US commentary

US Pay Now TTV was up 9% on pcp to US\$ 352 million (Q4 FY24 to-date: US\$ 324 million). US Finance TTV was down 28% on pcp so far this quarter. The decline in Finance TTV has been impacted by recent US political and economic activity around US trade tariffs causing a level of uncertainty in the market; and the termination of new loan originations from the firm who has defaulted on its repayments (as previously announced).

Connect platform delivers record invoice numbers

In Q4 FY25 to-date, the transaction volumes on the Connect platform increased substantially with 47,000 invoices delivered in April and May 2025, compared to 37,000 in the whole of Q3 FY25. This was driven by further onboarding of the backlog of contracted firms and the increasing adoption of Connect by existing firms and their clients, along with the end of US tax season bringing a seasonal uplift in invoicing from CPA firms.

Australia (AU) commentary

The AU business is continuing its strong trend throughout FY25, with AU Finance TTV up 5% on pcp to A\$ 10.0 million (Q4 FY24 to-date: A\$ 9.5 million). The 'Q Pay Plan' BNPL product also continued to grow strongly with Q4 FY25 to-date TTV up 25% to A\$ 1.0 million on pcp (Q4 FY24 to-date: A\$ 0.8 million).

Provision for potential credit impairment

As previously reported, QuickFee has been unsuccessful in collecting unpaid QuickFee Finance loan instalments from one US firm under the guarantee it provided as part of QuickFee's standard terms of business. The amount (if any) ultimately recoverable from the firm and its clients remains uncertain, however the Company's maximum exposure to the firm is approximately US\$ 2.2 million (A\$ 3.3 million).

The Company has resolved to commence legal proceedings in the US against the firm and its clients with a view to recovering amounts that QuickFee alleges are due and payable, in addition to working with its insurer and seeking any potential recovery under its insurance policies. QuickFee does not intend to provide any further information in relation to the litigation while it is in progress, however to the extent any outcome is material, it will make an announcement at the appropriate time.

Positive underlying EBTDA for Q4 FY25 to-date and FY25 earnings guidance unchanged

The business delivered positive underlying EBTDA in April and May 2025, excluding the provision for credit impairment in April 2025 of US\$ 2.2 million (A\$ 3.3 million), as per the ASX release dated 29 April 2025. QuickFee's business remains sound and is on track to deliver underlying FY25 EBTDA of A\$ 1.5 million to A\$ 2.5 million as previously stated, excluding that credit provision. The Company's FY25 statutory EBTDA guidance remains unchanged, in the range of -A\$ 0.8 million to -A\$ 1.8 million.

Inbound enquiries for the US business

The Company has recently received unsolicited approaches from third parties in relation to the potential acquisition of all or part of QuickFee's US business. Initial confidential discussions are being held with such parties. There is no assurance that these discussions will lead to a sale or any other particular outcome and the Company is treating the enquiries as preliminary only.

US President recruitment update

Following the resignation of former US President Jennifer Warawa, the Company has commenced a comprehensive review of options for a replacement leader in the US, which is continuing. James Drummond, the Company's Chief Operating Officer and a 9-year veteran of QuickFee, continues as Acting US President in the interim.

A\$ 118 million refinancing completed

QuickFee has completed the refinancing of its asset-backed debt facilities, partnering with global alternative credit asset manager Viola Credit ("Viola").

The asset-backed receivables financing facility ("Viola Credit Facility") consists of a three year A\$ 118 million senior secured revolving credit facility, comprising initial committed amounts of A\$ 45 million and US\$ 15 million and with additional optional committed amounts of A\$ 25 million and US\$15 million, subject to Viola's approval. The debt is secured over certain identified loan receivables of QuickFee's Australian and US business.

The new three-year asset-backed facility will replace the current US\$ 40 million Northleaf Capital Partners and the A\$ 10 million Wingate Corporate Investments facilities.

QuickFee also announces that it has signed a A\$5 million term loan facility agreement ("Fancourt Term Loan") with a fund of Fancourt Capital Group ("Fancourt"), a specialist financial services growth investor. While the Company is generating positive underlying EBTDA, and expects to continue to do so, QuickFee funds approximately 10% of loan originations from its own cash reserves and the funds raised will be used to fund further loan book growth in both markets, in order to support the positive momentum in the business.

See separate ASX release dated 4 June 2025 for more details.

Successful completion of A\$ 1.25 million share placement and A\$ 0.25 million Share Purchase Plan announced

The Company is pleased to announce the successful completion of a A\$ 1.25 million share placement ("Placement") at an issue price of A\$0.05 per share to institutional and sophisticated investors. The Placement received strong support from new and existing institutional investors.

In addition, the Company is offering eligible shareholders the opportunity to participate in a share purchase plan to raise up to A\$0.25 million ("SPP"). Under the SPP, eligible shareholders will have the opportunity to apply for up to A\$30,000 of new, fully paid ordinary shares each.

See separate ASX release dated 4 June 2025 for more details.

This announcement has been authorised for release by the directors.
