Hot Chili Announces A\$14M Rights Issue to Support Completion of Strategic Partnering Process & Maiden La Verde Resource Estimate

Hot Chili Limited (ASX: HCH) (TSXV: HCH) (OTCQX: HHLKF) ("Hot Chili" or the "Company") is pleased to announce that the Company will be undertaking a A\$14 million funding, exclusively offered to all eligible shareholders.

The A\$14 million funding will be via non-renounceable entitlements offer of new shares on a 2 for 13 basis, at an issue price of A\$0.60 (60 cents) per share (the "Rights Issue" or "Entitlement Offer"). The Rights Issue provides an opportunity for all eligible shareholders to participate in the funding of the Company at a pivotal time, removing near-term funding uncertainty and providing a pathway to delivering several transformational catalysts over the coming months, including:

- **Completion of the Company's asset-level strategic partnering process**

As detailed in the Company's recent quarterly report for the period ending 30 June 2025 (released 29 July 2025), following completion of the Pre-feasibility Studies ("PFS") for Costa Fuego and Huasco Water, Hot Chili initiated asset-level strategic partnering processes ("Partnering Process") to introduce one or more qualified partners with the financial, technical and operational capability to assist in funding and delivering each project.

The Partnering Process is ongoing, and the Company confirms it is currently assessing several non-binding, indicative, incomplete and conditional proposals. The Partnering Process may result in a range of possible transactions for the projects. Investors are cautioned that there is no certainty the Partnering Process will result in a transaction or binding agreement. The Company will keep the market updated in accordance with its continuous disclosure obligations.

Hot Chili has appointed BMO Capital Markets as its financial adviser in connection with the Partnering Process.

- **Commencement of phase-two diamond drilling at the La Verde copper-gold discovery**

The La Verde copper-gold (Cu-Au) discovery ("La Verde") is located approximately 30km south of the Company's Costa Fuego Cu-Au Project ("Costa Fuego" or "the Project") planned central processing hub, at low elevation, in the coastal range of the Atacama region, Chile.

The Company concluded a phase-one drilling campaign across La Verde on 10 April 2025, with a total of 31 Reverse Circulation (RC) drill holes (9,600 m) completed to date. Drill results have defined an extensive +0.2% Cu mineralisation footprint of 1,000 m by 750 m extending up to 400 m vertical depth and remaining open laterally and at depth.

Importantly, multiple distinct higher-grade centres have been confirmed from near surface, with several stand-out drill results reported including 308m grading 0.5% Cu and 0.3g/t Au from 46m depth to end of hole, which included 100m grading 0.7% Cu, 0.3g/t Au from 118m depth (announced 18 December 2024). Over half of Hot Chili's drill holes have ended in significant mineralisation (at the depth of RC drill rig capability).

Planned diamond drilling is expected to facilitate a maiden mineral resource estimate for La Verde, providing near-term, material resource growth and potential front-end, open pit, higher grade mine life additions for Costa Fuego.

Hot Chili's Managing Director Christian Easterday said:

"Funding from the Rights Issue will facilitate another significant upgrade to the Company's copper and gold resource base at a time of strong market conditions for both commodities.

"A strengthened balance sheet will also provide the Company with the necessary funds to complete its strategic partnering process aimed at potentially unlocking asset-level funding for Costa Fuego and Huasco Water.

"We are very pleased to exclusively offer to all eligible shareholders, full exposure to both near-term, key catalysts which this funding will support."

The Entitlement Offer will be made pursuant to an offer document under section 708AA of the Corporations Act ("Offer Document").
