1. Overview of the Offer and options available to you

1.1 The Entitlement Offer

Under this Offer Document, the Company makes a pro-rata non-renounceable entitlement offer of 2 (two) fully paid ordinary shares (**New Shares**) for every 13 (thirteen) Shares held by eligible shareholders at 5:00pm (AWST) on Friday, 8 August 2025 (**Record Date**).

Details of the Entitlement Offer and how to apply are outlined in Sections 2 and 3.

1.2 Shortfall Facility

Any New Shares not applied for under the Entitlement Offer will form part of the Shortfall.

Eligible Shareholders who take up their Entitlements in full may also apply for additional New Shares comprising the Shortfall in the Shortfall Facility.

Details of the Shortfall Facility and how to apply are outlined in Sections 2 and 3.

New Shares in excess of Entitlements will only be allocated to Eligible Shareholders if and to the extent that the Company determines in its absolute discretion based on the Allocation Policy outlined in Section 2.6.

1.3 Options available to you

If you are an Eligible Shareholder, you may take one of the following actions:

- (a) take up all or part of your Entitlement – see Section 3.2;
- (b) take up all of your Entitlement and apply for additional New Shares under the Shortfall Facility – see Section 3.3;
- (c) take up part of your Entitlement and allow the balance to lapse – see Sections 3.2 and 3.4; or
- (d) do nothing, in which case your Entitlement will lapse and you will receive no value for the lapsed Entitlement – see Section 3.4.

If you are a Shareholder that is not an Eligible Shareholder, you are an '**Ineligible Shareholder**'. Ineligible Shareholders are not entitled to participate in the Entitlement Offer and should refer to Section 2.11 for further information.

1.4 No underwriting

The Entitlement Offer is not underwritten.

1.5 Rights of New Shares

The New Shares issued under the Entitlement Offer will be fully paid and rank equally with existing Shares on issue. The rights attaching to the New Shares are set out in the Company's constitution and are regulated by the Corporations Act, Listing Rules and general law. Further details of the rights attaching to Shares are set out in Section 6.

1.6 Purpose of the Entitlement Offer

The Entitlement Offer provides an opportunity for all Eligible Shareholders to participate in the funding of the Company at a pivotal time, removing near-term funding uncertainty and providing a pathway to delivering several transformational catalysts over the coming months, including:

- **Completion of the Company's asset-level strategic partnering process**

As detailed in the Company's recent quarterly report for the period ending 30 June 2025 (released 29 July 2025), following completion of the pre-feasibility studies (**PFS**) for Costa Fuego and Huasco Water, the Company has initiated asset-level strategic partnering processes (**Partnering Process**) to introduce one or more qualified partners with the financial, technical and operational capability to assist in funding and delivering each project.

The Partnering Process is ongoing, and the Company confirms it is currently assessing several non-binding, indicative, incomplete and conditional proposals. The Partnering Process may result in a range of possible transactions for the projects. Shareholders are cautioned that there is no certainty the Partnering Process will result in a transaction or binding agreement.

- **Commencement of phase-two diamond drilling at the La Verde copper-gold discovery**

The La Verde copper-gold (Cu-Au) discovery (**La Verde**) is located approximately 30km south of the Company's Costa Fuego Cu-Au Project (**Costa Fuego**) planned central processing hub, at low elevation, in the coastal range of the Atacama region, Chile.

The Company concluded a phase-one drilling campaign across La Verde on 10 April 2025, with a total of 31 reverse circulation (RC) drill holes (9,600 m) completed to date. Drill results have defined an extensive +0.2% Cu mineralisation footprint of 1,000 m by 750 m extending up to 400 m vertical depth and remaining open laterally and at depth.

Importantly, multiple distinct higher-grade centres have been confirmed from near surface, with several stand-out drill results reported including 308m grading 0.5% Cu and 0.3g/t Au from 46m depth to end of hole, which included 100m grading 0.7% Cu, 0.3g/t Au from 118m depth (announced 18 December 2024). Over half of Hot Chili's drill holes have ended in significant mineralisation (at the depth of RC drill rig capability).

Planned diamond drilling is expected to facilitate a maiden resource estimate for La Verde, providing near-term, material resource growth and potential front-end, open pit, higher grade mine life additions for Costa Fuego.

Further details

The information in this Section 1.6 is extracted from the Company's announcements to ASX, which are available on the ASX market announcements platform (<https://www.asx.com.au/markets/trade-our-cash-market/historical-announcements>) using the Company's ASX code 'HCH', or the Company's website (<https://www.hotchili.net.au/investors/market-announcements/>). The information in this announcement that relates to exploration results for the La Verde project was previously reported in the Company's announcements released to ASX on 18 December 2024 'Hot Chili Intersects Significant Copper-Gold, Porphyry-style Mineralisation at La Verde' and 19 May 2025 'Hot Chili Announces Latest Drill Results for La Verde, Doubling Porphyry Discovery Footprint', which are available to view on the Company's website at www.hotchili.net.au/investors/market-announcements/. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

2. The Offer

2.1 Entitlement Offer

Under the Entitlement Offer, Eligible Shareholders are invited to subscribe for 2 (two) New Shares for every 13 (thirteen) Shares held at the Record Date, at an issue price of \$0.60 per New Share, to raise up to approximately \$14 million before costs.

All New Shares issued pursuant to the Entitlement Offer will be issued as fully paid and will rank equally in all respects with the Existing Shares on issue. Further details of the rights attaching to Shares are set out in Section 6.

Eligible Shareholders may apply for New Shares but are not required to do so.

Please refer to Section 3 for details on how to accept the Offer and apply for New Shares under the Entitlement Offer.

2.2 Entitlement and eligibility

The Entitlement Offer is made to Eligible Shareholders only.

Eligible Shareholders are those holders of Shares who:

- (a) are registered as a holder of Shares on the Record Date;
- (b) have an address on the register in Australia or an Eligible Overseas Jurisdiction;
- (c) if in the United States of America or are acting for the account or benefit of a person in the United States of America to the extent such persons hold Shares for the account or benefit of persons in the United States of America, that person is an “institutional accredited investors” (within the meaning of Rule 501(a)(1), (2), (3), (7), (8), (9) and (12) under the US Securities Act of 1933) who has signed and returned a US investor certificate, together with an application form, that is available from the Company to confirm, amongst other things, that the US shareholder is an institutional accredited investor; and
- (d) are otherwise eligible under all applicable securities laws to receive an offer under the Entitlement Offer without any requirement for a prospectus or offer document to be lodged or registered.

All Shareholders with a registered address in Australia or an Eligible Overseas Jurisdiction and who are registered as the holder of Shares at 5:00pm (AWST) on Friday, 8 August 2025 (**Record Date**) are Eligible Shareholders. The Entitlement Offer is not extended to Shareholders who do not meet this criterion.

The number of New Shares to which Eligible Shareholders are entitled (i.e. their **Entitlement**) is shown on each Eligible Shareholder’s Entitlement and Acceptance Form accompanying this Offer Document. Where the determination of the Entitlement of any Eligible Shareholder results in a fraction of a New Share, such fraction will be rounded to the nearest whole New Share.

An Eligible Shareholder’s Entitlement to participate in the Entitlement Offer will lapse if not accepted by the Closing Date. Any New Shares not applied for will form part of the Shortfall.

The Company reserves the right (in its sole discretion) to:

- reject any application that it believes comes from a person who is not an Eligible Shareholder; and

- reduce the number of New Shares allocated to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if their claim to be entitled to participate in the Entitlement Offer proves to be false, exaggerated or unsubstantiated.

The Company reserves the right to withdraw the Entitlement Offer at any time before New Shares are issued pursuant to it. In that event, relevant Application Monies will be refunded without interest in accordance with the Corporations Act.

2.3 Non-Renounceable Entitlement Offer

The Entitlement Offer is non-renounceable. Accordingly, Entitlements will not be tradeable on ASX or otherwise transferable.

2.4 No minimum subscription

The Offer is not subject to any minimum subscription condition or requirement.

2.5 Shortfall Facility

Any New Shares not subscribed for under the Entitlement Offer will form the Shortfall and will be offered under the Shortfall Facility.

The Shortfall Offer is a separate offer under this Offer Document. The issue price of the New Shares under the Shortfall Offer is \$0.60 (i.e. the Offer Price).

The funds raised under the Shortfall Offer will be applied towards the same uses as the Entitlement Offer (see Section 4.1).

An Eligible Shareholder may apply for New Shares under the Shortfall Offer provided they are eligible under all applicable securities laws to receive an offer under the Shortfall Offer.

The Company cannot guarantee that Eligible Shareholders will receive the number of New Shares applied for under the Shortfall Facility. If an Eligible Shareholder does not receive any or all of the New Shares applied for under the Shortfall Facility, the excess Application Moneys will be returned without interest.

2.6 Allocation policy and scale back for Shortfall Facility

In the event that Acceptances for New Shares under the Shortfall Facility exceed the total amount of the Shortfall, the Directors will have absolute discretion as to how to allocate the Shortfall under the Shortfall Facility.

In exercising this discretion:

- the Directors propose to allocate the Shortfall in a manner considered appropriate to applicants having regard to the best interests of the Company and the Company's desire to maximise the funds raised from the Offer;
- subject to the above, the Directors will generally endeavour to allocate the Shortfall in a manner which is considered fair to those applicants, having regard to their existing shareholding interests;
- the Directors will not allocate any portion of the Shortfall to an applicant who is a 'related party' of the Company (for the purposes of the Listing Rules) in priority to, or to the exclusion of, any other applicant, and in any event only to the extent permitted by the Listing Rules;

- the Company will not allocate New Shares under the Shortfall Facility to the extent that the voting power in the Company of the applicant and their Associates (if known) exceeds the takeover thresholds in the Corporations Act (i.e., acquiring voting power of 20% or more in the Company, or increasing an existing controlling voting power of more than 20%); and
- the Directors will not otherwise exercise their discretion regarding allocation of the Shortfall in a manner likely to exacerbate a potential unacceptable control effect, except to the extent they consider necessary (acting reasonably) to prevent the issue of New Shares contrary to law or the Listing Rules.

The Company cannot guarantee that Eligible Shareholders who apply under the Shortfall Facility will receive the number of New Shares applied for. If an Eligible Shareholder does not receive any or all of the New Shares subscribed for, the excess Application Monies will be returned to them without interest.

2.7 Placement of remaining shortfall

If there is a further shortfall after completion of the Offer (including the Shortfall Facility), the Company reserves the right to place any further shortfall with any professional or sophisticated investors residing in Australia (**Shortfall Placement**) at the discretion of the Board for a period of up to 3 months following the close of the Offer.

New Shares issued under the Shortfall Placement will be issued at a price of \$0.60 per New Share.

2.8 Timetable for the Offer

The indicative timetable for the Offer is set out in the key dates section on page 2.

2.9 Nominees, custodians and trustees

Persons acting as nominees, trustees, or custodians for other persons must not take up any Entitlements on behalf of, or send any documents related to the Offer to, any person in any jurisdiction where it is unlawful to do so, or to any person that is acting for the account or benefit of a person in any jurisdiction where it is unlawful to do so. By applying for New Shares under this Offer Document, including by submitting an Entitlement and Acceptance Form or making a payment using BPAY® or EFT, a nominee, trustee or custodian represents and warrants this is the case.

The Company is not required to determine whether or not a registered holder or investor is acting as a nominee, trustee or custodian or the identity or residence of any beneficial holder of Shares.

Where any person is acting as a nominee, trustee or custodian for a foreign person, that person, in dealing with its beneficiary, will need to assess whether indirect participation in the Offer by the beneficiary complies with applicable laws.

2.10 Shareholders outside Australia

(a) General restrictions

Neither this Offer Document nor the Entitlement and Acceptance Form constitutes an offer or invitation in any place in which, or to any person to whom, it would not be lawful to make such an offer or invitation.

2.11 Ineligible Shareholders

The Offer is not made to Shareholders who on the Record Date have a registered address outside Australia or an Eligible Overseas Jurisdiction (i.e. Ineligible Shareholders).

In making the decision to not extend the Offer to Ineligible Shareholders, the Company has taken into account:

- the small number Shareholders outside Australia and the Eligible Overseas Jurisdictions;

- the cost of complying with the legal requirements and requirements of regulatory authorities in the overseas jurisdictions.

2.12 Taxation implications

3. Accepting the Offer and how to apply for your Entitlement

3.1 Options available to you

The number of New Shares to which each Eligible Shareholder is entitled is shown on the personalised Entitlement and Acceptance Form accompanying this Offer Document.

An Eligible Shareholder may do any of the following:

- (a) accept their Entitlement in full or in part – see Section 3.2;
- (b) accept their Entitlement in full and apply for additional New Shares under the Shortfall Facility – see Section 3.3;
- (c) accept part of their Entitlement and allow the balance to lapse – see Sections 3.2 and 3.4; or
- (d) do nothing and allow all of their Entitlement to lapse – see Section 3.4.

3.2 Accepting Entitlement in full or in part

To accept the Entitlement in full or in part, an Eligible Shareholder may either:

- make a payment through the BPay[®] facility for the number of New Shares that the Eligible Shareholder wishes to apply for in accordance with the instructions on the Entitlement and Acceptance Form – see Section 3.6; or
- make a payment by EFT for the number of New Shares that the Eligible Shareholder wishes to apply for in accordance with the instructions accompanying the Entitlement and Acceptance Form – see Section 3.7. EFT payment is only available to Eligible Shareholders in Eligible Overseas Jurisdictions who are unable to make a BPay[®] payment.

3.3 Accepting Entitlement in full and applying for additional New Shares under the Shortfall Facility

Eligible Shareholders who wish to accept their Entitlement in full and apply for New Shares under the Shortfall Facility may either:

- make a payment through the BPay[®] facility for all of their Entitlement and the number of additional New Shares that the Eligible Shareholder wishes to apply for in accordance with the instructions on the Entitlement and Acceptance Form – see Section 3.6; or
- make a payment by EFT for all of their Entitlement and the number of additional New Shares that the Eligible Shareholder wishes to apply for in accordance with the instructions accompanying the Entitlement and Acceptance Form – see Section 3.7. EFT payment is only available to Eligible Shareholders in Eligible Overseas Jurisdictions who are unable to make a BPay[®] payment.

The allocation and issue of New Shares under the Shortfall Facility will be determined by the Directors in their discretion. The allocation policy in relation to the Shortfall Facility is set out in Section 2.5.

3.4 Allowing Entitlement to lapse

Eligible Shareholders who do not wish to accept any of their Entitlement are not required to take any action.

If an Eligible Shareholder does not accept all of their Entitlement, then:

- the balance of their Entitlement will lapse and the New Shares that are not subscribed for will form part of the Shortfall; and
- their percentage shareholding in the Company will be diluted and reduce.

3.5 Payment

Payment should be made using BPAY® (see Section 3.6).

If you are based in an Eligible Overseas Jurisdiction and unable to pay using BPAY®, payments can be made by Electronic Funds Transfer (EFT) (see Section 3.7).

Cash, cheques, bank drafts and money order payments will not be accepted. Receipts for payments will not be issued.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement. If your payment will pay for more than your full Entitlement, the Company will treat you as applying for your full Entitlement and in respect of any excess amount, applying for as many additional New Shares under the Shortfall Facility as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

If you have multiple holdings and consequently receive more than one personalised Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the CRN specific to that holding. If you do not use the correct CRN specific to that holding your application will not be recognised as valid.

3.6 Payment by BPay®

Eligible Shareholders who wish to accept their Entitlement, or accept their Entitlement in full and apply for New Shares under the Shortfall Facility, using BPay® should follow the instructions on the Entitlement and Acceptance Form which includes including the 'Biller Code' and the Eligible Shareholder's individual 'Customer Reference Number'. Eligible Shareholders can access their personalised Entitlement and Acceptance Form containing BPay® payment instructions online at www.computersharecas.com.au/hchoffer.

Eligible Shareholders can only make payment using BPay® if they have an account with an Australian financial institution that supports such transactions.

Eligible Shareholders must ensure to use the specific 'Biller Code' and 'Customer Reference Number' on their individual Entitlement and Acceptance Form. An application may not be accepted if these details are incorrect. The 'Customer Reference Number' is used to identify each Eligible Shareholder's holding.

Eligible Shareholders with more than one holding of Shares may receive multiple 'Customer Reference Numbers'. Such Eligible Shareholders can apply under one or more of their holdings.

Payments must be made in Australian dollars for an amount equal to the number of New Shares for which the Eligible Shareholder wishes to apply, multiplied by the Offer Price (i.e. \$0.60 per New Share).

If BPay® is used, an Entitlement and Acceptance Form **does not** need to be submitted to the Company. However, by paying Application Monies, the Eligible Shareholder will be taken to have made the declarations on the Entitlement and Acceptance Form. If payment is not received for the full Entitlement, an Eligible Shareholder will be deemed to have taken up their Entitlement in respect of such whole number of New Shares that is covered by their Application Monies.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement. If your payment will pay for more than your full Entitlement, the Company will treat you as applying for your full Entitlement and in respect of any excess amount, applying for as many additional New Shares under the Shortfall Facility as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

BPay® payments of Application Monies must be received before **5:00pm (AWST) on the Closing Date**.

Eligible Shareholders should take into account, when making an application for New Shares, that their individual financial institutions may implement earlier cut-off times for BPay® payments. It is an Eligible Shareholder's responsibility to ensure that the Application Monies are received before the Closing Date.

3.7 Payment by Electronic Funds Transfer (EFT)

Payment by electronic funds transfer (EFT) should be made according to the instructions accompanying the Entitlement and Acceptance Form using the unique payment reference number shown on the form. Eligible Shareholders in Eligible Overseas Jurisdictions can access electronic funds transfer payment instructions from www.investorcentre.com/au by using the 'Single holding' login option, selecting 'Documents' and downloading the document titled 'Entitlement Acceptances'.

The reference number shown on each Entitlement and Acceptance Form (**Reference Number**) is used to identify your holding. If you have multiple holdings you will have multiple Reference Numbers. You must use the Reference Number to pay for each holding separately. Failure to do so may result in an underpayment. If you pay by EFT and do not pay for your full Entitlement, the remaining Entitlement will form part of the Shortfall.

Payments must be made in Australian dollars for an amount equal to the number of New Shares for which the Eligible Shareholder wishes to apply, multiplied by the Offer Price (i.e. \$0.60 per New Share).

If EFT is used, an Entitlement and Acceptance Form **does not** need to be submitted to the Company. However, by paying Application Monies, the Eligible Shareholder will be taken to have made the declarations on the Entitlement and Acceptance Form. If payment is not received for the full Entitlement, an Eligible Shareholder will be deemed to have taken up their Entitlement in respect of such whole number of New Shares that is covered by their Application Monies.

The Company will treat you as applying for as many New Shares as your payment will pay for in full up to your Entitlement. If your payment will pay for more than your full Entitlement, the Company will treat you as applying for your full Entitlement and in respect of any excess amount, applying for as many additional New Shares under the Shortfall Facility as it will pay for in full.

Any Application Monies received for more than your final allocation of New Shares will be refunded as soon as practicable after the close of the Entitlement Offer. No interest will be paid to applicants on any Application Monies received or refunded.

EFT payments of Application Monies must be received before **5:00pm (AWST) on the Closing Date**.

3.8 Entitlement and Acceptance Form is binding

A payment made through BPAY® or by EFT constitutes a binding offer to acquire New Shares on the terms and conditions set out in this Offer Document and, once paid, cannot be withdrawn. Instead, the Company will provide Eligible Shareholder with a Holding Statement (similar to a bank account statement) that sets out the number of Offer Securities allotted to them under this Offer Document.

This statement also advises Shareholders of either their Holder Identification Number (**HIN**) in the case of a holding on the CHESS sub-register or Security Holder Reference Number (**SRN**) in the case of a holding on the issuer sponsored sub-register.

A statement will be routinely sent to holders at the end of any calendar month during which their holding changes. A holder may request a statement at any other time. However, a charge may be incurred for additional statements.

3.13 Privacy

If you apply for New Shares you will be providing personal information to the Company and the Share Registry. The Company and the Share Registry collect, hold and use your personal information in order to assess your application, service your needs as an investor, provide facilities and services that you request, carry out appropriate administration and to facilitate distribution payments and corporate communications to you as a Shareholder.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Share Registry.

Collection, maintenance and disclosure of certain personal information are governed by legislation including the Privacy Act (as amended), the Corporations Act and certain rules of ASX. 4.7 Effect on control

The potential effect that the Offer could have on the control of the Company, and the consequences of that effect, will depend upon a number of factors, including investor demand and Existing Shareholdings.

If all Eligible Shareholders subscribe for their Entitlements in full, each Eligible Shareholder's percentage shareholding should remain substantially the same as at the Record Date, save for adjustments as a result of Ineligible Shareholders not being able to subscribe under the Entitlement Offer. In such instance, the Offer should not have a material effect on control of the Company.

The Offer is not expected to have any material effect on control of the Company.

The Company has not appointed a sale nominee for Ineligible Shareholders under section 615 of the Corporations Act. Accordingly, Eligible Shareholders may not rely on the rights issue exception to the takeover restrictions set out in item 10 of section 611 of the Corporations Act in relation to the Entitlement Offer. Therefore, the Company will not issue New Shares under either Offer in circumstances where it is aware doing so will result in a person's voting power increasing above 20% or increasing an existing voting power of more than 20%.

4.8 Effect on interests of Existing Shareholders

The potential effect the Offer will have on each Shareholder's relevant interest in Shares and voting power in the Company is summarised as follows:

- If all Eligible Shareholders take up their Entitlement in full, each Eligible Shareholder's percentage interest in the total issued Shares will remain the same and not be diluted.
- In the more likely event that not all Eligible Shareholders subscribe for their full Entitlement and a Shortfall remains, Eligible Shareholders who do not subscribe for their full Entitlement under the Entitlement Offer and Ineligible Shareholders unable to participate in the Entitlement Offer will be diluted relative to those Shareholders who subscribe for some or all of their Entitlement. The extent of the dilution will depend on the degree to which Eligible Shareholders take up their Entitlement.
- Eligible Shareholders may apply for additional New Shares under the Shortfall Facility. However, as noted above, the Company will not issue New Shares under the Shortfall Facility to the extent it may result in the voting power of a person and their Associates exceeding 20%, or increasing an existing voting power of more than 20%.

The table below sets out the estimated maximum dilutive effect of the Offer on Existing Shareholders, assuming various subscription scenarios and that other Shares are not issued (including on the exercise of Options or vesting of Performance Rights) prior to the close of the Offer.

Scenario	New Shares issued to Eligible Shareholders	Maximum Shortfall Shares issued	Dilution to Existing Shareholders as a result of Shortfall only ¹
100% subscription under Entitlement Offer	23,648,228	0	0.00%
75% subscription under Entitlement Offer	17,736,171	5,912,057	3.33%
50% subscription under Entitlement Offer	11,824,114	11,824,114	6.67%

Scenario	New Shares issued to Eligible Shareholders	Maximum Shortfall Shares issued	Dilution to Existing Shareholders as a result of Shortfall only ¹
25% subscription under Entitlement Offer	5,912,057	17,736,171	10.00%
0% subscription under Entitlement Offer	0	23,648,228	13.33%

Notes:

1. The dilution percentages assume that all Shortfall Shares are issued to investors other than Eligible Shareholders.
2. Calculations are based on 153,713,485 Shares on issue and assumes a maximum of 23,648,228 New Shares are issued.

4.9 Effect on financial position

The Company will raise up to approximately \$14 million from the Offer (before costs).

4.10 Effects of the Offer on activities

The issue of New Shares under the Offer will provide funds for the purposes set out in Section 4.1.

5. Risk factors**5.1 Introduction**

Activities in the Company and its subsidiaries (the **Group**), as in any business, are subject to risks, which may impact on the Company's future performance. The Group has implemented appropriate frameworks, strategies, actions, systems and safeguards for known risks, however, some are outside its control.

The Directors consider that the following summary, which is not exhaustive, represents some of the major risk factors which potential Applicants and Shareholders need to be aware in evaluating the Company's business and risks of increasing your investment in the Company.

5.2 Specific risks relating to the Company

The following risks have been identified as being key risks specific to an investment in the Company. These risks may adversely affect the Company's financial position, prospects and price of its quoted Securities

(a) Exploration

The success of the Company depends on the delineation of economically mineable reserves and resources, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and mining tenements and obtaining all consents and approvals necessary for the conduct of its exploration activities.

The actual costs of exploration may materially differ from those estimated by the Company. There cannot be any assurance that the cost estimates and the underlying assumptions used as a basis for those estimates will be realised in practice, which may materially and adversely affect the Company's viability.

For personal use only

(b) **Sovereign risks**

While Chile is considered to be one of South America's most politically stable and prosperous nations, it may nonetheless be subject to social and economic uncertainty. Civil and political unrest and outbreaks of hostilities in Chile could affect the Company's access to its projects and subsequent exploration and development.

Adverse changes in government policies or legislation in Chile affecting foreign ownership of mineral interests, taxation, profit repatriation, royalties, land access, labour relations, and mining and exploration activities may affect the operations of the Company.

(c) **Resource estimates**

Resource estimates are expressions of judgment based on knowledge, experience and industry practice. These estimates were appropriate when made but may change significantly when new information becomes available.

There are risks associated with such estimates. Resource estimates are necessarily imprecise and depend to some extent on interpretations, which may ultimately prove to be inaccurate and require adjustment. Adjustments to resource estimates could affect the Company's future plans and ultimately its financial performance and value.

(d) **Key personnel**

Recruiting and retaining qualified personnel is important to the Company's success. The number of persons skilled in the exploration and development of mining properties is limited and competition for such persons is strong. If such persons cease to be employed or otherwise engaged by the Company for whatever reason, the Company may be adversely affected.

(e) **Future capital requirements**

The Company will require further financing for its future business activities. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the current market price or may involve restrictive conditions which limit the Company's operations and business strategies.

There cannot be any assurance that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce, delay or suspend its operation and this could have a material adverse effect on the Company's activities and could affect the Company's ability to continue as a going concern.

(f) **Commodity price fluctuations**

In the event of exploration and development success, any future revenue derived through the future sale of copper, gold, silver and molybdenum exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include world demand for such commodities, forward selling by producers and the level of production costs. Moreover, prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates and global and regional demand for, and supply of, these commodities.

(g) **Market volatility**

The price at which the Shares may trade may be affected by market sentiment arising from factors including changes in interest rates and economic conditions and movements in the Australian and international financial markets.

(h) **Exchange rate fluctuations**

The expenditures of the Company are and will be taken into account in Australian, US and Chilean currencies, exposing the Company to the fluctuations and volatility of the rates of exchange between the US dollar, the Australian dollar and Chilean currencies as determined in international markets.

5.3 Industry specific risks

Mineral exploration, development and mining activities are high-risk undertakings and there can be no assurance that any exploration or development activity in regard to Hot Chili's current properties, or any properties that may be acquired in the future, will result in the discovery or exploitation of an economic resource.

Mineral exploration, development and mining may be hampered by circumstances beyond the control of Hot Chili and are speculative operations which by their nature are subject to a number of inherent risks, including the following

(a) **Ability to exploit successful discoveries**

It may not always be possible for the Company to exploit successful discoveries which may be made in areas in which the Company has an interest. Such exploitation would involve obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. Further, the decision to proceed to further exploitation may require participation of other companies whose interests and objectives may not be the same as those of the Company.

(b) **Mining and development risks**

Profitability depends on successful exploration and/or acquisition of reserves, design and construction of efficient processing facilities, competent operation and management and proficient financial management.

Mining and development operations can be hampered by force majeure circumstances, environmental considerations and cost overruns for unforeseen events.

(c) **Title risks**

The Company's interests in tenements in Chile are governed by legislation in that jurisdiction and are evidenced by the granting of mining concessions. Each mining concession is granted subject to conditions requiring compliance. Consequently, the Company could lose title to or its interest in tenements if the tenement conditions are not met.

(d) **Environmental risks**

The operations and activities of the Company in Chile are subject to its environmental laws and regulations. As with most exploration projects and mining operations, the Company's operations and activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. The Company attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(e) Joint venture parties, agents and contractors

There is a risk of financial failure or default by a participant in any joint venture to which the Company is or may become a party, or the insolvency or managerial failure by any of the contractors used by the Company in any of its activities or the insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

(f) Competition

The Company competes with other companies, including major mining companies in Australia and internationally. Some of these companies have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. There cannot be any assurance that the Company will be able to compete effectively with these companies.

5.4 General investment risks**(a) Securities market conditions**

As with all securities market investments, there are risks associated with an investment in the Company. Share prices may rise or fall and the price of Shares might trade below or above the price payable for Shares.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally, investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

(b) Liquidity risk

There cannot be any guarantee that there will continue to be an active market for Shares or that the price of Shares will increase. There may be relatively few buyers or sellers of securities on ASX and TSXV at any given time. This may affect the volatility of the market price of Shares. It may also affect the prevailing market price at which Shareholders are able to sell Shares held by them.

(c) Securities investment risk

Applicants should be aware that there are risks associated with any Securities investment. Securities quoted on a securities market, and in particular securities of mining and exploration companies, have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the Securities regardless of the Company's performance.

(d) Other risks

Other risk factors include those normally found in conducting business, including litigation resulting from the breach of agreements or in relation to employees (through personal injuries, industrial matters or otherwise) or any other cause, strikes, lockouts, loss of service of key management or operational personnel, pandemics, insurable and non-insurable risks, delay in resumption of activities following the occurrence of a risk and other matters that may interfere with the business or operations of the Company.

6. Rights attaching to New Shares

The New Shares issued under this Offer Document will be fully paid ordinary shares in the capital of the Company and will rank equally with the existing Shares.

Full details of the rights and liabilities attaching to the Shares are contained in the Constitution of the Company and, in certain circumstances, are regulated by the Corporations Act, the ASX Listing Rules and the common law. - (c) **Dividend rights:** Subject to the Corporations Act, the ASX Listing Rules and any rights of persons entitled to shares with special rights to dividends, all dividends as declared by the Directors are to be payable on all such shares in proportion to the amount of capital paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividends is paid, unless the share is issued on terms providing to the contrary.
- (d) **Payment of dividends:** Dividends are payable out of the assets of the Company in accordance with section 254T of the Corporations Act and as determined by the Directors, which shall be conclusive. The Directors may direct that payment of the dividend be made wholly or in part by the distribution of specific assets or other Securities of the Company.
- (e) **Rights on winding-up:** Subject to the Corporations Act, the ASX Listing Rules and any rights or restrictions attached to a class of Shares, the liquidator may on winding-up of the Company, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair upon any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.
- (f) **Transfer of Shares** Subject to the Constitution, Shares in the Company may be transferred by:
 - (i) a proper ASX Settlement transfer or any other method of transferring or dealing in shares introduced by the ASX or operated in accordance with the ASX Settlement Rules or the Listing Rules as recognised under the Corporations Act; ; or

- (g) **Refusal to transfer Shares:** The Directors may refuse to register a transfer of Shares (other than a proper ASX Settlement transfer) only where:
 - (i) the law permits it;
 - (ii) the law requires it; or

- (iii) the transfer is a transfer of restricted securities (as defined in Listing Rule 19.12) which is, or might be, in breach of the Listing Rules or any escrow agreement entered into by the Company in respect of those restricted securities
- (h) **Further increases in capital:** Subject to the Constitution, the Corporations Act and the ASX Listing Rules:
 - (i) Shares in the Company are under the control of the Directors, who may allot or dispose of all or any of the Shares to such persons, and on such terms, as the Directors determine; and
 - (ii) the Directors have the right to grant options to subscribe for Shares, to any person, for any consideration.
- (i) **Variation of rights attaching to shares:** The rights attaching to the shares of a class (unless otherwise provided by their terms of issue) may only be varied by a special resolution passed at a separate general meeting of the holders of those shares of that class, or in certain circumstances, with the written consent of the holders of at least seventy-five percent (75%) of the issued shares of that class.
- (j) **General meeting:** Each holder of Shares will be entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive notices, accounts and other documents required to be furnished to Shareholders under the Constitution, the Corporations Act and the ASX Listing Rules.
