1. Details of the Offers

1.1 Entitlement Offer

The Company is offering Eligible Shareholders the opportunity to subscribe, under the Entitlement Offer, for 2 New Shares for every 3 Shares held on the Record Date at an issue price of \$0.002, together with 1 free attaching Bonus Share for every 4 New Shares applied for, and 1 free attaching option for every New Share applied for, with these options being exercisable at \$0.004 each on or before a date which is 2 years from their date of issue, and based upon the indicative timetable detailed above, expected to be 24 June 2027. This Entitlement Offer is expected to raise up to approximately \$3,875,261 (before costs).

The Entitlement Offer is non-renounceable and is not underwritten.

The Entitlement Offer allows Eligible Shareholders who accept their Entitlement in full to apply for Additional Shares in excess of their Entitlement under the Top-Up Facility. Additional Shares will only be available where there is a shortfall between applications received from Eligible Shareholders and the number of New Shares proposed to be issued under the Entitlement Offer. Additional Shares will be issued at the Issue Price of \$0.002 per New Share. If there is an over subscription for Additional Shares through the Top-Up Facility, then Eligible Shareholders will receive Additional Shares on a pro-rata basis having regard to their Entitlements.

If any shortfall remains after the allocation to Eligible Shareholders under the Top-Up Facility, the resulting shortfall may be placed by the Directors at their discretion in accordance with the Listing Rules and the Corporations Act.

Eligible Shareholders who subscribe for New Shares under the Entitlement Offer or the Top-Up Facility are also being offered 1 free attaching Bonus Share for every 4 New Shares issued, and 1 free attaching New Option for every New Share issued.

It is proposed that the Bonus Shares and the New Options will be listed on the ASX. Each New Option will have an exercise price of \$0.004 per New Option and will expire on or before a date which is 2 years from their date of issue, and based upon the indicative timetable detailed above, expected to be 24 June 2027, and will otherwise be issued on the terms set out in Section 5.6.

All of the New Shares and free attaching Bonus Shares issued under this Prospectus (and Shares issued upon the future exercise of the New Options offered) will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 5.5 for further information regarding the rights and liabilities attaching to the New Shares.

This Prospectus also contains the following offers of Securities:

- (a) the Lead Manager Options Offer which is summarised in Section 1.9; and
- (b) the Shortfall Offer which is summarised in Sections 1.10 and 2.4.

1.2 Who is eligible to participate?

The Entitlement Offer is being extended to Shareholders that meet all of the following criteria:

- (a) they were registered as a holder of Shares at 5.00pm (AWST) on the Record Date being Thursday 29 May 2025;
- (b) they have a registered address in Australia or New Zealand;
- (c) they are not in the United States or a US Person or acting for the account or benefit of such persons; and

- (d) they are eligible under all applicable securities laws to receive an offer under the Entitlement Offer,

(Eligible Shareholder).

The Entitlement Offer is not being extended to any Shareholder with a registered address outside Australia or New Zealand. By returning a completed Entitlement and Acceptance Form, or making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the above criteria.

Surefire reserves the right to reject any Application that it believes comes from a person who is not an Eligible Shareholder.

1.3 Opening and Closing Dates

As set out in the indicative timetable, the Entitlement Offer will open on Tuesday 3 June 2025 and is anticipated to close on Tuesday 24 June 2025 at 5.00pm (AWST). The Opening Date and Closing Date for the Entitlement Offer are indicative only and subject to change without notice. The Company may vary these dates, including to close the Entitlement Offer early, extend the Closing Date or to withdraw the Entitlement Offer at any time prior to issue of the New Securities. If any of the dates are changed, subsequent dates may also change. You are encouraged to lodge your Entitlement and Acceptance Form as soon as possible after the Opening Date.

The Company will accept Entitlement and Acceptance Forms for the Entitlement Offer from the Opening Date until 5.00pm (AWST) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the requirements of the Listing Rules.

1.4 Minimum Subscription

There is no minimum subscription under the Entitlement Offer.

1.5 No underwriting

The Entitlement Offer will not be underwritten.

1.6 No trading of Entitlements

Entitlements under the Entitlement Offer are personal and cannot be renounced, traded, transferred, assigned or otherwise dealt with.

1.7 Holders of contributing shares

Holders of ordinary contributing shares payable to \$0.027 per share (**\$0.027 Contributing Share**) are only permitted to participate in the Entitlement Offer pro-rata to the proportion of the total issue price paid up. As at the date of this Prospectus no amounts have been paid on those shares and the full issue price of \$0.027 per share remains payable. The Board believes it is unlikely that holders of \$0.027 Contributing Shares will pay up some (or all) of their shares prior to the Record Date. It is therefore unlikely that holders of \$0.027 Contributing Shares will have any entitlements to participate in the Entitlement Offer.

Holders of ordinary contributing shares payable to \$0.006 per share that have been paid to \$0.0001 per share are entitled (under the terms of issue of those shares) to participate in the Entitlement Offer in full as if those shares were fully paid Shares.

Holders of ordinary contributing shares payable to \$0.008 per share that have been paid to \$0.0001 per share are entitled (under the terms of issue of those shares) to participate in the Entitlement Offer in full as if those shares were fully paid Shares.

1.8 Overseas shareholders

This Prospectus and the accompanying Entitlement and Acceptance Form do not, and are not intended to, constitute an offer of New Securities in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

The Company has decided that it is unreasonable to make offers under this Prospectus to Shareholders with registered addresses outside of Australia and New Zealand (**Ineligible Shareholders**) having regard to the number of Shareholders in those places, the number and value of the New Securities they would be offered and the legal and regulatory requirements in those places and costs of complying with those requirements. Accordingly, the Entitlement Offer is not being extended to Ineligible Shareholders and no New Securities will be issued to Ineligible Shareholders.

In particular, the Entitlement Offer is not made in the United States or to persons (including nominees or custodians) acting for the account or benefit of a person in the United States, or to any person who is ineligible under applicable securities laws in any country to receive an offer under the Prospectus without any requirement for a prospectus or other disclosure document to be lodged or registered.

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Entitlement Offer does not breach the laws in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those laws.

1.9 Lead Manager Options Offer

Sanlam Private Wealth Pty Ltd were appointed as lead manager to the Shortfall Offer. The terms of the appointment are summarised in Section 5.9.

As part of the fees payable to the Lead Manager, the Company has agreed to issue to the Lead Manager (or their nominees):

- (a) an aggregate of 60 New Options for every dollar of proceeds raised from any placement of shortfall securities under the Shortfall Offer.

The Lead Manager Options will be issued on the same terms as the New Options.

The number of Lead Manager Options that will be issued to the Lead Manager (or their nominees) will depend on the level of participation in the Entitlement Offer and the number of shortfall securities placed under the Shortfall Offer.

The Lead Manager Options are being offered only to the Lead Manager (or their nominees) under a separate offer made pursuant to this Prospectus (**Lead Manager Options Offer**). The purpose of the Lead Manager Options Offer is to remove the need for an additional disclosure document to be issued under the Lead Manager Options Offer or upon exercise of the Lead Manager Options. An application form will be provided to the Lead Manager in relation to the Lead Manager Options Offer.

No funds will be raised through the issue of the Lead Manager Options.

1.10 Shortfall Offer

Details of the potential Shortfall Offer are set out in Section 2.4.

Shares and Options to be issued under any Shortfall Offer will be on the same terms as the New Shares and New Options respectively.

The Shortfall Offer will be offered only by invitation from the Company. Each person applying for Securities under the Shortfall Offer represents and warrants that it (and any person for whom it is acting):

- (a) is a person that does not require disclosure;
- (b) understands that the New Securities have not been, and will not be, registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. Accordingly, such securities may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws;
- (c) is not acquiring the New Securities with a view to any distribution thereof;
- (d) is knowledgeable in relation to the business of the Company and capable of evaluating the merits and risks of an investment in the New Securities, including income tax consequences of acquiring and disposing of the securities;
- (e) has been afforded access to information about the New Securities and the Company, including this Prospectus prepared by the Company and publicly available information filed by the Company that can be obtained from the ASX's website (www.asx.com.au);
- (f) understands that any acquisition of New Securities involves a degree of risk; and
- (g) is able to bear the economic risk of any investment in the New Securities.

Proceeds from any Shortfall Offer will be used for the same purposes as described in Section 3.1.

1.11 Risks

A number of risk factors apply to subscribing for New Securities under the Offers. Please refer to Section 4 for further information.

2. How to apply under the Entitlement Offer

2.1 Options available to you

Eligible Shareholders may take the following actions:

Option available	Further information
Take up all of your Entitlement.	Sections 2.2, 2.3 and 2.5
Take up all of your Entitlement and apply for Additional Shares under the Top-Up Facility.	Sections 2.2 to 2.5
Take up part of your Entitlement and allow the balance of your Entitlement to lapse.	Sections 2.2, 2.3 and 2.5
Do nothing and allow your Entitlement to lapse.	Section 2.6

Shareholders who do not take up their Entitlements in full will have their percentage interest in Surefire reduced.

Fractions arising in the calculation of Entitlements have been rounded up to the next whole number of New Shares and New Options (as applicable).

2.2 Complete the accompanying Entitlement and Acceptance Form or pay by BPAY®

If you decide to participate in the Entitlement Offer, you may do so by completing and returning the Entitlement and Acceptance Form and attaching payment by following the instructions set out on the Entitlement and Acceptance Form (see sections 2.3 and 2.5 below for more details).

Alternatively, you may participate by making payment via BPAY® in accordance with the instructions set out on the personalised Entitlement and Acceptance Form (which includes the biller code and your unique customer reference number).

If you take no action you will not be allocated any New Shares, Bonus Shares or New Options.

The issue of New Securities is scheduled to occur on or about 1 July 2025. Surefire reserves the right to change dates in relation to the Entitlement Offer without prior notice to Shareholders.

2.3 Acceptance of Entitlement Offer and payment

You may take up all or part of your Entitlement by completing the Entitlement and Acceptance Form and attaching payment or by paying by BPAY® (see below for more details).

If you are not making payment by BPAY®, your completed Entitlement and Acceptance Form must be accompanied by a cheque in Australian currency for the amount of your Application money, payable to “Surefire Resources NL – Entitlement Offer” and crossed “Not Negotiable”. You should ensure that sufficient funds are held in relevant account(s) to cover the Application monies. If the amount of your cheque for Application monies (or the amount for which the cheque clears in time for allocation) is insufficient to pay in full for the number of New Shares you have applied for in your Entitlement and Acceptance Form, you will be taken to have applied for such lower number of whole New Shares as your cleared Application monies will pay for (and to have specified that number of New Shares on your Entitlement and Acceptance Form). Alternatively, your Application will not be accepted.

If your payment is being made by BPAY®:

- (a) you do not need to submit the personalised Entitlement and Acceptance Form but are taken to make each of the statements and representations on that form;
- (b) if you subscribe for less than your Entitlement or do not pay for your full Entitlement, you are taken to have accepted your Entitlement in respect of such whole number of New Shares which is covered in full by your Application money; and
- (c) it is your responsibility to ensure that your BPAY® payment is received by the Registry by no later than 5.00pm (AWST) on Monday 23 June 2025. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment, and you should therefore take this into consideration when making payment.

Any payment received for more than your final allocation of New Securities will be refunded on or around the date which is 2 Business Days after the date of issue of New Shares under the Entitlement Offer. No interest will be paid to applicants on any payment received or refunded.

Refund amounts, if any, will be paid in Australian dollars. You will be paid by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders). Alternatively you will be paid by direct deposit where the Registry holds bank account details in respect of your Shareholding.

2.4 Top-Up Facility and Shortfall Offer

Eligible Shareholders (other than directors, related parties of Surefire and other persons who fit within the categories set out in Listing Rules 10.11.1 to 10.11.5) may, in addition to taking up their Entitlements in full, apply for Additional Shares in excess of their Entitlements. Additional Shares will only be available where there is a shortfall between Applications received from Eligible Shareholders for New Shares and the number of New Shares proposed to be issued under the Entitlement Offer. New Shares issued under the Top-Up Facility will be issued at the Issue Price of \$0.002 per New Share (along with 1 free attaching Bonus Share for every 4 New Shares issued and 1 free attaching New Option for every New Share issued).

The allocation policy for Additional Shares subscribed for pursuant to the Top-Up Facility will be as follows:

- (a) Eligible Shareholders who have applied for Additional Shares through the Top-Up Facility will receive the Additional Shares they have applied for unless there is an over subscription for Additional Shares through the Top-Up Facility, in which case Eligible Shareholders will receive Additional Shares on a pro-rata basis having regard to their Entitlement; and
- (b) No Additional Shares will be issued to Eligible Shareholders through the Top-Up Facility that would result in a particular Eligible Shareholder having voting power of 20% or more in Surefire based on substantial shareholder notices that have been lodged with ASX prior to the allocation of Additional Shares.

The Top-Up Facility is an offer made pursuant to this Prospectus and will close on the Closing Date unless the Directors in their absolute discretion otherwise determine.

Eligible Shareholders who apply for Additional Shares may be allocated a lesser number of Additional Shares than applied for, or may be allocated no Additional Shares at all, in which case excess Application money will be refunded without interest.

Refund amounts, if any, will be paid in Australian dollars. You will be paid by cheque sent by ordinary post to your address as recorded on the share register (the registered address of the first-named in the case of joint holders). Alternatively you will be paid by direct deposit where the Registry holds bank account details in respect of your Shareholding.

The Directors reserve their right to alter the allocation policy and to allocate and issue Additional Shares under the Top-Up Facility at their discretion.

If you wish to subscribe for Additional Shares in addition to your Entitlement then you should nominate the maximum number of New Shares you wish to subscribe for on the Entitlement and Acceptance Form and make payment for your full Entitlement plus the additional New Shares (at \$0.002 per New Share). You will receive 1 Bonus Share for every 4 New Shares issued, and 1 New Option for every New Share issued.

If your payment is being made by BPAY®:

- (a) you do not need to submit the personalised Entitlement and Acceptance Form but are taken to make each of the statements and representations on that form; and
- (b) if your payment exceeds the amount payable for your full Entitlement, you are taken to have accepted your Entitlement in full and to have applied for such number of Additional Shares which is covered in full by your Application money.

If you apply for Additional Shares under the Top-Up Facility and your Application is successful (in whole or in part) your Additional Shares will be issued at the same time as other New Shares are issued under the Entitlement Offer.

The Directors do not represent that any Application to participate in the Top-Up Facility will be successful. The Company reserves the right to issue to an Applicant for New Shares under the Top-Up Facility a lesser number of New Shares than the number applied for or reject an Application or not proceed with the issuing of the New Shares pursuant to the Top-Up Facility or part thereof. If the number of New Shares issued to an Applicant is less than the number applied for by the Applicant, surplus Application monies will be refunded to the Applicant in full. Interest will not be paid on any Application monies refunded.

If any shortfall remains after the allocation to Eligible Shareholders under the Top-Up Facility as provided above, the Directors reserve the right to place the resulting shortfall (including New Shares and attaching Bonus Shares and New Options not able to be taken up by Ineligible Shareholders) at their discretion (at a price not less than \$0.002 per New Share and on the basis of 1 Bonus Share for every 4 New Shares issued, and 1 New Option for every New Share issued), within 3 months from the closing date of the Entitlement Offer, subject to compliance with the Listing Rules and Corporations Act. The shortfall to be placed will be offered under a separate offer made pursuant to this Prospectus (**Shortfall Offer**).

Surefire's decision whether to treat an acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

By making a payment by BPAY® or by completing and returning your personalised Entitlement and Acceptance Form with the requisite Application monies, you will also be deemed to have given the following acknowledgements, representations and warranties on behalf of each person on whose account you are acting:

- (p) you are an Eligible Shareholder and are not in the United States and are not a person (including nominees or custodians) acting for the account or benefit of a person in the United States and are not otherwise a person to whom it would be illegal to make an offer or issue New Securities under the Entitlement Offer;

2.8 ASX quotation

An application will be made to ASX for the Official Quotation of the Securities offered under the Offers within seven days of the date of this Prospectus. Subject to approval being granted by ASX, it is expected that the quotation and trading of the Securities issued under the Offers will commence from Wednesday, 2 July 2025. If permission is not granted by ASX for the Official Quotation of the Securities offered by this Prospectus within 3 months after the date of this Prospectus, the Company will repay, as soon as practicable, without interest, all Application monies received pursuant to this Prospectus, or take such other action as allowed under the Corporations Act.

2.9 Issue of New Securities

It is currently expected that the New Securities will be issued on Tuesday 1 July 2025, and that confirmation of the issue of the New Securities will be dispatched on that same day.

It is the responsibility of each Eligible Shareholder applying for New Securities to confirm their holding before trading in those New Securities on a deferred settlement basis. Any person who sells New Securities before receiving confirmation of their holding in the form of their confirmation statement will do so at their own risk. Surefire and the Registry disclaim all liability, whether in negligence or otherwise, to any person who trades in New Securities before receiving their confirmation statement, whether on the basis of a confirmation of allocation provided by Surefire, the Registry, a broker or otherwise.

2.10 Brokerage and duty

No brokerage fee is payable by Eligible Shareholders who accept their Entitlement or subscribe for Additional Shares under the Top-Up Facility. No stamp duty is payable for subscribing for New Securities under the Entitlement Offer or for Additional Shares under the Top-Up Facility.

2.11 Notice to nominees and custodians

Nominees and custodians may not distribute any part of this Prospectus or any Entitlement and Acceptance Form in any country outside Australia, except to beneficial holders of Shares in New Zealand or any other country to the extent Surefire may determine it is lawful and practical to make the Entitlement Offer.

Surefire is not required to determine whether or not any registered holder or investor is acting as a nominee or custodian or the identity or residence of any beneficial owners of Shares or Entitlements. Where any person is acting as a nominee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Entitlement Offer by the beneficiary complies with applicable foreign laws. Surefire is not able to advise on foreign laws.

2.12 Taxation implications

The Directors do not consider it appropriate to give Shareholders or potential investors advice regarding the taxation consequences of subscribing for Securities under this Prospectus.

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders or potential investors. As a result, Shareholders and potential investors should consult their professional tax adviser in connection with subscribing for Securities under this Prospectus.

2.13 Major activities and financial information

A summary of the major activities and financial information relating to the Company for the financial year ended 30 June 2024 is in the Annual Report which was released on the ASX on 30 September 2024.

A summary of activities relating to the Company is also set out in the Company's quarterly activities report lodged with ASX on 24 April 2025. The Company's continuous disclosure notices (i.e. ASX announcements) since the date of lodgement of the Annual Report on 30 September 2024 are listed in Section 5.3.

Copies of these documents are available free of charge from the Company. Directors strongly recommend that Shareholders and potential investors review these and all other ASX announcements prior to deciding whether or not to subscribe for New Securities under this Prospectus.

2.14 CHESS and issuer sponsorship

The Company participates in the Clearing House Electronic Subregister System, known as CHESS. All trading on ASX in Shares and in Options will be settled through CHESS. ASX Settlement, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and ASX Settlement Operating Rules. The Company's Registry operates an electronic issuer-sponsored sub-register and an electronic CHESS sub-register. Both these sub-registers constitute the Company's principal register of shareholders.

Holders of New Securities will not receive a certificate but will receive a statement of their holding of New Securities.

If you are broker sponsored or a participant in CHESS, ASX Settlement will send you a CHESS statement. The CHESS statement will set out the number of New Securities issued under this Prospectus and provide details of your holder identification number and in relation to the New Options, the terms and conditions applicable to the New Options, including a notice to exercise the New Options.

If you are registered on the Issuer Sponsored subregister, your statement will be dispatched by the Registry and will contain details of the number of New Securities issued to you under this Prospectus and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to Shareholders at the end of any calendar month during which the balance of their holding changes. Shareholders may request a statement at any other time. However, a charge may apply for additional statements.

3. Purpose and effect of the Offers

3.1 Purpose of the Entitlement Offer

The purpose of the Entitlement Offer is to raise up to approximately \$3,875,261 (before costs) from the issue of New Shares. The issue of Bonus Shares and New Options under the Entitlement Offer will not raise any funds.

The funds raised from the Entitlement Offer (net of costs) are planned to be used for developing the Yidby Gold and Copper Hill Projects, for continued exploration on and development of the Company's other 100% owned West Australian projects, and for general working capital purposes. If, in the view of the Board, circumstances present as appropriate, funds will also be allocated to assess, and if applicable, acquire, further projects.

The approximate breakdown of funds to be allocated to each activity is set out in the table below:

Activity	Funds allocated
Developing the Yidby Gold Project	40%
Developing the Copper Hill Project	25%
Continued exploration on and development of the Company's other 100% owned West Australian projects	10%
General working capital	20%
Costs of the Entitlement Offer	5%
Total	\$3,875,261

If the Company raises less than the full subscription under the Entitlement Offer, the Company's current intention is that the funds will firstly be applied towards payment of the costs of the Entitlement Offer, secondly towards working capital, thirdly towards developing the Yidby Gold and Copper Hill Projects, and fourthly towards continued exploration on and development of the Company's other 100% owned West Australian projects.

3.2 Effect of the Entitlement Offer

The principal effect of the Entitlement Offer will be to increase the cash reserves of the Company by up to approximately \$3,875,261 (before costs and subject to rounding) immediately after completion of the Entitlement Offer. The extent to which cash reserves will increase will depend on the level of Applications received under the Entitlement Offer.

3.3 Effect of the Lead Manager Offer

The principal effect of the Lead Manager Offer (assuming all New Options offered under this Prospectus in respect of those offers are issued) will be to increase the number of Options on issue from zero to 232,515,631 Options. The number of New Options issued under the Lead Manager Offer will depend on the proceeds raised from the placement of shortfall securities under the Shortfall Offer.

No funds will be raised from the issue of New Options under the Lead Manager Offer (as that offer is an offer of Options only). However, if any of the New Options issued under the Lead Manager Offer are ultimately exercised; on the basis that the Entitlement Offer is fully subscribed and that no Shortfall Offer is made, the Company will not receive any funds; on the basis that the maximum number of options have been issued to

For personal use only

the Lead Manager, the Company will receive approximately \$930,061 (before costs) which will be used for the purposes set out in Section 3.1.

3.4 Effect on capital structure

The effect of the Offers on the capital structure of the Company on the assumptions set out in the footnotes below, is set out in the table below:

	Shares (fully paid)	Contributing Shares ¹	Options
Balance at the date of this Prospectus	2,486,445,390	608,785,323	381,072,907
To be issued under the Offers²	2,422,037,825	Nil	1,211,018,912 ³
TOTAL⁴	4,908,483,215	608,785,,323	1,592,091,819

Notes

1. Comprises 188,785,323 \$0.027 Contributing Shares, 70,000,000 \$0.006 Contributing Shares and 350,000,000 \$0.008 Contributing Shares.
2. Assumes the Entitlement Offer is fully subscribed. These figures include the Lead Manager Offer.
3. Assumes that under the Lead Manager Offer, the Lead Manager receives no New Options on the basis that the Entitlement Offer is fully subscribed and that no Shortfall Offer is made. The maximum number of additional Lead Manager Options that could be issued to the Lead Manager is a further 232,515,631 Lead Manager Options assuming no Securities are issued under the Entitlement Offer and the Shortfall Offer is fully subscribed.
4. Assumes no further Shares are issued by the Company and that no Contributing Shares are paid-up before the Record Date.

3.5 Substantial Shareholders and effect on control

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	No Shares held	Relevant interest
Vladimir Nikolaenko Group ⁽¹⁾	600,133,175 Fully paid shares 417,188,767 Contributing shares	24.08%

1. Being Vladimir Nikolaenko, Plato Mining Pty Ltd, Mutual Holdings Pty Ltd, Mercury Investments Pty Ltd and Pharoah Nominees Pty Ltd, Vargas Holdings Pty Ltd, Kaliara Nominees Pty Ltd and Corporate Admin Services Pty Ltd.

In the event that all Entitlements are taken up by Eligible Shareholders there will be no change to the substantial holders on completion of the Entitlement Offer. Eligible Shareholders should note that if they do not participate in the Entitlement Offer, their holdings are likely to be diluted. Eligible Shareholders may also be diluted by Shares issued on exercise of New Options.

The Company will not issue any New Securities to Eligible Shareholders under the Top-Up Facility (or in placing any resulting shortfall under the Shortfall Offer) if the Company is aware that an issue of those New Shares would contravene section 606 of the Corporations Act (see also Section 2.4).

3.6 Pro-forma balance sheet

The pro-forma balance sheet of the Company is based on the statement of financial position as at 31 December 2024 that has then been adjusted (assuming the Entitlement Offer is fully subscribed) to reflect the issue of 1,937,630,260 New Shares under the Entitlement Offer at an issue price of \$0.002 to raise up to approximately \$3,875,260 before the costs of the Entitlement Offer, plus the issue of free attaching Bonus Shares and free attaching New Options issued pursuant to the Offer. The pro-forma

balance sheet is prepared on the basis that the Entitlement Offer raises approximately \$3,789,838 after costs. This has been reflected as an increase in cash reserves with a corresponding increase in issued capital. The pro-forma balance sheet does not take into account the additional amount that may be raised if the maximum number of New Options are issued and exercised in the future.

The pro-forma, unaudited balance sheet excludes movements from carrying out general business operations. The pro-forma, unaudited balance sheet is illustrative only and may not represent the financial position of the Company following the close of the Entitlement Offer. The pro-forma, unaudited balance sheet does not take into account the effect of any future exercises of any Options.

4. Risk factors

This Section discusses some of the key risks associated with an investment in Surefire Securities. A number of risks and uncertainties, which are both specific to and of a more general nature, may adversely affect the operating and financial performance or position of Surefire, which in turn may affect the value of Securities and the value of an investment in Surefire.

The risks and uncertainties described below are not an exhaustive list of the risks facing Surefire or associated with an investment in Surefire. Additional risks and uncertainties may also become important factors that adversely affect Surefire's operating and financial performance or position.

This document is not financial product advice and has been prepared without taking into account your investment objectives or personal circumstances. Before investing in Securities, you should consider whether an investment in Securities is suitable for you. Potential investors should consider publicly available information on Surefire (such as that available on the websites of Surefire and ASX), carefully consider their personal circumstances and consult their stockbroker, solicitor, accountant or other professional adviser before making an investment decision.

4.1 Surefire specific risks

(a) Exploration success

The future profitability of the Company and the value of its Securities is likely to be directly related to the results of exploration on its current and/or future projects. The exploration tenements held by the Company are at various stages of exploration and potential investors should understand that minerals exploration and development are high-risk undertakings. There can be no assurance that exploration of these tenements, or any other tenements that may be acquired, will result in discovery of an economic resource. Even if an apparently viable deposit is identified, there is no guarantee that it can ultimately be economically exploited.

The Company's future exploration activities may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title processes and laws relating to Aboriginal heritage and other first Australian matters, changing government regulations and many other factors beyond the Company's control.

The Company's success will depend upon the Company being able to maintain, renew or replace title to its tenements and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful, this would likely lead to diminution in the value of the Company's tenements, and possible relinquishment of tenements.

The Company's anticipated exploration costs are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may be materially different from these estimates and assumptions. No assurance can be given that any cost estimates or the underlying assumptions will be realized in practice, which may material adversely affect the Company's viability.

(b) **Exploration results**

The Company has numerous samples and geophysical data from its exploration programmes that are currently being assayed or evaluated. No assurance can be given that these exploration results will be favourable. Any results that are not favourable may material adversely affect the Company's Share price and future prospects.

(c) **Potential for dilution**

The Entitlement Offer may have the effect of diluting the percentage of each Shareholder's interest. If a Shareholder does not take up their Entitlement, that Shareholder's percentage interest in the total issued shares of Surefire may be diluted. Shareholders may also be diluted by the Shortfall Offer and on exercise of any New Options.

(d) **Additional requirements for capital**

The Company's future capital requirements, and the Company's ability to satisfy those requirements, depend on numerous factors, many of which are beyond the control of the Company.

It is likely that the Company will require further funding. Any additional equity financing will dilute shareholdings. Any debt financing, if available, may involve restrictions on the Company's activities. If the Company is unable to obtain additional funding as needed, it may be required to reduce the scope of its operations, dispose of assets or scale back its exploration programmes, as the case may be.

The Company's ability to raise funds through the issue of Securities is subject to market conditions from time to time. The market for securities in junior exploration companies fluctuates. There is no certainty that the Company will be able to secure any additional funding or be able to secure funding on favourable terms to the Company and its Shareholders.

(e) **Commodity price volatility and exchange rate risks**

If the Company achieves success leading to mineral production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macro-economic factors.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar and the Australian dollar as determined in international markets.

(f) **Reliance on key personnel, executives and advisers**

The responsibility of overseeing the day-to-day operations and the Company's strategic management depends substantially on its senior management and key personnel.

If the Company cannot secure external technical expertise or if the services of the present management or technical team cease to be available to the Company, this may affect the Company's ability to achieve its objectives either fully or within the timeframes and the budget that it has forecast. Additionally, industrial disruptions, work stoppages and accidents in the course of operations may adversely affect the Company's performance.

(g) **Communicable disease outbreaks**

The outbreak of communicable diseases around the world (such as the novel coronavirus COVID-19) may lead to interruptions in operations and exploration activities, inability to source supplies or consumables and higher volatility in the global capital markets and price of vanadium, magnetite and gold, which may materially and adversely affect the Company's business, financial condition and results of operations.

In addition, such outbreaks may result in restrictions on travel and public transport and prolonged closures of facilities or other workplaces which may have a material adverse effect on the Company and the global economy more generally. Any material change in the Company's operating conditions, the financial markets or the economy as a result of these events or developments may materially and adversely affect the Company's business, financial condition and results of operations.

(h) **Operating risks**

Industry operating risks include, but are not limited to, fires, explosions, environmental hazards, technical failures, unusual or unexpected geological conditions, unusual or unexpected geotechnical conditions, adverse weather conditions and other accidents. The occurrence of any of these risks could result in substantial losses to the Company due to injury or loss of life, damage to or destruction of property, natural resources or equipment; pollution or other environmental damage; clean-up responsibilities; regulatory investigation and penalties; or suspension of operations. Damages occurring to third parties as a result of such risks may also give rise to claims against the Company.

The occurrence of any of these circumstances could result in the Company not realising its operational or development plans or in such plans costing more than expected or taking longer to realise than expected. Any of these outcomes could have an adverse effect on the Company's financial and operational performance.

(i) **Reserves and resource estimates**

Mineral reserve and resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter or become uncertain when new information becomes available on the tenements through additional exploration, investigations, research, testing or engineering over the life of a project.

In addition, reserve and contingent resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove inaccurate. The actual reserves or contingent resources may differ from those estimated which may result in the Company altering its plans which could have either a positive or negative effect on its operations.

Changes in reserve or resource estimates could also impact the Company's ability to maintain its borrowing capacity with lenders.

(j) **Occupational health and safety**

Exploration activities may expose the Company's staff and contractors to potentially dangerous working environments. Occupational health and safety legislation and regulations differ in each jurisdiction. If any of the Company's employees or contractors suffers injury or death, compensation payments or fines may be payable and such circumstances could result in the loss of a licence or permit required to carry on the business. Such an incident may also have an adverse effect on the Company's business (including financial position) and reputation.

(k) **Third party risk**

The Company will rely significantly on strategic relationships with other entities and on a good relationship with regulatory and government departments and other interest holders. The Company will also rely on third parties to provide essential contracting services. There can be no assurance that its existing relationships will be maintained or that new ones will be successfully formed. The Company could be adversely affected by changes to such relationships or difficulties in forming new ones.

(l) **Financial risks**

The Company's activities expose it to a variety of financial risks, including:

- (i) *Market risk*: The risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices, interest rate risk, price risk, credit risk and liquidity risk (maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities). The Company's future activities will be subject to volatility and fluctuations in those particular areas.
- (ii) *Interest rate and credit risk*: This relates to the risk that interest rates applicable to the Company may fluctuate and have an impact on the value of the Company's assets and liabilities.
- (iii) *Liquidity risk*: This relates to the ability of the Company to maintain sufficient cash and the availability of funding through an adequate amount of committed credit facilities to support the Company's operations.

(m) **Tenure risks and native title**

Interests in tenements in Australia are governed by the mining legislation of the respective states. Each licence or lease is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to or its interest in tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

If exploration is successful, the Company will not be able to exploit any mineral deposit unless the Company first acquires a mining lease. The grant of a mining lease is subject to ministerial discretion.

Additionally, in areas where native title exists or may exist, the ability of the Company to acquire a valid mining lease may also be subject to compliance with the 'right to negotiate' process under the *Native Title Act 1993* (Cth). Compliance with this process can (and usually does) cause delays in obtaining the grant of a mining lease and ultimately there can be no guarantee that a mining lease will be granted. Attaining a negotiated agreement with native title claimants or holders to facilitate the grant of a valid mining lease generally adds significantly to the costs and timetabling of any development or mining operation.

The ability of the Company to conduct activities on exploration or mining tenements is subject to compliance with Aboriginal heritage laws. Conduct of site surveys to ensure compliance can be, and mostly are, expensive and subject to delays. If any Aboriginal sites are located within areas of proposed exploration, mining or other activities, the ability of the Company to conduct those activities may be dependent on the Company obtaining further regulatory consents or approvals, none of which can be assured.

(n) **Environmental**

The Company's exploration activities are subject to legislation regarding environmental matters. The legal framework governing this area is complex and constantly developing. There is a risk that the environmental regulations may become more onerous, making the Company's operations more expensive or cause delays. The Company may become subject to liability for pollution or other hazards against which it has not insured or cannot insure, including those in respect of past activities for which it was not responsible.

(o) **Climate change risk**

Climate change is a risk the Company has considered, particularly related to its operations in the mining industry. The climate change risks particularly attributable to the Company include:

- (i) the emergence of new or expanded regulations associated with transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or

penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and

- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.

All risks associated with climate change may significantly change the industry in which the Company operates.

(p) **Insurance**

Insurance of all risks associated with mineral exploration is not always available and, where available, the cost can be high. The Company maintains insurance within a coverage range that it considers to be consistent with industry practice and appropriate for its needs and will update this insurance as required and as Company activities evolve. The occurrence of an event that is uninsurable, not covered, or only partially covered by insurance could have a material adverse effect on the Company's business and financial position.

(q) **Option Risk and Dilution**

Options are, by their nature, only of value at times when the exercise price is lower than the price of the underlying Shares. There is no guarantee that the New Options issued under the Offers will, at any particular time, have an exercise price which is lower than the price of the Shares. The New Options may be "out of the money" and may therefore have little or no value, and may expire at a time when they have no value.

On completion of the Offers, there will be up to a further 968,815,130 Options (subject to rounding) on issue (assuming the Entitlement Offer under this Prospectus is fully subscribed and that under the Lead Manager Offer, the Lead Manager receives no New Options on the basis that the Entitlement Offer is fully subscribed and that no Shortfall Offer is made). If no Securities are issued under the Entitlement Offer and the Shortfall Offer is fully subscribed, the Lead Manager can be issued 232,515,631 Lead Manager Options.

4.2 General risks

(a) **Equity market conditions**

There are risks associated with an investment in securities. The price at which the Shares trade on ASX may fluctuate in response to many factors, which include:

- (i) general movements in Australian and international stock markets;
- (ii) investor sentiment;
- (iii) Australian and international economic conditions and outlook;
- (iv) commodity prices;
- (v) changes in interest rates and the rate of inflation;
- (vi) changes in government legislation and policies, including taxation laws and foreign investment legislation;
- (vii) announcement of new technologies; and
- (viii) geo-political instability, including international hostilities and acts of terrorism.

Shares listed on ASX can also experience extreme price and volume fluctuations that are often unrelated to the operating performance of such companies.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **General economic conditions**

Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in interest and inflation rates, commodity prices, currency exchange rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's exploration activities, as well as on its ability to fund those activities, and its future profitability could be affected by these factors, which are beyond the control of the Company or its Directors.

(c) **Taxation**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.

(d) **Litigation Risks**

The Company is exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employment claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.

(e) **Potential acquisitions**

As part of its business strategy, the Company may make acquisitions of, or significant investments in, companies, assets or projects complementary to the Company's existing operations. Any such future transactions are accompanied by the risks commonly encountered in making acquisitions of companies, assets and projects, such as integrating cultures and systems of operation, relocation of operations, short term strain on working capital requirements, achieving the short term operational goals and retaining key staff and customer and supplier relationships.

(f) **Force majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company, including fires, labour unrest, civil disorder, war, subversive activities or sabotage, floods, pandemics, explosions or other catastrophes, epidemics or quarantine restrictions.

(g) **Competition**

The Company will compete with other companies, including major mining companies in Australia and internationally. Some of these companies will have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. There can be no assurance that the Company can compete effectively with these companies.

(h) **Russia-Ukraine and Israel/Gaza conflicts**

The ongoing Russian-Ukraine and Israel/Gaza conflicts have had and will continue to have a significant impact on global economic markets. Although the Company considers the current impact of the conflict on the Company to be limited, given that the conflict is ongoing and volatile in nature, the future effect of the conflict on the Company is uncertain. The conflict may have an adverse effect on the Company's share price or operations which will likely be out of the Company's control.

(i) **Data and information technology**

The Company's computer systems are subject to the risks of unauthorised access, computer hackers, computer viruses, malicious code, organised cyber-attacks and other security problems and system disruptions, including possible unauthorised access to proprietary or classified information. Any of these events could damage the Company's reputation and have a material adverse effect on its business, reputation, results of operations and financial condition. There is also a risk that the Company's systems for capturing data and intellectual property for project development are ultimately not effective.

4.3 Speculative investment

The above list of risk factors ought not to be taken as an exhaustive list of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Potential investors should consider that an investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for New Securities pursuant to this Prospectus.

5. Additional information

5.1 Nature of this Prospectus

This Prospectus is issued under the special prospectus content rules for continuously quoted securities (and options over them) in section 713 of the Corporations Act. This enables listed disclosing entities to issue a prospectus with less rigorous disclosure requirements if:

- (a) the securities offered by the prospectus were enhanced disclosure securities at all times in the 3 months before the date of the prospectus; and
- (b) during the shorter of the period during which the securities were quoted and the period of 12 months before the date of the prospectus, the company was not subject to certain exemptions or declarations prescribed by the Corporations Act.

Securities are enhanced disclosure securities if:

- (a) the company is included in the official list of ASX; and
- (b) the Listing Rules apply to those securities.

The information in this Prospectus principally concerns the terms and conditions of the Offers and the information necessary to make an informed assessment of:

- (a) the effect of the Offers on the Company;
- (b) the rights and liabilities attaching to the New Securities offered by this Prospectus; and
- (c) the rights and liabilities attaching to the underlying Shares.

As the Company has been listed on ASX since 1999, a substantial amount of information concerning the Company has previously been notified to ASX and is therefore publicly available.

The Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Shareholders should therefore also have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest in the New Securities.

5.2 Regular reporting and disclosure obligations

The Company is a disclosing entity under the Corporations Act. It is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules.

These obligations require the Company to notify ASX of information about specified events and matters as they arise for the purposes of ASX making that information available to the securities market conducted by ASX. In particular, the Company has an obligation under the Listing Rules (subject to certain limited exceptions) to notify ASX immediately of any information of which it becomes aware concerning the Company which a reasonable person would expect to have a material effect on the price or value of securities in the Company.

The Company is also required to prepare and lodge with ASIC both yearly and half yearly financial statements accompanied by a Directors' statement and report and an auditor's report.

All announcements made by the Company are available from ASX.

5.3 Copies of documents

Copies of documents lodged by the Company in connection with its reporting and disclosure obligations may be obtained from, or inspected at, an office of ASIC.

During the period that the Entitlement Offer remains open, the Company will provide free of charge to any person who requests it, a copy of:

- (a) has been excluded from a continuous disclosure notice in accordance with the Listing Rules; and
- (b) is information that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of:
 - (i) the assets and liabilities, financial position and performance, profits and losses and prospects of the Company; and
 - (ii) the rights and liabilities attaching to the New Securities being offered by this Prospectus.

5.5 Rights attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(e) Shareholder liability

As the Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) Transfer of shares

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

(g) Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

(h) Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(i) Alteration of constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

5.6 Rights and liabilities attaching to the New Options

The New Options to be issued under this Prospectus will be issued on the following terms and conditions:

- (a) Each New Option may be exercised by giving notice in that regard together with payment of the amount of \$0.004 (0.4 cents) (**Exercise Price**).
- (b) Each New Option entitles the holder to subscribe for one Share in the Company upon the payment of the Exercise Price.
- (c) The New Options will lapse at 5:00pm (AWST) on a date which is 2 years from their date of issue, expected to be 1 July 2027 (**Expiry Date**).
- (d) The New Options are transferable at any time in accordance with the Corporations Act, the Listing Rules and any other applicable rules of ASX.
- (e) The New Options carry no right to participate in new issues of securities unless the New Options are exercised before the record date for determining entitlements to the relevant new issue.
- (f) The New Options do not confer the right to a change in exercise price or the number of securities over which the New Option can be exercised except in the event of a bonus issue of Shares being made pro rata to Shareholders (other than an issue in lieu of dividends), in which case the number of Shares issued on exercise of each New Option will include the number of bonus Shares that would have been issued if the New Option had been exercised prior to the record date for the bonus issue.
- (g) New Options can only be exercised in parcels of not less than 1,000,000, except where the total of the New Options held by the holder is less than 1,000,000 (in which case, only all New Options held by the holder may be exercised and the costs of filing with ASX in connection with the exercise is to be borne up front by the Optionholder). The Company shall not be obliged to issue Shares in response to an exercise of New Options more frequently than once per calendar quarter. The Company may waive or otherwise permit exceptions to this clause or any part of it on a case-by-case basis or at large as it determines in its unfettered discretion.
- (h) Subject to Section 5.6(h), the New Options shall be exercisable at any time during the period (**Exercise Period**) ending on the Expiry Date by:
 - (i) the delivery to the registered office of the Company of a notice in writing (**Notice**) stating the intention of the Optionholder to exercise all or a specified number of New Options held, accompanied by cleared funds for the subscription monies for the Shares; or
 - (ii) such other form and method as may be approved by the Company from time to time.

The Notice and cleared funds must be received by the Company during the Exercise Period.

- (i) If the Company enters into an agreement to underwrite the exercise of the New Options and any New Options remain unexercised at the Expiry Date, then the holder of those unexercised Options immediately, unconditionally and irrevocably appoints the Company as the Optionholder's agent to transfer (for no consideration to that Optionholder) the unexercised New Options to the relevant underwriter and, despite this Section 5.6(i), that underwriter is entitled to

exercise the unexercised New Options within 14 calendar days (or such fewer days as the Company may determine in its absolute discretion) of the Expiry Date.

- (j) Subject to Sections 5.6(g) and 5.6(i), the Company shall endeavour to allot the Shares that result on exercise of the New Options and deliver a statement of shareholdings with a holders' identification number within 5 business days of exercise of the New Options.
- (k) Any rights of approval, rejection, waiver or other discretion vested in the Company under this Section 5.6 may be exercised or not by the Board as it sees fit, with or without reasons, conditions or limitations.
- (l) For so long as the Company is admitted to the Official List, the following provisions apply and override the above provisions:
 - (i) Notwithstanding anything contained in these terms, if the Listing Rules prohibit an act being done, the act must not be done.
 - (ii) Nothing contained in these terms prevents an act being done that the Listing Rules require to be done.
 - (iii) If the Listing Rules require an act to be done or not to be done, authority is given for that act to be done or not to be done (as the case may be).
 - (iv) If the Listing Rules require these terms to contain a provision and they do not contain such a provision, these terms are deemed to contain that provision.
 - (v) If the Listing Rules require these terms not to contain a provision and it contains such a provision, these terms are deemed not to contain that provision.

If any provision of these terms is or becomes inconsistent with the Listing Rules, these terms are deemed not to contain that provision to the extent and for the duration of that inconsistency.
