

Genesis Resources Limited

Quarterly Activities Report – June 2025

HIGHLIGHTS

Field work continues at Plavica, collecting data for the completion of Environmental Studies for the Mining Application approval.

Genesis is also preparing for follow-up drilling on their Alice Springs (2023 drilling included 5m @ 1.02% Cu & 0.26 g/t Au) and Arltunga Tenements (2023 drilling included 6m @ 3.03 g/t Au from 30m) in the Northern Territory. This work is planned for early in the September Quarter 2025, currently awaiting ground clearance from the Central Lands Council (CLC).

EXPLORATION & DEVELOPMENT PROGRESS DURING THE QUARTER

REPUBLIC OF NORTH MACEDONIA

PLAVICA HIGH SULPHIDATION EPITHERMAL GOLD-COPPER-SILVER PROJECT (*Figure 1*)

The completed Mining Project was submitted to the Ministry of Economy in the Government of North Macedonia on 23 March 2021. It has subsequently passed the assessment by the Audit and Revision Committee appointed by the Ministry of Economy on 31 May 2021. The completion and reporting of the ongoing environmental studies is the last required submission for the Application of Mining Approval.

The Plavica Gold-Copper-Silver Project in the Republic of North Macedonia is administered through the JV Company Silgen, which was 62% owned by Genesis and 38% owned by the nominee of Genesis' North Macedonian-based joint venture partner, RIK Sileks Ad Kratovo (Sileks). Ownership of all assets in the Plavica tenement are held by the JV Company.

As announced to the ASX on the 26 June 2024, in accordance with the terms of the joint venture agreement between Genesis and Sileks (JV Agreement), Genesis has acquired the balance (38%) of the shares in the JV Company from Sileks, and is now the sole owner (100%) of the shares in Silgen.

Genesis acquired the shares from Sileks in exchange for a mineral royalty of 4% of all future 'products' (metals, ores, previous stones, concentrates, minerals and mineral resources extracted or produced from the Plavica Project concessions), if any are extracted or produced, in the condition in which the products leave the concessions (such as in concentrate, ore form or metal).

Following the transfer of the Balance Shares to Genesis, the JV Agreement has been terminated. As a result, Sileks no longer holds a security interest in Genesis' shares in Silgen.

Baseline environmental monitoring continued during the quarter as well as tree planting, co-ordinated with a local university and a government - owned forestry company.

About Genesis Resources Limited

Genesis Resources Limited is an Australian company with a portfolio of quality gold, iron, manganese, uranium and base metal (copper-zinc-silver) in the highly prospective Proterozoic and Phanerozoic metallogenic provinces of northern and central Australia. Genesis has signed a Joint Venture over an advanced copper-gold project (Plavica) within the Former Yugoslav Republic of Macedonia. The Plavica Project lies within Carpathian Volcanic Arc, a major epithermal province running through Eastern Europe, which is highly prospective for gold, copper and silver mineralisation. Genesis' projects are close to established infrastructure including railways, shipping ports, highways, power stations and populated areas. The Company's objective is to provide rapid capital growth through mineral discoveries and development of economic deposits in Australia and overseas.
