted against the Company which could materially affect the operation of the Company and the Company's ability to earn revenue, and cause disruption to the Company's services. The defence and prosecution of intellectual property rights lawsuits, proceedings, and related legal and administrative proceedings are costly and time-consuming, and their outcome is uncertain.
Manufacturing and product quality risk	Although the Company manufactures its products at its own premises, the Company currently relies on a number of external suppliers for key components of its technologies. There is no guarantee that these suppliers will be able to meet the cost, reliability, volume, or lead times required for the Company to remain competitive in the future. These suppliers are also exposed to the regulatory and compliance requirements faced by the Company. There is no guarantee that the suppliers will adequately conform to these standards in the future. A failure to meet regulatory standards could result in enforcement actions that could be extended to the Company.

RISK CATEGORY	RISK
Government approvals	Laws and regulations in the jurisdictions in which the Company operates or has activities may impact the Company's ability to market or generate revenue from its products and services in relation to issues such as user privacy, data protection, intellectual property, information security, the content and quality of products and services. Regulators such as the Therapeutic Goods Administration (TGA) in Australia and the United States Food and Drug Administration (FDA) have regulations around how certain medical products and services are marketed. The requirement for certain approvals by these organisations may impact on the Company's ability to successfully market its product or how it can market its products, or it may incur significant costs to ensure certain products can achieve regulatory approval.
Misuse of data	Data collected through the usage of the Company's products may not be owned by the Company and the Company may have limited control of the usage or decision making made by the holders of that data. There is a risk that users may make decisions, including in relation to the treatment or management of an individual, based on the data that is outside the Company's recommended protocols.
Product liability	The Company could be exposed to product liability claims or other lawsuits resulting from maltreatment and/or serious side effects or harm being caused to a patient. The Company has implemented controls and processes designed to mitigate these risks and maintains what it believes is adequate liability insurance whenever economic and prudent.
Competition	The Company competes against other companies who are developing technologies which are aimed at competing with the Company's technology. The Company faces the risk that (amongst other things) existing competitors could gain market share through aggressive sales and marketing campaigns, product research and development or price discounting, the Company may fail to anticipate and respond to changing opportunities, technology or customer requirements as quickly as its competitors or new market entrants into the industry could develop products which compete with the Company's' products.
Future product development	The Company has developed its concussion technologies and continues to invest in the R&D of these systems. There is no guarantee that the further development of these systems will be successful. There are a number of inherent risks associated with developing technology systems and related products. The Company gives no guarantee that development milestones will be achieved or that intellectual property will be developed into further products that are commercially exploitable.

5.3

General risks

RISK CATEGORY	RISK
Economic	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's activities, as well as on its ability to fund those activities.

RISK CATEGORY	RISK
Market conditions	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <ul style="list-style-type: none"> (a) general economic outlook; (b) introduction of tax reform or other new legislation; (c) interest rates and inflation rates; (d) changes in investor sentiment toward particular market sectors; (e) the demand for, and supply of, capital; and (f) terrorism or other hostilities. <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
Litigation risks	<p>The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.</p>
Dividends	<p>Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.</p>
Taxation	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.</p>
Reliance on key personnel	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
Economic conditions and other global or national issues	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and</p>

RISK CATEGORY	RISK
	<p>states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>
Global Conflicts	<p>The current evolving conflict between Ukraine and Russia and Israel and Palestine (Ukraine and Gaza Conflicts) is impacting global economic markets. The nature and extent of the effect of the Ukraine and Gaza Conflicts on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the Ukraine and Gaza Conflicts.</p> <p>The Directors are continuing to closely monitor the potential secondary and tertiary macroeconomic impacts of the unfolding events, including the changing pricing of commodity and energy markets and the potential of cyber activity impacting governments and businesses. Further, any governmental or industry measures taken in response to the Ukraine and Gaza Conflicts, including limitations on travel and changes to import/export restrictions and arrangements involving the relevant countries may adversely impact the Company's operations and are likely to be beyond the control of the Company.</p> <p>The Company is monitoring the situation closely and considers the impact of the Ukraine and Gaza Conflicts on the Company's business and financial performance to, at this stage, be limited. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.</p>
