The WAM Alternative Assets Limited (ASX: WMA) Board of Directors has declared an increased fully franked full year dividend of 5.7 cents per share, with the fully franked final dividend being 3.0 cents per share, an increase of 15.4% on the FY2024 fully franked final dividend. The fully franked full year dividend provides a fully franked dividend yield of 6.0%[^] and a grossed-up dividend yield of 8.6%[^] when including the value of franking credits.

The WAM Alternative Assets investment portfolio increased 5.3%^{*} in the financial year. As at 30 June 2025, approximately 19% of the investment portfolio remains invested in legacy assets, most of which are expected to be exited during FY2026.

WAM Alternative Assets Chair Michael Cottier said: "I would like to thank Portfolio Manager Nick Kelly and the investment team for their diligence in managing the investment portfolio in a dynamic environment. In the short time since his appointment in February 2025, Nick has demonstrated strong judgment and a disciplined approach to managing the WAM Alternative Assets investment portfolio. The revitalised investment portfolio, which is now fully committed, coupled with an improved outlook for the private markets to which the Company is exposed, has given the Board confidence to increase the fully franked final dividend."

Since Wilson Asset Management was appointed as Investment Manager, the investment portfolio has increased 8.9%^{*} per annum, supported by 15 investment exits achieved at a weighted average premium to NTA on exit of 33.6%[#]. The investment portfolio performance contributed to the Company's operating profit before tax of \$8.3 million and an operating profit after tax of \$6.2 million in its FY2025 results^{**}.

Portfolio Manager Nick Kelly said: "The revitalisation strategy is largely complete, and we are now entering a growth phase for the WAM Alternative Assets investment portfolio. We are beginning to see the results of operational improvements, earnings growth and revaluations across the investments made by Wilson Asset Management since its appointment as Investment Manager in October 2020.

"Enhancements made to the investment portfolio over the last six months have positioned the Company for sustainable growth. With a maturing portfolio of institutional grade private market investments and the added benefit of intraday liquidity through the LIC structure, WAM Alternative Assets offers shareholders a unique and differentiated investment opportunity," Mr Kelly said.

The Company has 2.4 years of dividend coverage[†], based on the profits reserve of 14.2 cents per share at 30 June 2025, before the payment of the fully franked final dividend of 3.0 cents per share payable on 31 October 2025. Since October 2020, WAM Alternative Assets has paid 19.9 cents per share in fully franked dividends to shareholders and 27.1 cents per share when including the value of franking credits. When calculating the yield on pre-tax NTA, the fully franked dividend yield is 5.1%[^], with a grossed-up dividend yield of 7.3%[^]. Currently, the franking account balance is able to frank the FY2025 final dividend and a portion of the FY2026 interim dividend, assuming the interim dividend is also 3.0 cents per share. If no additional franking is generated through the payment of tax on realised profits, there is a possibility of future dividends being partially franked.

^{*}Investment portfolio performance is at 30 June 2025 and is before expenses, fees and taxes.

[^]Based on the annualised FY2025 fully franked final dividend of 6.0 cents per share and 4 August 2025 share price of \$1.00 per share. Grossed-up dividend yield includes the value of franking credits and is based on a tax rate of 30.0%.

[#]Exit premium/(discount) to NTA is calculated in relation to the most recent semi-annual valuation prior to the exit of the investment.

^{**}The FY2025 profit figures are unaudited. Audited full year results will be announced to the market in August 2025.

WAM Alternative Assets investment portfolio performance

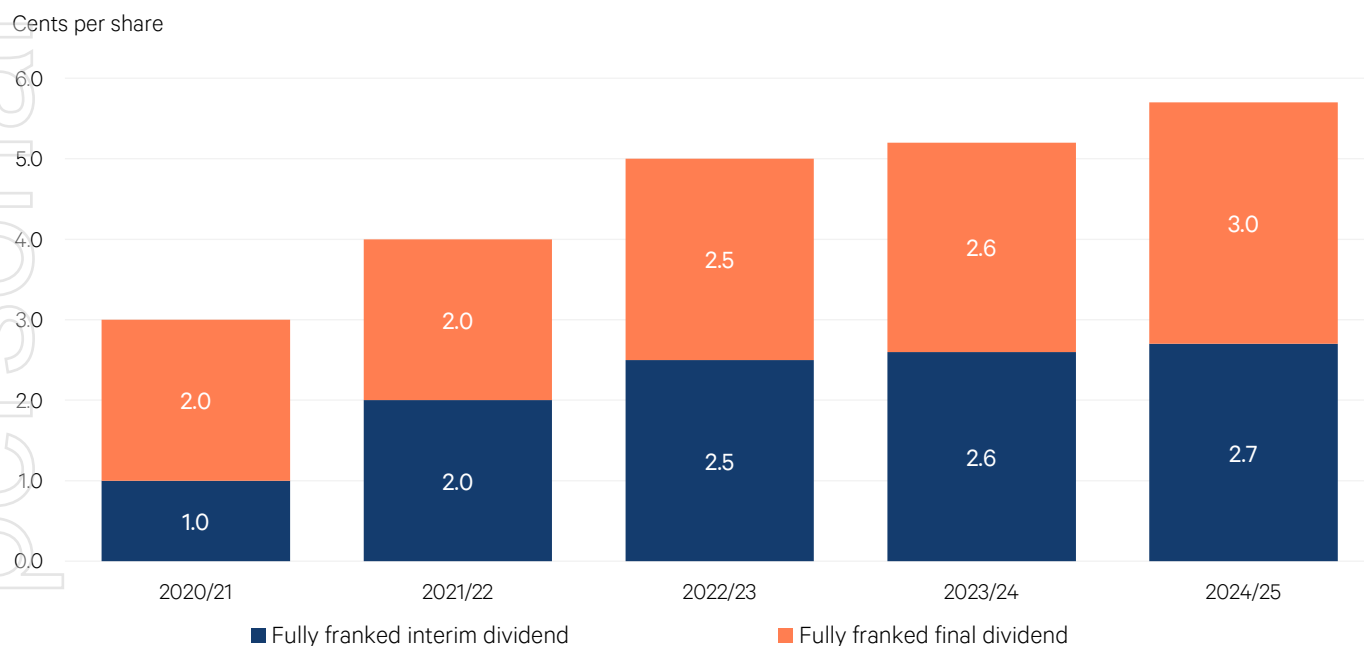

The WAM Alternative Assets investment portfolio has increased 5.3%* in the 2025 financial year and 8.9%* per annum since the appointment of Wilson Asset Management as Investment Manager in October 2020. Pleasingly, the investment portfolio performance has been achieved with significantly less volatility, as measured by standard deviation, than public markets. Standard deviation compares the dispersion of returns from its average. A lower standard deviation indicates more consistent returns with less risk. Since the appointment of Wilson Asset Management as Investment Manager, the investment portfolio performance has been achieved with a standard deviation of 3.1% per annum, compared to the S&P/ASX All Ordinaries Accumulation Index standard deviation of 13.0% per annum.

Last election date for DRP	24 October 2025
Payment date	31 October 2025

The dividend reinvestment plan (DRP) is in operation and the recommended fully franked final dividend of 3.0 cents per share qualifies. Participating shareholders will be entitled to be allotted the number of shares (rounded to the nearest whole number) which the cash dividend would purchase at the relevant issue price. The relevant issue price will be calculated as the volume weighted average market price (VWAP) of shares sold on the ASX over the four trading days commencing on the ex-dividend date for the relevant dividend. The DRP will operate without a discount for the fully franked final dividend.
