S41 Breccia-Hosted Gold Target

Emerging Discovery? – The S41 Breccia Prospect

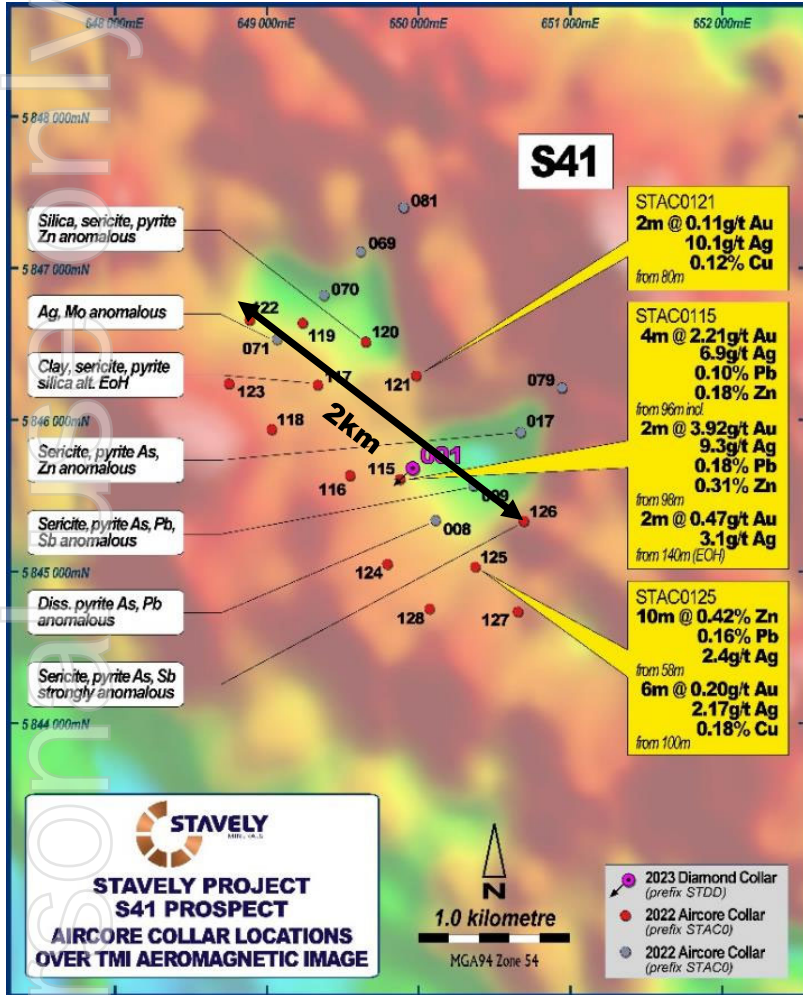

S41 Breccia-Hosted Gold Prospect

- Identified in Stavely Minerals' Falcon Gravity Gradiometer[®] survey under 50m of basalt
- We are the first to see this gold mineralized system:
 - Identified the geophysical anomaly
 - Drilled through the basalt to discover the gold-base metal anomaly
 - Diamond drilled it and identified the style of system it is: carbonate – base metal – gold
 - Well studied style of gold deposit
- Multi-million ounce discovery potential

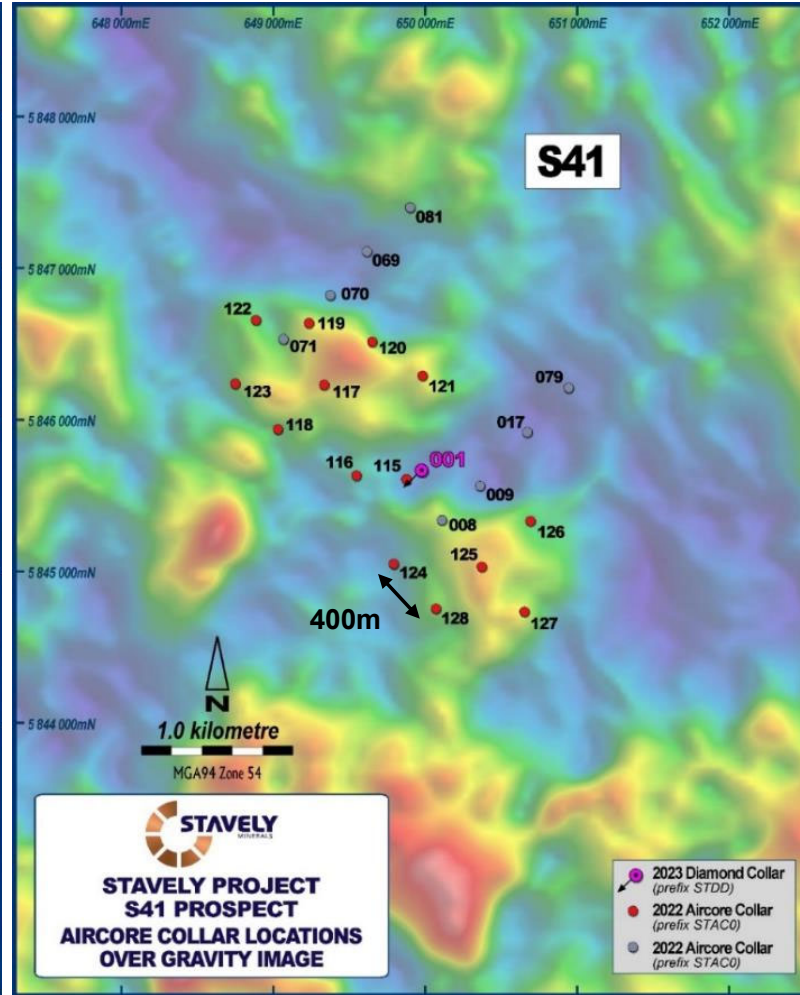

Emerging Discovery? – The S41 Breccia-Hosted Gold Prospect

Gravity

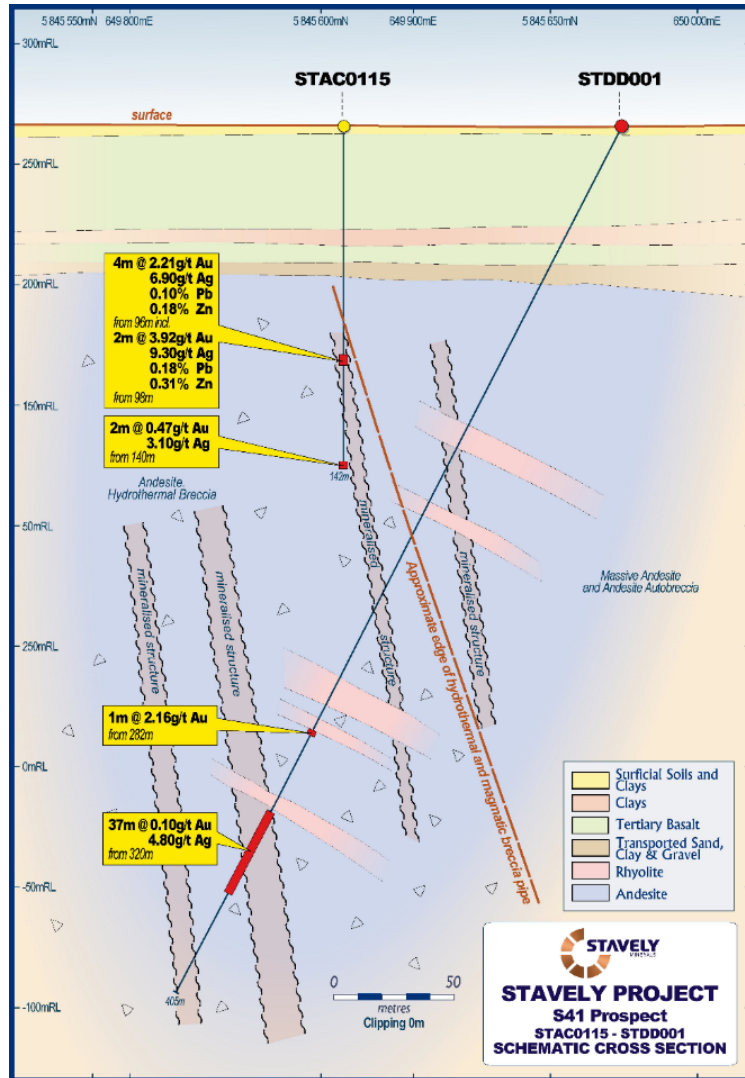

S41 Prospect Aircore¹

- **4m at 2.21g/t Au** from 96m drill depth, including:
- **2m at 3.92g/t Au** from 98m in aircore drilling
- Large 2km alteration zone
- Strongly anomalous base metals and pathfinder geochemistry

¹See ASX announcement 19/04/2023

The S41 Breccia Prospect – first look STDD001

S41 Diamond Drill Hole¹

- Only one diamond drill hole in the 2,000m x 750m interpreted breccia system
- **1m at 2.16g/t Au** from 282m drill depth
- **37m at 0.10g/t Au**, including:
 - **2m at 0.56g/t Au** from 320m, and
 - **5m at 24.3g/t Ag** from 353m
- Importantly demonstrated that there is gold and silver in the system associated with Mn-carbonate and Zn & Pb base metals
- Breccia-hosted systems host notoriously inconsistent gold mineralization eg. Kidston
- Need to find the better plumbing on the edge

Summary – Key Investment Takeaways

- ✓ The Cayley Lode is a quality, high-grade copper-gold-silver Mineral Resource from surface
- ✓ Renewed focus on gold targets, we own ~130km strike of fertile volcanic belt:
 - ✓ *Fairview North and South gold prospects; two priority targets to be tested – initial drilling completed*
 - ✓ *S41 breccia-hosted gold opportunity – scale potential with only 1 diamond drill hole to date*
- ✓ Junction copper-silver (aircore drilling impressive assays) – **gaining access a priority**
- ✓ Junction porphyry target – only 200m east of Junction high-grade copper-silver, again access a priority
