It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus, regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and their professional advisers.

Applications for Offer Securities offered pursuant to this Prospectus can only be made by an original Entitlement and Acceptance Form or Shortfall Application Form.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, the Directors and the management.

The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this Prospectus, except where required by law.

Nature of Prospectus

The New Shares and New Options that will be issued under this Prospectus are either continuously quoted securities or options to acquire continuously quoted securities (as defined in the Corporations Act). This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities and has been prepared in accordance with section 713 of the Corporations Act. That provision allows for the issue of a more concise prospectus in relation to an offer of securities in a class that has been continuously quoted by ASX in the 3 months prior to the date of the prospectus. In general terms, transaction specific prospectuses are only required to contain information in relation to the effect of the issue of the Offer Securities on the Company and the rights attaching to those securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus contains information only to the extent to which it is reasonable for investors and their professional advisers to expect to find the information in it. It does not include all of the information that would be included in a prospectus for an initial public offering.

This Prospectus provides general information to assist you with your own evaluation of the Company's assets. This Prospectus is not, and is not intended to be, advice on legal, financial, taxation or investment matters nor is it intended to be financial product advice from the Company or any of its directors, employees, agents or advisers.

The information contained in this Prospectus has been prepared by the Company.

Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult. This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all information that would be included in a prospectus for an initial public offering.

This Prospectus, including each of the documents attached to it and which form part of this Prospectus is important and should be read in its entirety prior to making an investment decision. If you do not fully understand this Prospectus or are in any doubt as to how to deal with it, you should consult your professional adviser.

In particular, it is important that you consider the risk factors (see section 7 of this Prospectus) that could affect the performance of the Company before making an investment decision.

Investors should note that past Share price performance of the Company provides no guidance to its future Share price performance. Neither the Company nor any other person warrants or guarantees the future performance of the New Shares or any return on any investment made pursuant to this Prospectus. The New Shares the subject of this Prospectus should be considered speculative.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Exposure Period

The Offer is made pursuant to ASIC Corporations (Exposure Period) Instrument 2016/74 which exempts the Company from complying with section 727(3) of the Corporations Act to the extent that that section prohibits the Company from issuing New Options in the seven day period after the date of lodgement of the Prospectus with ASIC.

Obtaining a Prospectus and Application Form

A copy of this Prospectus is available for inspection at the registered office of the Company at Units 8-9, 88 Forrest Street, Cottesloe WA 6011 during normal business hours. The Company will provide a copy of this Prospectus to any person on request. The Company will also provide copies of other documents on request (refer to section 9.1 for further information).

A copy of this Prospectus may be downloaded from the Company's website at www.alvo.com.au. Any person accessing the electronic version of this Prospectus for the purpose of making an investment in the Company must be an Australian resident and must only access the Prospectus from within Australia.

Persons who access the electronic version of this Prospectus should ensure that they download and read the entire Prospectus. The information on the Company's website at www.alvo.com.au does not form part of this Prospectus.

The Corporations Act prohibits any persons passing onto another person an Application Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

Risk Factors

Shareholders and potential investors should be aware that subscribing for New Shares in the Company involves a number of risks. The key risk factors of which Shareholders and investors should be aware are set out in section 7 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the New Shares in the future. Accordingly, an investment in the Company should be considered highly speculative. Shareholders and investors should consider consulting their professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

Foreign jurisdictions

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. No action has been taken to register or qualify the Offer Securities or to otherwise permit a public offering of the Offer Securities in any jurisdiction in which it would be unlawful. It is not practical for the Company to comply with the securities law of overseas jurisdictions having regard to the number of overseas investors, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. The Prospectus may not be distributed, and New Shares and New Options may not be offered or sold, in any country outside Australia, except to the extent permitted below.

No action has been taken to lodge this Prospectus in any jurisdiction outside of Australia or to otherwise permit a public offering of Offer Securities in any jurisdiction outside Australia. Accordingly, the Retail Entitlement Offer is not being extended and New Shares and New Options will not be issued to investors with a registered address which is outside Australia or New Zealand. The Company may (in its absolute discretion) extend the Retail Entitlement Offer to any Shareholder in other foreign jurisdictions (subject to compliance with applicable laws).

It is the responsibility of Applicants to ensure compliance with any laws of the country relevant to their application. Return of a duly completed Application Form under the Entitlement Offer will be taken by the Company as a representation by the Applicant that there has been no breach of such laws, that the Applicant is an Eligible Retail Shareholder and that the Applicant is physically present in Australia or New Zealand, or other foreign jurisdiction which the Company has extended the Retail Entitlement Offer (subject to compliance with applicable laws).

Institutional Entitlement Offer

The return of a completed Application Form will be taken by the Company to constitute a representation and warranty by the Applicant to the Company that there has been no breach of such laws and that all relevant approvals have been obtained. The Company may (in its absolute discretion) extend the Institutional Entitlement Offer to any Shareholder in other foreign jurisdictions (subject to compliance with applicable laws).

This document constitutes an offering of New Shares only in the Provinces of British Columbia and Ontario (the "Provinces"), only to persons to whom New Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons who are (i) "accredited investors" (as defined in National Instrument 45-106 – Prospectus Exemptions) and (ii) "permitted clients" (as defined in National Instrument 31-103 – Registration Requirements, Exemptions and Ongoing Registrant Obligations) if a lead manager offering the New Shares in Canada is relying upon the international dealer exemption under NI 31-103.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

Language of documents in Canada. Upon receipt of this document, each investor in Canada hereby confirms that it has expressly requested that all documents evidencing or relating in any way to the sale of the New Shares (including for greater certainty any purchase confirmation or any notice) be drawn up in the English language only. Par la réception de ce document, chaque investisseur canadien confirme par les présentes qu'il a expressément exigé que tous les documents faisant foi ou se rapportant de quelque manière que ce soit à la vente des valeurs mobilières décrites aux présentes (incluant, pour plus de certitude, toute confirmation d'achat ou tout avis) soient rédigés en anglais seulement.

<p>What are the key risks of further investment in the Company?</p>	<p>Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. There are a number of risks and uncertainties, both specific to the Company and of a general nature, which may, either individually or in combination, affect the future operating and financial performance of the Company, its prospects, and/or the value of its securities.</p> <p>The Directors consider that this summary of risk factors set out in section 7, which is not exhaustive, represents some of the major risks which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Shareholders should carefully consider the risk factors set out in section 7 in full, in addition to the other information presented in this Prospectus.</p> <p>To further supplement the risk disclosure set out in section 7, the Directors wish to highlight the following material risks to the Company:</p> <p>(a) Future funding risk</p> <p>The Company is involved in exploration for minerals in Brazil and is yet to generate revenues. The Company has a cash and cash equivalents balance, of \$434,000 as at 31 March 2025 and net assets of \$1.48 million as at 31 December 2024. Additional funding will be required in the future for the costs of the Company's exploration programs to effectively implement its business and operations plans, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur.</p> <p>In addition, should the Company consider that its exploration results</p>	<p>Section 7</p>

	<p>justify commencement of production on any of its Projects, additional funding will be required to implement the Company's development plans, the quantum of which remains unknown at the date of this report. The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may delay and indefinite postponement of exploration, development or production on the Company's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.</p> <p>(a) Going Concern</p> <p>Shareholders should note that the reviewed Financial Report of the Company, being for the year ended 31 December 2024, has been prepared on a going concern basis.</p> <p>The Company's Annual Report, lodged with ASX on 27 March 2025, included a "material uncertainty related to going concern", without qualification, in respect of the going concern disclosures included in Note 2 to the financial statements.</p> <p>The ability of the Company to continue as a going concern and to meet planned and committed expenditure requirements is subject to the Company successfully raising further equity. Should the Company not be successful in obtaining adequate funding or cash inflows are not as planned, there is material uncertainty as to the ability of the Company to continue as a going concern and to realise its assets and extinguish liabilities as they arise. The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.</p>	
--	---	--

	<p>(b) Likelihood and risk of exploration success</p> <p>Mineral exploration, project development and mining are by their nature high-risk undertakings and there is no assurance that exploration of the tenements that comprise the suite of Exploration Projects will result in the discovery of an economic resource deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited. Alvo's future exploration activities may be affected by a range of factors including geological conditions, limitation on activities due to permitting requirements, other regulatory or government requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents and many other factors beyond the control of the Company.</p> <p>(c) Exposure to foreign jurisdictions and legislation</p> <p>Alvo's Projects are located in Brazil. There are numerous risk factors associated with operating in foreign jurisdictions, such as Brazil, including economic, social or political instability or change, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, licensing, and repatriation.</p> <p>(d) Securities investment and market risks</p> <p>The general economic climate (e.g. interest rates, political decisions) may affect the value of the Company's quoted securities regardless of the Company's operating performance.</p> <p>Changes in global events and conditions can significantly impact the Company's ability to operate as intended or at all and significantly affect the market and value of the Company's shares.</p>	
--	--	--

	<p>(e) Reliance on key personnel</p> <p>Alvo's operational success will depend substantially on the continuing efforts of its key management personnel and on its ability to attract and retain key quality staff and consultants. The Company relies on experienced managerial and highly qualified technical staff, principal among them the Company's managing Director – Rob Smakman, to develop and operate the Companies projects and ongoing exploration programs and to direct staff to manage the operational, compliance and other functions of its business. The departure of Rob Smakman or any other senior personnel may have an adverse effect on Alvo's business.</p> <p>(f) Commodity price risk</p> <p>The value of the Company is highly dependent on the expected value of the mineral resources on its tenements. The price of copper, nickel, lead, gold and silver fluctuates and is affected by many factors beyond the control of the Company.</p> <p>(g) Reliability of resource estimates</p> <p>Any mineral resource estimates applicable to the tenements that Alvo holds or has an interest in or any other tenements that Alvo may acquire in the future, are an estimate only. A mineral resource estimate is an expression of judgment based on knowledge, experience and industry practice. Mineral resource estimates that were valid when originally estimated may alter significantly when new information or techniques become available. In addition, by their very nature, mineral resource estimates are imprecise and depend to some extent on interpretations which may provide to be inaccurate. As further information becomes available through additional fieldwork and analysis, the mineral resource estimates are likely to change. This may result in alterations to development and mining plans that may, in turn, adversely affect the Company's operations.</p>	
--	---	--

	<p>(h) Operational difficulties</p> <p>The current and future operations of the Company including exploration, appraisal and possible production activities may be affected by a range of factors, including failure to locate or identify commercial mining deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which could affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increased in the costs of consumables, spare parts, plant and equipment. No guarantee or assurances can be given by the Company or the directors that the Company will achieve commercial viability through successful exploration and, potentially, mining of the Company's existing tenements or any other tenements that it may acquire in the future. Until Alvo is able to realise value from the Palma Project it is likely to incur ongoing operating losses.</p> <p>(i) Exploration and production risks generally</p> <p>The business of minerals exploration, project development and production involves risks by its very nature. It depends upon the successful exploration, appraisal and development of commercially viable deposits and may be affected by a range of exploration, construction and operational factors.</p> <p>(j) Environmental risks</p> <p>As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest environmental standard, complying with all environmental laws. However, the legal framework governing</p>	
--	--	--

	<p>environmental laws is constantly changing and compliance may be difficult, costly and result in delays to Company's project activities.</p> <p>(k) Community and landowners risks</p> <p>The Company's ability to undertake exploration and production on the tenements will depend in part on its ability to maintain good relations with the relevant local communities. Any failure to adequately manage community and social expectations with respect to compensation for land access, employment opportunities, impact on local business and other expectations may lead to local dissatisfaction with the Company, which in turn may lead to disruptions in the exploration and production programs on the tenements and potential losses.</p> <p>(l) Risks to title</p> <p>The ability of Alvo to carry out successful exploration, and eventually, mining activities, will depend upon its ability to maintain or obtain tenure to mining tenements. The ongoing maintenance or issue of any such tenements must be in accordance with the laws of Brazil and, in particular, Brazil's mining legislation. No guarantee can be given that tenures will be maintained or granted, or if they are maintained or granted, that the Company will be in a position to comply with all conditions that are imposed.</p>	
<p>What is the effect of the Entitlement Offer on the control of the Company?</p>	<p>The maximum number of New Shares which will be issued pursuant to the Entitlement Offer is 78,105,924 (representing approximately 67% of all issued Shares as at the date of this Prospectus).</p> <p>The potential effect the Entitlement Offer will have on the control of the Company will depend on the extent to which Eligible Shareholders take up their Entitlements under the Entitlement Offer.</p> <p>If all Eligible Shareholders take up their Entitlement, the issue of Shares under the Entitlement Offer will have no effect on the control of the Company (with Shareholders holding the same percentage interest in the Company as currently held, other than</p>	<p>Refer to section 5.3</p>

	<p>changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer). However, if not all Shareholders take up their Entitlement, then changes to the ownership interests of the Company could occur as a result of Eligible Shareholder applying for Additional New Shares under the Shortfall Offer or as a result of the Entitlement Offer not being subscribed to the fullest extent.</p>

- (d) are eligible under all applicable laws to receive an offer under the Entitlement Offer,

(an **Eligible Retail Shareholder**).

Where this Prospectus has been despatched to Ineligible Retail Shareholders, this Prospectus is provided for information purposes only. The Company reserves the right to determine whether a Shareholder is an Eligible Retail Shareholder or an Ineligible Retail Shareholder.

By making a payment by BPAY® or EFT (for Eligible Retail Shareholders with a registered address in New Zealand only), you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Retail Shareholder.

Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

The Company may (in its absolute discretion) extend the Retail Entitlement Offer to any Institutional Shareholder that was eligible to participate in the Institutional Entitlement Offer but was not invited to participate in the Institutional Entitlement Offer (subject to compliance with relevant laws).

By receiving this Prospectus, you will be taken to have acknowledged and agreed that determination of eligibility of investors for the purposes of the institutional or retail components of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints. The discretion of the Company, the Lead Manager and their affiliates disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law.

The Company has decided that it is unreasonable to make offers under the Retail Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand, having regard to the number of such holders in those places and the number and value of the New

Shares that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. The Company may (in its absolute discretion) extend the Retail Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand in accordance with applicable law.

4.19 Eligible Institutional Shareholders

Eligible Institutional Shareholders are anyone whom the Lead Manager determines have successfully received an offer to subscribe for New Shares (and attaching New Options) under the Institutional Entitlement Offer on the basis that they are Institutional Investors.

Determination of eligibility of investors for the purposes of the Entitlement Offer, and in particular, the question as to whether an eligible shareholder is an Eligible Institutional Shareholder, is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of Company and the Lead Manager. The Company and the Lead Manager disclaim any liability in respect of the exercise or otherwise of that discretion, to the maximum extent permitted by law. If you are an Eligible Institutional Shareholder, you are eligible to participate in the Institutional Entitlement Offer being conducted by the Company.

4.20 Ineligible Foreign Shareholders

The Company has decided that it is unreasonable to make offers under the Retail Entitlement Offer (including the Shortfall Offer) to Shareholders who are Shareholders on the Record Date but with registered addresses outside of Australia or New Zealand, (**Ineligible Foreign Shareholders**). No action has been taken to register or qualify the Shares or the Issue or otherwise to permit an offering of the Shares in any jurisdiction outside Australia.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Company believes that it is unreasonable to extend the Entitlement Offer and Shortfall Offer to Ineligible Foreign Shareholders. The Company has formed this view having considered:

- the number and value of the New Shares that would be offered to those Shareholders; and
- the cost of complying with the legal requirements and the requirements of regulatory authorities in overseas jurisdictions.

4.21 Foreign Jurisdictions

This Prospectus and the accompanying Application Form does not constitute an offer of any New Shares or New Options in any jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer. The return of a completed Application Form will be taken by the Company to constitute a representation and warranty by the Applicant to the Company that there has been no breach of such laws and that all relevant approvals have been obtained. The Company may (in its absolute discretion) extend the Retail Entitlement Offer to any Shareholder in other foreign jurisdictions (subject to compliance with applicable laws).

The New Shares and New Options have not been and will not be registered with any securities exchange commission or other similar authority, including the Brazilian Securities and Exchange Commission (**Comissão de Valores Mobiliários or CVM**). Canada (British Columbia and Ontario provinces)

This document constitutes an offering of New Shares only in the Provinces of British Columbia and Ontario (the "Provinces"), only to persons to whom New Shares may be lawfully distributed in the Provinces, and only by persons permitted to sell such securities. This

document is not a prospectus, an advertisement or a public offering of securities in the Provinces. This document may only be distributed in the Provinces to persons who are (i) "accredited investors" (as defined in National Instrument 45-106 – Prospectus Exemptions) and (ii) "permitted clients" (as defined in National Instrument 31-103 – Registration Requirements, Exemptions and Ongoing Registrant Obligations) if a lead manager offering the New Shares in Canada is relying upon the international dealer exemption under NI 31-103.

No securities commission or authority in the Provinces has reviewed or in any way passed upon this document, the merits of the New Shares or the offering of the New Shares and any representation to the contrary is an offence.

No prospectus has been, or will be, filed in the Provinces with respect to the offering of New Shares or the resale of such securities. Any person in the Provinces lawfully participating in the offer will not receive the information, legal rights or protections that would be afforded had a prospectus been filed and receipted by the securities regulator in the applicable Province. Furthermore, any resale of the New Shares in the Provinces must be made in accordance with applicable Canadian securities laws. While such resale restrictions generally do not apply to a first trade in a security of a foreign, non-Canadian reporting issuer that is made through an exchange or market outside Canada, Canadian purchasers should seek legal advice prior to any resale of the New Shares.

The Company as well as its directors and officers may be located outside Canada and, as a result, it may not be possible for purchasers to effect service of process within Canada upon the Company or its directors or officers. All or a substantial portion of the assets of the Company and such persons may be located outside Canada and, as a result, it may not be possible to satisfy a judgment against the Company or such persons in Canada or to enforce a judgment obtained in Canadian courts against the Company or such persons outside Canada.

Statutory rights of action for damages and rescission. Securities legislation in certain Provinces may provide a purchaser with remedies for rescission or damages if an offering memorandum contains a misrepresentation, provided the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser's Province. A purchaser may refer to any applicable provision of the securities legislation of the purchaser's Province for particulars of these rights or consult with a legal adviser.

4.22 Rights attaching to New Shares and New Options

From the time of issue, the New Shares issued under this Prospectus will rank equally in all respects with Existing Shares. A summary of the rights attaching to Shares as set out in the Company’s Constitution are contained in section 8.2 of this Prospectus.

A summary of the rights and liabilities attaching to the New Options is set out in section 8.3 of this Prospectus.

4.23 Major Activities and Financial Information

A summary of the major activities and financial information of the Company for the year ended 31 December 2024 is contained in the Company’s annual report, which was published to the market on 24 March 2025 (**Annual Report**), and for the half year ended 30 June 2024, the Company’s Half Yearly Report and Accounts announced on ASX on 11 September 2024.

The Company’s continuous disclosure notices (i.e its announcements to the ASX) since lodgement of the Annual Report are detailed in 9.1. Copies of these documents are available free of charge from the Company. Directors strongly recommend that Applicants review these and all other announcements prior to deciding whether or not to participate in the Offer.

4.24 Tax Consequences

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to take independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

The Directors do not consider that it is appropriate to give Shareholders advice regarding the taxation consequences of the Company applying for Shares under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation positions of Shareholders.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability or responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

4.25 Notice to nominees and custodians

The Retail Entitlement Offer is only being made to Eligible Retail Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares (e.g. for the purposes of determining whether any such persons may participate in the Retail Entitlement Offer).

Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws. Any person who is in the United

States with a holding through a nominee may not participate in the Retail Entitlement Offer and the nominee must not take up any Entitlement on behalf of such person or send any materials into the United States or any other jurisdiction outside Australia or New Zealand, except to beneficial shareholders who are institutional or professional investors in certain foreign countries as the Company may permit in compliance with applicable law.

5 Purpose and effect of the Offer

5.1 Purpose of the Offer

The purpose of the Entitlement Offer is to raise \$1,562,118 in cash.

Assuming the Entitlement Offer is fully subscribed, the Directors intend to apply the proceeds from the Entitlement Offer for the following purposes in accordance with the table set out below.

Use of Funds	Amount	%
Continued Exploration across Alvo's Projects	\$700,000	45%
Continued new Project assessment	\$450,000	29%
Working Capital and expenses of the Offer	\$410,000	26%
Total	\$1,560,000	100%

Notes:

The above expenditure is indicative only and may change according to circumstances prevailing at the time.

The table assumes that there are no exercise of Options between the date of this Prospectus and the Record Date and that Entitlements are taken up in full. Further information regarding expenses in connection with the Offer are set out in section 9.13.

In the event that circumstances change, or other opportunities arise the Directors reserve the right to vary the proposed use of funds to maximise benefits to Shareholders. In particular, assuming the Entitlement Offer is taken up in full, the Directors believe the Company will have sufficient working capital to achieve its stated objectives. In the event the Entitlement Offer (including pursuant to the Shortfall Offer) is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans. However, to the extent the Entitlement Offer is not fully subscribed, additional funding may be required to advance such objectives as deemed appropriate.

5.2 Effect of the Offer

The effect of the Entitlement Offer will be (assuming full subscription of the Entitlement Offer is achieved and no Options are exercised prior to the Record Date) that:

- cash reserves will initially increase by approximately \$1,562,118 (before payment of costs of the Entitlement Offer and excluding any additional capital that may be raised upon the exercise of the New Options);
- increase the number of Shares on issue by 78,105,924;
- increase the number of Options on issue by 43,052,962; and
- provide the Company with additional working capital for the purposes referred to in Section 5.1. of this Prospectus.

As such, the table below sets out the effect on the capital structure of the Company upon completion of the Offer assuming the Entitlement Offer is fully subscribed, in each case before costs and excluding any additional capital that may be raised upon the exercise of the New Options:

Issued Share Capital	Number of Shares
Shares on issue prior to the Entitlement Offer	117,158,886
New Shares issued pursuant to the Entitlement Offer	78,105,924
Total Shares on issue after completion of Entitlement Offer	195,264,810
Issued Options	Number of Options
Options on issue prior to the Entitlement Offer, comprising: <ul style="list-style-type: none"> • 5,000,000 unlisted options @ \$0.35 exercise price, expiring 21 July 2025; • 3,000,000 unlisted options @ \$0.45 exercise price, expiring 27 May 2026; • 1,000,000 unlisted options @ \$0 exercise price, expiring 14 August 2026; • 200,000 unlisted options @ \$0 exercise price, expiring 1 January 2027; • 200,000 unlisted options @ \$0 exercise price, expiring 1 January 2028; • 200,000 unlisted options @ \$0 exercise price, expiring 1 January 2026; and • 700,000 unlisted options @ \$0 exercise price, expiring 1 June 2030 	10,300,000
New Options to be issued pursuant to the Entitlement Offer	39,052,962
Lead Manager Options to be issued pursuant to the Lead Manager Offer	4,000,000
Total Options on issue after completion of Offers (assuming full subscription)	53,352,962

In addition, the Company has 2,000,000 performance rights on issue as at the date of this Prospectus. The Entitlement Offer will have no impact on the performance rights on issue.

Fully diluted capital structure

The table below sets out the fully-diluted capital structure of the Company upon completion of the Entitlement Offer assuming:

- the Entitlement Offer is fully subscribed; and
- all New Options offered under the Prospectus are exercised.

Shares	Number
Shares on issue prior to the Entitlement Offer	117,158,886
New Shares issued pursuant to the Entitlement Offer (including under the Shortfall Offer)	78,105,924
Shares issued upon exercise of New Options issued under Entitlement Offer (including under the Shortfall Offer) and Lead Manager Options	53,352,962
Total Shares (on a fully diluted basis)	248,617,772

5.3 Effect of the Entitlement Offer on the Control of the Company

Assuming no Options are exercised prior to the Record Date, the maximum number of New Shares which will be issued pursuant to the Entitlement Offer is 78,105,924. This equates to approximately 67% of all the issued Shares in the Company as at the date of this Prospectus following completion of the Entitlement Offer.

The potential effect the Entitlement Offer will have on the control of the Company will depend on the extent to which Eligible Shareholders take up their Entitlements under the Entitlement Offer.

If all Eligible Shareholders take up their Entitlement, the issue of Shares under the Entitlement Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer. However, if not all Shareholders take up their Entitlement, then changes to the ownership interests of the Company could occur as a result of Eligible Shareholder applying for Additional New Shares under the Shortfall Offer or as a result of the Entitlement Offer not being subscribed to the fullest extent.

The Company notes that no equity securities will be issued to an Applicant under this Prospectus, including under the Shortfall Offer, if the issue of such equity securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no equity securities will be issued via the Shortfall Offer to any related parties of the Company.

5.4 Potential dilution of non-participating Shareholders

Shareholders should be aware that if they do not participate in the Entitlement Offer and the Entitlement Offer is fully subscribed, their holdings will be diluted by up to 40% (as compared to their holdings and number of Shares on issue as at the Record Date).

For illustrative purposes, the table below shows how dilution may impact the holding of Shareholders:

Example Holder	Holding at Record Date	Pre-Offer %	Entitlement under Offer	Holding if Offer not taken up	Post-Offer %
Example 1	10,000,000	8.54%	6,666,667	10,000,000	5.12%
Example 2	5,000,000	4.27%	3,333,333	5,000,000	2.56%
Example 3	2,500,000	2.13%	1,666,667	2,500,000	1.28%

Example 4	1,250,000	1.07%	833,333	1,250,000	0.64%
Example 5	625,000	0.53%	416,667	625,000	0.32%

Notes:

- (1) the above table is based on a share capital of 117,158,886 Shares at the date of the Prospectus and 195,264,810 Shares on completion of the Entitlement Offer and assumes that, other than under the Offer, no additional Shares are issued (including on exercise or conversion of existing Options and performance rights on issue);
- (2) the dilution effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting shortfall is not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

5.5 Pro-forma Statement of Financial Position

To illustrate the effect of the Entitlement Offer on the financial position of the Company, set out below is the reviewed statement of financial position of the Company and the unaudited pro forma statement of financial position as at 31 December 2024 (the **Balance Date**), prepared on the basis of the accounting policies normally adopted by the Company.

Other than as specified above and in the ordinary course of business, there have been no other material transactions between 31 December 2024 and the date of this Prospectus.

Additional New Shares and New Options under the Shortfall Offer will only be allocated to Eligible Retail Shareholders if available and to the extent that the Company so determines, in its absolute discretion.

The Company also reserves the right (in its absolute discretion) to reduce the number of New Shares and New Options issued to Eligible Retail Shareholders, or persons claiming to be Eligible Retail Shareholders, if the Company believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to the Company's satisfaction.

Payment of any Application Monies cannot be withdrawn by you once received. No cooling off period applies.

6.7 Application Forms are binding

7 Risk factors

7.1 Introduction

Activities in the Company and its controlled entities, as in any business, are subject to risks, which may impact on the Company's future performance. There are a number of risks and uncertainties, both specific to the Company and of a general nature, which may, either individually or in combination, affect the future operating and financial performance of the Company, its prospects, and/or the value of its securities. The Company and its controlled entity have implemented appropriate strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risks which Shareholders need to be aware of in evaluating the Company's business and risks of increasing your investment in the Company. Shareholders should carefully consider the following factors in addition to the other information presented in this Prospectus. Additional risks and uncertainties that the Company is unaware of, or that it currently does not consider to be material, may also become important factors that may have an adverse effect on the Company. Investors should specifically consider the factors contained in this section and elsewhere in the Prospectus in light of their own investment objectives and financial circumstances, and should seek professional advice from their accountant, stockbroker, lawyer or other professional advisor before deciding whether to invest in Shares

The principle risks include, but are not limited to, those set out in sections 7.2 and 7.3.

7.2 Company Specific Risks

(a) *Future funding risk*

The Company is involved in exploration for minerals in Brazil and is yet to generate revenues. The Company has a cash and cash equivalents balance, of \$434,000 as at 31 March 2025 and net assets of \$1.51 million at 31 December 2024. Additional funding will be required in the future for the costs of the Company's exploration programs to effectively implement its business and operations plans, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur.

In addition, should the Company consider that its exploration results justify commencement of production on any of its Projects, additional funding will be required to implement the Company's development plans, the quantum of which remains unknown at the date of this report. The Company may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in a delay and indefinite postponement of exploration, development or production on the Company's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has in place a planning and budgeting process to help determine the funds required to meet its operating and growth objectives. The Company prepares cash forecasts and maintains cash balances to meet short and long-term cash requirements.

Although the Directors believe that, on Completion of the Offer, the Company will have sufficient working capital and capacity to carry out its short-term business

objectives, there can be no assurance that such objectives can be met without further financing or, if further financing is necessary, that financing can be obtained on favourable terms or at all. Further, if additional funds are raised by issuing Shares, this may result in dilution for some or all of the Shareholders. Any inability to obtain financing (if required) would have a material adverse effect on the Company's business, financial condition and results of operations.

(b) **Going Concern**

Shareholders should note that the reviewed Financial Report of the Company, being for the year ended 31 December 2024, has been prepared on a going concern basis.

The Company's Annual Report, lodged with ASX on 27 March 2025, included a "material uncertainty related to going concern", without qualification, in respect of the going concern disclosures included in Note 2 to the financial statements.

The ability of the Company to continue as a going concern and to meet planned and committed expenditure requirements is subject to the Company successfully raising further equity. Should the Company not be successful in obtaining adequate funding or cash inflows are not as planned, there is material uncertainty as to the ability of the Company to continue as a going concern and to realise its assets and extinguish liabilities as they arise. The Company's failure to raise capital, if and when needed, could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

(c) **Exploration success**

Mineral exploration and development are high-risk undertakings and there is no assurance that exploration of the tenements that comprise the Project will result in the discovery of an economic resource deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

Alvo's future exploration activities may be affected by a range of factors including geological conditions, limitation on activities due to permitting requirements, availability of appropriate exploration equipment, exploration costs, seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents and many other factors beyond the control of the Company.

(d) **Reliance on Senior Personnel**

Alvo's explorative and operational success will depend substantially on the continuing efforts of its key management personnel and on its ability to attract and retain key quality staff and consultants.

The Company relies on experienced managerial and highly qualified technical staff to implement the Board's strategy in the form of a detailed exploration program and to direct technical and operational staff to manage exploration, its operations, compliance and other functions of its business. The loss of one or more of Alvo's key management personnel could have an adverse impact on the Company's operations and financial performance. The Company's key personnel currently primarily comprises its Managing Director and CEO, Rob Smakman. Although Rob has entered into a contract with the Company, there is no assurance that this contract or other contracts with management personnel will not be terminated. If such contracts are terminated or breached, or if Rob or other management personnel no longer continue in their current or future roles, new personnel will need to be employed, which may adversely affect the business. There is no assurance that the Company will be able to retain the services of these people or that the Company will be able to recruit suitably qualified and talented staff in a time frame that meets the objectives of the Company.

(e) **Exposure to foreign jurisdictions and legislation – Brazil**

Alvo's Projects are located in Brazil. There are numerous risk factors associated with operating in foreign jurisdictions, such as Brazil, including economic, social or political instability or change, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, licensing, repatriation of income or return of capital, industrial relations laws, expropriation and nationalisation; renegotiation or nullification of existing concessions, licences, permits and contracts, illegal mining, or changing political norms, government regulations that require the Company to favour or award contracts in employment of local citizens or purchasing supplies from particular jurisdictions which may be less developed than alternatives located in other jurisdictions.

There can be no guarantee that political and economic conditions shall remain stable and any adverse changes to these conditions may adversely affect Alvo's operations and its Project. In addition, failures by Alvo to comply with foreign legislative or regulatory requirements may result in loss, reduction or expropriation of entitlements or the imposition of local or foreign parties as joint venture partners with carried or other interests. In addition, changes in government laws or regulations, including taxation, royalties, the repatriation of profits, restrictions on production, export controls, changes in taxation policies, environmental and ecological compliance, expropriation of property and shifts in the political stability of the country could adversely affect the Company's exploration, development and production initiatives in Brazil.

The likelihood of any of these changes, and their possible effects (if any) cannot be determined by Alvo with any clarity at the present time. If any issues identified in this section were to arise, they could lead to disruption to Alvo's operations, increases costs and, in some cases, total inability to establish or to continue mining exploration and development activities.

Alvo's interests in Brazil include various contractual interests. If any contracts regulating Alvo's interests were to be unenforceable in whole or in part, Alvo would be adversely affected to the extent of any such enforceability. In practical terms, enforcement of contractual rights in Brazil may be difficult. Accordingly, if any party breaches its obligations under relevant contracts it may be difficult for Alvo to achieve specific performance or gain satisfactory compensation in connection with key agreements. Even where Alvo is able to enforce its rights, it may only be able to do so over an extended period of time at a potentially high cost.

Alvo has made investment and strategic decisions based on information currently available to the Board. Should there be any material change in the political, economic, legal and social environments in Brazil, or South America generally, Alvo may reassess investment decisions and commitments to assets in Brazil and the region.

(f) **Commodity price risk**

The value of the Company is highly dependent on the expected value of the mineral resources on its Tenements. The price of copper, zinc, lead, gold and silver fluctuates and is affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations, technological advancements, forward selling activities, inflation, interest rates and other macroeconomic factors. In the event that the price falls significantly, the value of the Company may also likely to fall significantly.

(g) **Dilution risk**

Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the Entitlement Offer and may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available,

may involve restrictions on financing and operating activities. The Company may undertake offerings of securities convertible into Shares in the future. The increase in the number of Shares issued and outstanding and the possibility of sales of such Shares may have a depressive effect on the price of Shares. In addition, as a result of such additional Shares, voting power of the Company's existing Shareholders may be diluted.

(h) ***Pandemic and other health risks***

The COVID-19 pandemic highlighted the risk of a global pandemic and other possible future outbreaks of viruses may have a significant adverse effect on Alvo. The spread of such diseases or illnesses amongst the Company's management, employees, contractors, suppliers and logistic networks, as well as any quarantine and isolation requirements, may reduce the Company's ability to operate and have detrimental financial implications.

This risk is exacerbated by the fact that the Palma Project is located in Brazil, while the head office for Alvo is located in Perth, Australia. Travel and other restrictions imposed on management, key employees and contractors travelling to and from Australia into Brazil, together with internal Brazilian restrictions on site access to the Project will have an impact on the operations of Alvo.

More broadly, Alvo may be affected by the macroeconomic effects and ensuing financial volatility resulting from a pandemic and any other possible outbreaks. While the ongoing effects of the COVID-19 pandemic or other possible pandemics are difficult to assess, it is possible that it will have a substantial negative effect on the economies where Alvo operates and could have an adverse effect on Alvo's financial position.

(i) ***Mineral resource estimates***

Any mineral resource estimates applicable to the tenements in which Alvo holds or has an interest in or any other tenements that Alvo may acquire in the future, such estimates are an estimate only. An estimate is an expression of judgment based on knowledge, experience and industry practice. Mineral resource estimates that were valid when originally estimated may alter significantly when new information or techniques become available. In addition, by their very nature, mineral resource estimates are imprecise and depend to some extent on interpretations which may provide to be inaccurate. As further information becomes available through additional fieldwork and analysis, the mineral resource estimates are likely to change. This may result in alterations to development and mining plans that may, in turn, adversely affect the Company's operations.

(j) ***Operational risk***

Mineral exploration activities are subject to numerous risks, many of which are beyond the Company's control, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, extended interruptions due to inclement or hazardous adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

While the Company intends to maintain insurance within ranges of coverage consistent with exploration industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

The occurrence of operating risks leading to the curtailment, delay or cancellation of the Company's operations may result in the Company incurring significant financial

costs. This may have a material adverse effect on the profitability of the Company and ultimately the value of the company and its securities.

(k) **Exploration and production risk**

The business of minerals exploration, project development and production involves risks by its very nature. It depends upon the successful exploration, appraisal and development of commercially viable deposits and may be affected by a range of exploration, construction and operational factors including:

- successful design and construction of efficient mining and processing facilities;
- availability of competent operational and managerial employees, contractors and consultants and their performance;
- availability of efficient transport and marketing services;
- force majeure circumstances;
- other limitations to activities such as seasonal weather patterns and cyclone activity and other adverse weather conditions such as heavy rainfall, flooding and road closures;
- engineering difficulties and unanticipated operating difficulties, mechanical failure of operating plant and equipment, industrial and environmental accidents;
- cost overruns;
- increases in costs, unavailability or shortages of equipment, spare parts, consumables, competition for manpower or appropriately skilled labour, availability of mill process water, industrial action, disputes or disruptions;
- inconsistent recovery rates actual mineralisation consistency, the accuracy of mineral reserve and resource estimates, the physical characteristics of ore including unanticipated changes in grade or tonnage of ore to be mined or processed or reclassification of resources and reserves; and
- outcomes of exploration programs will affect the future performance of the Company and its Shares.

(l) **Environmental risk**

As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest environmental standard, complying with all environmental laws. However, the legal framework governing environmental laws is constantly changing and compliance may be difficult, costly and result in delays to Company's project activities.

Alvo may be liable for past environmental damage caused by historical activities on Tenement lands as well as any future environmental damage caused by it.

(m) **Community and landowners risk**

The Company's ability to undertake exploration and production on the Tenements will depend in part on its ability to maintain good relations with the relevant local communities. Any failure to adequately manage community and social expectations with respect to compensation for land access, employment opportunities, impact on local business and other expectations may lead to local dissatisfaction with the

Company, which in turn may lead to disruptions in the exploration and production programs on the tenements and potential losses.

(n) **Insurance risk**

The Company currently has in place insurance policies with respect to its personnel in Australia. These policies have recently been reviewed by a third party consultant, confirming the adequacy of those insurances in the context of the Company's current operations. The Company is intending to obtain new insurance policies, particularly with respect to upcoming operations in Brazil, to adequately insure its business activities in line with the third party consultant's recommendations and industry practices. Notwithstanding such intention, currently, and following establishment of new insurance policies, there may be certain circumstances where the Company's insurance may not be of a nature or level to provide adequate cover. In particular, the Company currently does not have insurance coverage in Brazil, due to the Company's limited operational footprint in Brazil at this time.

The occurrence of an event that is not covered by insurance could have a material adverse effect on the Company. Insurance of all risk associated with the Company's activities may not always be available and where available the costs can be prohibitively high preventing such insurance coverage.

(o) **Litigation**

The Company may become party to litigation or other adversary proceedings, with or without merit. The cost of defending such claims may take away from management time and effort and if determined adversely to the Company, may have a material and adverse effect on its cash flows, results of operation and financial condition.

(p) **Title risk**

The ability of Alvo to carry out successful exploration, and eventually, mining activities will depend upon its ability to maintain or obtain tenure to mining titles. The ongoing maintenance or issue of any such titles must be in accordance with the laws of Brazil or any other relevant jurisdiction and, in particular, Brazil's mining legislation and any other applicable mining legislation. No guarantee can be given that tenures will be maintained or granted, or if they are maintained or granted, that the Company will be in a position to comply with all conditions that are imposed.

A number of the tenements that comprise the Project are applications only. There is a risk that the applicable exploration permit or other tenement applied for will not be granted, which may be as a result of a number of factors including delays and issues with the application or grant process under local Brazilian law.

Although Alvo has considered title to the tenements it holds or otherwise has an interest in, the Company cannot give any assurance that title to such tenements will not be challenged or impugned. Further, Alvo's tenements may be subject to prior, unregistered agreements or claims that Alvo is not aware of but which may affect Alvo's title to such tenements.

A number of Alvo's tenements have been identified as overlapping various existing mining tenements, power transmission lines, land settlement areas and environmental conservation areas. There is a risk that affected tenements may be reduced by the area of the overlapping section, or that Alvo's entitlement to conduct exploration activities and other mining activities may be restricted or otherwise limited.

(q) **Timing of exploration and costs**

The exploration and production costs of the Company are based on certain assumptions with respect to the method and timing of exploration and production. By their nature, these estimates and assumptions are subject to significant uncertainties and, therefore, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the

underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(r) ***Climate change regulation***

Mining of mineral resources is relatively energy intensive and can be largely dependent on the consumption of fossil fuels. Increased regulation and government policy designed to mitigate climate change may adversely affect the Company's cost of operations and adversely impact the financial performance of the Company.

The government in Brazil may seek to transition to a lower carbon economy which may entail extensive policy, legal, technological and market changes to address mitigation and adaptation requirements related to climate change that could significantly impact the Company both financially and operationally.

(s) ***Unforeseen risks***

There may be other risks that the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company and its operations, and on the valuation and performance of the Company's Shares.

(t) ***Indigenous land claims***

There may be risks that the Company's exploration may be disturbed or delayed in the event of the people of the Landless Workers Movement or indigenous people invade the land which may impact on the Company and its operations, and on the valuation and performance of the Company's Shares.

(u) ***Remote operations***

Alvo's Projects are, and any future projects may, be located in remote parts of Brazil (or other jurisdictions) which subjects it to risks, including unexpected transportation logistics and other unexpected delays that each could singularly or collectively materially negatively impact upon the Company's financial performance or position. Operating in remote locations may make Alvo's operations susceptible to limitations associated with costs and availability of transportation, availability of personnel, specialist services, parts, equipment and supplies on a timely basis.

(v) ***Third party risks***

The operations of the Company will require the involvement of a number of third parties, including suppliers, contractors and customers. Financial failure, default or contractual non-compliance on the part of such third parties may have a material adverse impact on the Company's operations and performance. It is not possible for the Company to predict or protect itself against all such risks.

(w) ***Competition risks***

The industry in which the Company operates is subject to domestic and global competition. Although Alvo will undertake ongoing and reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, such activities or actions which may, positively or negatively, affect the operating and financial performance of the Project and the Company's business.

(x) ***Future acquisitions and strategic investments risk***

The Company may in the future explore potential acquisitions of companies or technologies, strategic investments, or alliances to strengthen its business. Acquisitions involve numerous risks, any of which could harm the Company's business and operating results and there is no guarantee acquisition opportunities will

be identified or that they will successfully complete or improve the Company's operations or financial performance.

(y) ***Personal information collation risk***

The Company collects, stores and processes highly sensitive, highly regulated and confidential information. The provision of secure and reliable information storage and processing services is integral to the businesses and operations of the Company in the corporate wellness industry. While the Company has in place strict policies and procedures when collecting data, if the Company's systems or data is compromised for any reason there is a risk that the Company may become involved in legal action due to breaching data confidentiality agreements.

(z) ***Joint ventures, contracts and agents***

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party; or the insolvency or other managerial failure by any of the contractors used by the Company in any of its activities; or the insolvency or other managerial failure by any of the other service providers used by the Company for any activities. The Company may not be able to meet forecast production, or to complete planned exploration, appraisal and development programmes if there is a failure these parties.

7.3 General Risks

(a) ***General economic climate***

Factors such as inflation, currency fluctuations, interest rates, legislative changes, political decisions and industrial disruption have an impact on operating costs. The Company's future income, asset values and share price can be affected by these factors and, in particular, by exchange rate movements.

(b) ***Policies and legislation***

Any material adverse changes in government policies or legislation of markets in which the Company's products are sold, or any other country that the Company has economic interest in, may affect the viability and profitability of the Company.

(c) ***Enforcement of contracts in foreign jurisdictions***

From time to time, as part of its business, the Company has entered and will continue to enter into contracts which are governed by the laws of countries other than Australia.

Should a contractual dispute result in court action or should the Company be required to enforce its rights, the procedure of the courts in various foreign jurisdictions may be different to those in Australia.

(d) ***Negative publicity may adversely affect the Share price***

Any negative publicity or announcement relating to any of the Company's substantial Shareholders, key personnel or activities may adversely affect the stock performance of the Company, whether or not this is justifiable. Examples of such negative publicity or announcements may include involvement in legal or insolvency proceedings, failed attempts in takeovers, joint ventures or other business transactions.

(e) ***Securities Investments***

Investors should be aware that there are risks associated with any securities investment. The prices at which the Company's Shares trade may be above or below the Issue Price, and may fluctuate in response to a number of factors including the risk factors identified in this section as well as securities market factors such as limited

liquidity of the Shares and large share price movements due to trading by major Shareholders.

(f) ***Issue of Additional Securities***

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership of existing Shareholders may be reduced and diluted.

(g) ***Global credit investment market***

Global credit, commodity and investment markets have recently experienced a high degree of uncertainty and volatility. The factors which have led to this situation have been outside the control of the Company and may continue for some time resulting in continued volatility and uncertainty in world stock markets (including the ASX). This may impact the price at which the Company's securities trade regardless of operating performance and affect the Company's ability to raise additional equity and/or debt to achieve its objectives, if required.

(h) ***Share Market Fluctuations and Economic Conditions***

The Company's financial performance and ability to execute its business strategy will be impacted by a variety of general market, political, social, stock market and business conditions beyond the Company's control.

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors including but not limited to:

- general economic outlook;
- interest rates and inflation rates;
- currency fluctuations;
- changes in investor sentiment toward particular market sectors;
- the demand for, and supply of, capital;
- political and environmental events; and
- wars, terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general, and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(i) ***Investment speculative***

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the equity securities offered under this Prospectus.

Therefore, the equity securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities.

Potential investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for New Shares pursuant to this Prospectus.

(j) **Unforeseen risk**

There may be other risks which the Directors are unaware of at the time of issuing this Prospectus which may impact on the Company, its operations and/or the valuation and performance of the Company's securities.

(k) **Combination risk**

A combination of risks, including any of the risks outlined in this Section 7 could affect the performance valuation, financial performance and prospects of the Company.

(l) **Unforeseen expenditure risk**

Expenditure may need to be incurred by the Company that has not been taken into account in the preparation of this Prospectus. Although the Company is not aware of any additional material expenditure requirements other than those announced on the ASX, if such expenditure is subsequently incurred, this may adversely affect the expenditure proposals of the Company.

(m) **Force Majeure**

There are risks that the Company cannot control, now or later, that may have a negative impact on the Company, such as strikes, riots, wars, attacks or sabotage, severe weather, fires, floods, explosions or other disasters, pandemics, epidemics or quarantine measures all of which may impact adversely on the Company's operations, financial performance and financial position.

8 Rights Attaching to New Shares and New Options

8.1 General

The following is a summary of the more significant rights attaching to New Shares and New Options to be issued pursuant to this Prospectus. This summary is not exhaustive nor does it constitute a definitive statement of the rights and liabilities of the Company's Shareholders. To obtain such a statement, persons should seek independent legal advice.

The rights attaching to the New Shares arise from a combination of the Company's Constitution, the Corporations Act, the Listing Rules and general law. A copy of the Company's Constitution is available for inspection during business hours at its registered office.

8.2 Rights attaching to New Shares

The New Shares to be issued pursuant to this Prospectus are ordinary shares and will as from their allotment rank equally in all respects with all ordinary fully paid Shares. The provisions of the Constitution relating to the rights attaching to the Shares must be read subject to the Corporations Act, the ASX Listing Rules and ASX Settlement Operating Rules. This summary is not intended to be exhaustive and does not constitute a definitive statement of the rights, liabilities and restrictions attaching to the Shares

A summary of the rights attaching to the New Shares is set out below:

(a) **General meeting and notices**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) **Ranking of shares**

At the date of this Prospectus, all Shares are of the same class and rank equally in all respects. Specifically, the Shares issued pursuant to this Prospectus will rank equally with existing Shares.

(c) **Voting rights**

Subject to any rights or restrictions, at general meetings of Shareholders or classes of shareholders:

- (i) every Shareholder present and entitled to vote may vote in person or by attorney, proxy or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder, has one vote for every fully paid Share held and a fraction of one vote for each partly paid up Share held, equal to the proportion which the amount paid up on that Share (excluding amounts credited) is to the total amounts paid up and payable (excluding amounts credited) on that Share.

(d) **Dividend rights**

Subject to the rights of the holders of any shares with special rights to dividends, the Directors may determine or declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount is paid is of the total amounts paid and payable in respect of such Shares.

No dividend carries interest against the Company and the declaration of Directors as to the amount to be distributed is conclusive.

The Company must not pay a dividend unless the Company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend. The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

(e) **Variation of rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares. If at any time the share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(f) **Transfer of shares**

Shares can be transferred upon delivery of a proper instrument of transfer to the Company permitted by the Corporations Act and Listing Rules or by a transfer in accordance with the ASX Settlement Operating Rules. Until the transferee has been registered, the transferor is deemed to remain the holder, even after signing the instrument of transfer.

(g) **Future increase in capital**

The issue of any Shares is under the control of the Board of the Company as appointed from time to time. Subject to restrictions on the issue or grant of equity securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special rights previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares and other equity securities as they shall, in their absolute discretion, determine.

(h) **Rights on winding up**

If the Company is wound up, the liquidator may with the sanction of special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

(i) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

(j) **Shareholder liability**

As the Shares offered under this Prospectus are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(k) **Non-marketable parcels**

In accordance with the ASX Listing Rules, the Board may sell Shares that constitute less than a marketable parcel by following the procedures set out in the Constitution. An unmarketable parcel of shares is defined in the ASX Listing Rules and is generally, a holding of shares with a market value of less than \$500.

9 Additional Information

9.1 Continuous Disclosure Obligations

The Company is a "disclosing entity" (as defined in section 111 AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The New Shares which will be issued pursuant to this Prospectus are in the same class of Shares that have been quoted on the official list of the ASX during the 12 months prior to the issue of this Prospectus.

This Prospectus is a "transaction specific prospectus" to which specific content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms "transaction specific prospectuses" are only required to contain information in relation to the effect of the issue of Shares on the Company and the rights attaching to the Shares. Provided the Company has otherwise complied with its continuous disclosure obligations under the Corporations Act and the Listing Rules, it is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 12 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request between the date of issue of this Prospectus and the Closing Date:

 - (ii) the half year report of the Company for the half year ended 30 June 2024 lodged with ASX 11 September 2024; and

- (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the annual financial statements referred to in paragraph (i) above until the issue of the Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.

Copies of all documents lodged with the ASIC in relation to the Company can be inspected at the registered office of the Company during normal office hours.
