REVIEW OF OPERATIONS

Dolphin Tungsten Project

Key Points

- The safety focus was predominantly around improving the workplace environment particularly in the processing plant area, and the recruitment of leadership and operations personnel.
- There were two environmental incidents in October 2024, both related to blasting where the overpressure exceeded licence conditions. They were reported to the EPA with no further action required. Process plant production rates of higher-grade ore were disappointing, with several plant component failures and extended periods in which breakdowns or workforce shortages affected production.
- The mine produced 257kt of ore for the period and achieved a 4.5% strip ratio.
- Process plant throughput in the period was 79kt at an average feed grade of 0.75%, and with a recovery of 44%.
- Concentrate shipped equated to 433t, at an average 58% grade.

- Continue to progress the Company towards underground mining operations at the DTM which consists of circa 1.5 million tonnes of high-grade ore; and
- Evaluate opportunities for increase efficiency and cost reduction initiatives such as integration of cheaper renewable energy and ore sorting techniques.

The medium-term objective is to progress regional exploration opportunities under the renewed Exploration Licence and investigate opportunities to value-add the product in the upstream and midstream tungsten industry. This will include collaboration with, and support from, key agents within the Australian Federal Government's 2023-2030 Critical Minerals Strategy, and the State Government's programmes which support local industry.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

The Notes to the consolidated interim financial statement are set out in the following main sections:

SECTION A – KEY FINANCIAL INFORMATION AND PREPARATION BASIS

SECTION B – KEY MANAGEMENT PERSONNEL AND RELATED PARTY DISCLOSURES

SECTION A KEY FINANCIAL INFORMATION AND PREPARATION BASIS

A1 REPORTING ENTITY

Group 6 Metals Limited (**Company**) is a company domiciled in Australia. These consolidated interim financial statements (“interim financial statements”) as at and for the six months ended 31 December 2024 comprise the Company and its subsidiaries (together referred to as the “Group”). The Group is primarily focused on mining and processing the high-grade ore from the Dolphin Tungsten Mine (DTM) on King Island.

The consolidated annual financial report of the Group as at and for the year ended 30 June 2024 is available upon request from the Company’s registered office at Level 7, 157 Ann Street, Brisbane, Queensland, 4000, or the Company’s website at www.g6m.com.au.

A2 BASIS OF PREPARATION

These consolidated interim financial statements are general purpose financial statements prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001 and with IAS 34 Interim Financial Reporting.

They do not include all of the information required for a full annual financial report. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance since the last annual consolidated annual financial report of the Group as at and for the year ended 30 June 2024.

These interim financial statements were approved by the Board of Directors on 4 July 2025.

The Company is not of a kind referred to in ASIC Corporations Instrument 2016/191 dated 1 April 2016 and, in accordance with the Class Order, amounts in these interim financial statements and directors’ report have been rounded to the nearest thousand dollars, or in certain cases, the nearest dollar, unless otherwise stated.

A3 USE OF JUDGEMENTS AND ESTIMATES

In preparing these interim financial statements, the Company’s management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from those estimates.

The significant judgements made by Management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the last annual consolidated annual financial report of the Group as at and for the year ended 30 June 2024.

A4 NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board that are mandatory for the current reporting period and were relevant to the Group. The adoption of the new and amended Accounting Standards and Interpretations had no material impact on the Group. Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been adopted early.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

A5 GOING CONCERN

The interim financial statements has been prepared on the basis of going concern which contemplates continuity of normal business activities and the realisation of assets and settlement of liabilities in the ordinary course of business.

As disclosed in the interim financial statements, the Group incurred a loss of \$23.0 million and had net cash outflows from operating activities and investing activities of \$16.3 million and \$2.0 million respectively for the half-year period ended 31 December 2024. As at 31 December 2024, the Group has a net current liabilities position of \$77.2 million. Notably, loans with a carrying value of \$69.0 million were due within 12 months from 31 December 2024.

In forming the view that the going concern basis of preparation is appropriate, the Directors and Management have based their assessment on the facts and circumstances as of the date of approval of the interim financial statements, especially the following matters that occurred subsequent to 31 December 2024:

- As set out in Note A15, the Group completed a recapitalisation plan on 23 April 2025 when shareholders resolved for \$81.1 million in principal and interest (\$77.4m) and creditors (\$3.7m) to be converted into ordinary shares of the Company. The \$81.1 million of debt, creditor balances and interest were converted pursuant to 19.2 billion ordinary shares being issued. In addition, on 23 April 2025, shareholders resolved to issue 1.7 billion ordinary shares in the Company to raise \$5.9 million. The Company also continued to draw down on its available facilities with existing secured lenders by borrowing an additional \$3.8 million, maturing 30 April 2027.

Finally, on 4 April 2025, the Group executed a facility agreement with the Tasmanian Government to borrow up to \$7.5 million which was fully drawn on 15 May 2025 and matures on 30 April 2027.

As a result of these matters, at the date of signing these interim financial statements, the extent of loan principal payable by the Group is equal to \$33.2 million. All loans, with the exception of \$0.8M due on 30 June 2026, are repayable on 30 April 2027, subject to compliance with the Group's financial covenants (as set out in Note A15). The Group's cash balance on 30 June 2025 was \$7.5 million.

- Further to the recapitalisation plan, the Group has been proceeding with its stabilisation and transformation phase, first announced to the market on 4 December 2024. As part of this phase, the Group replaced its executive management team and key management personnel. The Group is progressing a detailed business review with a focus on optimisation of the mine plan and processing plant, as well as rationalising operating costs, all with the aim to restore the Group's performance to yield profitable results.

Taking these matters into consideration, Management have prepared a cashflow forecast for the twelve months ending 31 July 2026. The forecast anticipates realisation of the following beneficial effects of the stabilisation and transformational phase and compliance with the financial covenants now in place as a result of the recapitalisation plan:

- *Optimised Mine Plan* - A revised open cut mine plan aimed at removing subeconomic stages of the pit, reducing strip ratios and targeting higher grade ore to build a stockpile whilst developing the project for the future underground phase.
- *Operating Cost Reductions*: - Rationalisation of operating expenses to significantly drive down unit production costs. This is principally being achieved through cessation of open cut mining from July 2025, reducing mining staff and equipment levels, and utilising the ore that has been stockpiled.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

GOING CONCERN (CONTINUED)

- *Process Plant Optimisation Plan*: - A plan focusing on improved plant resilience, throughput, utilisation, and recovery has been developed and is underway. The upgrade of key components of the process plant are the major drivers to achieving steady-state production and consequently increasing shipments of concentrate. Other contributory factors to the optimisation plan include, building adequate levels of spare parts inventory to eliminate lengthy unplanned plant shutdowns; a metallurgical improvement program which provides a focus on improving overall plant recoveries; and the appointment of an experienced plant manager.
- *Overhead Reductions* - A significant reduction in corporate overheads following the rationalisation of board and management and closure of the Brisbane city centre corporate office.

The stabilisation and transformational phase are ongoing at the signing date of these interim financial statements. The ability of the Group to continue as a going concern is critically dependent upon the Group operating the mine in a cashflow positive manner.

Key assumptions adopted in the twelve-month forecast include:

- Processing of ore stockpiles at a through-put rate of at least, on average, 24kt per month.
- Feed grade of 0.7% of ore processed.
- Recovery of metal from the production processes of, on average, 60%.
- Tungsten ammonium para tungstate (APT) price, on average, of \$347 USD per metric tonne units (mtu);
- AUD: USD foreign currency exchange rate of, on average, 0.67 USD: AUD; and
- Capital expenditure for its underground mining infrastructure and mine development that can range in timing and amount depending on the available cashflows realised from production or funding options.

As with all transformational plans and macro-economic assumptions, there inherently exists significant uncertainty as to whether the Group will achieve its plans. The Directors and Management acknowledge that these uncertainties may affect the realisation of the full outcomes envisioned from the stabilisation and transformational phase. Should any one or a combination of the above assumptions fail to be realised to the extent forecasted, the Company will be required to mitigate any impact on its closing cash balances such that it continues to have the ability to meet its obligations as and when they fall due including meeting the financial covenants of its lenders.

On the assumption that the benefits of the stabilisation and transformational phase will be realised and that the Company has the ability to manage the phasing of its capital expenditure or, if necessary, that the Group sources financing from alternative funding sources, the Directors and Management have concluded that the Group is able to continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report.

Notwithstanding this, there exists a material uncertainty related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern and therefore that the Group may be unable to realise its assets and discharge its liabilities in the normal course of business and at the amounts stated in the interim financial statements.

The **Group** comprises Group 6 Metals Limited (the Company) and the entities it controlled at the half-year's end or from time to time during the half-year.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

Material uncertainty related to going concern

We draw attention to Note A5, "Going Concern" in the Interim Financial Report. The events or conditions disclosed in Note A5, indicate a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern and, therefore, whether it will realise its assets and discharge its liabilities in the normal course of business, and at the amounts stated in the Interim Financial Report. Our conclusion is not modified in respect of this matter.

Emphasis of matter – subsequent events

We draw attention to Note A15 Subsequent events in the Interim Financial Report which describes certain subsequent events and their effects on the Company and Group. Our opinion is not further modified in respect of this matter.

Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*;
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2024 and its performance for the half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of an Interim Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
