Successful refinancing and upsizing of debt facilities to \$350 million

Imdex Limited (ASX:IMD) (IMDEX or the Company), a global leader in mining technology, is pleased to announce the successful refinancing and upsizing of its existing corporate debt facilities.

The new debt facilities increase IMDEX's available funding capacity to \$350 million, with \$64 million drawn at financial close to extinguish the pre-existing facilities.

Strategic Use of Facilities

The refinanced debt facilities provide enhanced flexibility to fund inorganic growth opportunities, including acquiring the remaining interests in Datarock and Krux, and to accelerate organic growth.

Facility Details

The debt facilities consist of multicurrency, multi-option bilateral debt instruments for cash advances and contingent instruments with a four-year term, extendable on request. The refinancing process attracted strong support from domestic and international lending institutions. IMDEX has entered into binding agreements with four lenders – including the existing financiers, J.P. Morgan and HSBC, as well as new lenders, National Australia Bank and Westpac Banking Corporation.

The debt facilities are secured on materially improved terms, including enhanced flexibility; improved pricing and interest terms; and simplified covenants and security requirements. These reflect IMDEX's strong balance sheet, stable cashflows and increased scale. A summary of the key terms is included as Attachment 1 to this announcement.

Ongoing Capital Management

IMDEX's capital management discipline remains unchanged and is underpinned by:

1. Leveraging our balance sheet to support growth and returning to net cash as quickly as possible;
2. Continuing to invest ~8-10% of revenue into R&D; and
3. Delivering a 30% of normalised NPAT dividend payout ratio.

Commenting on the Debt Facility, IMDEX Chief Financial Officer, Linda Lim said:

"The establishment of these \$350 million bilateral facilities is a significant milestone in the maturity of IMDEX's capital structure and shows the strength of our business and balance sheet.

These new corporate facilities not only offer flexibility for funding strategic initiatives but also reinforce our already strong liquidity position. We are pleased with the strong demand from both existing and new lenders, which we view as a testament to IMDEX's financial discipline and industry leadership"

This announcement has been approved for lodgement by the Company Secretary
