**Chatree Gold Mine delivers another +20k ounce quarter in line with revised
FY25 Production Guidance**

Kingsgate Consolidated Limited ASX:KCN (“Kingsgate” or the “Company”) is pleased to advise that the Chatree Gold Mine produced **20,278 ounces** of gold during the June quarter, taking annual gold production to **74,661 ounces** for FY25, in line with revised full year guidance.

In addition, **166,807 ounces** of silver were produced during the June quarter, bringing total FY25 silver production to **625,698 ounces**.

Available cash-on-hand and bullion for the quarter totalled **A\$69M¹** representing an increase of more than **15%** from the March 2025 quarter.

Kingsgate’s Managing Director and CEO, Jamie Gibson, said: “June marked a strong finish to the financial year, with our second consecutive quarter of production exceeding 20,000 ounces. On behalf of the Board, I want to thank the Chatree team for their outstanding performance and contribution to this terrific FY25 result.”

Further details will be provided in the June 2025 Quarterly Report due for release later this month.
