

Company announcement

PME signs A\$170M, 10-year contract with Colorado-based UCHealth

03 July 2025

HIGHLIGHTS

- **PME signs AUD \$170M, 10-year contract with UCHealth**
- **Visage to replace legacy PACS throughout the Colorado-based health care system**
- **Contract is for a unified enterprise imaging platform comprising Visage 7 Viewer, Visage 7 Workflow, Visage 7 Open Archive and Visage 7 Cardiology Imaging**
- **Visage 7 platform to be implemented in the cloud**
- **Transaction-based model with potential upside**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a A\$170M, 10-year contract with Colorado based UCHealth,

UCHealth spans a network of fourteen (14) hospitals, with affiliate hospitals, clinic locations and health care providers extending throughout Colorado, Wyoming, and western Nebraska.

UCHealth's unique combination of academic-based and community-focused medicine, brings leading-edge care to patients throughout the Rocky Mountain region. This includes University of Colorado Hospital, an innovative academic medical center that provides advanced research, clinical trials and treatments not offered by others in its multi-state region.

Based on a transactional licensing model, the contract will see the company's cloud-based Visage 7 Enterprise Imaging Platform ('Visage 7'), including Visage 7 Viewer, Visage 7 Workflow, Visage 7 Open Archive, and Visage 7 Cardiology Imaging implemented throughout UCHealth providing a single, unified enterprise imaging platform. The contract also includes migration of UCHealth's legacy PACS archive to Visage 7 Open Archive as well as enterprise distribution of images integrated into UCHealth's electronic health record (EHR).

Planning for the rollout is to commence immediately and will be based on Visage's proven cloud-based implementation process, with go-live targeted for Q2 of the 2026 calendar year.

"UCHealth is a very highly regarded health system providing outstanding care to patients in the Rocky Mountain region of the U.S.," said Dr Sam Hupert, Pro Medicus CEO. "They join an ever-growing list of Visage 7 clients to opt for our fully cloud-based solution, which, as a result of our CloudPACS strategy, is becoming the standard in the North American healthcare IT market."

Dr Hupert continued, "Notably, they have also opted for our cardiology offering which will provide UCHealth with a truly unified enterprise imaging solution, a trend we see continuing as more and more healthcare enterprises look to consolidate their disparate imaging systems."

"Our pipeline remains strong and spans all market segments. There is growing interest in our 'full stack' solution comprising all three core Visage products, viewer, workflow, and archive with the added option of "other ologies" such as cardiology."
