Management estimates that normalised SaaS revenue and Gross margin for the quarter would have been \$1.36m and 75.6% respectively.

**8common CEO, Andrew Bond said** "Over the last nine months, we've executed significant upgrades across infrastructure, billing, and technology — driving meaningful margin and cashflow improvements. Encouragingly, we're now seeing renewed business momentum post-election, demonstrated by our new client win with AIMS.

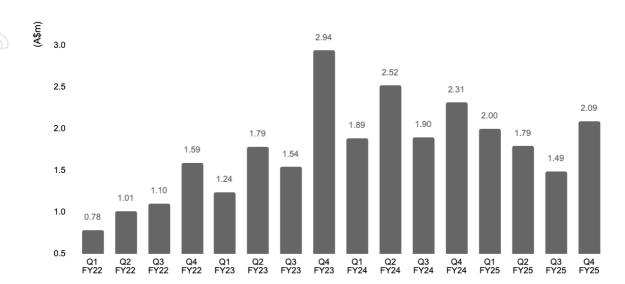

Aside from the one-off April SaaS revenue which added \$220k of revenue, Q4FY25 is a good representation of the efforts which have led to stronger margins. We are well positioned to benefit from new client wins with these foundations in place."
