

ASX Announcement

Azer-cel new data webinar

Sydney, Australia, 16 July 2025: Imugene Limited (ASX: IMU), a clinical-stage immunology company, is pleased to announce that it will hold a webinar presentation to update shareholders, investors and other interested parties on the latest data from its Phase 1b trial of azer-cel.

The webinar will be hosted by Executive Chairman Paul Hopper, CEO & Managing Director Leslie Chong, and Chief Medical Officer Dr John Byon.

The webinar will be held at 11am AEST on Thursday 17 July 2025.

Shareholders, investors and interested parties can register to attend the webinar at the following link: https://us02web.zoom.us/webinar/register/WN_zHtM-QGKRwOlbfkL8tf0EQ

Shareholders are encouraged to submit questions for the webinar in advance via email at: matt@nwrcommunications.com.au

A recording will be available at the above link shortly after the conclusion of the live session, and the replay will also be available via the Company's website and social media channels.

About Imugene (ASX:IMU)

Imugene is a clinical stage immuno-oncology company developing a range of new and novel immunotherapies that seek to activate the immune system of cancer patients to treat and eradicate tumours. Our unique platform technologies seek to harness the body's immune system against tumours, potentially achieving a similar or greater effect than synthetically manufactured monoclonal antibody and other immunotherapies.

Our pipeline includes an off-the-shelf (allogeneic) cell therapy CAR T drug azer-cel (azercabtagene zapreleucel) which targets CD19 to treat blood cancers. Our pipeline also includes oncolytic virotherapy (CF33) aimed at treating a variety of cancers in combination with standard of care drugs and emerging immunotherapies such as CAR T's for solid tumours and B-cell vaccine candidates. We are supported by a leading team of international cancer experts with extensive experience in developing novel cancer therapies that are currently marketed globally.

Our vision is to help transform and improve the treatment of cancer and the lives of the millions of patients who need effective treatments. This vision is backed by a growing body of clinical evidence and peer-reviewed research. Together with leading specialists and medical professionals, we believe Imugene's immuno-oncology therapies will become foundation treatments for cancer. Our goal is to ensure that Imugene and its shareholders are at the forefront of this rapidly growing global market.

Release authorised by the Managing Director and Chief Executive Officer Imugene Limited.
