## **ASX Announcement (AMX)**

### **Aerometrex awarded material LiDAR contract with QGC Pty Limited (a subsidiary of Shell plc)**

Aerometrex Limited (ASX: AMX) is pleased to announce that it has signed a material LiDAR contract with QGC Pty Limited ('QGC'), a subsidiary of Shell plc, where Aerometrex will receive \$1.08m (GST exclusive). The contract involves the capture of the LiDAR and Aerial Imagery survey of Shell QGC assets in Queensland, Australia for a period of 12 months ('contract term'). QGC can purchase additional captures above the fixed amount based on an agreed schedule of rates, thereby enabling additional revenue opportunities for Aerometrex over the contract term.

The project will be delivered over a number of key milestones and is expected to be completed during FY26. QGC have an option to extend the contract term and may terminate for cause and for convenience as is typical for this type of contract. There are no special conditions, and the key commercial arrangements are consistent with Aerometrex's standard LiDAR terms. All material information relevant to assessing the impact of the contract is provided and is not misleading by omission.

Aerometrex's Acting Chief Executive Officer, Rob Veitch said:

"It is extremely pleasing to be awarded this contract with Shell QGC and to be part of their supplier ecosystem. We continue to work on opportunities with other multinational companies that deliver significant opportunities for our business and validates our attention to quality, accuracy and focus on customer service."

*This release is approved by the Board of Directors of Aerometrex Limited.*
