AGUIA COMPLETES \$750,000 CAPITAL RAISING

Agua Resources Limited (ASX:AGR) (**Agua** or **the Company**) has secured binding commitments from unrelated investors to raise \$750,000 before costs via an issue of convertible notes (**Capital Raising**).

The issue of the convertible notes is subject to shareholder approval, which the Company intends to seek at a general meeting that is anticipated to be held in mid-July 2025. The Company has received the subscription funds for the convertible notes from investors as a loan pending receipt of shareholder approval. The issue of the convertible notes is to occur shortly after receiving shareholder approval at the general meeting. If shareholder approval is not received at that general meeting, the loan represented by the subscription funds for the convertible notes will be repayable within two months of the general meeting.

Funds raised under the Capital Raising are proposed to be applied towards meeting the ongoing working capital requirements of the Company.

Each convertible note has an issue price and face value of \$0.045 (4.5 cents), a conversion price of \$0.045 (4.5 cents) and a maturity date 12 months after the date of issue (subject to a further 12 month extension at the election of the investor). Convertible notes accrue interest at a rate of 10% per annum, payable bi-annually in cash, accruing from the date on which the Company received subscription funds for the Notes. A summary of the material terms of the convertible notes is contained in Annexure A.

Each convertible note is to be accompanied by one free-attaching unlisted option (each with an exercise price of \$0.045 (4.5 cents), expiring 24 months from issue and which, upon exercise, entitles the holder to one fully paid ordinary Agua share). The issue of free-attaching options is subject to shareholder approval and the issue of the convertible notes. The issue of the convertible notes is not conditional upon the issue of the free-attaching options.

An Appendix 3B for the convertible notes and options was released to ASX at or about the same time as this announcement.
