James Owens, CFO of FleetPartners, commented:

“We are pleased to see continued strong support from capital markets investors for our well-regarded ABS programme. This transaction not only saw robust investor engagement but also achieved our goal of welcoming new participants into the programme. The issuance of a green tranche backed exclusively by electric vehicles underscores our ongoing commitment to sustainability and aligns with the growing demand for responsible, forward-looking investment opportunities.

The strong pricing outcome reflects the depth of investor confidence in FleetPartners and serves as further validation of the Group’s core strengths—underpinned by nearly four decades of expertise in credit underwriting and residual value risk management.”
