Kaiser's Managing Director, Jonathan Downes, commented:

“This has been a landmark quarter for Kaiser, headlined by the acquisition of the Henty Gold Mine in Tasmania, a profitable production centre with at least a 5-year mine life, based on Reserves, and fantastic exploration potential. We are very pleased with the transition overall and how the Henty team has come on board with Kaiser.”

“With the Henty transaction completed, Kaiser has transformed into a company with three gold projects, two operational, and two gold processing plants in a great macro environment for gold. This is the single biggest quarter of production for Kaiser and we look forward to building from here.”

“We will update the market further with our full quarterly report later in the month.”
