Uvre Limited (ASX: UVA) (the **Company** or **Uvre**) is pleased to advise that the final conditions precedent to its proposed acquisition of highly prospective New Zealand gold assets have been satisfied and the Company is now progressing to completion of the acquisition.

This follows the receipt by Uvre of confirmation from New Zealand Petroleum & Minerals (NZPAM) stating that the Company's application under Section 41AE of the Crown Minerals Act 1991 for change of control has been granted.

This confirmation, coupled with shareholder approval of the issue of the consideration shares at the Company's General Meeting held last Friday, 27 June 2025, means Uvre can now proceed to settlement of the transaction including Board of Director changes.

Shareholders also approved Uvre's \$4m equity raising at 8c per share by lead manager Bell Potter, with settlement scheduled to occur this Wednesday, 2 July 2025.

As part of the transaction completion, highly experienced mining executives Norman Seckold and Peter Nightingale will be formally appointed as Uvre Non-executive Directors.
