

## CLEANSPACE PROVIDES SALES UPDATE FY25 (UNAUDITED)

### Highlights

- FY25 Revenue of \$19.7 million, +26% vs PCP
- Revenue by geographic segments:
  - Europe \$12 million, +18% vs PCP
  - North America \$3 million, +45% vs PCP
  - APAC and ROW \$4.7 million, +33% vs PCP

**15<sup>th</sup> July 2025.** CleanSpace Holdings Limited (ASX: CSX, “CleanSpace” or the “Company”), an Australian company that designs, manufactures, and sells premium respiratory protection solutions for industrial markets, is pleased to announce preliminary unaudited revenue results for the year ended 30 June 2025 (**FY25**). Group revenue of \$19.7 million grew 26% versus the prior corresponding period (**PCP**) and in H2FY25 grew 26%. This continues the Company’s strong sales performance established over the past two years.

CleanSpace’s focus on Industrial markets continues to bear fruit as it executes on its multi-year growth strategy in large global focus markets. The addition of new sales staff over the past 12 months in key markets is helping to drive underlying performance, and the Company continues to add new third-party distribution agreements in several priority markets.

CleanSpace continues to perform consistently well in Europe, with revenue +18% versus the PCP in FY25. Additionally, revenue growth continues to be strong in the APAC and ROW, with revenue +33%. Pleasingly, the Company has generated new sales growth in North America with revenue +45%, following the successful implementation of its industrial market strategy and the introduction of a new Regional Vice President and team in the United States. These results reflect the Company’s ongoing efforts to broaden its distribution footprint in key markets, stimulate demand for its products in leading end-user sectors, and to raise awareness of the CleanSpace brand through dedicated marketing programs and representation at major industry trade shows.

CleanSpace respirators are synonymous with innovation, and, to that end, the Company is currently developing new and exciting applications that broaden the appeal of its products with the potential to open significant new growth opportunities for the business.

CleanSpace CEO, Gabrielle O’Carroll, commented: “CleanSpace respirators continue to garner strong interest in all Global Regions with customers recognising the unique design characteristics and innovative technology of our products. As we head into FY26 we have a very clear strategy for delivering continued strong growth for our shareholders.”

The Company expects to announce detailed, audited full year FY25 results on 26 August 2025.
