1 Chairman's Letter

8 July 2025

Dear REY Shareholder,

On behalf of Vigorous Resources, I am pleased to enclose a Bidder's Statement containing Vigorous Resources' Offer to acquire all of your REY Shares for \$0.028 in cash per REY Share. Information on Vigorous Resources is set out in this Bidder's Statement. Vigorous Resources is currently a shareholder in REY and owns 16.10% of all REY Shares.

Vigorous Resources considers its Offer Price of \$0.028 per REY Share for all of your REY Shares provides you a compelling opportunity to realise both optimal and immediate value for your REY Shares.

Vigorous Resources considers the Offer should be accepted for the following reasons:

- 1 the Offer is unconditional and provides you with a straightforward cash exit for your REY Shares, allowing you to realise your cash proceeds on or before the earlier of 21 days after the end of the Offer Period, or 1 month after the Offer is accepted by you;
- 2 the Offer has been unanimously recommended by the REY Board, in the absence of a superior proposal;
- 3 the Offer allows REY Shareholders to realise certain value for their REY Shares now and consequently eliminate future exposure to the risks associated with market conditions and with the uncertainty inherent in the future performance of REY's Share price;
- 4 the Offer Price represents a premium of 155% to the trading price of REY Shares immediately prior to the Announcement Date and a 160% premium to the 30 day VWAP; and
- 5 the Bidder considers the likelihood of a competing offer eventuating to be low given the Bidder's interest in REY.

For further information on the above reasons to accept the Offer please see section 2 of this Bidder's Statement.

Next Steps

Details of the Offer, including its terms and conditions and the benefits you will receive, are set out in this Bidder's Statement.

I encourage you to read this document in its entirety and to accept the Offer promptly to realise immediate value for your REY Shares.

To accept the Offer, please follow the instructions on the accompanying Acceptance Form.

If you require additional assistance, please call the Offer Information Line on 1300 737 760 (for callers within Australia) or +612 92909600 for callers outside Australia), Monday to Friday between 9:00am and 5:00pm (AEST).

Yours sincerely,

Dongmei Ye
Director
Vigorous Resources Pty Ltd

2 Reasons to accept the Offer

The Bidder is offering to acquire 100% of your REY Shares for \$0.028 in cash per REY Share (**Offer Price**) subject to the terms of this Bidder's Statement. There are a number of reasons why the Bidder considers you should accept the Offer, these include:

WHY YOU SHOULD ACCEPT THE OFFER

- 1. You can receive a cash premium**
- 2. The REY Board unanimously recommend the Offer, in the absence of a superior proposal**
- 3. The Offer is unconditional and gives you certainty of cash**
- 4. No alternative offer has been made for REY Shares and the likelihood of a competing offer eventuating to be low**
- 5. Accepting the Offer removes possible minority shareholder risks of remaining a REY Shareholder**
- 6. No stamp duty or brokerage fees in accepting the Offer**

ACCEPT THE OFFER

2.1 The Offer Price delivers a cash premium to REY's long-term historic trading price

The Bidder considers that the consideration under the Offer of \$0.028 per REY Share represents an attractive premium in the context of the long-term historic trading price performance of the REY Shares. The Offer Price represents a premium of:

- (a) 155% premium to the last closing price of REY Shares on ASX on 7 July 2025 of \$0.011 per REY Share; and
- (b) 160% premium to the 30 day VWAP as at the Announcement Date, being \$0.0108 per REY Share.

2.2 REY's Director's recommendation

REY's Directors have unanimously recommended that REY Shareholders accept the Offer, in the absence of a superior offer.

2.3 The Offer is unconditional and provides cash certainty

The Offer by Vigorous Resources to acquire REY Shares is for 100% cash consideration and is unconditional. This gives REY Shareholders certainty about the value of the consideration being offered.

In contrast to the certainty of the cash proceeds that you will receive under the Offer, the future performance of REY's Share price is uncertain. REY currently operates at a loss and is heavily indebted to Ms Wanyan Liu, a major shareholder in the Bidder, who is owed \$22,216,452.61 (inclusive of outstanding interest accrued up to 30 June 2025 at an interest rate of 12% per annum) to be repaid by 30 April 2026 (see section 10.1 for more details).

Due to the low liquidity of REY Shares, it may be difficult to find a buyer willing to acquire your shares at the Offer Price. The Offer provides REY Shareholders with an opportunity to exit their investment in the Company for cash. Accordingly, unless you sell your REY Shares on the ASX, you are effectively choosing between:

- (a) all-cash Offer, which is of certain value; or
- (b) future uncertain value by retaining your REY Shares.

2.4 No alternative offer has been made for REY Shares

As at the date of this Bidder's Statement, Vigorous Resources is not aware that any competing or superior proposal exists and given Vigorous Resources currently owns 16.10% of REY Shares, this may reduce the likelihood of a third party putting forward a superior proposal.

Accepting the Offer now provides REY Shareholders with certainty and a premium over the historical trading price of REY Shares, rather than waiting for an alternative offer to emerge, which may never eventuate.

2.5 Accepting the Offer removes possible minority shareholder risks of remaining a REY Shareholder

Accepting the Offer removes possible minority shareholder risks of remaining a REY Shareholder. Being a minority shareholder in REY may have the following implications:

- (a) the price at which REY Shares are traded may fall and may trade at a material discount to the Offer Price;
- (b) the market for REY Shares may become less liquid; and
- (c) REY's capital structure and board configuration may change.

Please see section 7 of this Bidder's Statement for further information regarding Vigorous Resources' s intention regarding REY.

2.6 No stamp duty or brokerage fees in accepting the Offer

You will not be obliged to pay stamp duty if you accept the Offer.

If your REY Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Vigorous Resources, you will not incur any brokerage fees in connection with your acceptance of the Offer.

If your REY Shares are registered in a CHESS Holding, or if you are a beneficial owner whose REY Shares are registered in the name of a Broker, bank, custodian or other nominee, you should ask your Controlling Participant (usually your Broker) or that nominee whether it will charge any transaction fees or service charges in connection with acceptance of the Offer.

6.11 No escalation agreements

Neither Vigorous Resources nor any Associate of Vigorous Resources has entered into any escalation agreement in respect of REY Shares that is prohibited by section 622 of the Corporations Act.

6.12 Material contracts

There is a risk that some material contracts to which REY and its subsidiaries are a party contain change of control or pre-emptive rights provisions that may be triggered if, following completion of

the Offer, Vigorous Resources acquires a large enough stake in REY. The operation of such provisions may have negative consequences for REY. However, as Vigorous Resources has not been able to conduct any due diligence of non-public information in relation to REY's business at this time, it is unable to provide further details about which consents will be required (if any) or the consequences if such consents are not obtained.

If any change of control provisions within REY's agreements are triggered as a consequence of the Offer, the consent of the relevant counterparty may be required, and/or that counterparty may seek to terminate or renegotiate the agreement on terms less favourable to REY or to exercise rights triggered by the change of control.

7 Vigorous Resources' intentions for REY

7.1 Introduction

This section 7 sets out Vigorous Resources' intentions for REY, which are based on the information concerning REY and its business known to Vigorous Resources at the time of preparation of this Bidder's Statement, in relation to:

- (a) the continued operations of the business of REY;
- (b) any major changes to be made to the business of REY and any redeployment of the fixed assets of Target;
- (c) the compulsory acquisition of REY Shares; and
- (d) the future employment of the present employees of REY.

These intentions are based on the basis of facts, information and circumstances concerning REY, its business operations and the general industry environment, which are known to Vigorous Resources at the time of preparing this Bidder's Statement. This information is limited to publicly available information.

As at the date of this Bidder's Statement, no due diligence has been conducted on REY's non-public information. Therefore, Vigorous Resources does not currently have full knowledge of all material information, facts and circumstances that are necessary to assess the operational, commercial, tax and financial implications of its current intentions. Final decisions regarding these matters will only be made by Vigorous Resources in light of information and circumstances at the relevant time. As there is no minimum acceptance condition to the Offer, Vigorous Resources will not know the extent of its ultimate shareholding in REY until the close of the Offer. This means that the Bidder's ultimate voting power in REY could be anywhere between 16.10% and 100% at the close of the Offer and the precise circumstances surrounding the Vigorous Resources' ability to pursue the outcomes of the strategic review may not necessarily be known until the close of the Offer, and are difficult to predict with any certainty at this stage.

7.2 Intentions upon acquisition of less than 90% of all of the REY Shares

This section sets out the current intentions of Vigorous Resources if it does not acquire a Relevant Interest in at least 90% of the REY Shares pursuant to the Offer.

If Vigorous Resources does not acquire a Relevant Interest in at least 90% of the REY Shares pursuant to the Offer, the current intentions of Vigorous Resources are as follows:

(a) Corporate matters

Subject to the size of the interest in REY's Shares held by the Bidder following completion of the Offer:

- (i) the Bidder may seek representation on the REY's board and may seek representation that is reasonably proportionate to its interest in REY's Shares; and
- (ii) the Bidder may seek to remove REY from the official list of the ASX.

ASX guidance indicates that ASX would approve an application for REY to be removed from the official ASX without the need for shareholder approval if the Bidder owns or controls at least 75% of the REY Shares and the Offer has remained open for at least two weeks after the Bidder obtained that level of ownership or control, and the number of shareholders (not including the Bidder and its Respective Bodies Corporate), that have a holding with a value of at least \$500 is fewer than 150.

In addition, ASX guidance indicates that it would approve an application for REY

to be removed from the official list of ASX with REY Shareholder approval and, where such removal is sought later than 12 months after the close of the offer, the Bidder will be entitled to vote on the resolution approving the removal.

(b) **General operational and structural matters**

To Support REY in its future growth, the Bidder intends to assist with providing sufficient funds to continue the business in substantially the same manner as it is presently conducted.

(c) **Employees**

The Bidder considers REY's current employees to be critical to the future success of the business. The Bidder intends to maintain REY's key management employees and the current level of employment in the business.

7.3 Intentions upon acquisition of 90% or more of all of the REY Shares

This section sets out the current intentions of the Bidder if it acquires a Relevant Interest in 90% or more of REY Shares and is entitled to proceed to compulsory acquisition of the remaining REY Shares under the Corporations Act. In addition to the matters set out in section 7.2, the Bidder would:

- (a) proceed with compulsory acquisition of the outstanding REY Shares in accordance with the provisions of Chapter 6A of the Corporations Act;
- (b) if a compulsory acquisition process is completed, procure the removal of REY from the official list of the ASX; and
- (c) replace the REY board with the Bidder's nominees (although the Bidder may, in its discretion, seek to retain one or more of the existing REY directors). The Bidder has not made any decision as to who would be nominated for appointment to the REY Board in this case.

7.4 Other intentions

Subject to the matters described above in this section 7 and elsewhere in this Bidder's Statement, it is the intention of Vigorous Resources, on the basis of the facts and information concerning REY that are known to it and the existing circumstances affecting the assets and operations of REY at the date of this Bidder's Statement, that:

- (a) the business of REY will be conducted in substantially the same manner as at the date of this Bidder's Statement;
- (b) no other major changes will be made to the business of REY;
- (c) there will be no redeployment of the fixed assets of REY; and
- (d) there will be no changes to REY's key management employees and the current level of employment in the business.

7.5 Limitations of intentions

The intentions and statements of future conduct set out in this section 7 must be read as being subject to:

- (a) REY's constitution, the law (including the Corporations Act) and the ASX Listing Rules;
- (b) the legal obligation of the REY directors at the time, including any candidates for the REY Board nominated by Vigorous Resources, to act in good faith in the best interests of REY and for proper purposes and to have regard to the interests of all REY Shareholders; and
- (c) the outcome of future reviews and analysis by Vigorous Resources as referred to in this section 7.

8 Funding

8.1 Cash Consideration

The consideration for the acquisition of the REY Shares by Vigorous Resources will be satisfied by the payment of \$0.028 cash for each REY Share (being the Offer Price). The Offer Price will be reduced by the amount or value of any Rights, which you become entitled to receive on or after the Announcement Date, which Vigorous Resources does not receive.

Accordingly, at the Offer Price, the maximum amount of cash consideration which would be payable by Vigorous Resources under the Offer if acceptances for all the REY Shares existing, except for REY Shares held by Vigorous Resources, at the Record Date are received is \$4,969,779.

Vigorous Resources intends to fund this amount through a loan from its shareholder Ms Wanyan Liu, details of which are set out below in section 8.2.

8.2 Funding for the maximum aggregate amount

The necessary funds being made available to the Bidder will be sourced from an unsecured loan provided by Ms Wanyan Liu, a shareholder of the Bidder (**Loan**). The Loan agreement was executed by Vigorous Resources and Ms Wanyan Liu on 1 June 2025. The Loan provides a facility of \$5,000,000 to Vigorous Resources at an interest rate of 9% per annum payable in full of the principal and interest accrued upon demand by the lender, Ms Wanyan Liu. The Loan does not have a maturity date.

Ms Wanyan Liu has confirmed that, subject to the terms and conditions of the Loan Agreement, she will make the Loan available throughout the Offer period and will not demand repayment during this time.

As at the date of this Bidder's Statement, the amount borrowed under the Loan is \$5,000,000 and exceeds the amount under the Offer if acceptances for all the REY Shares existing at the Record Date are received.

The events of default under the Loan include:

- (a) a failure by Vigorous Resources to repay any part of the Loan in accordance with the Loan Agreement;
- (b) the occurrence of any event which, in the opinion of the lender, Ms Wanyan Liu, gives rise to a material adverse change in the business or financial condition of Vigorous Resources, or materially and adversely affects its ability to perform its obligations under the Loan Agreement; and
- (c) a failure by Vigorous Resources to duly perform or comply with any of its obligations under the Loan Agreement.

Vigorous Resources has no reason to believe that any event of default will occur that would cause the Loan to become repayable prior to completion of the Offer.

Vigorous Resources complies with all terms and conditions of the Loan.

As detailed in section 5.2, Ms Wanyan Liu was a majority shareholder in Vigorous Resources and a long-time REY Shareholder who has historically financially supported REY. As disclosed in the 31 December 2024 Half Year Report, Ms Wanyan Liu has provided REY with loan facilities totalling \$25 million maturing 30 April 2025.

8.3 **Provision of consideration by Vigorous Resources**

On the basis of the arrangements described above, Vigorous Resources believes that it has reasonable grounds for holding the view, and it does hold the view, that Vigorous Resources will be able to provide the consideration offered in respect of the Offer.

The Offer is not subject to any financing condition.

9 Taxation considerations

9.1 Introduction

The following is a general description of the Australian Capital Gains Tax (**CGT**) consequences to REY Shareholders in relation to the disposal of their REY Shares, through acceptance of the Offer, in return for cash consideration. General comments are also provided in relation to Australia income tax, stamp duty and Goods and Services Tax (**GST**).

The following information is based upon taxation law and established practice in effect as at the date of this document. It is not intended to be, nor is it, an authoritative or complete statement of the taxation laws of Australia applicable to the particular circumstances of every REY Shareholder. This summary is necessarily general in nature and therefore should not be relied upon as advice.

The following comments apply only to those REY Shareholders who hold REY Shares on capital account, such that they will be subject to CGT in respect of their dealings in their holdings of REY Shares. This summary does not address the consequences that arise for REY Shareholders:

- (a) who hold their REY Shares on revenue account or as trading stock;
- (b) who hold their REY Shares as assets used in carrying on a business or as part of a profit making undertaking or scheme;
- (c) who acquired their REY Shares through an employee share scheme;
- (d) who are Australian tax residents but who hold their REY Shares as part of an enterprise carried on, at or through a permanent establishment in a foreign country;
- (e) who are financial institutions, insurance companies, partnerships, tax exempt organisations, trusts (except where expressly stated), superannuation funds (except where expressly stated) or temporary results; or
- (f) who are subject to taxation of financial arrangements rules in relation to gains and losses on their REY Shares.

The outline does not take into account or anticipate changes in the law (by legislation or judicial decision) or practice (by ruling or otherwise). The outline is also not exhaustive of all income tax considerations which could apply in the circumstances of any given REY Shareholder.

Similarly, this tax summary does not address income tax implications for all REY Shareholders nor the tax implications arising from the disposal of REY Shares which were acquired before 20 September 1985. Such shareholders should seek specialist tax advice tailored to those circumstances.

All REY Shareholders, and particularly those shareholders not covered by this outline as noted above, should consult their own tax advisers.

REY Shareholders who are not resident in Australia for tax purposes should seek their own independent taxation advice which takes into account the tax consequences under the laws of their country of residence, as well as under Australian law, in relation to the disposal of REY Shares.

9.2 Australian resident REY Shareholders

Acceptance of the Offer will involve the disposal by REY Shareholders of their REY Shares by way of transfer to Vigorous Resources and, as such, the disposal will have Australian CGT implications.

Australian resident REY Shareholders may make a capital gain or capital loss on the sale of their REY Shares. A capital gain will result where the Offer Price is more than the cost base (or in some

cases indexed cost base, see further below) of those REY Shares. Alternatively, a capital loss will result where the Offer Price is less than the reduced cost base of those REY Shares.

The cost base of a REY Share is generally the cost of acquisition or deemed cost of acquisition. Certain other amounts associated with the acquisition and disposal of the REY Share (such as brokerage or stamp duty) may be added to the cost base.

Capital gains and capital losses of a taxpayer in a year of income are aggregated to determine whether there is a net capital gain. Capital losses from earlier years may be applied to reduce the capital gain. Any remaining net capital gain is included in assessable income and subject to Australian income tax. However, a 'CGT Discount' may be available to reduce the capital gain for certain REY Shareholders (see section 9.3 below).

Capital losses may not be deducted against other income for income tax purposes, but may be carried forward to be offset against future capital gains subject to the satisfaction of certain conditions.

9.3 CGT Discount

The availability of the 'CGT Discount' in calculating the amount of the capital gains included in assessable income depends on the period for which the REY Shares disposed of under the Offer have been held and the classification of each REY Shareholder (e.g. individual, superannuation fund or certain trusts).

The CGT Discount described in this Section is not available where the REY Shares have not been held for 12 months as at the date of acceptance of the Offer. Special rules apply to determine if shares have been held for the requisite period. REY Shareholders should seek their own advice on these matters.

Individuals, complying superannuation entities or trustees that have held REY Shares for 12 months or more before accepting the Offer may be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of the REY Shares by 50% in the case of individuals and eligible trustees, and by 33.33% in the case of complying superannuation funds. The CGT Discount is not available to companies.

The CGT Discount is not relevant for the purposes of calculating a capital loss.

9.4 Non-Australian resident REY Shareholders

If you are a non-resident of Australia for tax purposes and hold your REY Shares on capital account, you will generally not be subject to CGT in Australia on the disposal of your REY Shares unless:

- (a) your REY Shares constitute "indirect Australian real property interests";
- (b) you held your REY Shares at any time in carrying on a business through a permanent establishment in Australia; or
- (c) you were previously a resident of Australia for tax purposes and chose to disregard a capital gain or loss on your REY Shares on ceasing to be a resident.

Your REY Shares will constitute indirect Australian real property interests if both the following conditions are satisfied:

- (a) you (together with your associates, as defined for tax purposes) owned at least 10% of the REY Shares either at the time you sold your REY Shares or for any 12-month period during the 24 months before you sold your REY Shares (in which case, your REY Shares would be a **Non-Portfolio Interest**); and
- (b) at the time of the disposal, "taxable Australian real property" assets (which for these purposes includes real property and mining, quarrying or prospecting rights where the minerals, petroleum or quarry materials are located in Australia) comprise more than 50% of the market value of the assets owned directly or indirectly by REY (called the **Principal Asset Test**).

Foreign resident REY Shareholders who are subject to CGT on the disposal of their REY Shares are not entitled to the CGT Discount.

REY Shareholders who are not resident in Australia for income tax purposes should note that the Australian tax consequences from the disposal of the REY Shares may be affected by any double tax agreement between Australia and their country of residence. Foreign resident REY Shareholders should obtain specific tax advice.

9.5 Foreign resident capital gains withholding tax

If you are a foreign resident REY Shareholder, the amount you receive for the sale of your REY Shares under the Offer may be reduced as the Bidder may have the obligation to withhold an amount of foreign resident capital gains withholding (**FRCGW**) tax from the Offer Price and pay such amount to the Australian Taxation Office on your behalf. The current rate of the FRCGW tax is 15%.

The FRCGW will not apply if you sell your REY Shares on-market on the basis that there is an exclusion from withholding tax for disposals on the ASX.

If you dispose of your REY Shares off-market pursuant to this Offer, the FRCGW generally applies to the disposal of your REY Shares if:

- (a) your REY Shares constitute “indirect Australian real property interests” (see Section 9.4 for further information); and
- (b) any of the following apply:
 - (i) the Bidder knows that you are a foreign resident for Australian tax purposes;
 - (ii) the Bidder reasonably believes that you are a foreign resident for Australian tax purposes;
 - (iii) the Bidder does not reasonably believe you are an Australian resident for Australian tax purposes and either:
 - (A) you have an address outside Australia (according to any record in the Bidder’s possession, or is kept or maintained on the Bidder’s behalf); or
 - (B) the Bidder is authorised to provide a financial benefit (e.g., the payment of the Offer Price) to a place outside Australia; or
 - (iv) you otherwise have a connection outside Australia of a kind specified in the tax regulations.

If the Bidder determines or reasonably believes that it has an obligation to deduct FRCGW tax, the Bidder will withhold the applicable FRCGW amount from the Offer Price payable to you and pay that amount to the Australian Taxation Office. You will only receive the net proceeds and will be taken to receive the full Offer Price for the purposes of this Offer, such that the Bidder will be discharged of any liability to pay that amount of the Offer Price to you.

Depending on your specific circumstances, you may be entitled to apply to the Australian Taxation Office, before the disposal of your REY Shares, to vary and reduce the rate of the FRCGW tax that applies to you.

As at the date of this Bidder's Statement, the Bidder expects that the Principal Asset Test will be met in respect of the REY Shares. Accordingly, the Bidder expects that your REY Shares will be indirect Australian real property interests if you also satisfy the Non-Portfolio Interest test.

Notwithstanding the above, if you and your associates (as defined for tax purposes) sell an interest of 10% or more in REY as part of the Offer, or the Bidder otherwise determines that the FRCGW tax provisions may be enlivened in respect of you, the Bidder will use reasonable endeavours to contact you so that you have an opportunity to provide a declaration (that the Bidder has no reason to believe is false) to the effect that either:

- (a) You are an Australian resident for Australian tax purposes (**Australian Residency Declaration**); or
- (b) Your REY Shares are not Non-Portfolio Interests (see Section 8.4 for further information) and/or are not indirect Australian real property interests (Non-Indirect Australian Real Property Interest Declaration).

This will require you to complete a 'Foreign resident capital gains withholding declaration – vendor declaration' form which is published by the Australian Taxation Office.

If you do not provide a completed Australian Residency Declaration or Non-Indirect Australian Real Property Interest Declaration to the Bidder before the Bidder acquires your REY Shares, the Bidder reserves the right to deduct any applicable FRCGW tax from the Offer Price payable to you.

If you are unsure about how the FRCGW tax applies to you or whether you are entitled to complete an Australian Residency Declaration or a Non-Indirect Australian Real Property Interest Declaration, you should seek independent tax advice.

Any FRCGW tax withheld from the Offer Price is not a final tax. You may be entitled to claim a credit in your Australian income tax return, for the relevant income year, for any FRCGW tax withheld and remitted by the Bidder in respect of the disposal of your REY Shares. To the extent the FRCGW tax exceeds your final Australian tax liability for the disposal of your REY Shares, you may be entitled to a refund of the difference.

9.6 **Stamp Duty**

Vigorous Resources will pay the stamp duty (if any) payable in Australia on the transfer of the REY Shares under the Offer.

9.7 **GST**

No GST in Australia will be payable on such transfers, except that GST may be payable on any fees or charges that a Broker, bank, custodian, or other nominee (in respect of REY Shares held for a separate beneficial owner) may charge in connection with acceptance of the Offer (see section 11.14).

10 Other material information

10.1 Financial Support by Ms Wanyan Liu

Both REY and Vigorous Resources have obtained significant loan funding from Ms Wanyan Liu. As outlined in section 5.2 and disclosed in the 31 December 2024 Half Year Report, Ms Wanyan Liu has provided REY with loan facilities totalling \$25 million, maturing on 30 April 2026, with an interest rate of 12% per annum. Of this facility, \$22,216,452.16 (inclusive of outstanding interest accrued up to 30 June 2025) is outstanding and repayable.

The loan agreements entered into between REY and Ms Liu are summarised as follows:

- (a) on 3 July 2017, it was announced that Ms Wanyan Liu provided an unsecured loan of \$500,000 with a 12 month term. This was subsequently extended to 31 December 2019, then further extended to 31 March 2021 and again to 31 October 2022;
- (b) on 18 April 2019, it was announced that Ms Wanyan Liu entered into a loan agreement to provide an additional \$3 million, with a maturity date of 31 December 2020. On 25 June 2020, this facility was increased to \$5 million, and the maturity date was extended to 31 October 2021;
- (c) on 17 July 2019, it was announced that Ms Wanyan Liu entered into another loan agreement to provide a further \$3 million, with a maturity date of 31 December 2021,
(together the **Previous Loan Facilities**).

On 30 April 2021, it was announced that the Previous Loan Facilities had been fully drawn down, and Ms Wanyan Liu had agreed to consolidate them into a single facility and increase the total amount by \$4 million to \$12.5 million (the **Consolidated Loan Facility**). The Consolidated Loan Facility was intended for general working capital and future development of the Company. It carried an interest rate of 12% per annum (payable quarterly in cash) and has a maturity date of 31 October 2022. Of the \$12.5 million, \$8.5 million had already been drawn under the Previous Loan Facilities.

The Consolidated Loan Facility was subsequently amended on the following occasions:

- (a) on 22 June 2022, increased by \$4.5 million to \$17 million and extended to 31 October 2023;
- (b) on 30 May 2023, increased by a further \$3 million to \$20 million and extended to 31 October 2024;
- (c) on 17 June 2024, increased by a further \$5 million to \$25 million and extended to a maturity date of 30 April 2026;
- (d) on 17 June 2024, the interest payment date was amended from a quarterly basis to payable on the maturity date.

In the event of a breach of the terms of the Consolidated Loan Facility agreement resulting in accelerated repayment, the Company would not be in a position to repay the full amount owing (including accrued interest), as its available cash balance was only \$52,000 as disclosed in the quarterly cash flow report released on 29 April 2025.

Similarly, if the Consolidated Loan Facility reaches maturity and the Company is required to repay the entire principal and interest, it is unlikely to be able to do so from existing cash reserves or operating cash flows. As a result, the Company may be forced to undertake a significant equity capital raise, which would likely be highly dilutive to existing shareholders. Even then, there is no assurance that the capital raise would be successful or sufficient to fully repay the amounts owed under the Consolidated Loan Facility.

Additionally, funding for the necessary funds for the Offer by Vigorous Resources is sourced from a loan provided by Ms Wanyan Liu, further details is set out in section 8.2.

10.2 **Issues regarding the disposal of Gulliver Productions Pty Ltd**

The Bidder has been advised that there have been issues raised in relation to the disposal of REY's wholly owned subsidiary, Gulliver Productions Pty Ltd (**Gulliver**), to China Guoxin Investment Holdings Co., Limited (**Guoxin**) for a total consideration of \$400,000, under a binding cooperation framework agreement announced on 1 August 2024 (the **Disposal**).

REY has confirmed that 100% of its interest in the Gulliver Tenure was transferred to Guoxin via the sale of all issued shares in Gulliver. The Company further advised that:

- (a) REY has provided limited transitional support at no cost following completion of the Disposal;
- (b) REY is no longer the operator of the Gulliver Tenure;
- (c) Guoxin has assumed full operational responsibility for the Gulliver Tenure;
- (d) REY has not been engaged by Guoxin to act as operator;
- (e) REY is not responsible for any care, maintenance, or clean-up obligations in respect of the Gulliver Tenure;
- (f) REY remains in compliance with the ASX Listing Rules, including ASX Listing Rule 3.1.

10.3 **ASIC modifications to and exemptions from the Corporations Act**

Vigorous Resources has not obtained from ASIC any modifications to the Corporations Act to facilitate the Offer. Vigorous Resources may, however, rely on various "Class Order" instruments published by ASIC which provide for certain modifications and exemptions that apply generally for all bidders, including Vigorous Resources.

10.4 **Date for determining holders of REY Shares**

For the purposes of section 633(2) of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of section 633(1) of the Corporations Act is 7:00pm (AEST) on 8 July 2025, being the Record Date.

10.5 **Public announcements**

Public announcement(s) on or after the date of this Bidder's Statement in relation to the Offer should be available on REY's announcements page on the ASX website referred to earlier in this Bidder's Statement.

This Offer is being made to:

- (a) each person registered as the holder of REY Shares in the register of REY Shareholders on the Record Date; and
- (b) any person who becomes registered, or entitled to be registered, as the holder of your REY Shares during the Offer Period.

- (c) this Offer will be deemed to have been withdrawn immediately at that time.

If at any time during the Offer Period you are registered or entitled to be registered as the holder of one or more parcels of REY Shares as trustee or nominee for, or otherwise on account of, another person, you may accept as if a separate and distinct offer on the same terms and conditions as this Offer had been made in relation to each of those parcels and any parcel you hold in your own right. Where the calculation of the consideration to be paid to a REY Shareholder would result in the REY Shareholder becoming entitled to a fraction of a cent, the fractional entitlement will be rounded down to the nearest whole cent.

By accepting this Offer, you undertake to transfer to Vigorous Resources not only Your Accepted REY Shares, but also all Rights attached to those REY Shares.

The Offer is dated 8 July 2025.

1 Chairman's Letter

8 July 2025

Dear Shareholder,

As you may be aware, on 8 July 2025, Vigorous Resources announced an off-market offer to acquire 100% of the ordinary shares in the Company for a cash price of \$0.028 per Share. The Offer is expected to open on Wednesday, 9 July 2025.

This Target's Statement is made in response to Vigorous Resources' Bidder's Statement dated Tuesday, 8 July 2025.

The Directors of the Company have carefully considered the Offer in all the current circumstances (including the prospects for the Company in the absence of the Offer) and recommend that, in the absence of a Superior Proposal, you should **ACCEPT** the Offer for the following reasons:

- 1 you can receive a cash premium compared to REY's long-term historic trading price;
- 2 it is a full cash Offer;
- 3 the REY Board unanimously recommend the Offer;
- 4 the Offer is unconditional and provides certainty of value and liquidity in contrast to the risks of remaining a REY Shareholder;
- 5 no Superior Proposal has emerged and the likelihood of a Competing Proposal eventuating is low;
- 6 you risk becoming a minority REY Shareholder if the Offer does not proceed;
- 7 Vigorous Resources may be able to compulsorily acquire your REY Shares even if you do not accept the Offer; and
- 8 no stamp duty or brokerage fees in accepting the Offer.

For further information on the above reasons to accept the Offer please see section 3 of this Target's Statement.

Each Director who holds or controls REY Shares intends to accept the Offer.

When assessing whether to accept the Offer, you should consider the risks associated with accepting the Offer, which are set out in section 8 of this Target Statement, and the taxation implications of the Offer, which are set out in section 11 of this Target's Statement.

Next Steps

I encourage you to read this document in its entirety and to **ACCEPT** the Offer promptly to realise immediate value for your REY Shares.

To accept the Offer, please carefully follow the instructions outlined in the Bidder's Statement and on the accompanying Acceptance Form. The Offer is due to close at 5:00pm (Sydney time) on Monday, 11 August 2025. No action is required if you decide not to accept the Offer.

If you require additional assistance, please call the Offer Information Line on 1300 737 760 (for callers within Australia) or +61-2-92909600 (for callers outside Australia), Monday to Friday between 9:00am and 5:00pm (Sydney time). Calls to these numbers may be recorded.

The information in this section 2 is a summary only. You should read this Target's Statement and the Bidder's Statement carefully and in their entirety before deciding whether to accept the Offer.

3 Reasons to accept the Offer

The Bidder is offering to acquire 100% of your REY Shares for \$0.028 in cash per Share (**Offer Price**) subject to the terms of the Bidder's Statement. There are a number of reasons why the Company considers you should accept the Offer, these include:

WHY YOU SHOULD ACCEPT THE OFFER

1. You can receive a cash premium compared to REY's long-term historic trading price
2. It is a full cash Offer
3. The REY Board unanimously recommend the Offer
4. The Offer is unconditional and provides certainty of value and liquidity in contrast to the risks of remaining a REY Shareholder
5. No Superior Proposal has emerged and the likelihood of a Competing Proposal eventuating is low
6. You risk becoming a minority REY Shareholder if the Offer does not proceed
7. Vigorous Resources may be able to compulsorily acquire your REY Shares even if you do not accept the Offer
8. No stamp duty or brokerage fees in accepting the Offer

ACCEPT THE OFFER

In considering whether to accept the Offer, the Directors encourage you to:

- read and carefully consider the whole of the Target's Statement and the Bidder's Statement;
- have regard to your individual risk profile, portfolio strategy, tax position and financial circumstances; and
- obtain independent advice from your investment, financial, tax or other professional adviser on the effect of accepting the Offer.

3.1 **The Offer Price delivers a cash premium to REY's long-term historic trading price**

The Company considers that the consideration under the Offer of \$0.028 per REY Share represents an attractive premium in the context of the long-term historic trading price performance of the REY Shares. The Offer Price represents a:

- (a) 154.55% premium to the closing price of REY Shares (\$0.011) on 7 July 2025; and
- (b) 160.07% premium to the 30-day volume weighted average price (**VWAP**) of REY Shares of \$0.0108 up to and including 7 July 2025 .

3.2 **It is a full cash Offer**

The Offer by Vigorous Resources to acquire REY Shares is for 100% cash consideration. If you accept the Offer, you will be paid \$0.028 for each Share you hold. You will not be issued any securities or receive other non-cash consideration for your REY Shares. The cash price is not subject to any adjustments. The risks and uncertainties associated with any non-cash consideration will not apply to the Offer. As such, you have certainty as to the value you will receive for your REY Shares.

3.3 **The REY Board unanimously recommends the Offer**

The REY Board unanimously recommend that the REY Shareholders accept the Offer, in the absence of a superior offer. The Directors of the Company who own REY Shares have indicated their intention to accept the Offer and sell all of their REY Shares to the Bidder on the terms of the Offer.

In addition, two Directors of REY, Mr Geoffrey Robert Baker and Ms Min Yang, are also directors of ASF Group Limited. ASF Group Limited is the largest shareholder in REY holding 34,666,667 REY Shares (representing 16.386% of all REY Shares and has indicated its intention to support the Offer.

3.4 **The Offer is unconditional and provides certainty of value and liquidity in contrast to the risks of remaining a REY Shareholder**

The Offer is unconditional and provides certainty to Shareholders. Unlike the guaranteed cash value and liquidity you will receive under the Offer, the future performance of REY's Share price is uncertain. There are ongoing risks associated with remaining a REY Shareholder in an otherwise highly illiquid ASX listed micro-cap, particularly at a time of global economic and market volatility and uncertainty.

If the Offer is unsuccessful and no Competing Proposal emerges, REY Shareholders will be exposed to ongoing risks associated with an investment in REY, including the risks associated with the Company's need to raise funds to meet its exploration and working capital needs.

REY currently operates at a loss. The Company has low levels of liquidity and is highly indebted. The current major lender is Ms Wanyan Liu who is owed \$22,264,758.36 (inclusive of outstanding interest accrued up to 7 July 2025 at an interest rate of 12% per annum) to be repaid by 30 April 2026. Risks associated with the Liu Loan Agreement are set out in section 8.2(a)(iii) of this Target's Statement.

Given the low levels of liquidity, you may have difficulty identifying a buyer who is willing to purchase your REY Shares at the Offer Price. The Offer creates opportunity for REY Shareholders to exit the Company with cash. Therefore, unless you choose to sell your REY Shares on ASX, you can choose, in effect, between the:

- (a) all-cash Offer, which is of certain value; or
- (b) future uncertain value by retaining your REY Shares.

3.5 No Superior Proposal has emerged and the likelihood of a Competing Proposal eventuating is low

As at the date of this Target's Statement, no Competing Proposal to the Offer have been put to the Company or are currently under consideration by the Company and no Director is aware of any other Competing Proposal.

The Offer is currently the highest consideration available for the REY Shares. Accepting the Offer provides Shareholders with certainty and a premium over the historical trading price of REY Shares, rather than waiting for an alternative offer to emerge, which may never eventuate.

3.6 You may risk becoming a minority REY Shareholder

If Vigorous Resources gains a majority shareholding in REY (but is not entitled to compulsorily acquire REY), those REY Shareholders who do not accept the Offer will become minority REY Shareholders with possibly less influence over the future direction and control of the Company.

With Vigorous Resources as the major shareholder of the Company, liquidity in REY Shares may be very limited. As a result, minority REY Shareholders could find it more difficult to buy and sell their Shares. Trading volume of REY Shares on the ASX is already low and may decline further if the Bidder increases its controlling interest. The Directors believe that small shareholders should take the opportunity to exit, rather than remain minority shareholders in a company with a dominant or controlling shareholder.

The Bidder may acquire a sufficient number of shares to pass an ordinary resolution of the REY Shareholders (including resolutions relating to the composition of REY's Board). While there has been no indication from the Bidder about its intentions for movement or replacement to the REY Board, we note that any resolution to appoint or remove directors requires 50% of all votes cast.

Lastly, the Company's cash balance is low, and if this Offer is not accepted, then the Company will be required to conduct an equity raise in the very near future which will dilute the current Shareholders.

3.7 Vigorous Resources may be able to compulsorily acquire your REY Shares even if you do not accept the Offer

If Vigorous Resources acquires a Relevant Interest of 90% or more of the REY Shares, it may proceed to compulsorily acquire the REY Shares not held by it after the expiry of the Offer Period. If so, unless you successfully challenge the compulsorily acquisition process, your REY Shares will be compulsorily acquired and you will receive the same consideration that you would have received under the Offer, however, you will receive the consideration later than those Shareholders who accept the Offer.

3.8 No stamp duty or brokerage fees in accepting the Offer

You will not be obliged to pay stamp duty if you accept the Offer.

If your REY Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to Vigorous Resources, you will not incur any brokerage fees in connection with your acceptance of the Offer.

If your REY Shares are registered in a CHES Holding, or if you are a beneficial owner whose REY Shares are registered in the name of a Broker, bank, custodian or other nominee, you should ask your Controlling Participant (usually your Broker) or that nominee whether it will charge any transaction fees or service charges in connection with acceptance of the Offer.

4 Reasons why you may decide not to accept the Offer

4.1 You may wish to apply to the court to prevent the compulsory acquisition of your REY Shares

If Vigorous Resources becomes entitled to compulsorily acquire your REY Shares, you may try to prevent it by applying to the court under Part 6A.1 of the Corporations Act.

The court will only order the REY Shares not to be compulsorily acquired if it is satisfied that the consideration offered by Vigorous Resources is not fair value for the REY Shares. If you wish to challenge the compulsory acquisition of your REY Shares, you should seek your own legal advice as to the process for such a challenge.

4.2 You may receive higher consideration if you successfully challenge the compulsory acquisition in court

If the court finds the consideration offered by Vigorous Resources is not fair value, and your REY Shares are therefore not compulsorily acquired, Vigorous Resources may initiate a subsequent compulsory acquisition process in respect of any remaining REY Shares, and that may be at a revised consideration. If you have already accepted the Offer, or if you did not challenge the compulsory acquisition process, you will not receive any revised consideration under any subsequent process.

4.3 You may consider that there is potential for a Superior Proposal to emerge

You may believe that a Superior Proposal for all REY Shares could emerge in the future. If a Competing Proposal is announced, Shareholders who have accepted the Offer will not be able to withdraw their acceptance in order to accept a Competing Proposal, unless the Offer is withdrawn by the end of the Offer Period. However, if Vigorous Resources varies the Offer to increase the consideration it is offering for your REY Shares, you will be entitled to receive the increased consideration even if you have already accepted the Offer.

At the date of this Target's Statement, no Competing Proposal has been received.

4.4 You may wish to sell your REY Shares on the ASX and receive the proceeds of that sale sooner than the consideration under the Offer

During the Offer Period, you may wish to sell your REY Shares on the ASX to provide you with the proceeds of that sale sooner than Vigorous Resources offers to pay you your cash consideration under the Offer. However, if you accept the Offer, you will give up your right to sell your REY Shares on the ASX or otherwise deal with your REY Shares while the Offer remains open.

4.5 The potential tax consequences of the Offer may not suit your current financial position or tax circumstances

If you accept the Offer, there may be potential tax consequences that do not suit your personal current financial position or tax circumstances. A general summary of the likely Australian taxation implications of accepting the Offer is provided in section 11. Tax implications for accepting the Offer for your REY Shares will vary for each individual and you are advised to consult your financial, tax or other professional advisor on the tax implications of acceptance.

4.6 You will cease to enjoy the benefits of being a REY Shareholder

If you accept the Offer, you will cease to have any interests in the Company in your capacity as a REY Shareholder. This means that you will not participate in any potential upside that may result from remaining as a REY Shareholder, including any increase in the value of REY Shares, any future entitlements or dividends or any other benefits that may ultimately be realised by the Company.

5 Recommendation of Directors

5.1 Recommendation of Directors

The reasons for each Director's recommendations are set out in section 3 of this Target's Statement, after having considered the advantages and disadvantages of the Offer (including the matters set out in sections 4, 8, and 11 of this Target's Statement).

If you choose to sell, settlement will occur on a normal "T+2" basis and the purchaser of those REY Shares may accept the Offer in respect of those REY Shares. There is no guarantee of the price at which the REY Shares will trade from time to time, whether before or after the end of the Offer Period. The latest price for the REY Shares may be obtained from the ASX website. If you sell any of your REY Shares on market you may incur a brokerage charge.

REY Shareholders who wish to sell their REY Shares on-market should contact their broker for information on how to effect the sale. You should seek your own personal advice regarding the taxation consequences for you of selling the REY Shares on ASX.

7.3 **Do nothing**

If you do not wish to accept the Offer or sell your REY Shares on-market, you can choose to do nothing.

By doing nothing you will continue to remain a REY Shareholder. REY Shareholders should note that if Vigorous Resources acquires a Relevant Interest in at least 90% of all the REY Shares and Vigorous Resources have acquired at least 75% of the REY Shares for which the offers are made under the Offer during, or at the end of the Offer Period, Vigorous Resources will be entitled to compulsorily acquire the REY Shares it does not already own (refer to section 8.3(b) of this Target's Statement for more details). REY Shareholders should also note that there are risks associated with remaining a REY Shareholder (see section 8.2 of this Target's Statement for more details).

8 Risk factors

This information in this section is a summary only. It should be read in conjunction with the information in the remainder of this Target's Statement and the Bidder's Statement.

This section describes the material risks associated with the Offer. The risk factors set out below are not exhaustive. Additional risk of which the Company is not aware or that the Company currently considers to be immaterial also have the potential to have a material adverse effect on the business, financial condition and operating and financial performance of the Company.

This section does not take into account your individual investment objectives, financial situation or particular needs. Before deciding whether to accept the Offer under this Target's Statement, you should consider the contents of the Target's Statement in light of your personal circumstances (including financial and taxation issues) and seek professional advice from a licensed financial advisor, accountant, stockbroker, lawyer or other professional advisor.

8.1 Risks associated with accepting the Offer

(a) **If a Competing Proposal is announced you will not be able to withdraw acceptance of the Offer**

If a Competing Proposal is announced, Shareholders who accept the Offer will not be able to withdraw their acceptance of the Offer and accept a Competing Proposal.

As at the date of this Target's Statement, the Directors are not aware of any Competing Proposal and there can be no assurance that any Competing Proposal will emerge.

(b) **You will not be able to challenge the compulsory acquisition process**

If Vigorous Resources becomes entitled to compulsorily acquire your REY Shares, you are entitled to apply to the court under Part 6A.1 of the Corporations Act for an order that your REY Shares will not be compulsorily acquired and, if successful, you will not be required to sell your REY Shares.

However, if you accept the Offer, you will not be eligible to make an application to the court to challenge any compulsory acquisition process and, if such process is successful, you will not benefit in any possible revised offer for, or compulsory acquisition process in respect of, your REY Shares which Vigorous Resources may undertake.

(c) **You may experience adverse tax consequences**

A general overview of the tax implications of accepting the Offer for Australian resident Shareholders is set out in section 11 of this Target's Statement.

Shareholders should not rely on the taxation considerations set out in section 11 of this Target's Statement as being advice on their own affairs. Shareholders should consult with their own independent taxation advisers regarding the taxation implications of accepting the Offer given their particular circumstances. You will cease to enjoy the benefits of being a REY Shareholder.

(d) **No withdrawal rights**

Once you accept the Offer, you will be unable to withdraw your acceptance even if the value of your REY Shares varies significantly from the date of your acceptance of the Offer or a Competing Offer is otherwise announced.

(e) **You will no longer be able to sell your REY Shares on-market**

If you accept the Offer, you will no longer be able to trade your REY Shares on the market and will lose the benefits of being a Shareholder, including the potential to benefit from any future increase in the value of your REY Shares. There is a possibility that the REY

Share price may exceed the Offer Price during part of the Offer Period (although REY can give no assurances and makes no forecasts of whether this will occur). Refer to section 11.6 of the Bidder's Statement in relation to the effect of accepting the Offer.

(f) **REY has not independently verified information released by Vigorous Resources**

REY has relied on publicly available information released by Vigorous Resources or set out in the Bidder's Statement. REY has not independently verified the accuracy, reliability or completeness of all of the information which was disclosed by Vigorous Resources.

8.2 Risks associated with holding REY Shares

If you do not accept the Offer, or successfully oppose any compulsory acquisition process, you could remain a REY Shareholder and continue to be exposed to the risks associated with holding Shares in the Company. There are various risks associated with continuing to hold REY Shares if the Offer is unsuccessful. Some of these risks are specific to REY or the industry in which REY operates, while others are of a more general nature that can apply to an investment.

In considering the Offer, REY Shareholders should be aware of the risks related to the Company and its business. REY is subject to a number of risk factors which may affect the operating and financial performance of the Company and the value of REY Shares. Many of the risks are outside the control of the Company and the Directors, and there can be no certainty that the Company's objectives or anticipated outcomes will be achieved.

(a) **Company Specific risks**

(i) **Currently operating at a loss**

REY currently operates at a loss. The Consolidated Statement of Profit or Loss for the six months ended 31 December 2024 (and lodged with the ASX on 13 March 2025) disclosed a loss before income tax expenses of \$1,615,468.

(ii) **Low cash balance**

REY has low levels of cash. REY's Quarterly Cash Flow Report for the quarter ended 31 March 2025 (and lodged with the ASX on 29 April 2025) disclosed a cash holding of \$52,000. As at the date of this Target's Statement, REY's cash balance is \$125,730.82.

(iii) **Substantial debt**

As stated above, Ms Wanyan Liu controls the Bidder. Under the Liu Loan Agreement, Ms Liu is owed \$22,264,758.36 (inclusive of outstanding interest accrued up to 7 July 2025 at an interest rate of 12% per annum) to be repaid by 30 April 2026.

The Liu Loan Agreement is summarised in section 12.5 of this Target's Statement. As stated in section 12.5, the Liu Loan Agreement does not refer to any express events of default or grounds for early repayment. However, in the absence of express grounds for accelerating the repayment of the loan, such as concepts similar to events of default, REY Shareholders should recognise that circumstances may arise where Ms Wanyan Liu may demand an earlier repayment (because of implied terms or other legal considerations). It is also possible that the Company, even in the absence of a demand of early repayment, there is no guarantee that the Company will have sufficient funds to repay the loan by 30 April 2026.

(iv) **Future capital and funding requirements**

REY Shareholders will be exposed to ongoing risks associated with an investment in REY, including the risks associated with the Company's need to raise funds to meet its exploration and working capital needs.

The future capital requirements of the Company will depend on many factors including its level of exploration activities and operational requirements. REY may require additional funding in the future in order to fund its activities and other Company objectives. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

No assurance can be given that additional capital will be available when needed, on terms favourable to REY, or at all. If REY is unable to obtain additional financing as needed, it may be required to reduce the scope of its activities and this could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

(v) **Future share performance**

The future performance of REY's Share price is uncertain. There are ongoing risks associated with remaining a REY Shareholder in an otherwise highly illiquid ASX listed micro-cap, particularly at a time of global economic and market volatility and uncertainty.

(b) **Industry specific risks**

(i) **Obtaining and renewing necessary approvals**

The Company may be unable to obtain and renew the approvals and licences necessary for its operations, which would reduce its production, cash flow and profitability.

Mining companies must obtain and renew numerous approvals, licences and operating permits that impose strict regulations on various environmental and safety matters in connection with coal mining. These include approvals and licences issued by various local agencies and regulatory bodies. The approving rules are complex and may change over time, making its ability to comply with the applicable requirements more difficult or even impossible, thereby precluding continuing or future mining operations. Private individuals and the public have certain rights to comment upon, submit objections to, and otherwise engage in the approval process, including through court intervention. Accordingly, the approvals and licences the Company need may not be issued, maintained or renewed, or may not be issued or renewed in a timely fashion, or may involve requirements that restrict its ability to conduct its mining operations. Additionally, these approvals, licences and operating permits may be amended, or additional approvals, licences and operating permits may be required imposing costly compliance conditions. An inability to conduct mining operations pursuant to applicable approvals would reduce the Company's production, cash flow and profitability.

(ii) **Exploration, development, mining and processing risks**

Mineral exploration is highly speculative in nature, generally involves a high degree of risk and frequently is non-productive.

The tenements of the Company are at various stages of exploration, and investors should understand that exploration and development are high-risk undertakings.

There can be no assurance that the exploration of the tenements of the Company, or any other tenements that may be acquired in the future, will result in the discovery of an economic deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited or will result in a profitable mining operation. REY may not receive an adequate return on its invested capital, and no assurance can be given that any exploration program of REY will result in the establishment or expansion of resources or reserves.

Resource acquisition, exploration, development and operation involve significant financial and other risks over an extended period of time. Significant expenses are required to locate and establish economically viable mineral deposits, to acquire equipment, and to fund construction, exploration and related operations, and few mining properties that are explored are ultimately developed into producing mines.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

(iii) **Operating costs**

REY's operations are subject to all the hazards and risks normally encountered in the exploration, development and production of resources, including:

- (A) unanticipated changes in grade and tonnage of ore to be mined and processed;
- (B) incorrect data on which engineering assumptions are made;
- (C) equipment delays;
- (D) labour negotiations;
- (E) changes in government regulation (including regulations regarding prices, costs of consumables, royalties, duties, taxes, and restrictions on product quotas on exploration of minerals); and
- (F) title claims.

These factors, among other events and uncertainties described in this Target's Statement, could affect the accuracy of estimates of any operating costs and result in an increase in actual operating costs incurred.

(iv) **Estimation of mineralisation, resources and reserves risk**

The Company's mineral resource estimates for its projects are based on a number of assumptions. There can be no assurance that the mineral resource estimates will be recovered in the quantities, qualities or yields as contained in its announcements made to the ASX. Mineral resource estimates are inherently prone to variability. They involve expressions of judgment with regard to the presence and quality of mineralisation and the ability to extract and process the mineralisation economically based on a variety of factors, such as knowledge, experience and industry practice. The accuracy of these estimates may be affected by many factors, including the quality of the results of drilling and sampling of deposits and analysis of samples and the procedures adopted and experience of the person(s) making the estimates. There are risks associated with such estimates, including that the minerals mined may be of a different or inferior quality, volume, overburden strip ratio or stripping cost from the resource estimates. Such estimates may also be revised following further exploration or analysis. Any material reductions in estimates of mineralisation, or of the Company's ability to extract this mineralisation, including estimates made in its announcements to the ASX, could have a material adverse effect on the Company's results of operations or financial condition.

(v) Commodity price risk and exchange rate risk

REY will be vulnerable to fluctuations in commodity prices including the price of petroleum, gas and coal. The prices of relevant energy resources are subject to change and a substantial or decline in energy resource prices could reduce the Company's revenues or value of its projects.

REY's performance may also be affected by fluctuations in exchange rates, including the AUD denominated prices, input prices and the AUD/USD exchange rate. These prices can fluctuate rapidly and widely and are affected by numerous factors beyond the control of REY. The marketability of production of energy resources depends, in large part, upon the demand from the international marketplace. The prices the Company receives for its energy resources depends upon factors beyond the Company's control, including:

- (A) the supply of and demand for domestic and foreign products;
- (B) uncertainty of development of projects and exploration results;
- (C) domestic and foreign economic slowdowns;
- (D) the relative strength of the Australian dollar;
- (E) the proximity to, capacity of and cost of transportation facilities;
- (F) domestic and foreign government regulations and taxes;
- (G) the quantity and quality of coal available from its competitors;
- (H) regulatory, administrative and judicial decisions;
- (I) the price and availability of alternative fuels, including the effects of technological developments;
- (J) weather conditions; and
- (K) the effect of worldwide energy conservations measures.

The occurrence of any of these risks could materially and adversely affect the development of a project or the operations of a facility, which could have a material adverse impact on REY. Declines in the prices the Company receives for its products could adversely affect its operating results and its ability to generate the cash flows it requires to improve its productivity and invest in its operations.

If the price of these energy resources should fall below or remain below REY's estimated or actual costs of production for any sustained period due to these or other factors and events, REY's exploration, development or mining could be delayed or even abandoned. A delay in exploration or development or mining or the abandonment of one or more of REY's projects may require REY to write-down any mineral resources or reserves and may have a material adverse effect on REY's production, earnings and financial position.

If REY achieves exploration/development success which leads to viable mining production, its financial performance will be highly dependent on the prevailing commodity prices and exchange rates. These factors can affect the value of REY's assets and the supply and demand characteristics of gold and base metals may have an adverse effect on the viability of REY's exploration, development and production activities, its ability to fund those activities and the value of its assets.

(vi) Native title

There is a substantial level of regulation and restriction on the ability of exploration and mining companies to have access to land in Australia.

It is also possible that, in relation to tenements or permits which REY has an interest in or will in the future acquire such an interest, there may be areas over which legitimate rights of traditional owners or surface rights holders exist. In this case, the ability of REY to gain access to tenements or permits (through obtaining consent of any relevant traditional owner body or landowner), or to progress from the project development phase to the mining phase of operations may be adversely affected. REY's mineral titles may also be subject to access by third parties including, but not limited to, the area's traditional owners. This access could potentially impact REY's activities and may involve payment of compensation to parties whose existing access to the land may be affected by REY's activities.

(vii) **Aboriginal heritage**

The ability of REY to conduct activities on exploration permits or mining tenements is subject to compliance with laws protecting Aboriginal heritage. Conduct of site surveys to ensure compliance can be expensive and subject to delays. If any Aboriginal sites are located within areas of proposed exploration, mining or other activities, the ability of REY to conduct those activities may be dependent on REY obtaining further regulatory consents or approvals.

(viii) **Climate change risk**

Climate change risks particularly attributable to the Company include the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences.

In addition, climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

(ix) **Environmental and health and safety risks**

The Company's mining operations are subject to extensive Australian health and safety and environmental laws and regulations which could impose significant costs and burdens on the Company (the extent of which cannot be predicted).

As with most development projects and mining operations, REY's activities are expected to have an impact on the environment. The social and legal framework governing this area is complex and constantly developing. There is a risk that the environmental regulations may become more onerous, making REY's operations more expensive or cause delays. The cost of compliance with these laws and regulations may impact the cost of exploration, development, construction, operation of the production facilities and mine closure costs.

Environmental and health and safety laws and regulations provide for penalties and other liabilities for violation of such standards. Significant liabilities could also be imposed on REY for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulations. Permission to operate could be withdrawn temporarily, or permanently in extreme cases, where there is evidence of serious breaches of health and safety and environmental laws and regulations.

(x) **Key personnel**

REY's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. The loss of the services of one or more of such key management personnel could have an adverse effect on REY. REY's ability to manage its exploration and development activities, and hence its success, will depend in large part on the efforts of these individuals.

REY will need to employ and retain appropriately motivated, skilled and experienced staff. Difficulties in attracting and retaining such staff may have an adverse effect on the performance of REY.

(xi) **Insurance**

The Company intends to insure its operations in accordance with industry practical and applicable regulations. No assurance can be given that REY will be able to obtain insurance cover for all risks faced by REY at reasonable rates or that the insurance cover it arranges will be adequate and available to cover all possible claims. These are a number of factors which may affect the future viability of REY such as pandemic risks, cyber security risks, industrial disputation, litigation, natural disasters and extreme weather conditions and acts of war and terrorism or the outbreak or escalation of international hostilities and tensions. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of REY. Insurance against all risks associated with mining exploration and production is not always available and where available the costs can be prohibitive.

(xii) **Access and third-party interests**

REY may be required to obtain the consent from the holders of third-party interests which overlay areas within its tenements or permits, prior to accessing or commencing any exploration or mining activities on the affected areas. No assurance can be given that necessary access will be obtained when required or on acceptable terms

(xiii) **Joint venture parties, agents and contractors**

The Directors are unable to predict the risk of financial failure or default by a participant in any joint venture to which REY is or may become party to, or the insolvency or managerial failure by any of the contractors or other service providers used by REY, which may adversely affect REY's activities.

(xiv) **Litigation risk**

REY will be exposed to possible litigation risks including Native Title claims, tenure disputes, disputes in relation to the interpretation of royalty agreements or other contractual entitlements, environmental claims, occupational health and safety claims and employee claims. Further, REY may be involved in disputes with other parties now or in the future which may result in litigation or other forms of dispute resolution procedure. Any such claim or dispute if proven, may impact adversely on REY's operations, financial performance and financial position.

(xv) **Change in law and regulation**

REY's activities may be impacted by regulatory or other changes implemented by the Commonwealth or Western Australian Governments. A change in laws that impact on REY's operations, such as land access, Native Title, environmental protection, carbon emissions, labour, mining, taxation and royalties, could have an adverse impact on REY's operations. Mining industry activities are subject to discretionary regulations and approvals, the exercise of which cannot always be predicted.

(c) **General risks**

In addition to the specific risks outlined above, there are general risks associated with the Company's existing and proposed business operations and risks associated with the Offer.

The value of the Company's REY Shares is affected by a number of general factors which are beyond the Company's or the REY Board's control.

Factors such as inflation, currency fluctuation, interest rates, supply and demand and industrial disruption have an impact on operating costs, local and international economic conditions and general investor sentiment.

(i) **General equity market risk**

There are risks associated with any investment in securities. Investments in equity markets are generally speculative in nature and investors should carefully consider the risk.

The value of REY Shares may fluctuate. In recent times, the extent of the volatility in the price of REY Shares and the wider market has been significant. Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. There is no guarantee that the REY Shares will be able to be sold at or above the price offered pursuant to the Offer. Investors should also note that past performance of the REY Shares provides no guidance as to the future performance of these REY Shares.

Many factors will affect the price of securities including movements in interest rates, economic conditions and investor sentiment generally. In addition, the commencement of, or escalation in, any war, armed conflict, hostilities between nations, civil unrest or terrorist activities may affect the price of REY Shares.

(ii) **General economic conditions**

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption in Australia, the rate of growth of Australia's gross domestic product, interest rates and the rate of inflation.

(iii) **Unforeseen expenses**

REY may be subject to significant unforeseen expenses or actions. This may include unplanned operating expenses, future legal actions or expenses in relation to future unforeseen events.

(iv) **Additional requirement for capital**

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(v) **Competition risk**

The industry in which the Company is involved is subject to domestic and global competition. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which activities or actions

may, positively or negatively, affect the operating and financial performance of the Company's projects and business.

(vi) **Current political landscape**

There remains a high level of uncertainty around the Chinese economic outlook and the implications of several global conflicts impacting global markets, including the ongoing Russia and Ukraine conflict and conflicts in the Middle East. The nature and extent of the effect of these uncertainties on the performance of the Company remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by it. The Company is monitoring the situations and considers the impact of the conflicts on the Company's business and financial performance to, at this stage, be limited. Given the situation is continually evolving, the outcomes and consequences are inevitably uncertain.

(vii) **Pandemics and infectious diseases**

The global COVID-19 (Novel Coronavirus) pandemic demonstrated that pandemics can have a significant impact on global capital markets, commodity prices and foreign exchange rates. Should any Company personnel or contractors be infected by a similar pandemic involving a new COVID-19 variant or other infectious disease, it could result in the Company's operations being suspended or otherwise disrupted for an unknown period of time, which may have an adverse impact on the Company's operations as well as an adverse impact on the financial condition of the Company. Supply chain disruptions resulting from a pandemic and measures implemented by governmental authorities around the world to limit the transmission of the virus (such as travel bans and quarantining) may, in addition to the general level of economic uncertainty caused by a pandemic, continue to adversely impact REY's operations, financial position and prospects.

(viii) **Cyber risks**

REY, as with all organisations, is reliant on information technology for the operation of its business. Any failure, unauthorised or erroneous use of REY's information and/or information systems may result in financial loss, disruption or damage to the reputation of REY.

(ix) **Force majeure**

REY's projects now or in the future may be adversely affected by risks outside the control of REY's, including fires, labour unrest, civil disorder, war, subversive activities or sabotage, floods, pandemics, explosions or other catastrophes, epidemics or quarantine restrictions.

8.3 Risks associated with certain outcomes of the Offer

(a) **Vigorous Resources obtains a controlling interest in REY**

If Vigorous Resources acquires a Relevant Interest in at least 50.1% but less than 90% of the REY Shares on issue, it will be able to control the outcome of ordinary resolutions of the REY Shareholders (including resolutions relating to the composition of REY's Board). Any resolution to appoint or remove directors would only require 50% of all votes cast, and does necessarily require the Bidder to hold 50% of all REY Shares.

If effective control of REY passes to Vigorous Resources, but Vigorous Resources does not meet the conditions to allow compulsory acquisition of the remaining REY Shares, the remaining REY Shareholders (who have not accepted the Offer) will become minority shareholders in REY. If this occurs, there may be additional factors that need to be considered alongside the REY Board's recommendation, including:

- (i) Vigorous Resources will be in a position to cast the majority of votes at a general meeting of REY. This will enable Vigorous Resources to control the composition

of the REY Board and senior management and control the strategic direction of REY's business;

- (ii) if Vigorous Resources acquired 75% or more of REY Shares, it will be able to pass a special resolution of REY Shareholders. This will enable Vigorous Resources to seek to have REY removed from the official list of the ASX or have the REY Shares delisted from the ASX;
- (iii) liquidity of REY Shares may be lower than present;
- (iv) the Share price may fall immediately following the end of the Offer Period; and
- (v) Vigorous Resources may not be able to implement its stated intentions in section 7 of the Bidder's Statement.

The ability of Vigorous Resources to obtain a Relevant Interest in at least 90% of the REY Shares will depend upon the level of acceptance of the Offer by REY Shareholders. There is no guarantee that Vigorous Resources will obtain a Relevant Interest in at least 90% of the REY Shares.

(b) **Vigorous Resources meets the 90% compulsory acquisition threshold**

Vigorous Resources has indicated in section 7.3 of the Bidder's Statement that if it acquired a Relevant Interest in 90% it would:

- (i) proceed with compulsory acquisition of the outstanding REY Shares in accordance with the provisions of Chapter 6A of the Corporations Act. If such compulsory acquisition occurs, REY Shareholders who have their REY Shares compulsorily acquired will not receive their Offer Consideration until after the compulsory acquisition notices are dispatched to them;
- (ii) if the compulsory acquisition process is completed, procure the removal of REY from the official list of the ASX; and
- (iii) considering replacing the board of REY with the Bidder's nominees (although the Bidder may, in its discretion, seek to retain one or more of the existing directors of REY). The Bidder has not indicated its intentions regarding movement or replacement to the REY Board.

Additional risks and uncertainties not currently known to REY may also have a material adverse effect on REY's financial and operational performance. The information set out in section 8 does not purport to be, nor should it be construed as, an exhaustive overview of the risks which may affect the Company.

This information in this section 8 is a summary only. It should be read in conjunction with the information in the remainder of this Target's Statement and the Bidder's Statement.

9 Information on the Company

9.1 Overview

REY is an Australian public company listed on ASX focused on exploring and developing energy resources in Western Australia's Canning Basin.

REY holds 100% interest in EP487 (**Derby Block**), 40% interest in EP457 and 100% interest in EP458, prospective Canning Basin petroleum exploration permits (together the **Fitzroy Blocks**).

REY completed a series of exploration works on these permits, including more than 60km of new seismic line acquisition, 2300+km vintage seismic line reprocessing and multiple regional geology and geophysics studies. REY also participated two deep conventional oil wells in EP458 and EP457 with JV. REY is aiming to have an extensive exploration activity for future Canning Basin developments.

REY also holds two well-explored coal tenements in the Canning Basin which consists of the Duchess Paradise Coal Project. The Duchess Paradise Coal Project (**DP Project**), which is 100% owned by REY, is a proposed bituminous thermal coal operation located in the Canning Basin of Western Australia and is partly continuous with the Fitzroy Block.

Through early investment, REY holds 7.5 million fully paid ordinary shares in PZE Limited, representing approximately 5.7% of the issued capital of PZE Limited as at 1 June 2025, which is one of the two shareholders of the Surat production asset (**Surat Assets**) located at Surat Basin, Queensland.

9.2 Business activities

(a) Canning Basin – the Fitzroy Blocks (EP457 and EP458)

REY owns 100% interests in EP458 and 40% interest in EP457, combined as Fitzroy Blocks.

The Fitzroy Blocks (comprising a combined area in excess of 5,000 km²) are located over parts of the southern flank of the Fitzroy Graben. The Fitzroy Blocks straddle three major trends:

- the Ungani conventional oil trend (**Ungani Trend**);
- the Laurel Basin-Centred Gas Accumulation, conventional and unconventional gas; and
- the Goldwyer oil and gas unconventional shale.

The Ungani Trend includes identified leads and prospects in an area of prospectivity of at least 120 kilometres by 40 kilometres (over one million acres or 4,800 km²). This extends diagonally, north-west to south-east, across the Fitzroy Blocks. The conventional dolomite reservoir oil discovery by Buru in 2011 at Ungani (located 15 kilometres north-west of EP457) on the trend running through the Fitzroy Blocks is a significant regional discovery event. Commercial production was established by Buru at Ungani in mid-2015.

Although Prospective (recoverable) Resources of the Laurel Formation within the Fitzroy Blocks have not been assessed by drilling to date, the formation extends across part of the Fitzroy Blocks. A wet gas accumulation has been identified immediately east of the Fitzroy Blocks which has the characteristics of a Basin-Centred Gas Accumulation.

The Goldwyer Shale Formation is characterised as a thick, regionally extensive organic rich "Bakken" shale analogue. The play type is regarded as highly prospective and clearly extends across part of the Fitzroy Blocks, although is believed to be at considerable depth.

The newly discovered Rafael gas field at north edge of EP457 proves the conventional resources potential in Canning Basin.

REY commits to drill new wells in the permit area targeting Rafael like prospects. Other work program includes new seismic is necessary for the derisk of new well drilling which is currently under consideration by REY.

(b) **Canning Basin – the Derby Block (EP487)**

The Derby Block (EP487) is a large petroleum exploration permit of approximately 5,000 km². It occurs to the north-west of REY's interests in the Fitzroy Blocks. 11 Taxation considerations

11.1 Introduction

The following is a general description of the Australian Capital Gains Tax (**CGT**) consequences to REY Shareholders in relation to the disposal of their REY Shares, through acceptance of the Offer, in return for cash consideration. General comments are also provided in relation to Australia income tax, stamp duty and Goods and Services Tax (**GST**).

The following information is based upon taxation law and established practice of the Australian Taxation Office (**ATO**) in effect as at the date of this document. It is not intended to be, nor is it, an authoritative or complete statement of the taxation laws of Australia applicable to the particular circumstances of every REY Shareholder. This summary is necessarily general in nature and therefore should not be relied upon as advice.

The following comments apply only to those REY Shareholders who hold REY Shares on capital account, such that they will be subject to CGT in respect of their dealings in their holdings of REY Shares. This summary does not address the consequences that arise for REY Shareholders:

- (a) who hold their REY Shares on revenue account or as trading stock;
- (b) who hold their REY Shares as assets used in carrying on a business or as part of a profit making undertaking or scheme;
- (c) who acquired their REY Shares through an employee share scheme;
- (d) who are Australian tax residents but who hold their REY Shares as part of an enterprise carried on, at or through a permanent establishment in a foreign country;
- (e) are foreign residents who hold their REY Shares in carrying on a business through a permanent establishment in Australia;
- (f) who are financial institutions, insurance companies, partnerships, tax exempt organisations, trusts (except where expressly stated), superannuation funds (except where expressly stated) or temporary results;
- (g) who are subject to taxation of financial arrangements rules in Division 230 of the Tax Act in relation to gains and losses on their REY Shares;
- (h) are temporary residents as that term is defined in section 995-1(1) of the Tax Act;
- (i) hold their share as trustee or nominee for another entity; or
- (j) have changed, or change, their residence while holding REY Shares.

The outline does not take into account or anticipate changes in the law (by legislation or judicial decision) or practice (by ruling or otherwise). The outline is also not exhaustive of all income tax considerations which could apply in the circumstances of any given REY Shareholder.

Similarly, this tax summary does not address income tax implications for all REY Shareholders nor the tax implications arising from the disposal of REY Shares which were acquired before 20 September 1985. Such shareholders should seek specialist tax advice tailored to those circumstances.

All REY Shareholders, and particularly those shareholders not covered by this outline as noted above, should consult their own tax advisers.

REY Shareholders who are not resident in Australia for tax purposes should seek their own independent taxation advice which takes into account the tax consequences under the laws of

their country of residence, as well as under Australian law, in relation to the disposal of REY Shares.

11.2 Australian resident REY Shareholders

Acceptance of the Offer will involve the disposal by REY Shareholders of their REY Shares by way of transfer to Vigorous Resources and, as such, the disposal will have Australian CGT implications.

REY Shareholders who are Australian residents may make a capital gain or capital loss on the sale of their REY Shares. A capital gain will result where the capital proceeds (i.e., Offer Price) is more than the cost base (or in some cases indexed cost base, see further below) of those REY Shares. Alternatively, a capital loss will result where the capital proceeds is less than the reduced cost base of those REY Shares.

The capital proceeds should generally be the total cash consideration you receive for your REY Shares.

The cost base of a REY Share is generally the cost of acquisition or deemed cost of acquisition. Certain other amounts associated with the acquisition and disposal of the REY Share (such as brokerage or stamp duty) may be added to the cost base. Any return of capital and non-assessable distributions received by REY Shareholders during the ownership period of the REY Shares will reduce the cost base of those REY Shares.

Capital gains and capital losses of a taxpayer in a year of income are aggregated to determine whether there is a capital gain. Capital losses from earlier years may be applied to reduce the capital gain. A 'CGT Discount' may be available to reduce the capital gain for certain REY Shareholders (see section 11.3 below). Any remaining capital gain is the net capital gain included in assessable income and subject to Australian income tax.

Net capital losses may not be deducted against other income for income tax purposes, but may be carried forward to be offset against future capital gains subject to the satisfaction of any applicable loss utilisation rules.

11.3 CGT Discount

The availability of the 'CGT Discount' in calculating the amount of the net capital gains included in assessable income depends on the period for which the REY Shares disposed of under the Offer have been held and the classification of each REY Shareholder (e.g. individual, superannuation fund or certain trusts).

The CGT Discount described in this Section is not available where the REY Shares have not been held for 12 months as at the date of acceptance of the Offer. Special rules apply to determine if shares have been held for the requisite period. REY Shareholders should seek their own advice on these matters.

Individuals, complying superannuation entities or trustees that have held REY Shares for 12 months or more before accepting the Offer may be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of the REY Shares by 50% in the case of individuals and eligible trustees, and by 33.33% in the case of complying superannuation funds. The CGT Discount is not available to companies.

The CGT Discount is not relevant for the purposes of calculating a capital loss.

11.4 Non-Australian resident REY Shareholders

If you are a non-resident of Australia for tax purposes and hold your REY Shares on capital account, you will generally not be subject to CGT in Australia on the disposal of your REY Shares, unless:

- (a) your REY Shares constitute "indirect Australian real property interests";
- (b) you held your REY Shares at any time in carrying on a business through a permanent establishment in Australia; or

- (c) you were previously a resident of Australia for tax purposes and chose to disregard a capital gain or loss on your REY Shares on ceasing to be a resident.

Your REY Shares will constitute indirect Australian real property interests if both the following conditions are satisfied:

- (a) you (together with your associates, as defined for tax purposes) owned at least 10% of the REY Shares either at the time you sold your REY Shares or for any 12-month period during the 24 months before you sold your REY Shares (in which case, your REY Shares would be a **Non-Portfolio Interest**); and
- (b) at the time of the disposal, “taxable Australian real property” assets (as defined in the Tax Act) (which for these purposes includes real property and mining, quarrying or prospecting rights where the minerals, petroleum or quarry materials are located in Australia) comprise more than 50% of the market value of the assets owned directly or indirectly by REY (called the **Principal Asset Test**).

Foreign resident REY Shareholders who are subject to CGT on the disposal of their REY Shares are not entitled to the CGT Discount.

REY Shareholders who are not resident in Australia for income tax purposes should note that the Australian tax consequences from the disposal of the REY Shares may be affected by any double tax agreement between Australia and their country of residence. Foreign resident REY Shareholders should obtain specific tax advice.

11.5 Foreign resident capital gains withholding tax

If you are a foreign resident REY Shareholder, the amount you receive for the sale of your REY Shares under the Offer may be reduced as the Bidder may have the obligation to withhold an amount of foreign resident capital gains withholding (**FRCGW**) tax from the Offer Price and pay such amount to the ATO on your behalf. The current rate of the FRCGW tax is 15%.

The FRCGW will not apply if you sell your REY Shares on-market on the basis that there is an exclusion from withholding tax for disposals on the ASX.

If you dispose of your REY Shares off-market pursuant to this Offer, the FRCGW generally applies to the disposal of your REY Shares if:

- (a) your REY Shares constitute “indirect Australian real property interests” (see Section 11.4 for further information); and
- (b) any of the following apply:
- (i) the Bidder knows that you are a foreign resident for Australian tax purposes;
 - (ii) the Bidder reasonably believes that you are a foreign resident for Australian tax purposes;
 - (iii) the Bidder does not reasonably believe you are an Australian resident for Australian tax purposes and either:
 - (A) you have an address outside Australia (according to any record in the Bidder’s possession, or is kept or maintained on the Bidder’s behalf); or
 - (B) the Bidder is authorised to provide a financial benefit (e.g., the payment of the Offer Price) to a place outside Australia; or
 - (iv) you otherwise have a connection outside Australia of a kind specified in the tax regulations.

If the Bidder determines or reasonably believes that it has an obligation to deduct FRCGW tax, the Bidder will withhold the applicable FRCGW amount from the Offer Price payable to you and pay that amount to the ATO. You will only receive the net proceeds and will be taken to receive the full

Offer Price for the purposes of this Offer, such that the Bidder will be discharged of any liability to pay that amount of the Offer Price to you.

Depending on your specific circumstances, you may be entitled to apply to the ATO, before the disposal of your REY Shares, to vary and reduce the rate of the FRCGW tax that applies to you.

As at the date of this Target's Statement, the Target expects that the Principal Asset Test will be met in respect of the REY Shares. Accordingly, the Target expects that your REY Shares will be indirect Australian real property interests if you also satisfy the Non-Portfolio Interest test.

Notwithstanding the above, if you and your associates (as defined for tax purposes) sell an interest of 10% or more in REY as part of the Offer, or the Bidder otherwise determines that the FRCGW tax provisions may be enlivened in respect of you, the Bidder will use reasonable endeavours to contact you so that you have an opportunity to provide a declaration (that the Bidder has no reason to believe is false) to the effect that either:

- (a) You are an Australian resident for Australian tax purposes (**Australian Residency Declaration**); or
- (b) Your REY Shares are not Non-Portfolio Interests (see section 11.4 for further information) and/or are not indirect Australian real property interests (Non-Indirect Australian Real Property Interest Declaration).

This will require you to complete a 'Foreign resident capital gains withholding declaration – vendor declaration' form which is published by the ATO.

If you do not provide a completed Australian Residency Declaration or Non-Indirect Australian Real Property Interest Declaration to the Bidder before the Bidder acquires your REY Shares, the Bidder reserves the right to deduct any applicable FRCGW tax from the Offer Price payable to you.

If you are unsure about how the FRCGW tax applies to you or whether you are entitled to complete an Australian Residency Declaration or a Non-Indirect Australian Real Property Interest Declaration, you should seek independent tax advice.

Any FRCGW tax withheld from the Offer Price is not a final tax. You may be entitled to claim a credit in your Australian income tax return, for the relevant income year, for any FRCGW tax withheld and remitted by the Bidder in respect of the disposal of your REY Shares. To the extent the FRCGW tax exceeds your final Australian tax liability for the disposal of your REY Shares, you may be entitled to a refund of the difference.

11.6 **Stamp Duty**

Vigorous Resources will pay the stamp duty (if any) payable in Australia on the transfer of the REY Shares under the Offer.

11.7 **GST**

No GST in Australia will be payable on such transfers, except that GST may be payable on any fees or charges that a Broker, bank, custodian, or other nominee (in respect of REY Shares held for a separate beneficial owner) may charge in connection with acceptance of the Offer (see section 11.14 of the Bidder's Statement).

12 Other material information

12.1 Benefits and agreements

Except as set out below:

- (a) no Director has any interest in any contract entered into by them with Vigorous Resources;
- (b) as a result of the Offer, no benefit (other than a benefit which may be given without shareholder approval under the Corporations Act) will or may be given to a person in connection with their retirement from a board or managerial position of the Company or a Related Body Corporate of the Company;
- (c) as a result of the Offer, no person will be given any benefit on transfer of the whole or any part of any undertaking or property currently owned by the Company; and
- (d) no Director has agreed to receive, or is entitled to receive, any benefit from Vigorous Resources which is conditional on, or is related to, the Offer, other than in his or her capacity as a holder of REY Shares.

12.2 Material contracts

To the extent any of REY's material contracts have a change in control provision that is triggered as a consequence of the Offer, REY will take all necessary steps to procure the consent of the relevant counterparty. However, the counterparty may seek to terminate or renegotiate the agreement on terms less favourable to REY or to exercise rights triggered by the change of control.

12.3 Material litigation

The Company is not aware of any litigation or disputes which it is involved in which are material in the context of the takeover Offer.

12.4 Independent expert's report

REY has not commissioned an independent expert report with this Target's Statement. REY is not required under section 650 of the Corporations Act to commission an independent expert's report in connection with the Offer. In deciding not to engage an independent expert to assess the merits of the Offer, the Directors considered a range of factors including:

- (a) the information in this Target's Statement, the Bidder's Statement and publicly available information is sufficient for Shareholders to determine whether or not to accept the Offer;
- (b) in the considerable experience of the Board the Offer was fair and reasonable for an illiquid ASX listed micro-cap stock, particularly at a time of global economic and market volatility and uncertainty;
- (c) the Company has been constantly engaged in assessing the need to raise funds, and has gained a reasonable and practical understanding of the value that investors are willing to pay for a REY Share;
- (d) the costs of obtaining an independent expert's report to assist in assessing the Offer were prohibitive, particularly when considering the size of the transaction and costs associated with the Offer; and
- (e) and the time to prepare the independent expert's report could potentially delay the completion of the offer.

Given these factors, the Directors decided not to engage an independent expert to assist them in assessing the Offer and have recommended that Shareholders accept the Offer in the absence of a Superior Proposal for the reasons set out in section 3 of the Target's Statement.

12.5 Liu Loan Agreement

REY and Ms Wanyan Liu (who, as stated previously, controls the Bidder) are parties to the Liu Loan Agreement. Under this agreement, the loan amount is \$25,000,000, the maturity date is 30 April 2026 and the interest rate is 12% per annum payable on the maturity date.

Under the Liu Loan Agreement, Ms Wanyan Liu is owed an outstanding amount of \$22,264,758.36 (inclusive of outstanding interest accrued up to 7 July 2025).

By way of background, the Liu Loan Agreement had previously undergone a loan consolidation in 2021 and several amendments by deed since, as summarised below:

- (a) On 30 April 2021, Ms Wanyan Liu and REY entered into an agreement to consolidate the following three loans:
- (i) a loan agreement entered into on 27 June 2017 for the lending of \$500,000 and with an amended maturity date extended to 31 October 2022;
 - (ii) a loan agreement entered into on 12 April 2019 for \$3,000,000 which was amended and increased to \$5,000,000 with a maturity date extended to 31 October 2021; and
 - (iii) a loan agreement entered into 17 July 2019 for \$3,000,000 with a maturity date of 31 December 2021,

In addition, under this consolidated loan agreement, Ms Wanyan Liu lent an additional advance of \$4,000,000 bringing the total amount advanced under this consolidated loan agreement to \$12,500,000. There was an interest rate of 12% per annum payable quarterly and a maturity date of 31 October 2022. This consolidated loan agreement superseded the previous loan agreements which have no further force and effect.

- (b) The consolidated loan agreement described in paragraph 12.5(a) above has been subject to the following amendments by deed:
- (i) the first amendment on 22 June 2022 to increase the loan amount to \$17,000,000 and extend the maturity date to 31 October 2023;
 - (ii) the second amendment on 30 May 2023 to increase the loan amount to \$20,000,000 and extend the maturity date to 31 October 2024;
 - (iii) the third amendment on 17 June 2024 to increase the loan amount to \$25,000,000 and extend the maturity date to 30 April 2026; and
 - (iv) the fourth amendment on 17 June 2025 to amend the interest payment date from a quarterly basis to payable on the maturity date,

Please refer to section 8.2(a)(iii) of this Target's Statement for an outline of the risks relating to the Liu Loan Agreement in light of the Company's low cash balance. The Liu Loan Agreement does not refer to any events of default. In the absence of express grounds for accelerating the loan, such as concepts similar to events of default, REY Shareholders should recognise that circumstances may arise where Ms Wanyan Liu may demand an earlier repayment (whether because of implied terms or other legal considerations).

12.6 Disposal of Gulliver Productions Pty Ltd

REY disposed its wholly owned, Gulliver Products Pty Ltd (**Gulliver**) to China Guoxin Investment Holdings Co., Limited (**Guoxin**) for a total consideration of \$400,000, under a binding cooperation framework agreement announced on 1 August 2024 (the **Gulliver Disposal**).

REY has confirmed that 100% of its interest in the Gulliver Tenure was transferred to Guoxin via the sale of all issued shares in Gulliver. REY further advises that:

- (a) REY has provided limited transitional support at no cost following completion of the Gulliver Disposal;

- (b) REY is no longer the operator of the Gulliver Tenure;
- (c) Guoxin has assumed full operational responsibility for the Gulliver Tenure;
- (d) REY has not been engaged by Guoxin to act as operator;
- (e) REY is not responsible for any care, maintenance, or clean-up obligations in respect of the Gulliver Tenure; and
- (f) REY remains in compliance with the ASX Listing Rules, including ASX Listing Rule 3.1.
