Non-Executive Director, Eddie King: “The new board is determined to restore the Company to clear strategic focus, financial discipline, and fidelity to shareholders’ interests. We will continue our full review of recent activities and will determine further steps to be taken in due course. The Board is committed to achieving a renewal of M3M to deliver value for our shareholders.”

Edjudina Gold Project

The Edjudina Project is located approximately 150km northeast of Kalgoorlie in Western Australia. It covers a section of the established mineralised trend along the Keith-Kilkenny Tectonic Zone which hosts multiple significant gold discoveries (see Figure 1). No large-scale mining has occurred within the tenement area, however, historical near surface workings can be observed throughout the region, particularly within and along strike of the previous mines in the Yilgarni Mining Field. The Company’s tenements (both granted and under application) are proximal to Northern Star’s operations at both the Porphyry and Carosue Dam operations (see Figure 1).

Victoria Bore Copper Project

The Victoria Bore Copper Project is centred on the historic Victoria Copper Mine which produced high grade copper averaging circa 32.7% Cu for 62.5t of copper from near surface in the 1950's. The Victoria Bore Project is located approximately 120km south of the town of Onslow and 130km southeast of Exmouth in Western Australia. The tenements lie adjacent to the Northwest Coastal Highway and are readily accessible (see Figure 2).

Recent Activities

During the quarter, the M3 team completed follow-up work on the widespread soil sampling program that was completed last year. Field activities were undertaken to follow up on priority base metals, gold, and REE targets identified from the recent survey.

Additional mapping and sampling was completed in the vicinity of a previously undocumented base metals occurrence, providing important geological context to the mineralisation. A new area of interest was also identified, characterised by extensive ground disturbance, likely the result of historical prospecting activities targeting gold.

Samples collected during the program, 33 rock chips and 133 soil samples, have been submitted for assay, with results pending.

Corporate

During the quarter, the Company advised the market of changes to its Board of Directors, following the receipt of a shareholder meeting requisition under Section 249D of the Corporations Act 2001 (Cth). Prior to the scheduled 249D meeting, the requisitioning parties withdrew their requisitions and the meeting was cancelled. Mr Simon Eley and Mr Dermot O’Keeffe resigned from the Board, with immediate effect. Following these resignations, the Company appointed Mr Alan Armstrong and Mr Tyler Formica as Non-Executive Directors. Mr Eddie King will assume the executive duty until a replacement is found.

Prior to the resignation of the previous directors, the Company entered into an agreement to sell its wholly-owned subsidiary, M3 Energy Pty Ltd (M3 Energy) to private UK-based company, Jerboa Energy Ltd (Jerboa), on the basis that Jerboa will take over all associated ongoing funding obligations.

Under the terms of the agreement, Jerboa will pay the Company:

- \$10,000 on the business day after execution of the agreement, with these funds now received; and
- \$140,000 upon the hydrocarbon permit being granted to M3 Energy.

In addition, for a period of 24 months, Jerboa will grant the Company a right to participate in any future capital raisings undertaken by M3 Energy or Jerboa on terms no less favourable than those offered to other participants in relation to not less than 5% of the total funding amount.

Financial

Cash held as of 30 June 2025 was approximately \$0.84m.

For the purpose of Section 6 of the Appendix 5B, all payments made to related parties have been paid in relation to director fees.

-END-

This announcement has been authorised for issue by the Board of M3 Mining Limited in accordance with ASX Listing Rule 15.5.

About M3 Mining

M3 Mining Limited (ASX:M3M) is a Perth-based mineral exploration company focused on creating value for shareholders through exploration and development of a high-quality base metal and gold exploration portfolio. M3 Mining's projects are strategically located in regions surrounded by majors and has experienced minimal modern, systematic exploration across both projects. The Company's strategy is to apply a systematic approach to the assessment and prioritisation of its projects, all of which have the potential to produce material discoveries.

8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer:</p> <p>No – Significant expenditure was incurred during the quarter in relation to the requisitioned General Meeting that did not eventuate, following the resignation of the relevant directors. As outlined in the ASX Announcement dated 2 June 2025, the focus of the new Board is to ensure operational transparency and financial discipline and as such, the expected outflows will be greatly reduced in subsequent quarters.</p>

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The new Board has not currently taken any steps to raise further cash, as the initial focus has been on strengthening internal controls, risk management and cutting existing expenditure to establish a reasonable baseline to fund its operations. Further funding will be required in future quarters and the new Board has a demonstrated track record of raising sufficient capital as required.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes – for the reasons as outlined in 8.8.1 & 8.8.2 above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
